REVONOC "WARP END" HAMMOCKS.

REVONOC hammocks represent perfection in construction, design, color combinations and material. The weaving is done by experts and the unique and individual designs and color combinations are the work of artists thoroughly schooled along and experienced in these lines. The result is a line of hammocks that meets the popular taste in all its variations.

The scientific stringing arrangement is another decided improvement. The strings are so arranged as to be strongest and most numerous where the greatest strain is applied. Extra stringing cords are attached to the spreader ends, and the center cords are double.

On all REVONOC hammocks, with divided suspension, a special center pull is arranged for.

"No-not" hammock rings require no knots in the hanging. Simply pass the rope through the double eye and then through the loop thus formed.

Guaranty—REVONOC hammocks are covered with an absolute guarantee. The colors are fast, and each and every thread perfect.

Unless otherwise specified, the REVONOC hammocks on this page possess the following superior features of construction—first, reinforcing casting at spreader ends, patented, second, 3 extra supporting cords, third, concealed head spreader, fourth, large upholstered throw-back pillow, fifth, foot spreader with nickel capped ends, sixth, full valance, seventh, fancy tassel pillow trimmings, eighth, improved continuous center stringing, patented.

No. 2098 REVONOC—Open or gauze weave 3 ply hard-spun yarn, in strong colors effectively striped, size 34x84 in., no foot spreader, no valance, no pillow trimmings, no center stringing, round pillow, w't per doz. 40 lbs., per dozen .....**AJDE** $17.40

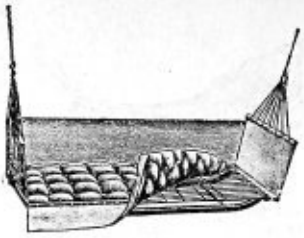
HAMMOCK COUCHES AND SUNDRIES.

HAMMOCK COUCHES

No. 44 REVERSIBLE—Depth 28 in., length 6 ft. 3 in., height of back and sides 19 in., frame is made of special extra strong 1¼ in. angle steel, painted black to make it absolutely rust proof, spring is a special, double fabric, galvanized and guaranteed to be non-rustable and non-breakable, 15 helican springs at each end, to which the special spring fabric is attached, ends and sides are made of special heavy army duck, and are bolted to the frame through a pine reinforcement at the bottom, a heavy piece of selected pine is sewed in at the top and around this the six extra strong ropes supporting the hammock are run, the very comfortable mattress is made of a special duck filled with cotton, absolutely clean, sweet and sanitary, diamond tufted and box edged, 39 tufts of a golden yellow, w't packed for shipment 53 lbs., each .....**JGEJ** $12.50

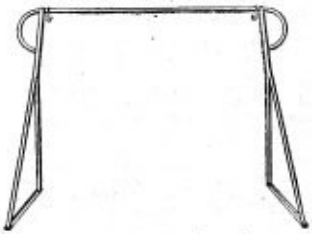


No. 45 REVERSIBLE—Special metal legs which can be folded and fastened underneath ad kept out of the way while used as a suspended couch, if at any time desirable to use the couch as a davenport or cot, the legs are simply dropped, otherwise same as No. 44 REVERSIBLE.....each **JHBE** $13.70

The REVERSIBLE *Hammock Couch is the strongest and most practical couch that can be made. The ends, the wind shield and mattress cover are all dyed together, thus insuring a perfect color match. The mattress has a six in. valance. The color of the duck is a beautiful golden tan.*

The back rest is attached to the end pieces by a special metal connection and is made of special selected 3 in. pine. This makes a back rest that will stand any strain that is put on it, and is practically unbreakable.

Each couch is packed carefully in burlap.



HAMMOCK COUCHES

No. 43—Depth 26 in., length 6 ft., gold bronze finish, steel drop frame, galvanized round wire spring, helical coil springs at one end, drill covered tufted mattress, 15 oz. standard duck ends, back support and wind shield, tan only, w't each 45 lbs., each **EGJ** $9.50

Each couch burlapped separately.

HAMMOCK STANDS.

No. 53—Steel Stand for hammock couches, 67 in. high, 77 in. long, made of 1¼ in. steel tubing top bar and uprights with angle steel spreaders, securely bolted, finished with a special green waterproofed varnish paint, steel hooks attached, easily folded, w't 49 lbs.....each **CIJ** $6.50

This stand is suitable for any couch hammock, swinging chair or settee. The stand folds compactly, very easy for shipping and handling, in a bundle 3 in. wide, 48 in. spread at bottom and 96 in. long.

No. 51—Without awning, hardwood frame, adjustable for diferent length hammocks, malleable hinge in center, legs riveted into castings, easily folded into small compass for storage, w't per doz. 600 lbs., per dozen★.....**DCBJ** $72.00

KALAMAZOO

Factory Kalamazoo, Mich.

No. 66—2 passenger, 8½ ft. high, 9 ft. spread, 19 in. seat, w't about 120 lbs., each★ .....JFCJ $10.50

No. 65—4 passenger, 9½ ft. high, 10 ft. spread, 30 in. seat, folding seat and adjustable back, w't about 180 lbs., each★ .....JIIE $16.60

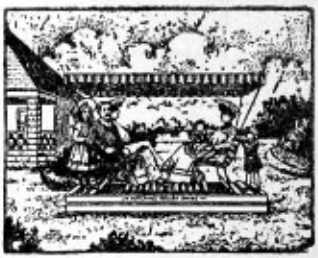
No. 67—4 passenger, 9½ ft. high, 10 ft. spread, 30 in. folding seat, adjustable back, 6x13 ft. awning with scalloped curtain drop, w't about 200 lbs., each★ .....AEJJ $25.00

The swing frame and seats are finished in natural wood, with two coats of varnish. Backs of seats are adjustable to different positions, seat and back strips have oval corners and round ends and are heavy enough to stand all strains placed upon them. The swing frame itself is hung with heavy steel hooks from special one-half inch joint bolts.

There is not one weak point or slighted part about them.

RED STAR.

No. 25—Galvanized steel, 4 passenger, 9 ft. high, 36 in. seat, with awning, w't packed for shipment 190 lbs., each .....AADJ $19.00



No. 20—Without awning, otherwise same as No. 25.....each AJBJ $17.00

The Red Star galvanized steel lawn swing is made of high carbon steel, and is thoroughly galvanized after all cutting and punching is done. The galvanizing protects it against rust and makes a finish that will last forever.

The frames of the seats and platform are angle steel, to which painted wood slats are fastened.

★*FOR FACTORY SHIPMENT ONLY.*

HUTCHINS.

Factory, Alton, Ill.

No. 70—Roller, w't 160 lbs., each★ .....AJBJ $17.00

Extras.

Canopies, w't 17 lbs.,★ each BCJ $3.80

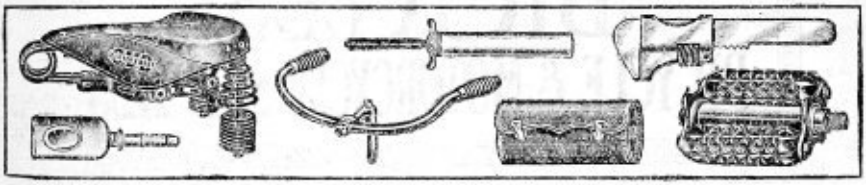
OPTIONS IN BICYCLE EQUIPMENT.

1915 BICYCLE ANNOUNCEMENT.



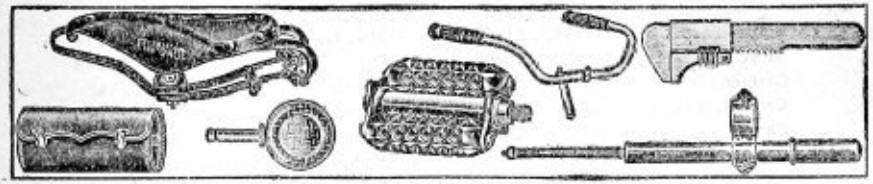
Discount DJ%.

We offer these options in equipment on the different models at additional charge over the regular standard equipment. See prices below.

Owing to the different ideas of our customers it is almost impossible to put out an equipment that is satisfactory to every dealer. In order, therefore, to assist you to satisfy your trade as far as possible, we have arranged special equipment which we offer in addition to the standard equipment at extra cost.

This is the same plan that we used in 1914 and which was very satisfactory. The plan is to assist you in getting better equipment on our less expensive models, where the regular equipment is not entirely satisfactory.

Enter on order the bicycle under its regular number, and special number of equipment desired with extra charge for same.



No. 1 [illegible].

No. 1 is the regular standard equipment used on our [illegible] bicycles. It will be furnished on the following bicycles at extra cost. See pages showing prices.

Handle Bars—No. 358.
Handle Bar Grips—No. 24.
Pedals—No. 0 Pirate.

Chicago	$0.50

HIBBARD BICYCLES.

Our OVB bicycle, like the balance of the articles bearing this trade mark, is constructed of the highest grade materials. Every detail of construction is carefully inspected before leaving the factory, and the various items that go to make up this wheel are selected with an idea as to quality and not price. At the same time we do not believe its equal can be found on the market at the price for which we offer this model. The details of construction and equipment are shown below, and if you have a "particular" trade, this model will answer all your requirements. It is thoroughly guaranteed.

DETAILS OF CONSTRUCTION.

Distance from Top of Saddle to Pedal at Lowest Point.

Frame—20 in., when seat post is lowered, 29 in., when seat post is raised, 34 in.

Frame—22 in., when seat post is lowered, 31 in., when seat post is raised, 36 in.

Frame—24 in., when seat post is lowered, 33 in., when seat post is raised, 38 in.

Frame—22 in. regular, option of 20 in. or 24 in., made of the finest 18 gauge seamless steel tubing, flush joints, fish-mouth reinforcements, which eliminate vibration and buckled joints, in addition to this reinforcement, the frame has heavy steel pins connecting all reinforcements, which make it absolutely unbreakable. Main tubes 1 in., head 1½ in., upper rear fork ⅝ in., oval pattern, rear lower fork ¼ in., slightly formed.

Fork—Entirely new construction with ribbed fork sides extending to fork crown. Fork crown is made of steel drop forging. Entire crown is handsomely nickel plated. The plating extends in a "V" shape to a point about two inches down the fork side where it is continued in a thin line to the tip. A beautiful and exclusive design.

Finish—Beautifully enameled in Imperial black with maroon hair line stripes. Rims and guards to match. This wheel undergoes five different coats of enamel, is hand polished and varnished, giving it a beautiful luster and lasting finish.

Crank Hanger—One piece fitted with Diamond pattern, 7 in. cranks, made from the highest quality of carbon steel. Guaranteed not to break or bend. The cones and cups used in this hanger are fitted so it is impossible for dirt to get in. It is unnecessary to have any oil holes as the bearings are packed in vaseline when assembled and will remain in good condition for a year or more. Can be easily taken apart and put together again.

Sprockets—Large style, 60 tooth front, 20 tooth rear, ½ in. pitch chain ⅛ in. wide.

Hubs—The famous New Departure Bell pattern, turned from a solid bar of steel, fitted with highest grade of cones and bearings.

Chains—High grade roller chain, ½ in. pitch, ⅛ in. blue finish.

Gear—84, 20 tooth rear and 60 tooth front sprocket.

Seat Post—⅞ in. forward L, with pinch bolt binder and 6 in. adjustment.

Coaster Brake—We furnish the well known New Departure in all models at additional cost. See prices below.

Tires—OVB, Studded Red Tread Thornproof Construction, single tube or Il-a-noy Clincher G. & J. type tires. These tires are thoroughly guaranteed. See prices below.

Rims—Straight grain maple, the most expensive maple lumber cut. Handsomely enameled and striped to match frame. Rims for the G. & J. tires are the same as our cement rims, except they are single clinch steel lined.

Mud Guards—Raised center, finished to match bicycle, with a leather flap on the front guard, at an additional cost. See prices below.

Handle Bars—Kelly adjustable No. 629, width 27½ in., when adjusted to 24 in. width there is a drop or raise of 6 in. Forward extension stem. Equipped with our No. 331 rubber grips.

Saddle—OVB suspension type No. 214, length 13 in., width 10 in. The easiest riding saddle manufactured.

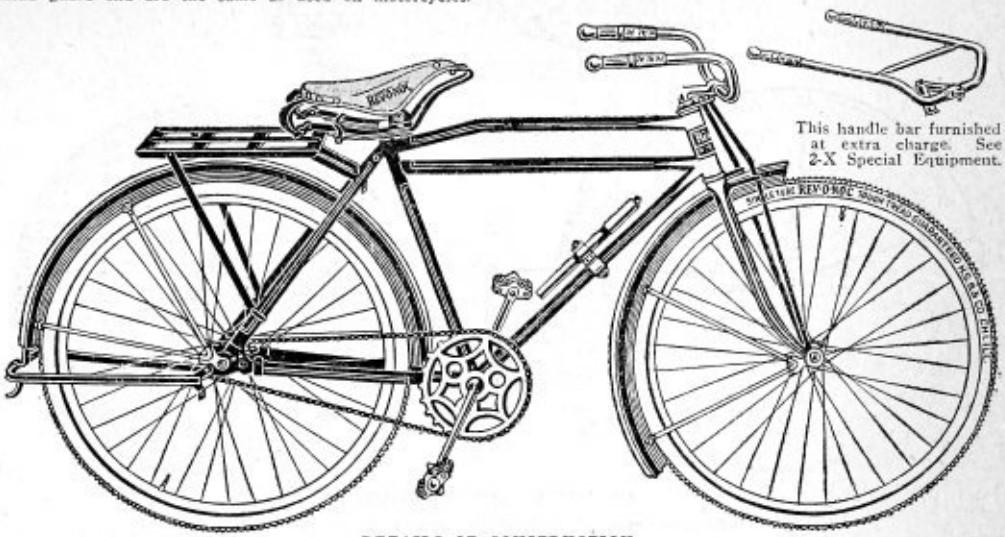
Pedals—Standard rubber No. 4 motorcycle style with divided rubbers.

No. 901—Equipped with saddle, handle bars, pedals, tool bag and tools and coaster brake, without tires, each **BFDJ** 44.00

No. 902—Equipped with saddle, handle bars, pedals, tool bag and tools, coaster brake and mud guards, without tires, each ..... **BGDE** $45.70

No. 921—Equipped with saddle, handle bars, pedals, tool bag and tools, OVB tires and coaster brake, each **CAHJ** 53.00

No. 922—Equipped with saddle, handle bars, pedals, tool bag and tools, OVB tires, coaster brake and mud guards, each ..... **CBHE** $54.70



No. 951—Equipped with saddle, handle bars, pedals, tool bag and tools, Il-a-noy G. & J. tires and coaster brake, each ..... **CCCJ** $55.50

No. 952—Equipped with saddle, handle bars, pedals, tool bag and tools, Il-a-noy G. & J. tires, coaster brake and mud guards ..... each **CDBJ** $57.20

WT PACKED FOR SHIPMENT 60 LBS.

REVONOC "MOTO-LIKE" TRUSS FRAME BICYCLES.

The model illustrated represents the latest construction in our REVONOC "Moto-like" bicycle. It is not built on ordinary bicycle lines but has been built of extra strong material throughout. There has been a very large demand, especially among the younger generation for a bicycle resembling a motorcycle, and this wheel is offered after painstaking experiments—there is nothing made that is superior. The fork crown used on this model is made from a drop forging—not made from a stamping—and is especially strong. The equipment has been selected with an idea of motorcycle appearance and is up to REVONOC quality in the smallest detail. The mud guards are also heavier than the usual mud guard and are the same as used on motorcycles.

This handle bar furnished at extra charge. See 2-X Special Equipment.

DETAILS OF CONSTRUCTION.

Distance from Top of Saddle to Pedal at Lowest Point.

Frame—20 in., when seat post is lowered 31 in., when seat post is raised 35½ in.
This wheel is made in one size only, 20 in. frame.

Frame—1 in. 18 gauge seamless steel tubing, strongly reinforced, all flush joints. Upper tube motorcycle style. Height 20 in. at seat post mast. Wheels 28 in.

Fork—Special truss design made from drop forging—not a stamping—and guaranteed to withstand hard usage. Handsomely enameled to match balance of wheel.

Crank Hangers—Drop forged, one piece 7 in. cranks.

Rims—Straight grain maple, the most expensive maple lumber cut. Brown with blue center, handsomely enameled and striped to match frame. Rims for the G. & J. tires are the same as our cement rims, except they are single clinch steel lined.

Chain—English twin roller, ⅜ in., 1 in. pitch.

Finish—Brown with blue sunburst head and truss fork, double blue stripes on frame and fork, richly enameled with four coats, hand rubbed, tastefully decorated.

Equipment—Equipped complete with New Departure coaster brake, No. 215 REVONOC suspension type, motorcycle style saddle with high grade top with new leaf springs made of chrome vanadium steel, size 11½x9½. Handle bars motorcycle style with motorcycle rubber grips, No. 42 rubber motorcycle pedals. Rear luggage carrier and motorcycle pattern bicycle stand. Frame pump, tool bag and tools. Motorcycle mud guards, especially made for this model—not a regular bicycle guard—fitted with new style braces. This model is furnished at prices noted below with either our REVONOC Studded Tread, II-a-noy G. & J. Clincher or Vacuum Cup clincher tires.

No. 9902—Fully equipped as above **without tires**	each	**BHEJ**	$47.50
No. 9922—Fully equipped as above with REVONOC studded tires	each	**GBHJ**	53.50
No. 9952—Fully equipped as above with II-a-noy G. & J. clincher tires	each	**CDBJ**	57.00
No. 9962—Fully equipped as above with vacuum cup G. & J. clincher tires	each	**CHDJ**	64.00
Extra charge for No. 2-X Special Equipment	each	**JIJ**	1.50
Extra charge for HRS No. 1 Equipment	each	**JIJ**	1.50

All of the "Moto-Like" Bicycles are equipped with New Departure coaster brakes and mud guards and cannot be furnished without them.

BICYCLE GUARANTY.

We agree with the purchaser of each "HRS Hibbard," "REVONOC," Cruso, or Chicago Bicycle to make good by repair or replacement any defects in material or workmanship, provided the defective part is delivered to us, transportation charges prepaid.

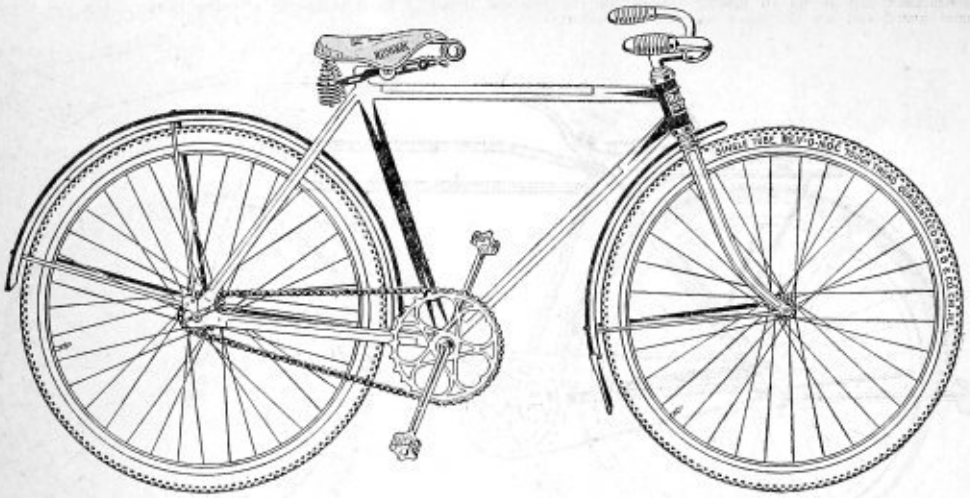
This guaranty does not cover cost of repairing bicycles damaged by accident, misuse, or neglect, and expires December thirty-first of the year in which the purchase is made.

In returning defective parts, do not fail to put your own name and address on the tag, and to write a letter giving full particulars. Failure to do this may be the cause of much unnecessary delay.

TIRE GUARANTY.

We guarantee HRS, REVONOC, Cruso, Chicago and II-a-noy Clincher tires to be perfect in workmanship and material, and if any defect should develop within the season on goods purchased from us, we will repair or replace without charge, provided they are returned to us charges prepaid.

Rim cut, punctured, or tires abused, misused or worn out in service will not be replaced.



This guaranty continues in effect to December 31st following date of purchase.

See that every package sent has your full address—name, town, street No. or county and state—securely fastened to it.

W'T PACKE FOR SHIPMENT 75 LBS.

MEN'S REVONOC BICYCLES.

Our REVONOC Bicycles are high grade wheels, and are second only to the Hibbard. The same guaranty of mechanical perfection, high grade equipment and construction is offered in our REVONOC models. It is a popular priced wheel, and is carried in two different colors, which will enable you to fill all the requirements of your trade. Our bicycle illustrations are made from photographs and are accurate in every detail.

DETAILS OF CONSTRUCTION.

Distance from Top of Saddle to Pedal at Lowest Point.

Frame—20 in., when seat post is lowered 29½ in., when seat post is raised 34½ in.

Frame—22 in., when seat post is lowered 31½ in., when seat post is raised 36½ in.

Frame—24 in., when seat post is lowered 33½ in., when seat post is raised 38½ in.

WT. PACKED FOR SHIPMENT 58 LBS.

LADIES' CRUSO BICYCLES.

The Ladies' Cruso is made of the same material and in the same careful manner as the Men's Cruso. The drop double truss frame is positively the correct construction for a lady's wheel. This construction insures rigidity and perfect alignment. A lady's wheel is a more difficult bicycle to manufacture than a man's because it requires very careful work to keep the wheels in line. The fork on the Ladies' Cruso is so built as to make it properly balance. Steel dress and mud guards for the protection of the rider.

DETAILS OF CONSTRUCTION.

Distance from Top of Saddle to Pedal at Lowest Point.

Frame—20 in., when seat post is lowered 26 in., when seat post is raised 31 in.

Frame—22 in., when seat post is lowered 28 in., when seat post is raised 33 in.

MEN'S CHICAGO BICYCLES.

Inasmuch as the Chicago is our least expensive bicycle, we have taken great pains to have it present a well balanced, up-to-date appearance. There is nothing cheap about the Chicago except the price. It is absolutely the most satisfactory bicycle ever sold at the price. Dealers will find that it will build up their bicycle business immensely.

DETAILS OF CONSTRUCTION.

Distance from Top of Saddle to Pedals at Lowest Point.

Frame—20 in., when seat post is lowered, 29 in., when seat post is raised, 34 in.

Frame—22 in., when seat post is lowered, 31 in., when seat post is raised, 36 in.

Frame—24 in., when seat post is lowered, 33 in., when seat post is raised, 38 in.

Frame—22 in. regular, option of 20 in. or 24 in., made of high grade 18 gauge steel tubing, flush joints, fish-mouth reinforcements, pinned throughout.

Fork—Oval pattern, drop forged nickel plated, reinforced sides.

Finish—Made in two finishes—**A**, Yellow with black sunburst head, one stripe on frame and fork, yellow rims with black center. **B**, Dark blue with red sunburst head, one stripe on frame and fork, blue rims with red centers. Kindly designate specifically which color is desired to save confusion.

Crank Hanger—One piece, round pattern, 7 in. crank.

Chain—$\frac{3}{8}$ in., 1 in. pitch, English roller chain.

Hubs—Turned, with selected steel bearings.

Gear—81, sprocket 9 tooth rear, 26 tooth front.

Seat Post—$\frac{7}{8}$ in. forward L, pinch bolt binder.

Handle Bars—No. 358, 21 in., with 6 in. rise, no forward bend, expander stem and wound leather grips.

Pedals—No. 0 Pirate Rat Trap.

Saddle—No. 25, with universal springs.

REVONOC JUVENILE BICYCLES.

There is no question but that a bicycle for the Juvenile trade must be stronger in proportion than one for an adult. The younger generation take more risks and subject their wheels to feats that an adult's judgment would not permit. Riding off sidewalks and over obstacles make it necessary to give this model our special consideration and we have built up our juvenile business owing to the fact that we believe nothing is too good for this class of riders. We have also made our juvenile models attractive in color, which appeals to the boy and girl, and the illustration shown herewith will convince you of the strong and handsome models we carry.

DETAILS OF CONSTRUCTION.

Distance from Top of Saddle to Pedal at Lowest Point.

Frame—16 in., when seat post is lowered 23 in., when seat post is raised 28 in.

Frame—16 in. equipped with 24 in. wheels, 18 in. equipped with 26 in. wheels, made of 19 gauge seamless tubing.

Fork—The most important detail of a Juvenile wheel is the fork, on account of the great strain that is given the front wheel. Fork crown made from a drop forging with semi-arch, nickel plated crown, ⅜ in. fork sides reinforced.

Finish—Black with blue sunburst head.

Rims—Black with blue center to match frame.

Crank Hanger—We use the one piece hanger made in the same manner as the balance of our crank hangers, with 5½ in. oval cranks. The balance of the equipment is made especially for us and designed on juvenile lines throughout.

Mud Guards—Finished in two colors to match frame. Supplied at slight additional cost—see prices below.

Frame—18 in., when seat post is lowered 25 in., when seat post is raised 30 in.

Tires—At slight additional cost, as per prices below, we will furnish the new REVONOC studded tread bicycle tires.

Saddle—No. 75 REVONOC suspension type.

Handle Bar—No. 758X adjustable Juvenile, with wound leather grips.

Pedals—No. 2J Standard.

Chain—$\frac{5}{16}$ in. B block pattern, blued sides, straw colored center.

Hubs—New type Bell pattern, finely finished and fitted with selected bearings.

Gear—59, sprocket 9 tooth rear, 20 tooth front.

Seat Post—⅞ in. pinch bolt binder.

Coaster Brake—We furnish at slight additional cost the well known New Departure coaster brake—see prices below.

We cannot deviate in any particular from the equipment on above bicycles.

W'T, PACKED FOR SHIPMENT, 39 LBS.

BICYCLE GUARANTY.

We agree with the purchaser of each "[illegible] Hibbard," "[illegible]," Cruso, or Chicago Bicycle to make good by repair or replacement any defects in material or workmanship, provided the defective part is delivered to us, transportation charges prepaid.

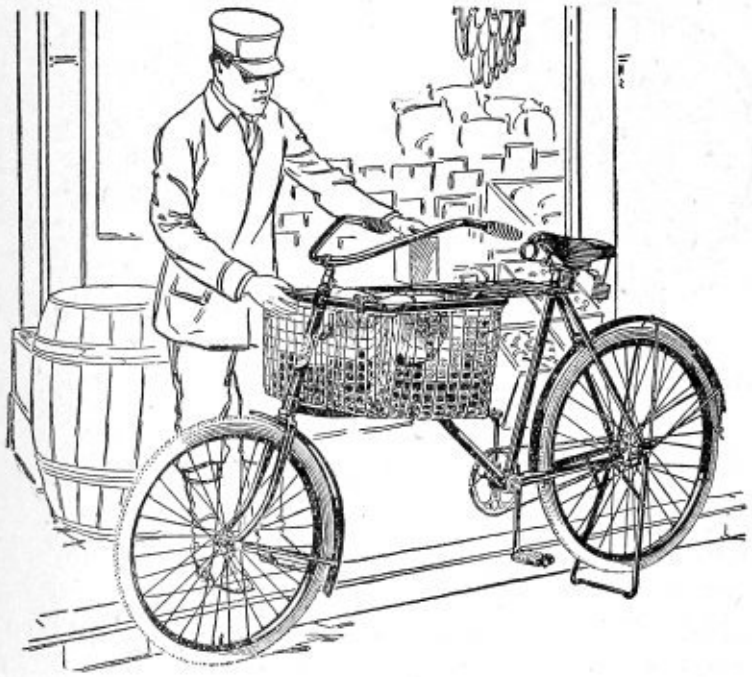
This guaranty does not cover cost of repairing bicycles damaged by accident, misuse, or neglect, and expires December thirty-first of the year in which the purchase is made.

In returning defective parts, do not fail to put your own name and address on the tag, and to write a letter giving full particulars. Failure to do this may be the cause of much unnecessary delay.

TIRE GUARANTY.

We guarantee [illegible], Cruso, Chicago and Il-a-noy Clincher tires to be perfect in workmanship and material, and if any defect should develop within the season on goods purchased from us, we will repair or replace without charge, provided they are returned to us charges prepaid.

Rim cut, punctured, or tires abused, misused or worn out in service will not be replaced.



This guaranty continues in effect to December 31st following date of purchase.

See that every package sent has your full address—name, town, street No. or county and state—**securely fastened to it.**

COMMERCIAL BICYCLES.

The Commercial Bicycle is designed and built to meet the delivery requirements of the up-to-date merchant, and is constructed to carry a load without interfering with the easy riding qualities. A large, strong carrier is placed low between the two wheels where it is easiest carried. In this position the load does not affect the balance of the bicycle, is evenly distributed and, not being attached to the handle bars, does not interfere with the steering.

The Commercial Bicycle is especially built for the purpose of giving a delivery service at a reasonably low cost. Can be operated by a boy. It also is an attractive advertisement for the dealers using same. It is adapted for all classes of merchants. **We can make no change in equipment whatever.**

Ready to ride, w't each 52 lbs..... each **DJEJ** $67.50

Frame—22 in. Main frame is made of 1 in., 1⅛ in. and 1¼ in. Shelby cold rolled seamless and Standard Welding Co.'s steel tubing, 18 and 20 gauge. STANDS, LUGGAGE AND BASKET CARRIERS.

EXHIBITION STANDS.

No. 697—Myers, frame is of aluminum, finished spring steel, 13 in. high, spread 16½ in., adjustable, well braced, strong, practical and durable, w't per doz. 48 lbs., per dozen **JGBE** $12.00

This stand is designed to assist the salesman in showing up his wheel. It is attached to nuts on outside of rear wheel. When the wheel is exhibited to a customer it can be placed to the best advantage, and leaves the salesman free to show up all working parts without being hampered by having to hold the wheel. It enables the customer to mount the wheel and try it.

No. 700—Majestic, aluminum finished spring steel frame, 17 in. high, 13 in. spread, strong, practical and durable, w't per doz. 48 lbs., per doz. $11.50 **JFIJ**

A strong, light and durable Floor Stand for bicycles. The axle nuts are held by steel collars entirely encircling them, and not merely by two iron jaws. These collars, depressed by the weight of the bicycle, operate arms which spread the supports of the stand and at the same time automatically lock the axle nuts in the collars.

No. 784 — Myers, made entirely of spring steel, finished in aluminum, will hold 8 bicycles, has a swinging sign, finished ready for your own name or lettering, and is very attractive for use in front of a store, height 41 in. width 22½ in., w't per doz. 264 lbs., per dozen ..... **CBDJ** $54.00

LOOSE.

No. 101—15½x7¼ in., a heavier carrier than No. 100, will carry 150 lbs., black enameled machine steel, w't per doz. 24 lbs., per dozen..... **EDJ** $9.00

LUGGAGE CARRIERS.

No. 444—Bicycle (a better carrier for the particular trade) made of ¼ in. cold rolled flat wire steel, black enameled, furnished with clamps for attachment, per dozen..... **DEJ** $7.50

No. 666—"Husky" Bicycle Carrier, is one that will stand the roughest heavy service, made of cold rolled steel, black enameled. Attached to the rear axle only, but with adjustable rear stay clamps, w't per doz. 15 lbs., per dozen..... **EGE** $9.00

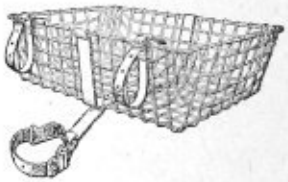
PACKED ONE IN A HEAVY ENVELOPE.

No. 575—Spring Carrier with foot rests. Absolutely new departure in bicycle carrier design. As comfortable to ride on as any bicycle saddle and very serviceable for carrying delicate luggage, as it takes up the road shocks, black enamel—furnished complete as shown with a pair of axle extension mats, w't per doz. 36 lbs., per dozen..... **AIEJ** $32.50

PACKED ONE IN A STRONG BOX.

Simplex, 1¼ x⅛ in. black enameled machine steel throughout with three ¼ in. steel cross bars turned to a shoulder of 3/16 in. on each end, and riveted through the frame itself, insuring rigidity and strength, eliminating all rattle, side play and jolts, w't per doz. 18 lbs., per dozen ..... **JFJJ** $10.00

Three dozen lots, per dozen **EDJ** 9.00



No. 200—11x12x6 in., made of heavy high grade steel, adjustable, w't per doz. 24 lbs.....per dozen **JGEJ** $12.50

No. 400—11½x18x6 in., made of heavy high grade steel, adjustable, w't per doz. 38 lbs.....per dozen **JICJ** $15.50

These carriers are adjustable so that they will fit any handle bar.

The No. 300 is adapted for grocers and butchers, and will hold any ordinary market basket.

ANDROCK LUGGAGE CARRIERS.

No. 1461—Androck, 10x15x4¾ in., heavy tinned steel wire, fastened securely to the wheel by strong leather straps, w't per doz. 21 lbs., per dozen..... **EDJ** $9.00

No. 1460—Androck, 8x13x4¾ in., heavy tinned steel wire, otherwise same as No. 1461, w't per doz. 18 lbs., per dozen..... **DHJ** $8.00

A large roomy basket, strong enough to stand up under the roughest usage, will not scratch the enamel or nickel or jar loose from the wheel, adjustable to any length head. Just the basket for delivering small packages.

Both carriers are perfectly adapted to any use where a bicycle carrier is required.

No. 85—Weber's, 16½x14 in. band iron, black enameled finish, can be used on either front or rear wheel, w't per doz. 54 lbs., per dozen **AIHJ** $33.00

Especially designed for delivery purposes.

LOOSE.

WIRE BASKET CARRIERS.

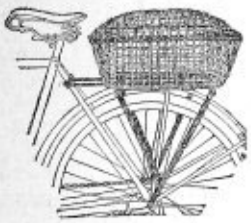
No. 81—Majestic, 12x6 in., black enameled, heavy steel frame and two braces which are fastened to rear fork of bicycle, very strong, with straps, w't per doz. 15½ lbs., per dozen..... **JGBJ** $12.00

These carriers can be used to a great advantage. Any article can be tied or fastened on and carried in an easy manner.

LOOSE.

CARRIERS, ETC., CARBIDE AND HORNS.

MUSSELMAN PARCEL CARRIERS.



Wire Around Top ¼ in. Steel, Side Wires 14 Gauge, Weight Complete About 8 Pounds.

No. 168—Large size basket, each basket 16x8 in. at top, 11x5½ in. at bottom, 13 in. deep, without saddle, per dozen .....**DGIJ** $78.00

No. 128—Small size basket, each basket 12 x8 in. at top, 7x5½ in. at bottom, 13 in. deep, without saddle, per dozen .....**DEJJ** $75.00

A perfect parcel carrier, capable of carrying any load a bicycle can sustain. Clamped on by use of an ordinary bicycle saddle clamp; easily attached.

PACKAGE CARRIERS.

No. 247—Androck, strong, roomy, whale-back cover, 1 in. woven tinned wire, 18x13x6 in. deep, cover 3 in. deep in middle, w't per doz. 72 lbs., per dozen .....**AFBJ** $27.00

The luggage carrier, finished in durable black, may be used without basket if so desired, the platform is 9x12 in.

The basket is bolted securely to a powerful steel luggage carrier. This combination makes an ideal rig for the butcher, grocer, or any one who has packages that can be delivered on a bicycle. It bolts tight on the bicycle so the vibration cannot shake it loose.

The basket can be locked with a small padlock, but same is not furnished with carrier.

LOOSE.

ONE IN A BOX.

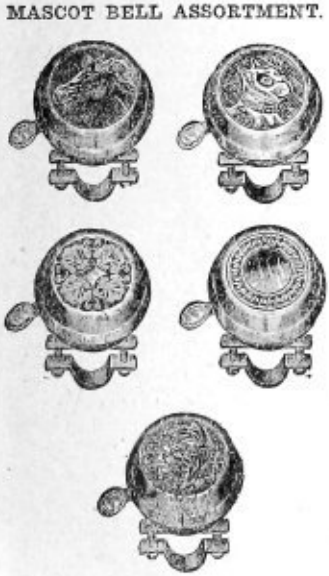
BICYCLE BELLS AND ALARMS.

CHIME ASSORTMENTS.



No. 2—Consisting of 12 bells, ten different designs, including three multiple stroke chime bells, a large double stroke bell, the popular flag bell in both the push button and the rotary type, and several other first-class designs, all bells are new 1914 stock with improved mechanism, w't per doz. 5¼ lbs., per assortment ..... **CFJ $6.00**

We will include without charge a bell stand as shown in cut with an order for four (4) assortments.

Every bell in the assortment is a seller.

ONE DOZEN IN A BOX.

MASCOT BELL ASSORTMENT.

No. 3—Each dozen made up of three each Horse and Bulldog design, two each Grecian Scroll and Pocahontas bells, w't per asst. 5 lbs., per assortment ..... **BDJ $4.00**

ONE DOZEN IN A CONTAINER.

BELLS.

High Grade Multiple Tone Chime, Bell Metal Gongs.

No. 30CG—Diam. 3 in., w't per doz. 8 lbs. ..... per dozen **AFJJ $26.70**

No. 34CG—Diam. 2¾ in., w't per doz. 7½ lbs. .....per dozen **AJBJ $17.00**

No. 35CG—Diam. 2¼ in., w't per doz. 7 lbs. .....per dozen **JHAJ $13.50**

The hammer strikes the gong many times at one stroke of the lever producing a loud alarm in chime effect.

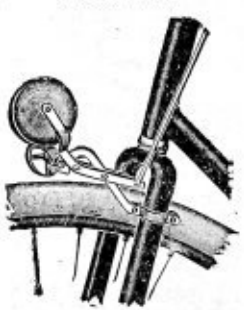
No. 30CG is particularly adapted for motorcycles.

ONE IN A BOX.

BRONKO BELLS.

No. 185—Bronko, 3 in., nickel plated and polished bell metal gong, rotary electric alarm, operated by a lever, fastened to handle bar by lock clamp, w't per doz. 8 lbs., per dozen ..... **JGBJ $12.00**

ONE IN A BOX.



SIREN ALARMS.

No. 53—High grade stamped steel frame, highly polished, outer drums of polished brass, nickel plated, ball bearing shaft with heavy fibre roller which runs on tire, being practically indestructible, chain attachment, screen pressed in, all parts interchangeable, w't per doz. 15 lbs., per dozen ..... **JGBJ $12.00**

A Siren will clear the road farther ahead and clear it more quickly than any other alarm made. A heavy chain attached one end to a lever on the siren and the other to the handle-bar, is pulled with the thumb. This brings the roller in contact with the front tire and the alarm gives forth a whistle melodious yet of great intensity. The interior drum revolves on double ball bearings running on cones and cups case hardened, ground and polished. These are adjustable for wear.

TWO IN A BOX.

No. 54—Sandow Siren tire bell, nickel plated steel, attached to front fork of bicycle, operated by a cord fastened to the handle bars, by pulling cord the fly wheel is brought in touch with the tire causing interior drum of bell to revolve, giving a loud penetrating alarm, w't per doz. 15 lbs.....per dozen **DEJ $7.50**

No. 50—Pirate Tire Chimes, an alarm similar to No. 54, except smaller, fly wheel is brought into contact with the front tire, causing the small wheel to revolve rapidly, this revolution throws small hammers against the two sides of the gong, which are attuned to different pitches, the result is a very pleasing chime, and loud enough to be heard a block away, w't per doz. 9 lbs., per dozen .....**CCE $6.20**

ONE-THIRD DOZEN IN A CARTON.

HUBS, AXLES, COASTER BRAKES AND PARTS.

HUBS.

No. 16—Front reduced center, turned from bar steel, all bearings made of tool steel, drilled, 32 holes, w't ¾ lb. ..... each EE $0.90

No. 26—Rear reduced center, turned from bar steel, all bearings made of tool steel, drilled, 36 holes, w't 1 lb. ..... each ABJ $2.00

No. 2.

No. 1—Front, tubular drilled, 32 holes, each ..... DJ $0.70

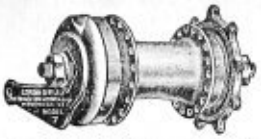
No. 2—Rear, tubular drilled, 36 holes, each ..... JGJ $1.20

BICYCLE AXLES.

No. 10—Front, ⅜ in., 24 and 26 threads, w't per doz. 12 oz., per dozen CJ $0.48

No. 15—Rear, ½ in., 24 threads, w't per doz. 1¼ lbs.....per dozen CE $0.60

AXLE SETS.

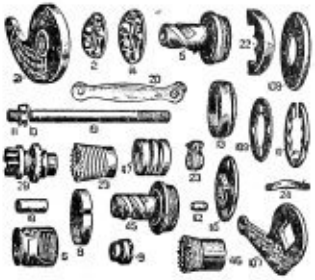


White Nickel Finish.

No. 1—Front, 5-16 in., fitted with quick action cones, nuts and washers, w't per doz. 2 lbs., per dozen ADE $2.40

No. 3—Rear, ⅜ in. fitted with quick action cones, nuts, and washers, w't per doz. 3½ lbs., per doz. AEJ $2.50

For repair work—easily adjusted.



COASTER BRAKES.

No. 5—Corbin Duplex, model 8, 36 spokes, ⅞ in. sprocket, 9 tooth, w't 2½ lbs.....each CIJ $6.50

No. 4—Corbin Duplex, for juvenile bicycles, 28 spokes, ⅞ in. sprocket, 9 tooth, w't 2 lbs.....each CIJ $6.50

In ordering hub shell, always state number of spoke holes wanted. Also, precede the number of part with the letter designating the hub for which part is wanted.

★FOR FACTORY SHIPMENT ONLY. FACTORY, NEW BRITAIN, CONN.

COASTER BRAKES, TOE CLIPS AND PEDALS.

TWO SPEED COASTER BRAKES.

No. 55—Corbin, high grade carbon, case-hardened steel, fits any bicycle having 1½ or 1⅝ in. chain line, w't each 3 lbs. 10 oz. .....each **JHDJ** $14.00

This two speed hub allows an increase in power with less exertion and provides a greater degree of safety than the ordinary coaster brake. When riding at high speed, the drive is direct; when riding at low speed, the drive is changed by means of a clutch which permits the hub to revolve slower than the sprocket through a medium of direct gearing which increases the power four to three. The change from high to low speed (or vice versa) is made automatically and instantaneously without back pedaling, simply by applying or releasing pressure on the pedals.

ONE IN A BOX.

TOE CLIPS.

No. 1.

No. 7.

No. 1—Spring steel, nickel plated, w't per doz. prs. 1½ lbs., per dozen pairs .....**JIJ** $1.60

SINGLE TUBE BICYCLE TIRES.

GRAND THORNPROOF CONSTRUCTION LARGE STUDDED RED TREAD.

Guaranteed.

28x1½ in., w't per pair 5 lbs., per pair .....EDJ $9.00
28x1⅝ in., w't per pair 5½ lbs., per pair .....EDJ $9.00

This tire is made under the drum process, which locates the laps in the fabric and rubber at different points in the tire, making the walls of uniform thickness throughout, and lessening the possibility of so-called "porous" tires. The inner tube is of excellent quality, and susceptible to all ordinary single tube repairs. The fabric is of long fibre Egyptian cotton, and has a large margin of safety. The coverstock is of excellent quality. The friction which is used is high grade in every particular, and will hold the various plies of rubber and fabric together until the tire is worn out in service. The construction is what we know as the "thornproof construction," having two plies of fabric extending entirely around the tire, and two extra narrow plies in the tread, making it four-ply at this point. These extra plies of fabric are of the same weight as the fabric used in the balance of the tire, and in this respect the tire differs materially from some other makes in which a very light drill or sheeting is used for these extra strips.

REVONOC LARGE STUDDED GRAY TREAD.

"Tough Tread."
Tough Protected Tread, Extra Quality, Guaranteed.

24x1⅜ in., w't per pair 4½ lbs., per pair .....CHJ $6.30
26x1½ in., w't per pair 4½ lbs., per pair .....CIJ $6.50
28x1½, 1⅝ in., w't per pair 4¼ lbs., per pair .....DEJ $7.50

REVONOC tough tread guaranteed single tube tire is not a cheaply constructed tire. We have put our brand on this tire with the full knowledge of the material that is used in its construction, and are offering to the trade as a high grade guaranteed tire at a moderate price, and as its name indicates, it is a tough tread tire. Extra high grade fabric selected on account of its strength and wearing ability.

CRUSO "PEBBLE TREAD."

Large Corrugations, Guaranteed.

28x1½ in., w't per pair 4 lbs., per pair .....CHJ $6.30
28x1⅝ in., w't per pair 5 lbs., per pair .....CHJ $6.30

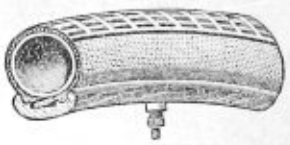
"Cruso" tires are made with fabric of a special weave and double friction of a high grade, har two plies of fabric and an extraordinarily strong durable tube. The cover is also strong and tough and compounded in such a way that it will retain its resiliency, the style of tread prevents slipping on smooth pavements more than the plain tread.

MARATHON BASKET WEAVE "DOT TREAD."

28x1½ in., w't per pair 4½ lbs., per pair .....CHJ $6.30
28x1⅝ in., w't per pair 5 lbs., per pair .....CHJ $6.30

This tire is made by using fabric of a special weave, double friction-ed, the tube being of extraordinary strength. The cover is tough and heavy, the latter being necessary on account of the style of the tread known as basket weave. The non-skid feature renders this tire one of the best that can be obtained for wet or slippery pavements.

CHICAGO "PEBBLE TREAD."



Guaranteed.

28x1½ in., w't per pair 4 lbs., per pair .....CDJ $5.70
28x1⅝ in., w't per pair 5 lbs., per pair .....CDJ $5.70

Chicago Tires are made for a good reliable medium priced tire and are guaranteed, have two plies of heavy fabric and a good grade cover stock, the pebble tread makes them non-skid.

IL-A-NOY.

For Steel Lined Rims, Clincher, G. & J. Pattern, Guaranteed.
28x1½, 1⅝ in.

Cases .....each BJE $3.40
Tubes .....each JHJ 1.35
Tires .....per pair EGJ 9.50

Especially made for G. & J. Steel lined single clinch rims, cannot be used on G. & J. wood double clinch rims. Owing to the fact that these casings are moulded, the same as motorcycle casings, the inner tube can first be placed in the casing, then partly inflated, then placing the casing and tube on the rim at the same time, thus making the tire much easier mounted than the old, flat style. These casings cannot be used on double clinch rims.

AVERAGE W'T PER PAIR 4¼ LBS.

G. & J. PATTERN.

Guaranteed.

Tubes .....each ABJ 2.00
Tires .....per pair JHCJ 13.00

WE WILL DELIVER, FREIGHT PREPAID, IN 25 PAIR LOTS OF ONE KIND, ALL OF THE FOLLOWING BRANDS OF TIRES TO ALL POINTS EAST OF THE MISSOURI RIVER AND NORTH OF THE TENNESSEE LINE. GRAND, REVONOC, CRUSO AND BOULEVARD.

BICYCLE TIRES, REPAIRERS' TAGS, ETC.

PENNSYLVANIA OIL RESISTING RED TREAD VACUUM CUP BICYCLE TIRES.

Red Tread.

28x1½—Rubber, specially prepared to resist oil rot, w't per pr. 6½ lbs., per pair ..... **JGJJ** $10.00

28x1⅝—Rubber, specially prepared to resist oil rot, w't per pr. 6½ lbs., per pair ..... **JGJJ** $10.00

Invaluable to bicycles traveling over oily streets and roads. It is very attractive in appearance and carries the same guarantee as our gray vacuum cup tires.

PENNSYLVANIA VACUUM CUP GRAY TIRES.

26x1½ in. .....per pair **JGJJ** $10.00
28x1½ in. .....per pair **JGJJ** 10.00
28x1⅝ in. .....per pair **JGJJ** 10.00

These are made in the same careful manner and by the same concern that makes the Pennsylvania Automobile Tires. They exert a vacuum hold on wet and slippery pavements. Skidding in any direction is impossible. The triple row of cup-shaped knobs is moulded on a thread of regular thickness, which means extra long service. Puncturing is almost impossible. These tires are so well made and of such high grade material that we will give an unqualified season's guarantee.

AVERAGE W'T PER PAIR 6½ LBS.

MILWAUKEE PUNCTURE PROOF TIRES.

28x1½x1⅝ in.....per pair **JFCJ** $10.50

This tire has three heavy insertions of canvas on the tread, making it almost impervious to puncture.

AVERAGE W'T PER PAIR 6 LBS.

PENNSYLVANIA OIL PROOF RED VACUUM CUP CLINCHER CASINGS.

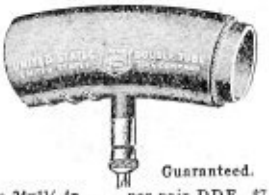
28x1½ and 28x1⅝ in.,
per pair, casings only .... **FFE** $9.50

Casings only (no inner tubes included.)

These casings use Nos. 5 and 15 inner tubes or Gen. G. & J. inner tubes.

These casings are made of the same quality of material and workmanship that the bicycle, motorcycle and automobile tires are made of, oil-resisting, anti-skid and long wearing capacity. Full season's guarantee to the user.

VITALIC TIRES, SINGLE TUBE.



Vitalic—Best rubber and fabric throughout 28x1½x1⅝ in.,
per pair ..... **JFFJ** $11.00

The fabric construction is made from the finest Sea Island Cotton with tough, silky fibres fully two inches long. The thread is twisted—not once like ordinary thread—but again and again until it has almost the tensile strength of wire. Into this indestructible foundation is forced by tremendous pressure the finest, toughest, most enduring rubber that is compounded.

The rubber used in Vitalic Tires, after it has been washed and milled, is hung up in drying rooms and left there until it is naturally dry. All its original toughness and elasticity are retained. The manufacturers back up this tire with an unlimited guarantee. If the Vitalic Tires do not, in the dealer's judgment, give entire satisfaction, they may be returned for credit or replacement.

M. & W. DOUBLE TUBE TIRES.

Guaranteed.

14 to 24x1½ in......per pair **DDE** $7.40
26, 28x1¼, 1½ or 1⅝ in.,
per pair ..... **DIJ** $8.20
Catapiaro—26, 28x1½ or 1⅝ in., per pair ..... **EEJ** $9.20

AVERAGE W'T PER PAIR 5 LBS.

Outer Casings Only. Guaranteed.

14 to 24x1½ in. .....each **ADE** $2.40
26, 28x1¼, 1½ or 1⅝ in.,
each ..... **AEE** $2.60
Catapiaro—26, 28x1½ or 1⅝ in.,
each ..... **AHE** 3.10

AVERAGE W'T ABOUT 2 LBS. EACH.

GUARD LACING.

Braided Cotton, 18 Yards in a Carton.

No. 215—Black and red, mixed ..per dozen **JHJ** $ 1.30

ONE DOZEN CARTONS IN A BOX; W'T 1 LB.

REPAIRERS' TAGS.

No. 15—6¾x3¾ in., printed in 2 colors, numbered in duplicate and perforated so that bottom can be torn off from owner's check, w't 7 lbs. per thousand, per thousand ..... **AEJ** $2.50

ONE THOUSAND IN A BOX.

TIRE MEASUREMENTS.

To get size of tire wanted, measure straight across wheel from center of under side of tire, then follow directions below.

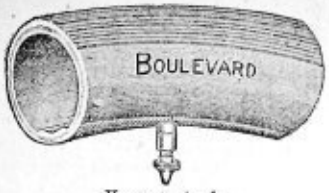
Wheel, in.....	11	13	15	17	19
Tire, in.	14	16	18	20	22
Wheel in.	20½	22½	24½	26½	
Tire, in.	24	26	28	30	

NATIONAL ASSOCIATION TIRE GUARANTEE.

The makers of guaranteed tires agree to repair or replace without charge tires which in their judgment are defective in material or workmanship.

All guarantees, unless otherwise mentioned, expire on Dec. 31st of the year in which the tires are sold.

Express charges on tires must be prepaid in every instance, or packages will not be accepted from the transportation company. If return by registered mail is desired, postage at the rate of 1 cent per ounce must accompany the request for repairs, and 10 cents additional for registry.



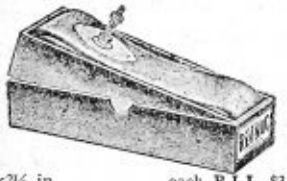
Rim cut, punctured, or tires abused, misused or worn out in service will not be replaced.

Always write a separate letter and send by mail your instructions, as all packages are held awaiting this advice.

See that every package sent has your full address—name, town, street number or county and state—securely fastened to it.

MOTORCYCLE SUNDRIES.

BOULEVARD TIRES.

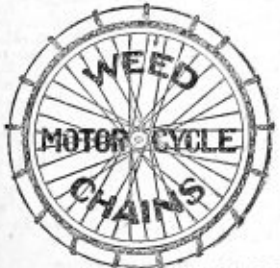


Unguaranteed.

24x1⅜ in., w't per pair 4¼ lbs., per pair ..... BDJ $4.00
26x1½ in., w't per pair 4½ lbs., per pair ..... BDJ $4.00
28x1⅝, 1⅝ in., w't per pair 4½ lbs., per pair ..... BDJ $4.00

This tire has fine corrugations and is a most satisfactory unwarranted tire.

REVONOC MOTORCYCLE INNER TUBES.



28x2½ in. .....each BJJ $3.30
28x2¼ in. .....each BAJ 3.50
29x2¼ in. .....each BAE 3.60
28x3 in. .....each AEJ $4.20

Endless or butt end tubes the same price. Endless tubes will be shipped unless otherwise specified.

A strictly high grade inner tube for motorcycle use, made from selected high grade compounded rubber and manufactured for service. Thoroughly guaranteed. Guaranteed to contain 70% rubber made from the same material as used in automobile tubes, made in both endless and butt end styles.

ONE IN A BOX.

WEED'S ANTI-SKID MOTORCYCLE CHAINS.

Sizes	26x2½	28-2½	28-2¼	29x2¼	28x3 in.

29x2¼ in., for old style rim, each 12.25
28x2¼ in., for new C. C. rim, each 13.25
29x2¼ in., for new B. B. rim, each 13.50
28x3 in., for new C. C. rim, each 13.50

Schedule of Inflation for Vacuum Cup Motorcycle Tires.

26x2½ in. .....50 lb.
28 in. .....50 lb.
28x2¼ in. .....55 lb.
29 in. .....55 lb.
28x3 in. .....60 lb.

These casings are made in the standard of strength and efficiency as Vacuum Cup Tires for automobiles.

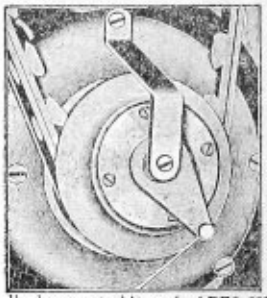
The triple row of vacuum cups absolutely resists skidding on wet pavements, but the suction does not operate against the forward speed, because the cups are lifted edgewise by the rolling of the tire. For muddy roads, they are especially desirable, as the heavy knobs take hold as can no other form of tread—slewing is practically impossible.

In addition to this feature, the tread is especially serviceable, and will give considerable more mileage than any other tire made. The cups alone outwear the ordinary corrugated tread.

Vacuum Cup Motorcycle Tires are guaranteed for 5,000 miles service. While this is twice as far as the ordinary guarantee, it is only half the distance that Vacuum Cup Tires actually will travel.

Use REVONOC *Tubes for these casings.*

PENNSYLVANIA LITTLE RED MOTORCYCLE PURE GUM RED INNER TUBES.



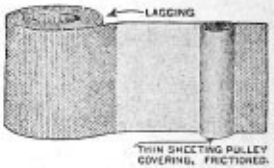
Discount AJ%.

28x2½ in. .....each $2.70
28x2¾ in. .....each 3.10
29x2¼ in. .....each 3.15
28x3 in. .....each 3.40

Endless tubes will be shipped, unless otherwise specified.

These are manufactured from the finest grade and quality of material and are guaranteed to give the highest degree of service intended for that class of trade that desires a pure gum tube. Enclosed in a durable black rubberized bag and in a strong red box. Made in both endless and butt-end style.

ECLIPSE FREE ENGINE PULLEY.



Handle bar control* each ABFJ $21.00
Side lever control* each ACHJ 23.00

When ordering, specify size of pulley desired, make of machine and year in which it was made, size and style of belt.

With an ECLIPSE FREE ENGINE PULLEY AND VARIABLE SPEED CLUTCH, you can put your machine in the stand, start the engine and engage the clutch, thereby giving a free engine; hook up your stand (bear in mind your engine is working all the time), mount, open throttle slightly, then gradually throw in the clutch, and you will glide away like an auto.

The reason for this is both simple and plain. The pulley being free, the engine shaft revolves within it until the clutch is applied, then the engine and pulley are as one and the wheel is driven—"perfectly simple and simply perfect."

NON-SLIP LAG.

Put up in rolls of the following sizes—

Sizes for use on Front Engine Pulleys

Width, in.	Length in.		Per roll.
1⅝	38	CE	$0.60
1¾	38	CE	.60
1⅞	43	CE	.60
1⅞	43	CE	.60
2	43	CE	.60
2⅛	43	CE	.60
2¼	45	CE	.60

Sizes for use on Rear Pulleys.

Width, in.	Length in.		Per roll.
1⅝	124	JHJ	$1.30
1⅞	124	JHJ	1.30
2¼	124	JHJ	1.30

Non-Slip Lag is a new lining for pulleys. It absolutely prevents belts from tearing and slipping, increases their life, and affords much additional power. It is as easy to put on as tire tape on a tire.

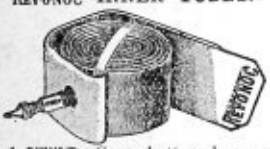
This is the highest grade of motorcycle lagging manufactured. Heavy friction Egyptian fabric, and can be attached in a few minutes. A very necessary article for motorcyclists.

ONE ROLL IN A BOX.

*FOR FACTORY SHIPMENT ONLY.

INNER TUBES AND TIRE REPAIRS.

INNER TUBES.



No. 11—Pure gum, red, butt end, guaranteed, size 28x1½ or 1¾ in., w't per doz. 8 lbs., per doz. **ADAJ** $23.50

No. 12—Endless for G. & J. type casing, otherwise same as No. 11, per dozen .....**ADAJ** $23.50

Made of carefully selected stock and by a new process—several plies of practically pure rubber are vulcanized together making a tube of great strength and service. The valve base is strongly reinforced to prevent the stem from pulling out. All tubes are carefully tested under pressure before being shipped.

REVONOC INNER TUBES.

No. 1 REVONOC—Gray, butt end, guaranteed, size 28x1½ or 1¾ in., w't per doz. 9 lbs. ....per dozen **AJHJ** $18.00

No. 5 REVONOC—Best quality, for G. & J. tires, 28x1½ or 1¾ in., w't per doz. 6 lbs. .....per dozen **ABCJ** $20.50

Made from selected stock of high quality material—a tube that will give long service—REVONOC tubes have always been popular on account of their strength and service.

"IL-A-NOY" INNER TUBES.

No. 10—Il-a-noy, butt end, good quality, fully guaranteed, 28x1½ or 1¾ in., w't per doz. 5 lbs., per dozen **JIFJ** $16.00

No. 15—Il-a-noy, G. & J. endless, otherwise same as No. 10 Il-a-noy, per dozen .....**AJEJ** $17.50

CRUSO INNER TUBES.

CRUSO, No. 2 Quality Butt End.

28x1½ or 1¾ in., w't per doz. 9 lbs., per dozen .....**JHFE** $14.40

ONE IN A BOX.

M. & W. INNER TUBES.

No. 1 Quality, Guaranteed, Closed End.
14 to 24x1½ in...per dozen **JICE** $15.60
26, 28x1½ or 1¾ in., per dozen .....**AJHJ** $18.00

No. 2 Quality, Closed End.
20 to 24x1½ in...per dozen **JHFE** $14.40
26, 28x1½ or 1¾ in., per dozen .....**JICE** $15.60

AVERAGE W'T 8½ LBS. PER DOZEN.
ONE IN A BOX.

HANDLE BAR BUFFERS.

No. F51—M. & W., flexible, to protect the frame where handle bars strike, color black ....per dozen **JFJ** $1.00

ONE DOZEN IN A BOX.

TIRE LACING.

No. 1—For lacing the outer casing of double tube tires, 7 yds. on hank, with needle, w't per doz. ¾ lb., per dozen .....**DB** $0.70

For Lacing the Outer Casing of Double Tube Tres.

No. 2—¼ lb. balls, per lb. ....$1.80 **AAJ**

No. 3—1 lb. balls, per lb. ....$1.80 **AAJ**

REVONOC PATCHING RUBBER.

No. 4 REVONOC—4 oz. rolls, pure rubber, size about 2½x180 in., per roll, 4 oz. .....**JIJ** $1.50

TIRE TAPE.

No. 10 REVONOC—Black, 1 oz. rolls, per pound .....**CJ** $0.52

No. 15 REVONOC—Black, ½ lb. rolls, per pound .....**CJ** $0.52

No. 12 REVONOC—Black, ¼ lb. rolls, per pound .....**CJ** $0.52

No. 1—M. & W., black, 1 oz. rolls, per pound .....**CB** $0.54

No. 3—M. & W., black, ½ lb. rolls, per pound .....**CE** $0.60

INJECTORS.

No. 74—Goodrich Jiffy, w't per doz. 1½ lbs. .....per dozen **ADE** $2.40

Loaded with repair solution. It heals punctures in single tube tires. The solution hardens and becomes an inseparable part of the tire.

ONE IN A BOX.

RUBBER PLUGS.

Pointed. Flat Head.

Pointed, Pure Stiff Rubber.

No. 101—Small, $\frac{1}{16}$ in stem, per hundred .....**JHJ** $1.30

No. 102—Medium, ¼ in. stem, per hundred .....**JHE** 1.40

No. 103—Large, $\frac{5}{16}$ in. stem, per hundred .....**ACJ** $2.20

Flat Head, Pure Stiff Rubber.

No. 119—$\frac{5}{16}$x$\frac{1}{16}$ in....per 100 **JFE** $1.10

No. 120—¾x½ in.....per 100 **JIE** 1.60

No. 123—1 x½ in.....per 100 **ACJ** 2.20

No. 124—1¼x½ in.....per 100 **BEJ** 4.20

No. 126—1½x¾ in.....per 100 **CJE** 5.10

No. 130—2 x¾ in.....per 100 **CEJ** 5.80

WOOD RIMS.

No. 29—G. & J., 28x1½ or 1¾ in., one piece, natural finish, drilled, 32 or 36 holes, w't per pair 3 lbs., per pair .....**ABJ** $2.00

No. 11—Standard, 28x1½ or 1¾ in., one piece, natural finish, drilled 28, 32 or 36 holes, w't per pair 2¼ lbs., per pair .....**AAJ** $1.80

No. 26—For 26x1½ in tires, both front and rear rims drilled for 28 spokes, otherwise same as No. 11, per pair .....**AAJ** $1.80

No. 24—For 24x1¾ in. tires, both front and rear rims drilled for 28 spokes, otherwise same as No. 11, per pair .....**AAJ** $1.80

All 28 in. rims, Nos. 11 and 29 are drilled 32 degrees for front and 36 degrees rear.

LACING NEEDLES.

No. 4-G—3½ in., polished steel, per dozen .....**JG** $0.12

ONE DOZEN IN A PACKAGE.

SOAPSTONE.

For Preventing Inner Tube from Sticking to Case.

No. 13-G—1 lb. packages, per pound .....**JF** $0.10

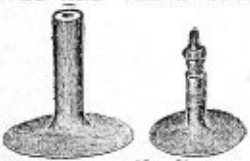
REPAIR TOOLS, TIRE VALVES, WHEELS, ETC.

PUNCTURE REPAIR TUBES.

No. 70—For repairing punctures with rubber bands, w't per doz. ½ lb., per dozen .....EJ $0.80
No. G—Rubber bands for repair work, ¼ lb. in a box....per box JHE $1.40

RUBBER BAND TUBES.

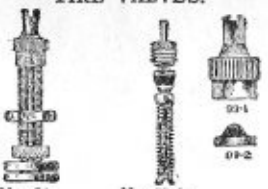
No. 77—Little Wonder, steel, 3 in. long, w't per doz. 2 oz., per doz. ACJ $2.20
To repair a puncture, place the bands in the slotted point of the needle, draw back over the two points, as illustrated, using sufficient bands according to size of puncture, then place a quantity of cement on the bands, insert in puncture, press slightly on the two finger points and the bands are automatically released.



No. 1G—Wald, w't per doz. 1½ lbs., per dozen .....BAJ $3.50
By the use of this tool a puncture may be repaired in one minute at a cost of about ¼ cent.
Can also be used for repairing holes in casings, to prevent tube from creeping through.

ONE DOZEN IN A BOX.

SAMPSON Puncture Closers.
No. 91—Small, w't per doz. 2 oz., per dozen .....JEE $1.00
No. 92—Medium, w't per doz. 3 oz., per dozen .....JEE $1.00
No. 93—Large, w't per doz. 3 oz., per dozen .....JEE $1.00
A metal device for repairing single tube tires; used with cement.



VALVES AND VALVE STEMS.

No. 10. No. 56.
No. 10—Valve Stems, for M. & W., Schrader and similar valves, pure rubber, w't per doz. 2 oz., per dozen .....CE $0.60
No. 56—Schrader, valves and stems complete, w't per doz. 6 oz., per doz. .....AAE $1.50

LOOSE.

TIRE VALVES.

No. 54. No. 99-4.
No. 54—Schrader, G. & J. for G. & J. inner tubes, w't per doz. ½ lb., per dozen .....ADE $2.40

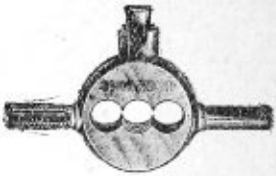
SCHRADER.
No. 99-1—Caps.....per dozen BE $0.42
No. 99-2—Cap washers, per dozen .....JI .14
No. 99-4—Inside complete, per dozen .....CG .64

No. 55. No. 8. No. 9.
No. 55—Schrader Universal, without stem .....per dozen JGJ $1.20
No. 8—Schrader, for single tube tires, per dozen .....ADE $2.40
No. 9—Sampson, for single tube tires, per dozen .....AHJ $3.00

LOOSE.

BUILT UP WHEELS.

All bicycle dealers know how important it is to be able to furnish from stock built up wheels to repair damaged wheels for customers. We carry in stock ready for immediate shipment built up wheels, black enameled rims, with two gold stripes as described in list below.

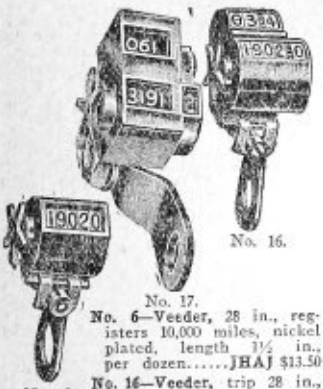


Black Enameled Rims with Two Gold Stripes, Turned Hubs.
No. 122—Cement rim, turned hub, front, w't 2¾ lbs. .....each AFJ $2.70
No. 123—Cement rim, turned hub, rear, w't 3 lbs. .....each BBJ $3.70
No. 126—G. &J. rim, turned hub, front, w't 3¼ lbs. .....each AHJ $3.00

Coaster Brake Built Up Wheels.
No. 128—Cement rim, rear fitted with New Departure brakes, w't 5 lbs., each .....EAE $8.60
No. 129—G. & J. rim, w't 3¼ lbs., otherwise same as No. 128,each ECJ $8.80

VALVE TOOLS.

"THREE IN ONE."
No. 22—Genuine drop forged in one piece, carefully machined and hardened, combines screw driver for threading insides, a tap for tapping out inside and die for rethreading inside of Schrader valves, w't per doz. 8 oz.....per doren ADE $2.40



"FOUR IN ONE."
No. 21—Genuine drop forgings in one piece with center guide reamer on one side to cut down the top of valve and smooth the damaged thread, w't per doz. 8 oz.....per dozen BDJ $4.00

The reamer is milled so it will leave a rounded edge on top of the valve the same shape that it is originally. Can be used without taking the valve inside out.

LOOSE.

CYCLOMETERS, PEDOMETERS, SPEEDOMETERS, ETC.

CYCLOMETERS.

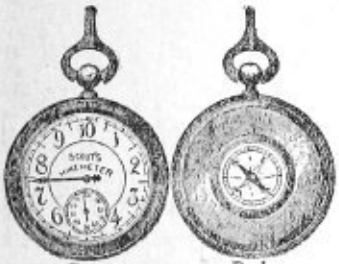
No. 16.

No. 17.

No. 6

No. 6—Veeder, 28 in., registers 10,000 miles, nickel plated, length 1½ in., per dozen.....JHAJ $13.50

No. 16—Veeder, trip 28 in., 10,000 miles, with independent trip cyclometer, which registers 100 miles and can be quickly set back to zero, nickel plated, length 1⅝ in., per dozen.....AHJJ $30.00



No. 17—Veeder, for motorcycles, 26 or 28 in., registers up to 10,000 miles, nickel plated, length 2 in., w't per doz. 4¾ lbs....per dozen BGJJ $45.00

The cyclometer mechanism is made stronger than the regular bicycle cyclometer and is designed to withstand the harder usage due to the high speed of motorcycles.

A much stronger type of star wheel is supplied and special friction is used which prevents the star wheel from spinning when going at a high rate of speed.

ONE IN A BOX.

BOY SCOUT HIKEMETERS.

Front. Back.

No. 77—Hikemeter and compass combined, gun metal finish, registers 100 miles, also each trip and can be reset, w't each 3 oz.,..each ABJ $3.00

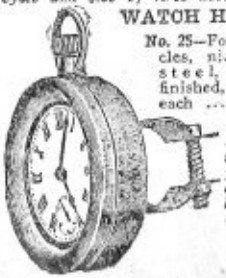
This instrument measures accurately the distance you walk, and the compass indicates the direction. Will slip into your belt, pocket or garter. Can be accommodated to any length of step. Accurate and reliable, nothing to get out of order.

PEDOMETERS.

No. 7—American, nickel plated, diameter 1¾ in., registers 100 miles, each .....AJJ $1.70

Each step vibrates automatic mechanism, thus setting the cog wheels in motion and recording the distance walked by the wearer.

ONE IN A BOX.



CORBIN-BROWN MOTORCYCLE SPEEDOMETERS.

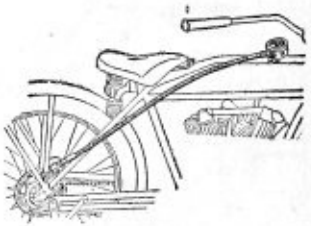
Model A M—Made of specially hardened steel and brass, cable is of best hardened steel, either front or rear attachment, w't each 9 lbs., each .....ABJJ $15.00

This speedometer has no "die-cast" parts. The indicator registers with absolute accuracy, and is not affected by the temperature or electrical action. It is so adjusted that it will not wobble on a rough road and always remains steady. The speed indicator registers up to 80 miles an hour, has a season mileage recorder which totals one hundred thousand miles, and a trip odometer which registers up to 100 miles and resets by pressing reset pin at side. The Corbin-Brown speedometer is sold under a one year guarantee that is absolutely free from technicalities. Can be attached by any dealer or repair man. In ordering, please give name and model of motorcycle and size of tires used.

WATCH HOLDERS.

No. 25—For motorcycles, nickel plated steel, beautifully finished, w't ½ lb., each .....JDB $0.70

Substantially made for motorcycle or bicycle handle bars.



LOOSE.

STEWART MAGNETIC MOTORCYCLE SPEEDOMETERS.

Model 101—Front wheel drive is equipped with the new "solid tube" casing around the driving shaft. This "solid tube" obviates the trouble and breakage formerly experienced with the flexible shaft front drive, w't each 9½ lbs., each .....JIFJ $12.00

ONE IN A BOX.

Model 101A—Rear wheel drive is absolutely unaffected by vibration or road shocks. The driving shaft is enclosed in a flexible shaft casing. All parts made of the same high quality of material and workmanship that enters into the construction of all instruments for automobiles, w't each 10 lbs., each .....JIFJ $12.00

All Stewart Speedometers are made upon the magnetic principle. There is only one moving part. This is a circular magnet, mounted on the top of the shaft. Fitting over and around this circular magnet is an aluminum cup. On the edges of this cup are the numbers, from 0 to 75, which indicate the number of miles per hour your motorcycle is traveling. There is absolutely no connection between the circular magnet and the dial cup. The turning of the rear wheel turns the flexible shaft and this causes the circular magnet to revolve. As this revolves it acts with magnetic force on the aluminum dial cup. The faster the magnet turns, the more the dial cup is pulled around, and whatever number on the dial cup is opposite the pointer, that indicates the number of miles per hour. It is the most simple mechanism in the world. There is practically no wear whatsoever to the Stewart Magnetic Type Speedometer.

PADLOCKS AND WHEEL PARTS.

BICYCLE PADLOCKS.

No. 4066G. No. 4075G.

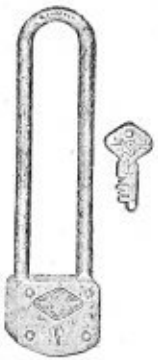
No. 4066G—Size 2¼x2 in., iron case, ivory black finish, black nickel shackle, self-locking, spring shackle, five key changes to the dozen, complete with two flat steel keys, for locking sprocket and chain, w't per doz. 1½ lbs.....per dozen **JIJ** $1.50

No. 4075G—Size 2¼x1½ in., iron case, brass shackle, ivory black finish, self-locking, hinged spring shackle, three secure levers, 12 changes to the dozen, for locking sprocket and chain, complete with two nickel plated flat steel keys, w't per doz. 2½ lbs., per dozen .....**BDJ** $4.00

No. 4047G—Size 1x1 in., iron case, ivory black finish, nickel plated shackle, self-locking spring shackle, three secure levers, twelve changes to the dozen, complete with two nickel plated keys and chain, w't per doz. 1½ lbs. .....per dozen **BEJ** $4.20

No. 4382G—Size 2x1½ in., iron case, ivory black finish, brass plated shackle, self-locking, spring shackle, for locking sprocket and chain, six changes to the dozen, complete with two nickel plated flat steel keys, w't per doz. 1¼ lbs., per doz. **ADE** $2.45

MOTORCYCLE LOCKS.



No. 4512—Total length 8¼ in., hasp 6½ in. long, arm ⅞ in. thick, self-locking, automatic spring shackle that flies open to one-quarter turned position when unlocked, six secure levers, two nickel plated corrugated keys, ebony black finish, nickel plated hasp, hardened to prevent cutting or filing, w't per doz. 6¼ lbs., per dozen .....**EDJ** $9.00

Can be used to lock motorcycle through front fork, or rear stay or chain. Designed to prevent theft of motorcycles, compact in size, can be carried in tool bag or pocket, fits any machine.

ONE IN A BOX.

BICYCLE LOCKS.

Motorcycle Pattern.

No. 534-G—Total length 6½ in., across case 2 in., hard steel rod shackle locking spokes to fork 4½ in. long, pressed steel case, lever and tumbler construction, spring shackle, self-locking, two steel keys, w't per doz. 6 lbs. .....per dozen **BFJ** $4.30

ONE IN AN INDIVIDUAL BOX; TWELVE IN A CONTAINER; NO TWO ALIKE.

SPOKES.

REVOLVO

No. 20 REVOLVO—Extra quality, swaged, headed, bent, threaded and nickel plated, size 075-062 between 14x16 and 15x17 gauge, 12 and 12½ in. long, with nipple, w't per 100, 1½ lbs., per hundred .....**JIJ** $1.50
per thousand .....**JHEJ** 14.20

BOTTLES PACKED ONE DOZEN IN A NEAT WOOD BOX WITH SLIDING TOP.

REVONOC *For-All-Things Oil is a high viscosity, low gravity lubricating oil unexcelled for its Cleaning and Polishing properties.*

Prevents Guns from Rusting, Nickel and Brass from Tarnishing.

Penetrates into the pores of the metal, forming a film-like coating that defies all weather conditions.

Composed of ingredients absolutely harmless to the finest finished surface, REVONOC *For-All-Things Oil is unsurpassed for cleaning and polishing pianos and fine furniture. Restores the original finish and lustre, removing all spots and stains.*

For Sewing Machines, Phonographs, Dictaphones, Typewriters, Automobiles, Motor Boats, Lawn-Mowers, Separators, Bicycles, etc. Use a damp cloth on veneered or polished surfaces, and a dry cloth on metal.

FULL DIRECTIONS ON EVERY BOTTLE.

COMBINATION OIL.

No. 1-G—Perfect, polished, medium size, length 3¼ in., w't per doz. 2¾ lbs., per dozen .....**EAJ** $8.50

ONE DOZEN IN A BOX.

TORCHES AND BRAZING FORGES.

GASOLINE TORCHES.

No. 5-G—Baby, nickel plated, height 4½ in., diam. 1¾ in., capacity about ½ pt., w't ¼ lb. ....each **J I J** $1.50

Especially adapted for electricians, jewelers and plumbers, where light work is to be done quickly. Throws a four inch flame. Burns without air pressure.

REVERSIC "NEVER CLOG TORCH.

No. 25-G REVERSIC—Quart size, heavy brass reinforced tank, powerful generator, height 9¼ in., diam. 4 in., w't 5 lbs. .....each **C C J** $6.00

The REVERSIC *needle is not a valve, as in ordinary torches, but a cleaner, the valve being formed by the shoulder of the needle holder on the shut-off screw shaft. Low V shaped soldering copper holder always ready—yet never in the way. Valve shaped to take up "wear," yet can be replaced in three minutes if necessary. No stop-cock, but automatic pressure valve—made simply—cannot get out of order. Shell is of very heavy drawn brass absolutely rigid where burner is set—this is a weak spot with ordinary torches.*

GASOLINE TORCHES.

No. 4-G—Heavy polished brass tank, double jet Turner burner, brass air pump in handle, double shouldered needles, wood handle regulator, brass handle, height 9 in., diam. 4 in., capacity 1 qt., w't 5⅛ lbs., each .....**J F J J** $10.00

This burner torch with double jet Turner burner is capable of doing work heretofore deemed impossible. In general appearance this torch resembles the ordinary one-valve soldering torch, yet in the construction of the burners it differs radically from all other appliances. About 3,000 degrees of heat can be obtained with this torch which is nearly double the capacity of all single-valve burners. All parts of this burner are made of heavy brass, the pump is contained in the handle of the torch and air valve is located at the base of the pump barrel, the filler plug is placed at the top of the tank, attachments for soldering copper cannot be applied to this machine and therefore are not included.

ONE IN A BOX.

No. 120. No. 122.

No. 120—Quart size, one-piece polished brass tank, brass air pump in handle, round burner with double shouldered needles and wood handle regulator, brass handle, pump has check valve which closes off the air automatically after each stroke of the plunger, w't 5¾ lbs. .....each **B B J** $4.00

No. 122—Pint size, w't 4¼ lbs., otherwise same as No. 120, each **A I E** $3.50

The soldering copper attachment, illustrated above, is supplied with torches Nos. 120 and 122 free of charge.

These torches are offered to meet the demand for a low priced tool.

ADJUSTABLE BRAZING FORGES.

No. 88 Brazing Forge and No. 530 Floor Pump.

No. 88—Boiler steel tank, heavily galvanized, well braced, 150 lbs. pressure, height 48 in., diam. of tank 12 in., capacity 8 gal., without pump, w't 78 lbs.★ .....each **B G J J** $45.00

No. 530—Floor Pump,★ each **C J J** 5.00

This forge is a vast improvement over any other gasoline brazier or forge now on the market. The two special large Turner double jet burners with which this forge is fitted throw out intensely hot flames of great volume and power, and are so swiveled at points marked "X" that they may, at the will of the operator, be swung around in any position. The table supporting the fire bricks is also adjustable so that it may be raised or lowered independent of the burners. Is especially made for brazing large pieces of cast iron, brass or other metals, and has the capacity for much heavier work than other braziers. Its adjustable features render it unexcelled for general forge and shop work.

Bright and attractive labels help the sale of goods—Every CVB **item bears a neat and artistic label.**

Divided efforts seldom result in success.

Concentrate on one brand of guaranteed quality— CVB

HIBBARD, SPENCER, BARTLETT & CO.
STATE STREET BRIDGE
CHICAGO.

AUTOMOBILE SUPPLY SIGNS.

A PATHFINDER TO PROFIT.

WEAR AND TEAR BRING ACCIDENTS—ACCIDENTS DEMAND REPAIRS.

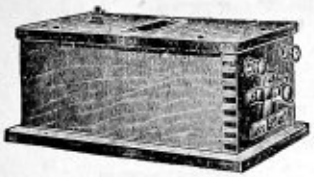
"Where can I get supplies?"
"That hardware store had a sign."

A wide field has opened to the hardware man. Motor travel has spread through the cities of each state and countrywards. Power driven vehicles crowd the city boulevards. Each village has a dozen cars or so. The SALE comes right to YOUR door.

Bright windows attract prospective customers. The hardware window is everywhere. Tires, tool boxes, wind shields, tops, horns, robes, speedometers, spark plugs, funnels, goggles, jacks, patches, pumps, clocks, lamps, magnetos, batteries for "this rapidly growing class of trade." Surely this is YOUR trade.

We have a stock that is fresh and varied. Our experience insures you right prices. To succeed ourselves we must have your success. We're going to help you.

THIS IS OUR OFFER.



We will give the handsome sign illustrated above to each of our customers who will place with us an order for Automobile Accessories amounting to $75.00 or more.

This sign is of durable steel, 19x60 in., lithographed in toned colors and edged in a selected wood frame. The Pennsylvania vacuum cup casing appears in its natural gray, the words "Auto Supplies" are lined in yellow, shadowed by borders of red and black. The Stewart speedometer is shown in brass finish, and the whole backed in a ground of rich green. Each sign is worth $15.00. The quantity is limited and they are going fast. Exhaustion of our present supply will terminate this offer. Please place your orders now.

HIBBARD, SPENCER, BARTLETT & CO.

COILS, VIBRATORS AND ROWBOAT MOTORS.

SPARK COILS.

No. 5004—Cico, 1 cylinder, each ..... DCJ $7.20

The material used in the construction of a spark coil is most important, and in the manufacture of the Cico no expense has been spared and only the best material used throughout.

Every coil is tested with twice its working voltage before leaving the factory. The windings are of non-absorbent enameled wire. The best coil made at a moderate price.

SPLITDORF, Standard Vibrating.

No. 5005—1 cylinder, each JGBJ $12.00
No. 5006—2 cylinder, each ADDJ 24.00

The standard box type coils are made up of the very best grade of material and are mounted in nicely finished oak boxes. These coils are especially adapted for stationary and marine engine uses. They are equipped with the latest type of Bogert Vibrator and ratchet screw and are guaranteed to give a full fat one-half inch spark on a very small consumption of battery current.

SPLITDORF DASH, Peerless Unit Construction, Mahogany Case.

No. 5008—1 cylinder, each JIJJ $15.00
No. 5009—2 cylinder, each AFBJ 27.00
No. 5010—4 cylinder, each CBDJ 54.00
No. 5011—6 cylinder, each DCBJ 72.00
No. 5012—Units, extra, each ..... JGBJ 12.00

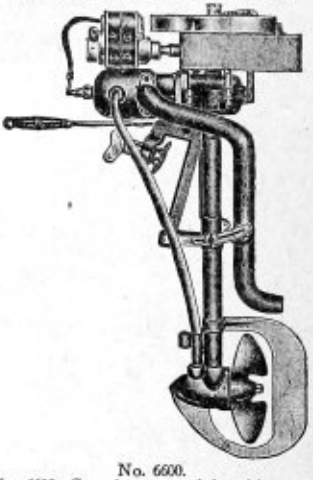
Unit can be removed instantaneously.

Cut-out switches furnished on all the above coils.

"MASTER" VIBRATORS.

No. 5040—New York, dash coil type of Master Vibrator, with switch, each ..... JGBJ $12.00

This Master Vibrator is designed especially for Ford Cars, and has proven satisfactory after years of trial. The coil consists of a powerful condenser which is connected in series with the regular coil the whole being enclosed in a neat, compact mahogany case. This coil interrupts the current or becomes the Master Vibrator for all your coils, insuring uniform and perfectly timed ignition from each coil. But one adjustment is necessary, reducing your ignition system to the simplicity of a single cylinder car at the same time increasing speed, power and flexibility.



MAKE AND BREAK COILS.

No. 5035—Square ends, winding, 8 in. long, w't 10 lbs.....each ADE $2.40

These coils are for use with make and break engines, farm engines, traction and all types of stationary engines. Made simple, strong and substantial.

WILCOX ROW BOAT MOTOR.

No. 6600.

No. 6600—Complete, crated for shipment with battery and coil ignition, each★ ..... DFBJ $77.00

Complete instructions with each motor. Equipped with magneto as shown in cut, $30.00 net additional to above price.

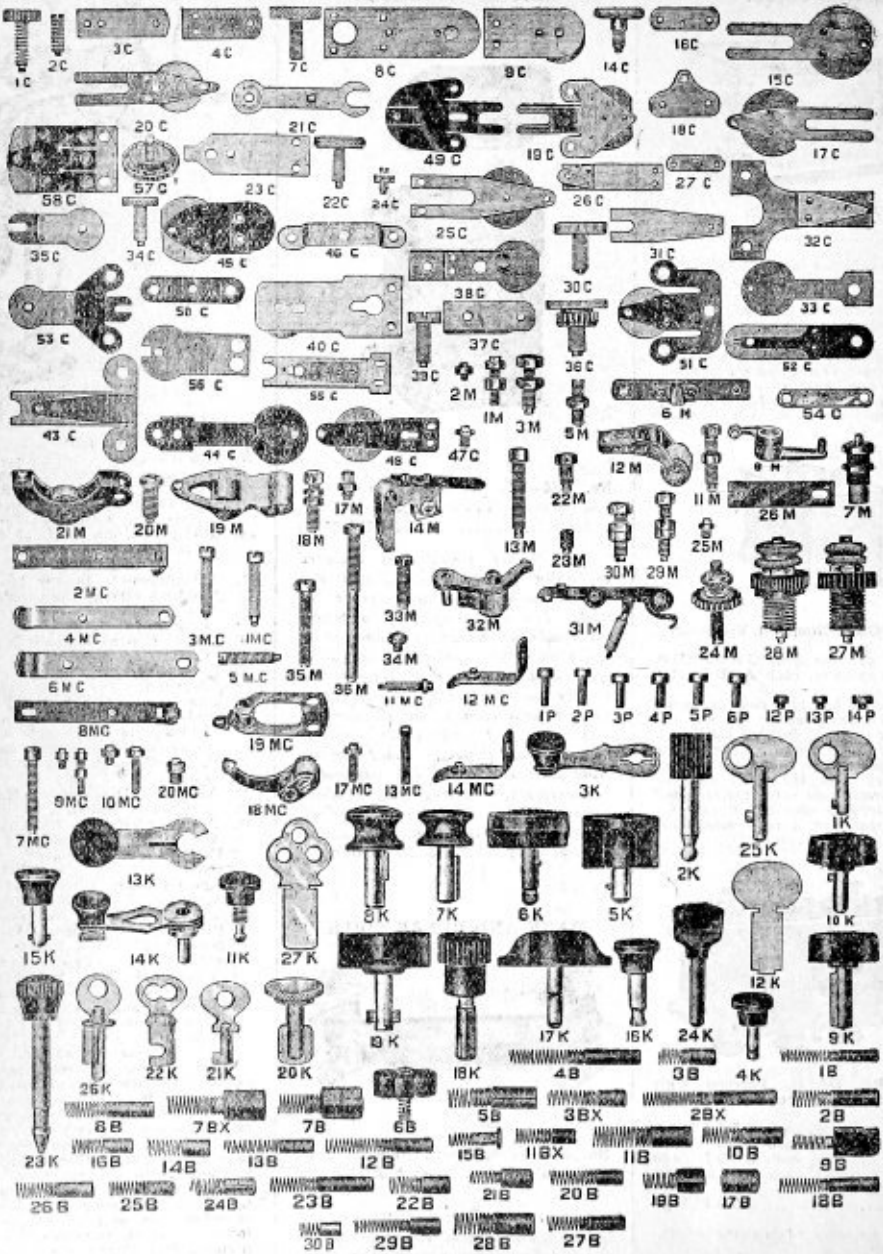
SHIPPING W'T 90 LBS.

Features.

1. Adjustment—to fit any boat.
2. Rudder steering—vibrationless.
3. Bosch Magneto or Battery and Coil Ignition.
4. Grease Cup to lubricate Upper Crank Case Bearings.
5. Interchangeable Phosphor Bronze Bearings.
6. Neat, compact, light weight.
7. Finish—Nickel plated fly wheel, all brass parts highly polished, other parts enameled—several coats.
8. Protected Spark Plug—Rubber Covered.
9. Automatic Disappearing Handle.
10. Underwater Exhaust.
11. Angle priming cup for priming.

Specifications.

2 H. P.	Diameter Connecting Rod Bearings, 1⅜ in.
2 Cycle.	
Single Cylinder.	
Water Cooled.	Carburetor—our own design.
Speed, 175 to 1200 R. P. M.	
Bore, 2⅝ in.	Bronze Water Pump.
Stroke, 2⅝ in.	Crank Shaft drop forged, all bearings ground.
W't complete, 58 lbs., actual.	
Diameter Crank Shaft Bearings, ¾ in.	Capacity of Fuel Tank, 1 gal.



Factory Guarantee.

We guarantee our machines to develop more than the full rated power, to be free from defects in workmanship and material and to be absolutely as represented in every way.

Should any part prove defective due to any cause other than ordinary wear and tear, abuse or neglect, we agree to replace it free of charge at any time within one year from date of purchase, provided such part is returned to us for examination, transportation charges prepaid, and plainly marked with the shipper's name and address.

BATTERIES, AMMETERS. SWITCHES, TESTERS, ETC.

DRY BATTERIES.

No. 700-G —1½ volts, 2½x6 in., 15 to 18 amperes, for use with telephones, gas engines, automobiles and wherever intermittent service is needed, w't 2 lbs.....each **BJ** $0.31

No. 406-G—160-JG. No. 1406-G.

No. 406-G—160-JG—Ever Ready, round carton, style "J," 2½x6 in., 1 6-10 volts, 22 to 25 amperes, for use on automobiles, gas and gasoline engines, motorcycles, telephone work, etc., w't 2½ lbs.....each **BE** $0.38

No. 407-G—170-KG—Ever Ready, round carton, style "K," 3x7 in., 1 6-10 volts, 27 to 30 amperes, for use on automobiles, gas and gasoline engines, motorcycles, etc., w't 3¼ lbs., each .....**DH** $0.80

No. 1406-G—Ever Ready, square carton, 2½x2½ in., 1 6-10 volts, 22 to 25 amperes, for use on automobiles, gas and gasoline engines, motorcycles, telephone work, etc., w't 2½ lbs., each .....**BE** $0.38

NOS. 700-G, 1406-G AND 406-G, ONE HUNDRED AND TWENTY-FIVE; NO. 407-G, SEVENTY-FIVE IN A BARREL.

CHARGOMETERS.

No. 6265—Tycos, all parts interchangeable, hydrometer scaled from 1.150 to 1.300 specific gravity, in .005 degree graduations and standardized at 60 deg. F., which is ordinary air temperature, a fully charged cell should show about 1.280 specific gravity and a completely discharged cell about 1.150 specific gravity, rubber and glass, length over all 15 in., w't each 1 lb.....each **CBJ** $5.30

The surest and simplest method of determining the condition of a storage battery is to obtain the specific gravity of the liquid or electrolyte. The chargometer is so constructed that a test of the gravity of the electrolyte may be quickly and accurately made. To assemble the chargometer for use, remove the bulb and rubber stopper from the top and insert the hydrometer with the shot weighted end down, replace the stopper and bulb and the chargometer is ready for use.

SWITCHES.

No. 5131—Acme, rubber base, phosphor bronze removable lever, adapted for lighting purposes.....each **CJ** $0.50

GASOLINE HYDROMETERS.

No. 6263. No. 6264.

No. 6263—Taylor's improved, w't each 2 oz.....each **ABJ** $2.00

For automobile kits, combined with thermometer and correction scale, for variations in temperature, complete with test jar. Wrapped in a soft red flannel pouch and packed in a nickel brass case 1x6 in. so that when not in use it may be safely carried in kit of tools carried by autoists or motor cyclists.

No. 6264—W't 2 oz.....each **CJ** $0.50

This instrument covers a range of Baume Scale from 60 to 82 or 85 degrees. It is contained in a flannel bag, inclosed in a glass testing jar, and encased in a round wooden carrying case 4½ in. long by 1 in. in diameter.

AMMETERS.

For Reading Current in Amperes.

No. 1002-G—1-G—Ammeter, 0-35 amperes, 2 in., nickel plated metal dial, each.....**JIJ** $1.50

For Reading Current in Both Amperes and Volts.

No. 1003-G—8-G—Volt ammeter, 0-35 amperes, 0-10 volts, 2 in. nickel plated metal dial, each.....**ABJ** $2.00

IGNITION BATTERIES.

No. 5180—Vesta, 6 volt Standard, 60 ampere hour, size 9½x5¾x9 in., each .....**ADFJ** $24.30

No. 5181—6 volt, 80 ampere hour lighting battery, size 9½x5¾x9 in., each .....**AGJJ** $28.34

No. 5182—Vesta, 6 volt, 160 ampere hour special lighting battery, size 9½x9¼x9 in.....each **BDCJ** $40.50

No. 5183—Vesta, 6 volt special, size 8x5¾x9 in.....each **JIGJ** $16.20

The standard 6 volt 60 ampere hour battery is the size battery that is universally used for sparking the gas engine in the automobile. In this type of battery solidified sulphuric acid is used, it being about the same consistency as ordinary table jelly.

BATTERY TESTERS.

No. 6266—Metal, with glass tube, rubber bulb, w't each 4 oz., each **ABJ** $2.00

The gauge in the storometer indicates the specific gravity of the fluid when it is withdrawn by pressure on the bulb after pointed tube is inserted in the opening of the storage cell. The proper density of the fluid when battery is fully charged should be from 1215 to 1250. Assuming that a reading is to be taken at full charge and it is 1225, then starting to discharge at 1225: 80 per cent of charge is left when gauge indicates 1200. 60 per cent of charge is left when gauge indicates 1175. 40 per cent of charge is left when gauge indicates 1150. 20 per cent of charge is left when gauge indicates 1125. Practically exhausted when gauge indicates 1100. These figures are not absolutely accurate, but will serve approximately to indicate the state of charge.

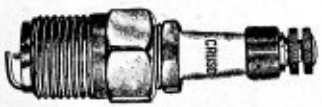
SPARK PLUGS.

Mezger Sootproof.

No. 5237—½ in., Mezger porcelain plug, each ..... E J $0.80
No. 5238—⅜ in., 18 thread, Mezger porcelain plug..... each E J $0.80
No. 5239—Metric..... each E J .80
No. 5240—Sootproof porcelain, extra, each ..... B E $0.40

Standard the country over and universally used.

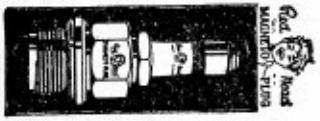
REVONOC



No. 5246 REVONOC—Porcelain, ½ in., standard..... each J E E $0.90
No. 5247 REVONOC—Porcelain, ⅜ in., 18 thread, A. L. A. M..each J E E $0.90
No. 5248—Porcelains for REVONOC spark plugs, extra..... each B J $0.30

The name REVONOC stands for the best of everything in spark plugs; genuine imported porcelain. They will stand the heat of any high tension magneto. REVONOC plugs are guaranteed to give satisfaction.

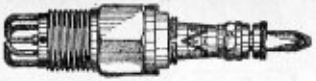
No. 5246-A REVONOC—Special for Ford cars, ½ in., porcelain, w't each 4 oz., each ..... E E $0.90



This plug is the same size and model as No. 5246 REVONOC, except that it has a long hexagon steel sheel, permitting easy access to it with a wrench when plug is used in a deep-seated valve cage as is the case on Ford cars.

ONE IN A BOX.

No. 5249—Cruso, porcelain, ½ in., standard..... each C E $0.60
No. 5250—Cruso, porcelain, ⅜ in., 18 thread, A. L. A. M....each C E $0.60
No. 5250-A—Cruso..... each B J .30



SPARK PLUG PORCELAINS.

Red Head.

No. 5251—½ in. porcelain, each E J $0.80
No. 5252—⅜ in., 18 thread, porcelain, each ..... E J $0.80
No. 5253—Metric, porcelain, each ..... E J .80
No. 5254—Porcelains, extra, each ..... C E .60

The Red Head is one of the best known and most popular plugs on the market, due to its simple, but effective construction.

"V-RAY."

No. 5292—½ in..... each J G J $1.20
No. 5293— ⅜ in., 18 thread, each ..... J G J 1.20
No. 5294—Metric..... each J G J 1.20

The "V-Ray," with its penetration of electrodes, delivers the spark to the gas-area. Other plugs await the belated delivery of the gas to the spark-area in cylinder-wall.

The "V-Ray" has the only self-cleaning device yet devised in plugs.

The "V-Ray" is the ideal "cold-weather plug;" once over cranks your car or engine.

The "V-Ray" terminal cap fits every known terminal.

The "V-Ray" won't soot or miss. The porcelain is too far away to permit the splashing of oil; the Phoenix alloy electrodes can't corrode from heat.

Every part unqualifiedly guaranteed for life. This includes porcelain and metal.

KINGSTON MICA.

No. 5300—½ in..... each E J $0.80
No. 5301—⅜ in., 18 thread, each ..... E J .80
No. 5302—Metric, motorcycle special, each ..... E J $0.80

These plugs are made from mica of best obtainable grade and are recognized as the standard of all mica plugs.

Reliance, "Sparks in Water," Porcelain.

No. 5255—½ in., standard, each ..... J I J $1.30
No. 5256—Metric..... each J I J 1.30
No. 5257—⅜ in., 18 thread, A. L. A. M., each ..... J I J $1.30

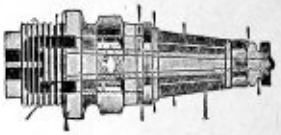
Do not have to be removed from the cylinder, as they positively require no cleaning, are adapted for use in both air and water cooled motors.

Bougie Mercedes.

No. 5276—½ in..... each A A J $1.80
No. 5277—⅜ in., 18 thread, each ..... A A J 1.80
No. 5278—Metric..... each A A J 1.80
No. 5279—Motorcycle..each A J J 1.70

Made of unbreakable stone, which being pressed and baked at a temperature of over two thousand degrees, will withstand the highest temperature without cracking.

"PIRATE."



No. 5305—½ in., w't 2 oz., each ..... B E $0.44
No. 5306—⅜ in., 18 thread, w't 2 oz., each ..... B E $0.44

ONE IN A CARDBOARD CARTON.

No. 5266—Rajah, ½ in., porcelain, each ..... J I J $1.50
No. 5267—Rajah, ⅜ in., 18 thread, porcelain..... each J I J $1.50
No. 5268—Rajah, metric, porcelain, each ..... J I J 1.50
No. 5269—Porcelains, extra, each ..... D E .75
No. 5270—Gaskets for Rajah porcelains, extra ..... each J B $0.05
No. 5271—Rajah Terminals, extra, each ..... J G .12

This plug is simple in construction, easy to repair or replace porcelain, and is thoroughly mechanical in every respect. Insulation—Highest grade imported hard fire porcelain of special pattern, securely packed, which insures against firing through. The new clip terminal does away entirely with the necessity for either thumb screw, nut or other device for attaching or securing wire or cable to spark plug.

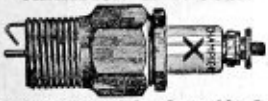
Splitdorf.

No. 5272—½ in., standard, each ..... J G E $1.20
No. 5273—⅜ in., A. L. A. M., each ..... J I 1.50
No. 5274—Metric..... each J I J 1.50
No. 5275—Motor Cycle Metric, each ..... J I J 1.50

Splitdorf common sense plug, taper pin wound with sheet mica, covered with mica washers drawn tight under pressure, impossible to become leaky, firing chamber, soot and oil proof sparking points made of platinum, a valuable plug especially adapted for magneto ignition.

SPARK PLUGS AND CARBURETORS.

CHAMPION REGULAR PLUGS.



Highest Quality Porcelain Center Wire Baked in, No Chance for Leakage, Nickel Points Cannot Corrode, Oxidize or Carbonize.

No. 5284—½ in. .....each **EJ** $0.84
No. 5285—A. L. A. M.....each **EJ** .84
No. 5286—Metric .....each **EJ** .84
No. 5287—Porcelains only, each .....**CE** .56

These plugs are not only one of the oldest makes on the market, but are one of the best. Will be used on regular equipment on 60% of the 1915 automobiles. Plugs guaranteed against imperfections in material or construction.

ONE IN A CARTON.

CHAMPION X PLUGS.

Best Grade Porcelain, Separable Core, Gasket Construction, Similar to Regular Champion.

No. 5280—½ in. .....each **DE** $0.74
No. 5281—A. L. A. M.....each **DE** .74
No. 5282—Metric .....each **DE** .74
No. 5283—Porcelains only, each .....**CJ** .50

The Champion X Plug has no equal for the price, and will not foul or soot. This plug is regular equipment on 1915 Fords and Reos.

ONE IN A BOX.

CHAMPION PRIMING SPARK PLUGS.

No. 5310—½ in., w't each 1 oz., each .....**JHJ** $1.30

This plug is particularly adapted to Ford Cars.

Starts any motor any time on one-quarter turn.

ONE IN A BOX.

SPARK PLUG BUSHINGS.

No. 5352 — Threaded with metric thread inside, standard ½ in. outside, each .....**JG** $0.12

This little appliance makes it possible to use any high grade French spark plug on any machine.

SPARK PLUG BRUSHES.

No. 5354—Presco, wire bristles, hair tuft, 2 tempered thin flat steels, per dozen .....**AHJ** $3.00

CARBURETORS.

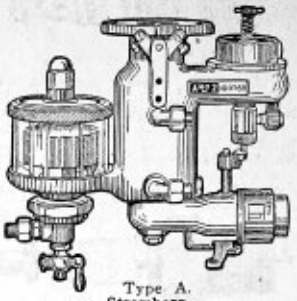
Schebler, Model "D" Standard for Automobiles, Marine and Stationary Engines.

No. 5426—1 in. pipe size, each .....**JIFJ** $16.00
No. 5427—1¼ in. pipe size, each .....**AJBJ** $17.00
No. 5428—1½ in. pipe size, each .....**ACBJ** $22.00
No. 5429—2 in. pipe size, each .....**BFDJ** $4.00

Model "H" for Motorcycles.

No. 5430—¾ in pipe size, each .....**JIJJ** $15.00
No. 5431—1 in. pipe size, each .....**JIFJ** 16.00

Schebler, Model "L" Water Jacketed Feed Automatically Controlled Finer Adjustments.



No. 5432—1 in. iron pipe size, each .....**AJHJ** $18.00
No. 5433—1¼ in. iron pipe size, each .....**ABJJ** $20.00
No. 5434—1½ in. iron pipe size, each .....**AEJJ** 25.00
No. 5435—1¾ in. iron pipe size, each .....**AHJJ** $30.00

The Model "L" carburetor has several new features. The air valve is interchangeable so that air can be drawn from either top or bottom.

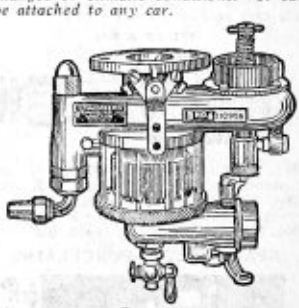
The amount of fuel entering the mixing chamber is controlled automatically by means of a needle valve, directly connected to a roller operating on a cam spring adjustable to different angles by means of the cam spring adjusters. A standard needle is furnished with this carburetor.

The carburetor is provided with a water jacket around throttle, and this should in every case be connected up with the hot water coming from the cylinders, or hot air from the exhaust.

STROMBERG CARBURETORS.

Type A.
Stromberg.

First—See that level of gasoline is opposite line on carburetors, if too high, turn nut down, if too low, turn nut up. This is set right at factory.



Second—Turn this nut up or down until you have a perfect mixture on low speed.

Third—If you have too much gas on high speed, turn this nut down, if not enough, turn it up.

No. 5450—1 in. .....each **AEGE** $36.24
No. 5451—1¼ in. .....each **AHJJ** 30.00
No. 5452—1½ in. .....each **BBEE** 37.50
No. 5453—2 in. .....each **CFJJ** 60.00

The type A carburetor is made with a large water jacket surrounding the mixing chamber which keeps the walls of the venturi tube warm at all times, thereby increasing volatilization.

The Stromberg carburetor gives perfect results in either warm or cold weather. It is impervious to atmospheric changes or climatic conditions. It can be attached to any car.

Type B.

No. 5454—1 in. .....each **AECJ** $25.50
No. 5455—1¼ in. .....each **AGAJ** 28.50
No. 5456—1½ in. .....each **BJGJ** 34.50
No. 5457—1¾ in. .....each **BEBJ** 42.00

The type B carburetor is made for small motors where the space for installing carburetors is limited, also for use on motors that are air cooled or that have the thermo-syphon cooling system. The type B has the independent low and high speed adjustments the same as type A and will develop the same power and speed. It can be attached to any car.

IMPORTANT.

All Stromberg carburetors are sold without fittings. Fittings extra. In ordering, state name and model of car, size and style carburetor wanted, with or without fittings. Prices on fittings and parts furnished upon request.

CABLES, CONNECTORS, TERMINALS, ETC.

ELECTRIC TERMINALS.

No. 5501. No. 5502. No. 5503.

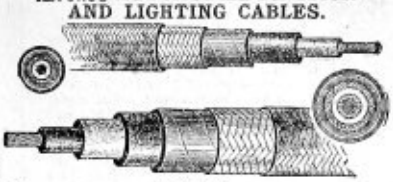
No. 5504.

No. 5501—Copper ....per 100 **CJ** $0.50
No. 5502—Copper ....per 100 **DH** .80
No. 5503—Copper ....per 100 **JGJ** 1.20
No. 5504—Copper ....per 100 **ABJ** 2.00

BATTERY CONNECTORS.

No. 5506—L'gth 5 in., per 100 **ABJ** $2.00
This terminal is made of extra heavy insulated cord; corrugation makes the spring that keeps the nut tight so it cannot jar loose.

No. 5508—Perfection, spring, snap into place instantly, forming a positive connection that will not become loose or jar off—
Per hundred .....**CJJ** $5.00
Per thousand .....**BDJJ** $40.00
Installed and removed by hand without difficulty.
ONE HUNDRED IN A BOX.



No. 1070G—Quick action, per hundred .....**JGB** $1.20
One piece of annealed copper, perfectly and permanently insulated; the attaching ends ribbed to provide stiffness and cushion; the opening is a slot, making attachment to battery post easy and quick, the point is turned up to prevent complete disconnection if nut backs off.

No. 1071G—Bull dog, 4½ in., safe, strong and reliable .....per 100 **JDHJ** $10.00
TEN IN A BOX.

REVONOC AUTOMOBILE IGNITION AND LIGHTING CABLES.

Ignition.

Primary or Low Tension.

No. 5601 REVONOC—Composed of 26 No. 30 plain copper wires insulated with rubber, finished with one glazed red braid, diam. ⅛ in., per foot **JD** $0.06
No. 5602 REVONOC—Composed of 40 No. 30 copper wires insulated with high grade rubber, one varnished cloth tape and one oak colored varnished glazed braid, diam. ⅛ in., per foot .....**JE** $0.08

Rubber Covered Primary.

No. 5603 REVONOC—Composed of 40 No. 30 copper conductors insulated, to a diam. of 6-32 in., red and black rubber, plain finish, diam. ⅛ in., per foot .....**JF** $0.10

Rubber Covered Secondary or High Tension.

No. 5604 REVONOC—Composed of 40 No. 30 copper wires, one cotton wrap, four layers gray rubber, 9-32 in. over all, plain finish, diam. ⅛ in., per foot .....**AJ** $0.18

Rubber Covered Magneto Special.

No. 5605 REVONOC—Composed of 37 No. 27 B. & S. G. tinned copper wires, insulated to a diam. of 7-20 or 9 in. with black, red and black rubber, diam. 11-32 in. .....per foot **AJ** $0.18

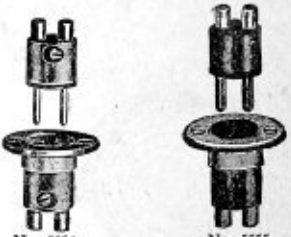
Medium Secondary or High Tension.

No. 5606 REVONOC—Composed of 19 No. 27 copper wires insulated with 5-64 in. high grade rubber having 1-32 in. white core, two yellow varnished cloth tapes over the core, one soft braid saturated with clear wax and finished with oak colored glazed varnished braid, diam. 11-32 in., per foot .....**AB** $0.20

Secondary or High Tension.

No. 5607 REVONOC—Composed of 19 No. 27 copper wires, three layers high grade rubber, three yellow varnished cloth tapes, one soft braid saturated with clear wax, one oak colored glazed varnish braid, diam. ½ in., per foot .....**AD** $0.24
Automobile cables are called upon to stand more severe service than almost any type of electric conductors. By the use of REVONOC cable, unexcelled quality, safety and durability are assured.

Lighting.

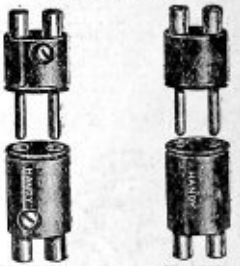


No. 5608 REVONOC—Single Special Lighting cable, composed of 40 No. 30 B. & S. G. tinned copper wires, 35 mils high grade rubber, one varnished cloth tape, one oak colored glazed waxed braid, diam. ⅛ in., per foot .....**JD** $0.06
No. 5609 REVONOC—Double conductor lighting cable composed of two strands No. 5601 cable, one with plain red braid, the other with brown braid, both being covered with the regular REVONOC oak colored glazed waxed braid .....per foot **JH** $0.12
This type of wire has been designed to withstand the most severe auto-lighting conditions, and especially for use with lighting Generators, etc., now in such common use. REVONOC Lighting wire is made up in single and duplex form.

"HANDY" FLUSH PUSH SWITCHES.

No. 5136—Red fibre, 1x2¼ in. lemon brass finish .....each **JFJ** $1.00

"HANDY" FLUSH RECEPTACLES AND PLUGS.



No. 5554. No. 5555.

Nos.	5554	5555	5556	5557

Insulating parts genuine hard rubber, balance lemon brass finish.

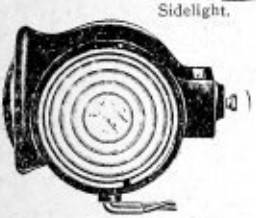
"HANDY" CONNECTORS.

No. 5562—Ediswan, bayonet catch, cannot jar loose, diam. ⅝ in., each .....**DJ** $0.70
No. 5563—Ediswan, open terminals—for soldering—instead of screw, otherwise same as No. 5562 .....each **CE** $0.60



ELECTRIC AND GAS LAMPS.

ELECTROBOLA LAMPS.

Headlight.

Sidelight.

Tail Light.

The body, reflector and supporting lugs of this lamp are combined in one solid aluminum casting, which is lightest and whitest metal possible for this purpose. This construction gives great strength, maximum reflecting surface and at the same time makes them practically indestructible. Collisions and bumps which would demolish the ordinary lamp, have no effect on "Electrobolas." The reflecting surface is accurately ground, highly polished and will absolutely not tarnish. The brilliancy of the "Electrobola" is unexcelled and is so great that it will cast a shadow through the light of the ordinary Acetylene Lamp. A pair of "Electrobola" Head Lights with 16 candle power Mazda bulbs (which are furnished with these lamps) will light up the roadway for a distance of 700 feet. When used with a general outfit the cost of maintenance is virtually nothing. When used in connection with a battery, the operating expense is less than one-half that of a gas outfit. The construction and method of fastening the lens make them dust and moisture proof, non-vibrating and noiseless, at the same time projecting a steady, non-flaring, penetrating white light. "Electrobola" lights also do away with fire risks and disagreeable, gaseous odors. "Electrobolas" are regularly equipped with hard rubber plug connectors and the celebrated Edi-Swan bayonet sockets which hold the bulbs firmly in place, eliminating the possibility of their coming loose and breaking.

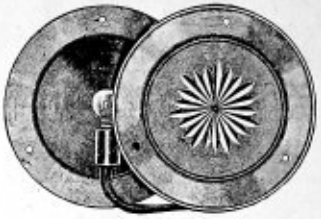
Nos. 5671, 5670, 5663 and 5645 Lamps are finished regularly in Black Enamel with Nickel Trimming. They can be supplied without additional cost in black enamel finish with brass trimming or in the polished aluminum finish.

No. 5671—Headlight, diam. of reflector and lens 8 in., 6 volt, 12 candle power, per pair★ .....**AFJJ** $35.68
No. 5670—Headlight, diam. of reflector and lens 10 in., 6 volt, 15 candle power★ .....per pair **BJJJ** $37.74
No. 5663—Sidelight, diam. of reflector and lens 6 in., 6 volt, 6 candle power, per pair★ .....**AABJ** $18.68
No. 5645—Tail light, diam. of reflector and lens 3½ in., 6 volt, 4 candle power★ .....each **CBE** $5.39

FRENCH STYLE TAIL LAMPS.

No. 5706—Heavy gauge steel body, 4 in. diam. fresnal white lens to illuminate license pad, red fresnal lens to rear combination bracket, w't each 2 lbs., each .....**BDJ** $4.00

These lamps are used as regular equipment on several of the best cars, being patterned after the French style. Being made of steel, body is solidly welded together. Will not jar or rattle loose and are specially adapted for use on trucks.



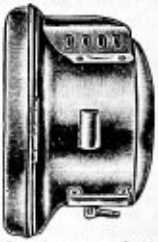
FRENCH STYLE STEEL BODY SIDE LAMPS.

No. 5705—Heavy gauge steel, 4 in. diam. round body, fresnal lens, combination bracket, black enamel, nickel trimmed, w't per pr. 3 lbs., per pair .....**DHJ** $8.00

★*FOR FACTORY SHIPMENT ONLY.*

ELECTRIC INSERT COWL DASH LAMPS.

No. 5695—5 in. diam., white semaphone with frosted rosette, sunken glass, lamp sets in dash being held by 3 screws, opens from rear, Edi-swan socket, w't per pr. 2 lbs., per pair .....**CFJ** $6.00
This price does not include bulb.



These lamps have a nickel rim setting flush with the dash and are fastened from the inside of the dash, where there is a highly silvered hinged reflector. Adapted to cowl form of dash making a very stylish appearance.

ELECTRIC TAIL LAMP.

No. 5698—Electric tail lamp, fitted with Edi-swan switch socket, convex red semaphone lens, white glass at side, combination bracket, black enamel, w't each 1½ lbs. .....each **AHJ** $3.00
This price does not include bulb.

GAS HEADLIGHTS.

No. 5689—Genuine ground glass mirror—short coupled—one piece body, heavy gauge sheet steel, furnished in black enamel with nickel rim only, 8 in. across front, 6½ in. between props, 5½ in. deep, w't per pr. 12 lbs., per pair complete .....**JHAJ** $13.50
No. 5690—10 in. across front, 8¼ in. between props, 6½ in. deep, otherwise same as No. 5689, per pair complete .....**JIIJ** $16.50

ONE IN A BOX.

AUTOMOBILE LAMPS AND REFLECTORS.

COMBINATION OIL AND ELECTRIC SIDE LAMPS.

Nos. 5656, 5662, 5668.

No. 5656, showing Reflector open.

COMBINATION.

No. 5656—All brass, side lamps, per pair★.....**JFFJ** $11.00

No. 5662—Black enameled and brass, per pair★.....**JGJE** $11.75

No. 5658—Black enamel and nickel, per pair★.....**JGEJ** $12.50

All lamps are 4½x4½x11 in.

Bulbs not included at above prices.

The view above illustrates the combination oil and electric side lamp, showing the beveled glass separating the oil and electric chambers, absolutely preventing sooting and smoking up of the parabolic reflector. This combination electric lamp is particularly high grade for electric lighting because of the especially designed and built highly polished and silvered reflector, giving practically the same service as an all-electric side lamp.

PLAIN OIL AND COMBINATION TAIL LAMPS.

No. 5657—All brass, combination electric and oil tail lamps, each★.....**CFJ** $6.00

No. 5649—Plain oil, each★.....**CJJ** 5.00

No. 5651 — Combination electric and oil, black enamel and brass, each★.....**CGE** $6.25

No. 5653—Plain oil, black enamel and brass, each★.....**CAE** $5.25

No. 5659—Combination electric and oil, black enamel and nickel, each★.....**CIJ** $6.50

No. 5650—Plain oil, black enamel and nickel★.....each **CCJ** $5.50

No. 5655—Plain oil, all nickel, each★.....**CCJ** 5.00

All the above lamps are 4½x4½x11 in.

Electric bulbs not included at prices named.

The bulb socket is set in the base of the oil chamber in the corner and far enough away from the oil burner to prevent undue heating or contact with the oil flame.

The same care is used in the manufacture of these as is used in the manufacture of the side lamps.

Combination prop for round or flat brackets, wind shields protecting oil burner from draught, latest oil pot connections.

PLAIN OIL SIDE LAMPS.

No. 5660—All brass, per pair★.....**EDJ** $9.00

No. 5652—Black enamel and brass, per pair★.....**EHE** $9.75

No. 5661—Black enamel and nickel, per pair★.....**JFCJ** $10.50

No. 5654—Full nickel, per pair★.....**JFCJ** 10.50

All lamps are 4½x4½x11 in.

The above lamps are same as No. 5656, without the reflector or electric bulb.

Plain type without reflector, combines absolutely high grade workmanship and heavy material with smart design. The heavy stamped bracket is securely bolted through the brass side of the lamp to a heavy solid steel back as large as the whole side of the lamp, absolutely assuring solidity and stability. These side lamps are superior to anything now offered at any price.

OIL TAIL LAMPS.

HAM'S COLD BLAST.

Standard Size.

No. 5648—Venus, height including bail 12 in., fitted with 4½ in. heavy polished plate beveled lens, 3 in. ruby lens, fount holds sufficient oil to burn 29 hours, w't 3 lbs., each .....**DBJ** $7.00

This is a lamp that rough roads and strong winds cannot affect. "Cold Blast" means perfect ventilation and consequently an intense flame that floods the reflector with brilliant white light. Positively no smoke, odor nor soot nuisance, front glasses do not "sweat" grease, a simple and effective locking device, founts and bodies of heavy brass riveted throughout and reinforced with steel side plates to relieve all bracket strain. Serves as a trouble lamp by the use of bail. Certainly the most reliable oil tail lamp marketed.

ONE IN A BOX.

DUSTY TAIL LAMPS.

No. 5701—4 in. face, 8½ in. high, black enamel, w't 1½ lbs., each **ADJ** $2.30

This is the best tail lamp ever offered at this price. It is equipped with a patent locking device which prevents loosening of oil cup fount.

Furnished in above finishes only.

ONE IN A BOX.

★*FOR FACTORY SHIPMENT ONLY.*

LAUREL.

No. 5647—Heavy gauge black and brass, size of body 4x5 in., a very good lamp at a moderate price, each **BIJ** $4.80

GAUGE LAMPS.

No. 5711—Round type, length 3 in., wired ready for use, each **JIJ** $1.50

No. 5712—Hood design, length 3 in., wired ready for use, each **JIJ** $1.50

Gauge lamps are to be used on the dash of an automobile to light clocks, speedometers or oilers, requiring little space, can be connected with storage battery and consume very little current.

Bulbs not included in price.

CONVERTING REFLECTORS.

Heavy Gauge Brass, Extra Heavy White Silver Plated Coating Added, Unique and Simple Focusing Device Arranged to Take the Shock of Jolting from the Bulbs, thus Saving the Filament.

ELECTRIC LIGHT BULB CASE.

No. 7015—Heavy steel, hinged cover, finely finished black enamel, 5½x3½x 3½ in., capacity 2 headlights, 2 sidelights, 1 tail lamp, 1 speedometer light —for Ediswan base lamps only—w't 2 lbs. .....each JHJ $1.30

Lamps not included.

The only convenient and safe way to carry extra bulbs.

As the Ediswan Base has now practically become standard, case is designed for this type only. This case allows for any assortment of bulbs in the smallest possible space; simply insert base of lamp in the slotted hole, and turn lamp until the projecting pins turn under edges of the holder, thereby securely holding same.

ONE DOZEN IN A CRATE.

Candelabra Base. Ediswan Base.

In ordering Mazda Bulbs for automobiles, be sure to specify voltage, candle power and style of base desired.

MAZDA AUTOMOBILE LAMPS.

The round lamps designated in the following table as "Automobile Headlight," "Automobile Sidelight" and "Automobile Tail-light," respectively, have been designated with stocky, strongly mounted filaments in order to withstand the shocks and jars incidental to automobile service. They are used in connection with storage cells, not only on electric vehicles but on automobiles in general independent of the source of motive power. It is recommended that a voltage of 6—the approximate potential of three cells in series—be adhered to when installing automobile lamps.

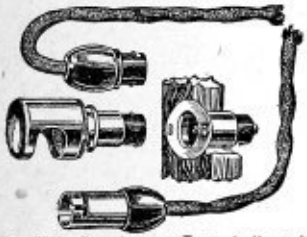
AUTOMOBILE ACCESSORIES.



TROUBLE LAMPS.

No. 5631—Complete with 10 ft. of cord, each .....**AEJ** $2.50

This is one of the greatest conveniences that an automobilist can have. It will reach any place on the machine. It is so small that it can be used where others cannot. The guard protects the little lamp from breaking if it is dropped or hit.

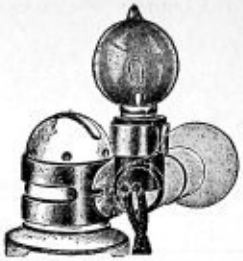
COMBINED GAUGE AND TROUBLE LAMP.

No. 5632—Complete, except bulb, w't 1½ lbs. .....each **AHJ** $3.00

This lamp serves two purposes. Its base is mounted on the dash into which the hooded lamp inserts. It is also a switch in itself, for in turning the lamp to the left it breaks the circuit.

For use as a trouble lamp, unscrew bulb and put it in socket end of the 10 ft. cord, attach plug end of cord to socket in dash and it is ready for use.

ALUMINUM FIGURE ASSORTMENTS.



No. 6295—Assortment consists of 100—3 in. plain aluminum figures punched with escutcheon pins, 10 each figures from 0 to 9, inclusive, per assortment .....**BJJ** $3.30

These are the standard for automobile license pads in a number of states.

WE DO NOT BREAK BOXES.

ELECTRIC ADAPTERS.

No. 5551—Gil-bo, oil burner type, nickel plated spring brass, highly polished, provided with notches which hold electric lamp securely either in a vertical or horizontal position, without bulb .....each **BE** $0.42

No. 5552—Gil-bo, for gas, without bulb, otherwise same as No. 5551, each .....**CJ** $0.48

When in use the bulb is held in the most advantageous position, when not in use the bulb is turned out of the way so there is no danger of the flame breaking the bulb. This is more desirable than straight electric, oil and gas lamps because they provide another source of light supply for emergency use, dotted line in cut shows position Gil-bo adapter assumes when not in use.

ACETYLENE BURNERS.

No. 5901—Duro, sizes ½, ¾, 1 ft., per dozen ..**AHJ** $3.00

These tips have no gas hole, the flame being produced by a single slot. The shape of the flame is flat, thereby preventing the cracking of mirrors in lamp. Easily cleaned and proven exceptionally satisfactory, particularly in a close coupled style of lamp.

No. 5902 — Ambo, brass arm, nickel finish, tips threaded, screwed into arms instead of merely depending on a tapered point and cannot jar loose, sizes ½, ¾ and 1 ft., per doz. **BAJ** $3.50

The best brass arm burner made.

ACETYLENE BURNERS.

No. 5903—Alco DeLuxe, made of Nuremberg, German, steatite, pillar lathe turned from solid hexagon rod, nickel plated, standard height, fits all American lamps, ½, ¾ and 1 ft., per dozen .....**BAJ** $3.50

No. 5904.

No. 5905.

No. 5904—Alco, Nuremberg, German, steatite, fits all American lamps, sizes ½, ¾ and 1 ft., per dozen **AHJ** $3.00

No. 5905—Domestic Lava, sizes ½, ¾ and 1 ft. .....per dozen **JIJ** $1.50

The best medium price burner made.

GRADE METERS.

No. 6178—Complete, consists of curved guass tube, filled with glycerine containing a small steel ball which being very sensitive enables one to ascertain the grade of the road, either up or down almost instantly, each .....**AHJ** $3.00

The tube is incased in a highly nickeled case having a plainly indicated scale, and is usually placed on the body of the car to the drivers' right where it is in constant sight.

AUTOMOBILE CLOCKS AND SUNDRIES.

"MINOT" AUTO CLOCKS.

Cowlboard Type.

No. 5941—Black enamel, nickel rim, 8 day, rim wind and set, 2 in. silver dial, second hand, sets flush with dash, w't each 1 lb., each .....**JGBJ** $12.00

No. 5942—3 in. silver dial, otherwise same as No. 5941, each **JGHJ** $13.00

Dashboard Offset Type.

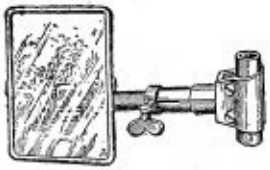
No. 5940—Black enamel, nickel rim, 8 day, rim wind and set, 2 in. silver dial, second hand, w't each 1 lb., each .....**JGBJ** $12.00

The movement in Minot Auto Clocks has quick train, straight line escapement, is reinforced, perfect in workmanship and fully guaranteed. Set by releasing safety lever and turning rim.

In all Minot Clocks, the winding and setting parts are assembled in the movement and have no connection whatever with the case. This eliminates all chance of variation between movement and case affecting the winding and setting mechanism.

ONE IN A BOX COMPLETE WITH FITTINGS.

No. 5931—Duane, one day, case heavy brass with off-set, 1½ in. dial, diam. 2⅞ in., w't 12 oz. ....each **AHJ** $3.00



No. 5932—Jericho, nickel plated or gun metal finish on brass, 3 in. porcelain dial, dust and waterproof case, large distinct black numerals, runs 8 days with one winding, diam. 4¾ in., w't 2 lbs. .....each **DHJ** $8.00

AUTO CLOCKS.

No. 5934—New Ormond, nickel plated or gun metal finish on brass, 3 in. porcelain dial, dust proof case, large distinct black numerals, runs 8 days with one winding, diam. 4 in., w't 2 lbs. .....each **EAJ** $8.50

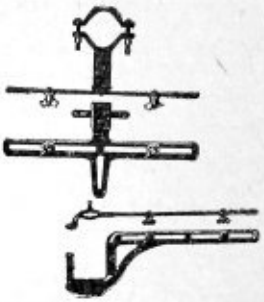
MIRRORSCOPES.

No. 6171—Argos, special plate glass mirror bound in brass, it has a ball and socket joint so that it may be moved in any position, so that the driver can see to the rear, each **BAJ** $3.50

Finished in black enamel only.

BRACKETS FOR LIGHT WEIGHT CARS.

License, Stamped Steel, Black Enameled, Light Weight. Front License Bracket.

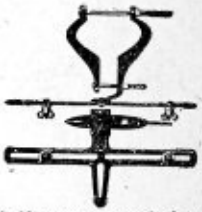


No. 5987—Attaches to headlight bracket on Ford cars when tag is not over 15 in. long .....each **CF** $0.60

Combination Rear Lamp and License Tag Holders for Light Weight Cars.

No. 5988—Interchangeable type, flat prop, made for lamps that do not have combination sockets and require flat prop .....each **CF** $0.60

NEVER OUT LICENSE BRACKETS.

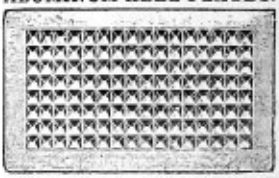


No. 5981—Front, black enameled steel, each .....**DE** $0.76

Easily attached to radiator cap of car.

No. 5982—Rear, black enameled, each .....**DE** $0.76

Quickly attached to any standard lamp bracket, clinched quickly into a steady position that allows the tail light to fall freely on license number.



No. 5986—Never-out, attached to radiator cap, has large oval opening for attaching to cars having oval filler caps .....each **DE** $0.76

Rod License Brackets.

No. 5989—For attaching to any rod between headlights, single grip, can be used on curved or straight rods, each .....**CE** $0.60

ALUMINUM HEEL PLATES.

No. 6176—10½x6 in. ....each **JFJ** $1.00

These plates are to be fastened to the floor board directly back of the foot pedals, protecting the matting from wearing through. They are neat in appearance, and will save their cost many times over in a single season's use.

STEWART MAGNETIC SPEEDOMETERS.

Stewart Speedometers are undeniably superior to all others in construction, materials and design. They embody every improvement and refinement known. The speed of the shaft has been reduced 60 per cent—from 10000 to 400 revolutions. The whole installation, from road wheel gear up to the beautiful one piece drawn brass case, will satisfy the most critical car owner. Clock combinations will be more popular than ever.

IMPORTANT FEATURES.

The Grade Indicator is an exclusive feature, and can be obtained with no other speedometer. The use of the grade indicator will teach the driver just what to expect from his car, telling him when to shift gears in climbing hills. It tells him proper spark position, what to expect in the way of power and speed when ascending grades, and in many other ways helps to get maximum efficiency out of the car.

The Odometer is a plain, hard bronze gear train, positively driven, each wheel positively locked into its proper position—no possibility of the dials slipping—no failure to register the correct mileage—no lubrication required. A big, sturdy, costly mechanism that will run 10,000,000 miles and still be serviceable. The season odometer registers 100,000 miles and repeats. The trip odometer registers 100 miles and can be rapidly reset at any time to any tenth of a mile.

The Stewart Drop Forged Swivel Joint is also an exclusive feature. Satisfactory service of speedometer and equipment depends greatly upon the swivel joint, which eliminates the need of short bends in the flexible shaft, and takes up all movement of the road wheel when steering. The Stewart drop forged swivel joint will outwear any car to which it is attached.

The Flexible Shaft can be tied into a knot without breaking. The inner and outer walls are of special steel wire. The driving core is of steel links, one hooked into the other—the strongest and most durable flexible shaft supplied with any speedometer.

The Road Wheel Gear is of heavy cast steel, with milled teeth of broad profile, that will not cut the driving pinion. The gear is positively noiseless.

The Clocks used on Stewart combinations are the famous Seth Thomas, and are rim wind and rim set. To wind, you turn the rim. To set, you pull out and turn the rim. No key required. No taking off of the bezel to set the hands.

Every unit, every part of the instrument and equipment will bear the most critical analysis. No more suitable material can be purchased. No better workmanship is known. There is no better method of construction. No possibility of making an instrument more accurate or dependable for the purpose.

All Stewart Speedometers are finished in black and nickel.

Model 26—3 in. dial, 60 mile speedometer 100,000 mile season odometer, 100 mile trip register, can be reset to any tenth of a mile, each **AFJJ** $20.00

Three Inch Speedometer without Grade Indicator.

Model C—Rotating dial, 3 in. dial, 60 mile speedometer, 100,000 mile season odometer, 100 mile trip register, without grade indicator, each .....**ABJJ** $25.00

Model C2—Rotating dial, 3 in. dial, 100 mile speedometer, 100,000 mile season odometer, 100 mile trip register, without grade indicator, each .....**BAHE** $30.00

Speedometer with Grade Indicator.

Model B—Rotating dial, 4 in. dial, 60 mile speedometer, 100,000 mile season odometer, 100 mile trip register, grade indicator, no electric light, each .....**DJJJ** $50.00

Model B2—Rotating dial, 4 in. dial, 100 mile speedometer, 100,000 mile season odometer, 100 mile trip register, grade indicator, no electric light, each .....**CFFE** $55.00

Either model equipped with electric light .....**DJJ** $5.00

IN ORDERING SPEEDOMETERS, GIVE SIZE WHEEL, NAME AND MODEL OF CAR.

STEWART SPECIAL FOR FORD CARS.

Model 100-G—Rotating dial, 60 mile speedometer, 10,000 mile season odometer, 100 mile trip odometer, can be reset, black enamel case, etched silver dial with 3 in. face, w't each 12 lbs., each complete .....**JIFJ** $12.00

ONE IN A BOX.

Model G—Rotating Dial, 4 in. dial, 100,000 mile odometer, 60 mile speedometer, 100 mile trip register, which can be rapidly reset to any tenth of a mile, jeweled bearings, polished steel magnet of Stewart "closed rig" type, case is finished in "deep" jet lacquer metal trim, each **CBJJ** $40.00

WARNER AUTO-METER

The Warner Auto-Meter is designed to meet the requirements of those who demand beauty, durability and accuracy in a speed indicator. This instrument possesses these qualities as is evidenced by the fact that the Warner Auto-Meter is specified as regular equipment on the highest priced cars.

The Warner Auto-Meter is made on the magnetic induction principle. A permanent magnet mounted on an insulating carrier is revolved by a flexible shaft connected by gears directly to the front wheel of the motor car. The magnets used are made of a special formula of Tungsten steel and produces a magnet that stays magnetized and does not become weak with age or use.

The Warner Auto-Meter Speed Dial is mounted on a standard ship chronometer pivot, and is very substantially designed in order that the jars of automobiling will not injure this delicate mechanism.

The Warner Auto-Meter has jewel bearings, eliminating friction, which renders it the most accurate instrument made.

WARNER AUTO-METER.

Finish, Black Enamel and Nickel.

AUTOMOBILE JACKS, TIRE SAVERS AND TURN TABLES.

AUTOMOBILE JACKS.

No. 6164—Height 9 in., with screw down, height with screw raised 14½ in., w't 3 lbs....each **JFJ** $1.00

No springs, no gears, no complication, no small parts to stick and quickly rust out. Handle so attached that it cannot be lost. A simple, compact, light-weight, powerful jack, for use with the Saxon, Ford and other light automobiles; also well adapted to Cycle Cars. In every way superior to any other jack on the market offered at a low price.

No. 6162—Capacity 1500 lbs., height bar down 9 in., height bar raised 16 in., w't 4½ lbs.....each **JGJ** $1.20

The Standard Junior is a simple, well-made and reliable jack, suitable for all cars of medium weight. The best jack on the market for the price.

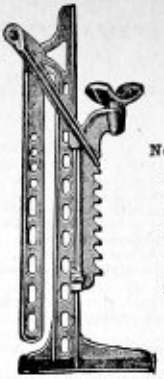
No. 6140—Little Giant Screw Jack, best quality refined malleable iron, high grade steel screw, galvanized or aluminum finish, single turn of pawl raises or lowers, compact, neat, strong enough to raise any automobile made, rise 6 in., height when raised 16 in., w't 5 lbs.....each **JHE** $1.40

AUTOMOBILE JACKS.

No. 6141—Pratt, galvanized malleable iron, light, speedy, compact, five parts held together by two bolts, raise or lower load one notch at a time on the downward stroke, every jack thoroughly tested, capacity 2000 lbs., height of standard lowered 10 in., rise 8 in., height of standard raised 18 in., w't 5 lbs.....each **JIE** $1.60

No. 6142—Capacity 3000 lbs., height of standard lowered 11 in., rise 7 in., height of standard raised 18 in., w't 7 lbs., otherwise same as No. 6141, each .....**AAE** $1.90

No. 6163—Capacity 1500 lbs., height bar down 10½ in., height bar raised 16 in., w't 6½ lbs.....each **AAJ** $1.80



This is a thoroughly high grade jack; made of selected malleable castings except the rack bar, which is solid steel with machine-cut teeth. Hardwood handle furnished.

No. 6143—Malleable iron frame and handle, capacity 1 ton, height 13 in., raises 8 in., w't 7 lbs., each **AHJ** $3.00

The short stroke makes lifting easy and rapid, automatically locks while operating thereby doing away with any possibility of slipping or dropping the load. Fitted with simple and convenient trip lever for reversing.

TIRE SAVERS.

No. 6146—Reliable tire saver, malleable iron with swivel top and leather faced saddle, adjustable to any height wheel or axle, w't per set 25 lbs., per set of four ....**DHJ** $8.00

Auto can be placed within six inches of the walls in garage and still jack can be operated with ease. No trouble to relieve tire from weight of car. This jack will more than pay for itself in one season's use.

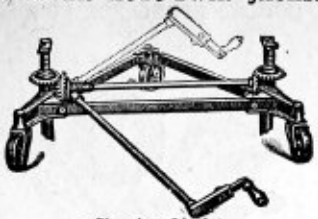
TIRE SAVING JACKS.

No. 6147—Moore, malleable iron, aluminum bronze finish, fitted with leather padded loop, suitable for all makes of cars, w't per set 40 lbs., per set of four .....**EDJ** $9.00

A leader in tire savers, simplest of jacking devices. One straight lever motion will jack up your wheel in a second, freeing your tires from oil soaked, rubber destroying floors, takes all strain from the casing and prevents dangerous bulges that lead to later blow-outs.

This is the lift that means long life to tires.

TURN TABLES.



No. 6150—All steel, w't per set 80 lbs., per set of 2.....**JIJJ** $15.00

Castors turn on a roller-bearing surface making the truck push and turn easily when loaded with the heaviest car. Inclined running board is so arranged that it hangs clear of the floor by the weight of auto wheels when in use, obviating the necessity of holding truck or tipping it when pushing cars on it.

The handiest article for moving automobiles in store rooms, barns or loading on freight cars.

JACKS AND SUNDRIES FOR FORD CARS.

WEAVER "AUTO TWIN" JACKS.

Showing ½ Set.

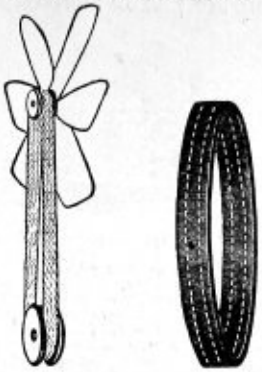
Showing Jack in Use.

No. 6152—High carbon steel and malleable iron, castings are capable of withstanding weights far in excess of any strain which will ever be applied, ball and roller bearing throughout, raising leverage 400 to 1, 1⅛ in. steel lifting screws, capacity 4,000 lbs. each, w't per ½ set 48 lbs.,
Per Set, two complete jacks, one for each axle★ .....**AHJJ** $30.00
Per ½ Set, single jack, for one axle★ .....**AJHJ** $18.00

They embody the combined advantages of a turn table, transport, lifting jack and tire rest. Mounted on a pair of these jacks a car can be turned completely around within its own length. One man can manipulate the heaviest pleasure car with ease. Dismantled cars can be pushed out of the way while the detached parts are being repaired. For arranging cars into the desired position upon shop or show room floors our jacks are indispensable. The screw hoisting principle, 34 in. wheel base and extreme strength of construction eliminate all chance of accident. No possibility of turning over and letting car fall. They are of great advantage in washing cars as wheels are free to revolve while the position of the car can be changed as desired. Brakes can also be safely tested while car is supported on these jacks.

STEWART SPEEDOMETERS.

Special for Ford Cars.



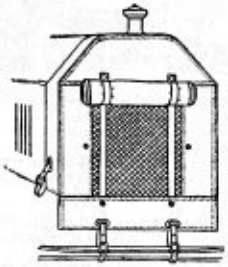
Model 100-G—Rotating dial, 60 mile speedometer, 10,000 mile season odometer, 100 mile trip odometer, can be reset, black enamel case, etched silver dial with 3 in. face, w't each 12 lbs., each complete .....**JIFJ** $16.00

ONE IN A BOX.

★*F. O. B. SPRINGFIELD, ILL.*

ENDLESS FAN BELTS

No. 6241. No. 6242.



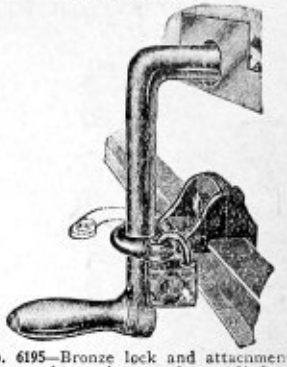
No. 6241—Hand woven from seive twine, impervious to heat and oil, will not scratch, w't each 12 oz., each .....**DJ** $0.70

These belts will outlast several leather belts.

No. 6242—Endless, double stitched leather belt .....each **CE** $0.60

These Fan Belts are double stitched, and the lap cemented with waterproof cement. For Ford cars.

RADIATOR COVERS.

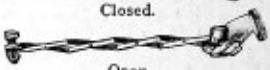


No. 6244—Ford size, enameled rubber cloth outside, heavy blanket material lining, adjustable curtain in front, fits radiator perfectly, w't per doz. 18 lbs. .....per dozen **ADDJ** $24.00

This bonnet is made to be left on during the cold weather. It is hard to get service out of a motor without proper protection against the cold winds and winter. The curtain may be adjusted according to the temperature, so that only the right amount of space can be left open to keep the radiator from steaming. This is one of the best looking devices ever shown. By making in large quantities these may be had as cheaply as an improvised cover.

ONE IN A BOX.

AUTO LOCKS.

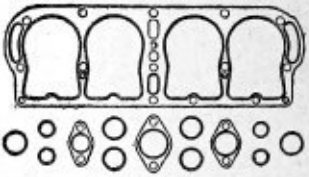


No. 6195—Bronze lock and attachment, instantly and securely applied to front axle of Ford car, locks starting crank in engagement with crank shaft —impossible to start motor, length 4 in., complete with instructions and two keys, w't per doz. 9 lbs., per dozen .....**AJHJ** $18.00

ONE IN A BOX.

PICK UP PLIERS.

Closed.



Open.

No. 6160—Closed 7 in., open 21 in., long, highly nickel plated steel, w't per doz. 4½ lbs., per doz. **EGE** $9.60

This handy device not only keeps your coat and shirt sleeves clean, but is indispensable in picking out small articles dropped in the pan, transmission case, etc.

FORD GASKET OUTFITS.

Gasket Sets.

No. 6238—Copper and brass, high grade asbestos, same as smaller gaskets, complete, each.....**JFE** $1.10

Outfit consists of the following:

1 Cylinder Head Gasket,
1 Cylinder Head Outlet Gasket,
1 Cylinder Head Inlet Gasket,
1 Carburetor Flange,
2 Inlet Pipe Gaskets,
4 Exhaust Pipe Outlet Gaskets,
4 Metric Spark Plug Gaskets.

These Gasket Outfits should be stocked by every repairman in the country. After removing a cylinder head it is not advisable to replace with the old gasket when a new perfect one can be had fitted to a fraction of an inch.

SUNDRIES FOR FORD CARS.

MASTER VIBRATORS FOR FORDS.

No. 5040—New York, coil dash type of Master Vibrator with switch, w't 6 lbs. .....each **JGBJ** $12.00

This master vibrator is designed especially for Ford cars.

BATTERY OR TOOL BOX.

No. 6607—Black enameled pressed steel and double snap fasteners, electric welded, beaded edge around bottom, size 22x9 in., w't 12 lbs., each .....**BDJ** $4.00

Made to fit on running boards.

OIL GAUGE FOR FORD CARS.

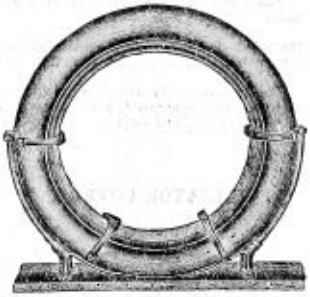
No. 6237—Turned from a solid brass bar, glass ¾ in. in diameter, ⅜ in. thick, has leather washer packing and improved air vent, w't 8 oz., each .....**BE** $0.40

Improved construction makes oil readable at a distance, old pet cock can be screwed into bottom of gauge for draining off oil, and insures the right amount in the crank case at all times.

BUMPERS FOR FORD CARS.

No. 6219—Special double strength steel bar with malleable fittings, finished in black enamel only, w't complete 25 lbs. .....each **CEJ** $6.00

This bumper bar has been designed especially for Ford cars which have no projecting frame, it clamps to the front spring, is easy to install, and is very serviceable.



OIL BOXES FOR FORD CARS.

No. 7130—Per set complete **CFJ** $6.00

These oil boxes are a proven necessity, are easily attached, and force oil to spread between the leaves of the springs, thereby not only preventing rust which makes your car ride hard, and eventually leads to broken springs, but also prevents the squeaking common to rusty springs. With well oiled springs a car glides along smoothly and quietly, due to the greater flexibility of the springs.. No. 7130 made for Ford cars only.

TIRE HOLDERS FOR FORDS.

No. 6010—Running board brackets, rubber finish, w't 15 lbs., per set .....**BEJ** $4.20

Finished in a dull black known as a "rubber finish," very durable and easily attached.

No. 6008—Rear end tire brackets, w't 20 lbs. .....per set **CDJ** $5.64

These are made of malleable iron, can be attached to the rear cross member of car, are adjustable as to height, hold the casings in a vertical position, and will accommodate one or two casings.

SETS COMPLETE WITH STRAPS AND BOLTS.

FOLDING ROBE RAILS.

No. 6004—Steel rod rail, heavily japanned, 32 in. long, folding brackets, for metal bodies, w't 3 lbs., each .....**JGB** $1.20

This rail adapted particularly for Ford cars.

JERICHO HORNS FOR FORDS.

No. 6075—Ford Jericho, aluminum exhaust horns, w't complete 4 lbs., each .....**DEJ** $7.50

The Jericho horn produces a distinctive, penetrating sound heard clearly above the noise of the street. Its warning note demands the right of way without giving offense.

ONE OUTFIT WITH EVERYTHING NECESSARY FOR ATTACHING TO CAR, COMPLETE IN A CARDBOARD BOX.

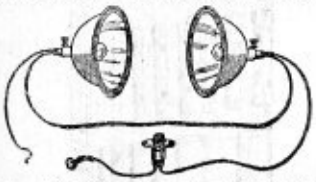
LONG HAND HORNS.

No. 6074—Black and nickel special for Ford cars, w't each 5 lbs., each .....**EDJ** $9.00

The horn that is reliable, nothing to get out of order. Projector is one piece without seam, all gears are cut, housing is made of fine heavy grade metal. All parts enclosed and protected from rain, snow or mud. With a few drops of oil now and then will outlast any car built.

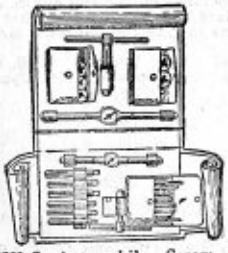
ONE IN A BOX.

SUNDRIES FOR FORD CARS.



JACKS.

No. 6164—Height 9 in. with screw down, height, screw raised, 14½ in, w't each 3 lbs. .....each **J F J** $1.00

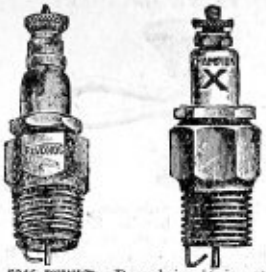


No springs, no gears, no complication, no smal parts to stick and quickly rust out. Handle attached so cannot be lost. A simple, compact, light weight, powerful jack for use with the Saxon, Ford and other light automobiles; also well adapted to cycle cars. In every way superior to any other jack on the market offered at a low price.

ELECTRIC LIGHTING OUTFITS.

No. 5789—One pair of reflectors for equipping the regular gas lamps, with necessary bulbs, wire, switch, etc., ready to install, w't complete 5 lbs., each .....**C J J** $5.00

SCREW PLATES.



No. 2500-G—Automobile Screw Plate contains the following—
1—6⅝ in. tap wrench,
1—9 in. tap wrench,
16 dies and taps, sizes,
6/32-10-24, 10-32, 12-24, 14-24, 7/32-32, ¼-20, 5/16-18, 5/16-24, 3/8-16, 7/16-24, 13/32-16, 7/16-14, 7/16-20, ½-20.
⅛ pipe tap.
Complete in a leather case, w't per set 3½ lbs. .....per set **A B I E** $21.60

This set is arranged with special reference to screw threads on Ford Model T.

It is also adapted to a variety of other cars and for general shop use.

SPARK PLUGS.

No. 5246 REVERSIBLE—Porcelain, ½ in. standard .....each **E E** $0.90
No. 5248—Porcelains, for REVERSIBLE spark plugs, extra .....each **B J** $0.30
The name REVERSIBLE *stands for the best of everything in spark plugs; genuine imported porcelain.*

REVERSIBLE
No. 5246A REVERSIBLE—Special for Ford cars, ½ in., porcelain, w't each 4 oz., each .....**E E** $0.90
This plug is the same size and model as No. 5246 REVERSIBLE, *except that it has a long hexagon steel shell, permitting easy access to it with a wrench when plug is used in a deep-seated valve cage as is the case on Ford cars.*

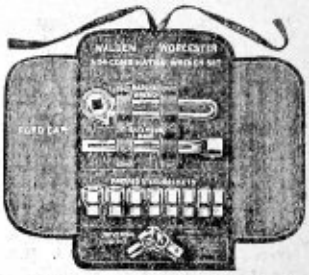
ONE IN A BOX.

Champion.
Best Grade Porcelain, Separable Cone Gasket Construction, Similar to Regular Champion.
No. 5280—½ in. .....each **D E** $0.80
No. 5283—Porcelain only, each **C J** .50
The Champion X plug has no equal for the price and will not foul or soot.

ONE IN A BOX.

Champion Priming.

No. 5310—½ in., w't each 1 oz., each .....**J H J** $1.30



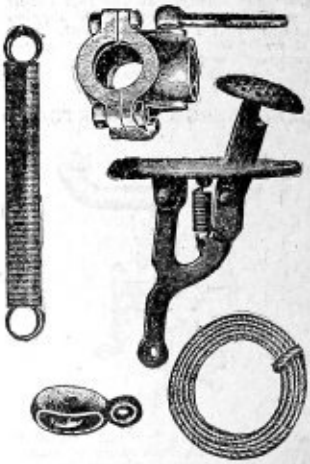
This plug is particularly adapted to Ford Cars.

Starts any motor any time on one-quarter turn.

Open Needle Valve, turning slightly by hand, and gasoline you inject will flow down through its own channel to plug base. Vaporization occurs directly past igniting points. Explosion will result every time on first quarter turn of starting crank, regardless of weather.

ONE IN A BOX.

WALDEN WRENCH SETS.



No. 6500—Consists of 1 ratchet handle, 1 extension bar, 1 universal joint, and 8 pressed steel sockets, w't 10 lbs., per set .....**C F J** $5.00

The Walden Wrench Set is the simplest set of wrenches ever produced. Only three pieces. No loose parts or springs. Nothing to get out of order. All steel is selected; stock machine cut, ratchet teeth, properly tempered and fully guaranteed.

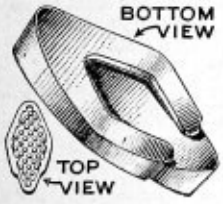
The ratchet wrench gives continuous action, once applied to the nut. Select the socket to fit the nut, no adjusting necessary, no possible chance for slipping, and no damage to the corners of the nut.

ONE SET IN A NEAT CANVAS FOLDING CASE.

CUT-OUT OUTFITS.

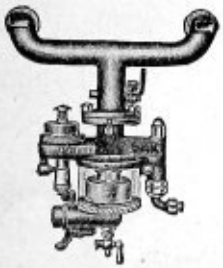
No. 7145—Outfit includes clamp on cut-out valve of pressed steel, japanned pedal, cable, pulley and spring, ready for immediate attaching, price complete in box .....each **J H E** $1.40

This is a high grade serviceable set, easily attached and will outlast the car.



SUNDRIES FOR FORD CARS.

WIND SHIELD VENTILATOR.



No. 7140—Finished in black enamel, per set .....JGJ $1.20
This clever device is an absolute necessity on every Ford Car. It enables the user to quickly adjust his windshield so as to give perfect ventilation, thereby keeping the front part of the car cool.

ANTI-SLIP PEDALS.

No. 6243—3 pieces to set, best grade heavy moulded rubber, fits pedal accurately, w't 1 lb., per set **AEJ** $2.50
These pedals are so formed as to fit tightly and securely on the foot pedals of a Ford car, preventing the slipping of the foot at a critical moment.
A set of these pads is a necessity for owners of Ford cars.
ONE SET IN A NEAT BOX.

STROMBERG CARBURETORS.

No. 5458—Contains special auxiliary starting device, consisting of shutter valve in the main air intake, combined with a cam which locks auxiliary intake shut, has glass float chamber, shows at glance whether carburetor is working or not, w't each ½ lbs. .....each **AIIJ** $13.20
This carburetor is recommended to Ford owners as a great help in starting on the magneto.
Instruction sheet with each.

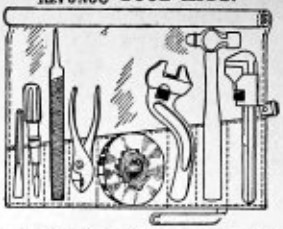
VALVE GRINDERS.

No. 6534—High grade steel, nickel plated, mahogany handle, fits valves accurately, w't each 14 oz., each .....JFJ $1.00
A set of valves can be reground in a few minutes and without difficulty by aid of this handy little tool. It is the only grinder that will fit the last valve on a model T Ford. Will last a lifetime.
LOOSE.

SOCKET WRENCHES.

No. 6540—High grade steel, nickel plated, good leverage, hardened steel socket, w't each 14 oz., each .....DB $0.70
Sockets fit bolts on Ford Cylinder Heads, are machine turned and broached to size, applied to rod by special process, guaranteed not to twist or shear off. Loop handle gives good grip and does not cut the hand.

TOP HOLDERS.



No. 6297—Bair Special Bow, Holders, black enamel, w't per pr. 4 lbs., per pair .....BAJ $3.50
Instantly adjustable to Ford cars. Only necessary to remove old equipment and attach. Save their cost in repair bills in one season.
ONE PAIR IN A BOX.

RADIATOR CAPS.

Cast Brass, Weight per Dozen 6 Lbs.
No. 7155—Highly polished brass, per dozen .....DBJ $7.05
No. 7156—Polished nickel, per dozen .....EJE $8.40
A practical addition to any Ford car, easily unscrewed.

REVONOC TOOL KITS.

No. 6436 REVONOC—Canvas case, with pocket for each tool, small, handy, compact, contains 8 practical high grade tools, w't 5 lbs., each **BGJ** $4.50
10 in. black drop forged wrench.
10 oz. machinishts' ball pein hammer.
8 in. adjustable S wrench and tire tool.
6 in. drop forged combination pliers.
8 in. flat file.
2¾ in. square shank machinists, screw driver.
⅜ in. half polished cold chisel.
½ lb. roll best friction tape.
The "Business-man's Kit." This is the only kit of this type on the market and gives you in a neat small compact manner the tools you require.

No. 6438 REVONOC—Contains 6 double end drawn steel black enameled socket wrenches with U. S. standard nut openings on one end and S. A. E. standard openings on the other end, sockets to take the following sizes of nuts.

Size of Bolt.	U. S. Opening.	S. A. E. Opening.
⅜	13/32	
⅛	½	⅛

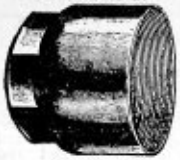
⅜	⅝	⅜
1	25/32	⅞
½	¾	½
⅝	31/32	⅝
⅝		¾

Complete with 2 handles, in a cloth roll, w't each 3 lbs.....each **BJE** $3.40
A most complete set, embodying all



RADIATOR HOSE CONNECTIONS.

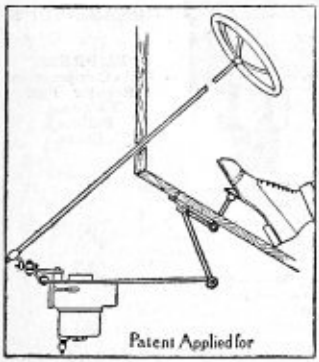
No. 6424—3 ply hose, 1¼ in. diam., 2¼ in. long, w't per doz. 1½ lbs., per dozen .....AHJ $3.00
No. 6425—3 ply hose, 2 in. diam., 3¼ in. long, w't per doz. 1½ lbs., per dozen .....BAJ $3.50
This hose is made especially for use in Ford Cars and is proper length for making radiator connections.

SUNDRIES FOR FORD CARS.

HUB CAPS.

No. 7150—18 gauge polished brass hub caps for Ford cars, w't per doz. 6 lbs., per dozen .....**BDJ** $4.00

Replace lost or dented hub caps and thus protect the nuts on the end of the axles.

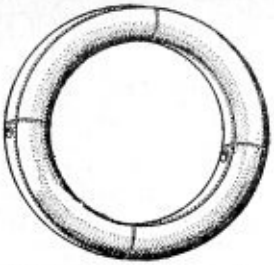


No. 7152—Malleable iron, japanned, w't per doz. 6 lbs., per dozen **DEJ** $7.50

A great help to owners of Ford cars. To remove wheel, simply screw wheel puller on the hub and tighten bolt which forces the wheel off.

LOOSE.

FOOT ACCELERATOR.



No. 6296—For Ford cars, w't each 1 lb., complete per set .....**BDJ** $4.00

Complete, will fit right in regular connections, no cutting or drilling required to attach. Does not interfere with any working part of the car. Works independent from the hand throttle, allowing driver to graduate flow of gas efficiently, thereby saving fuel. In driving over heavy roads and through congested districts it enables the driver to keep both hands on the wheel and yet have the speed of the car under perfect control, also to make a quick and easy start without stalling the motor.

ONE SET IN A BOX.

SPECIAL TIRE COVER.

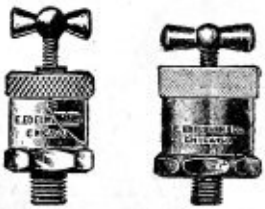
No. 7125—30x3 in. black cover, w't each 1½ lbs. .....each **JIE** $1.60
No. 7126—30x3½ in., otherwise same as No. 7125 .....each **JIE** $1.60

This cover overlaps the circumference of the tire and is held smooth and perfect fitting with buttons.

ONE IN A BOX.

BRAKE LINING SETS.

No. 7170—Set complete, cut to length, rivets included, w't each 1 lb., each .....**AJJ** $1.70

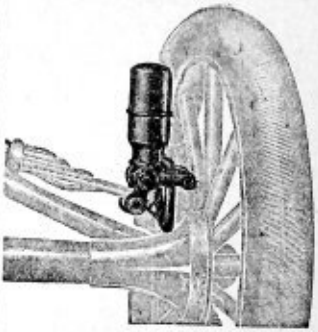


The Transmission Brake Lining eliminates the chatter, caused by brake lining hardening and glazing, and gives long wearing life.

No wire is used in its manufacture, thus eliminating the danger of short circuiting the magneto.

Each box contains one set or three pieces of Brake Lining 23 in. long, 1⅝ in. wide and 5-32 in. thick, together with a sufficient quantity of brass rivets to attach to a set of Transmission Brake Bands.

ONE SET IN A BOX.



GREASE CUPS.

No. 7160—Brass, ⅛ in., I. P. thread, ½ oz. capacity, w't per doz. 2 lbs., per dozen .....**ADE** $2.40
No. 7161—Brass, ⅛ in., I. P. thread, ¾ oz. capacity, w't per doz. 2 lbs., per dozen .....**BDJ** $4.00

LOOSE.

SHOCK ABSORBERS.

No. 6278—Temco, high grade springs, long double coil, sensitive to least jar, 4 in a set, w't per set 30 lbs., per set .....**ACEJ** $22.50

The Temco Shock Absorbers give you luxury of riding anywhere and all the time.

They give the car greater flexibility, reduce friction between the motor and the running gear, save repair and expense, thus keeping your car in better condition and giving you most use and the most pleasure.

Designed and built specially for Ford cars. Guaranteed to give perfect satisfaction.

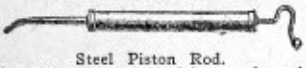
ONE SET (4) IN A BOX. WE DO NOT BREAK SETS.

LICENSE BRACKETS.

Stamped Steel, Black Enameled, Light Weight.

Front License Brackets.

No. 5987—Attaches to headlight bracket on Ford cars when tag is not over 15 in long .....each **CE** $0.60



Combination Rear Lamp and License Tag Holders.

No. 5988—Interchangeable type, flat prop, made for lamps that do not have combination sockets and require flat prop .....each **CE** $0.60

OILERS, GREASE GUNS, ETC.

AUTO OIL GUNS.

Steel Piston Rod.

No. 6301—8 in. barrel, 5 in. nozzle, polished brass.....each **CF** $0.60

No. 6302—10 in. barrel, 5 in. nozzle, polished brass.....each **DB** $0.70

These are useful tools for any engineer. They will draw oil from a drip pan or can. Will handle light or heavy oil equally well. They are equipped with double plungers, one set draws up, the other forces it out. They are well made and will last indefinitely.

No. 6303—1¼x8 in., polished brass, for non-fluid and heavy oil, fitted with cork plunger metal handle with finger clips.....each **DB** $0.70

No. 6304—1¼x 6 in., polished brass, 4 in. straight spout, cork plunger metal handle for heavy oil....each **ED** $0.90

This gun has a screw rod with four threads to the inch.

No. 6305—1¼x10 in., otherwise same as No. 6304.....each **JFE** $1.10

No. 6306—1¼x6 in., polished brass, cork plunger, metal handle, two spouts for oil and grease.....each **JFE** $1.10

No. 6307.

DELTA, Polished Brass Barrel and Spout, Coppered T Handled Piston Rod.

No. 6307—8 in. barrel, combination, capacity 8 oz., piston rod threaded and fitted with lock nut that engages thread on head so piston can be driven down by screw motion when used with heavy grease, or can be used in usual manner for oil, with two spouts, the straight one 2¼ in., the bent one 4¼ in., each **CIJ** $6.50

No. 6308—8 in. barrel, capacity 7 oz., with two spouts, the straight one 2¼ in., the bent one 4½ in., each.....**BDJ** $4.00

Only the best materials are used in the manufacture of Delta oil guns. The pistons are solid brass and run exactly in the barrel of the gun.

AUTOMATIC GREASE GUNS.

No. 6320—1½x8 in., highly nickeled, curved grease spout, 3 in. straight oil spout, metal plunger with piston rings, automatic ratchet and lever for forcing heavy grease, large handle, quickly filled with heaviest grease, w't each 2 lbs.....each **BGJ** $4.50

This grease gun enables you to reach places not readily accessible on a car—operating the gun with one hand, same as you would a pistol, i. e., pull the trigger. A half turn of the plunger rod disengaging the ratchet and gun can be used as a regular oil gun. The most serviceable gun on the market.

OILERS.

No. 6315—Heavily copper plated, ¾ pt., 6½x3x1⅛ in., 4 in. reversible spout with metal cap, drip cap at base of spout catches all surplus oil, each .....**CF** $0.60

Occupies very small space, easily carried in tool kit.

Its powerful spring makes it practically a squirt gun that will throw a stream of oil into any part of the car.

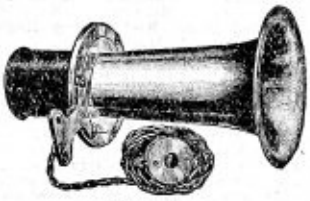
Samson.

This horn is of the same mechanical construction as No. 6034, except equipped with a 6 in. instead of a 13 in. projector. On small cars it presents a very neat appearance.

No. 6055—Heavy cast brass, dust and moisture proof, 8 in. projecture, highly polished, complete with cord and push button, w't 6 lbs. ....each **DCJ** $7.20
No. 6056—Brass and black, otherwise same as No. 6055 ....each **DCJ** $7.20
No. 6057—Nickel and black, otherwise same as No. 6055 ....each **DCJ** $7.20
No. 6058—Black, otherwise same as No. 6055 .....each **DCJ** $7.20
No. 6059—Nickel plated, otherwise same as No. 6055 .....each **DCJ** $7.20

PACKED ONE IN A CARTON.

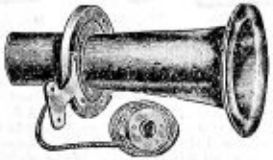


HORN TUBES.

No. 6077—Flexible brass horn tubes, ½x40 in. .....each **JGJ** $1.20
No. 6078—½x50 in., otherwise same as No. 6077 .....each **JHE** $1.40

The Samson Electric Horn is the result of extensive scientific and electrical experiments covering a period of over two years. It gives a startling, insistent and loud metallic tone of penetrating and vibrant character, varying in tone and volume with the adjustment. The Samson Horns only take 1-10 of the battery consumption of other horns and can be satisfactorily used on either dry cells or storage battery, and have but few parts. Samson horns are built in two units, have no outside binding parts to be tampered with. The front unit consists of the diaphragm projector and retaining case, while the rear unit contains the mechanism. Absolutely fool proof.

SAMSON MOTOR DRIVEN HORNS.



No. 6068.

No. 6068—All black, 8 in. projector, complete with cord and push button, w't each 7 lbs. .....each **JGBJ** $12.00
No. 6069—Black and Nickel, otherwise same as No. 6068 ..each **JGBJ** $12.00
No. 6044—Black enamel, 13 in. overall, 6 in. flare, powerful adjustable horn producing an unusually loud and penetrating sound, w't each 8 lbs., each .....**AADJ** $19.00

In the motor driven horn we have reduced the number of operating parts to a minimum. Has a well constructed, reliable motor and a simple sound producing device made by frequent hitting on a diaphragm. Slight oiling once in a while will keep this horn in successful operation for the life of the car. The bearings are heavy phosphor bronze. All parts are in perfect alignment.

PACKED ONE IN A CARTON.

SAMSON POPULAR PRICED VIBRATOR HORN.

No. 6048.

No. 6048—All black, 8 in. projector, complete with push button, 10 feet of cord and mounting bolts, w't each 5 lbs., each .....**CJJ** $5.00
No. 6049—Black and nickel, otherwise same as No. 6048 ....eaach **CJJ** $5.00

This electric vibrator horn is built on pleasing lines to meet the demand for a good low priced horn. The tone is positive and insistent, clearing the road instantly.

PACKED ONE IN A CARTON.

REVONOC HORN BULBS.

Highest Grade Seamless Rubber.

Nos.	6081	6082	6083
Diam., in.	3⅛	3½	3⅝
Each	$1.00	1.10	1.20
	JFJ	**JFE**	**JGJ**
Nos.		6084	6085
Diam., in.		3⅞	4⅛
Each		$1.30	1.40
		JHJ	**JHE**

Fitted with universal thread for attaching to horn.

HORN REEDS.

No. 6093—Rubes', threaded, w't each 1 oz. .....each **BB** $0.35
Per dozen .....**BCJ** 3.80

This reed is made of brass and fitted with a threaded bushing which screws onto horn. Fits any American horn and is far superior to any other on the market.

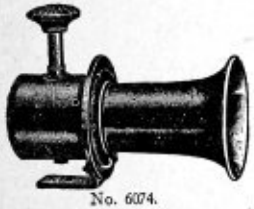
Extra Quality, Especially Annealed, Non-Corrosive Metal.

No. 6091—Plain .....each **AE** $0.24
No. 6092—Tapered .....**AE** .24

MOTORCYCLE BULB HORNS.

No. 6040—3½ in. bell, length 9¼ in., each .....**ADE** $2.40
No. 6041—5 in bell, length 13 in., each .....**BAJ** $3.50

No. 6042—Motorcycle, 4 in., polished brass bell, giving a deep tone, each .....**AFJ** $2.70



No. 6043—3½ in., polished, nickel bell, giving a deep sharp note, 16 in. over all .....each **ACJ** $2.20

AUTOMOBILE HORNS AND PUMPS.

LONG HAND HORNS.

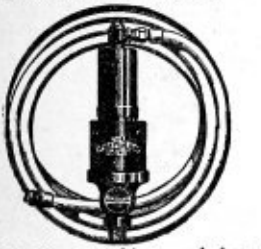
Nos. 6070 and 6073.

No. 6074.

No. 6070—Black enamel, length 9½ in., diameter of bell 6 in., w't each 8 lbs., each ..... **AFBJ** $27.00

No. 6071—Black and nickel, otherwise same as No. 6070 ...each **AFBJ** $27.00

No. 6072—Black enamel, length 7½ in., diameter of bell 5 in., w't each 5 lbs., each ..... **JIJJ** $15.00

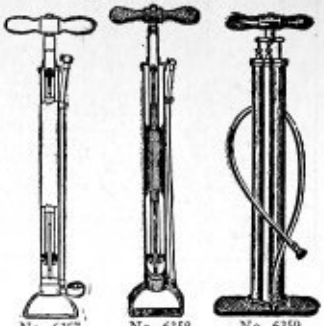


No. 6073—Black and nickel, otherwise same as No. 6072....each **JIJJ** $15.00

No. 6074—Black and nickel special for Ford cars, w't each 5 lbs., each ..... **EDJ** $9.00

The horn that is reliable, nothing to get out of order. Projector is one piece without seam, all gears are cut, housing is made of fine heavy grade metal. All parts enclosed and protected from rain, snow or mud. With a few drops of oil now and then will outlast any car built.

ONE IN A BOX.



SPARK PLUG PUMPS.

No. 6354—All parts of best grade bronze and brass with rubber tubing, furnished with adapters to fit any car and 12 ft. of high grade hose, gauge and connections ready for use, w't 2½ lbs. .....each **JIJJ** $15.00

Remove spark plug from any convenient cylinder and attach pump. The cylinder in use does not fire, therefore in case of dual ignition it is necessary to discontinue the wire from the other plug in the cylinder. After connecting the hose from pump to tire, motor should be started and run on low throttle from three to four minutes.

HAND PUMPS.

No. 6357. No. 6358. No. 6359.

Polished Brass, Best Quality Rubber Hose.

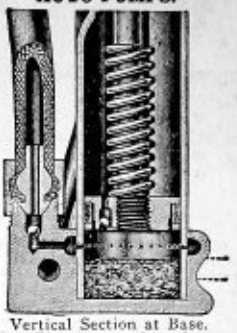
No. 6357—Skinner compound pump, 1½x18 in., with air-tight nipple and pressure gauge .....each **CIJ** $6.50

No. 6358—Skinner compound pump, 1½x18 in., with stirrup base and air-tight nipple .....each **BDJ** $4.00

On Nos. 6357 and 6358 air in large cylinder is compressed into small cylinde on the down stroke, and on the down stroke also this compressed air is forced from small cylinder through a stationary piston and rubber base to tire.

No. 6359—Triple cylinder, compound pump, will inflate tire in half the time of other pumps, 22 in. brass cylinders, 20 gauge seamless drawn brass tubes, heavy case, enameled base .....each **DHJ** $8.00

No. 6360 No. 6361. No. 6362.



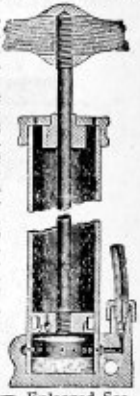
No. 6360—Double cylinder compound pump, height 20 in., iron base, heavy polished brass cylinders, large cylinder 1¾x14 in., small cylinder ⅞x14 in.; 24 in. rubber tube, ebonized wood handle .....each **BAJ** $3.50

This is a compound pump by which the air in a 1¾x14 in. heavy brass cylinder is compounded into a ⅞x14 in. brass cylinder on the up stroke and on the down stroke this compounded air is forced into the tire. The gradual compression makes it possible to obtain 90 lbs. pressure easily.

No. 6361—Stapley, heavy seamless tubing, 14 in. polished brass cylinders, will not rust, absolutely non-leakable joints, automatic valve opener, each ..... **CJJ** $5.00

No. 6362—Ideal, seamless tubing, 16 in. brass cylinder polished and lacquered, fitted with 22 in. 5 ply rubber tube connection .....each **BJJ** $3.30

AUTO PUMPS.



Vertical Section at Base.

No. 6363—Pitner, seamless brass cylinder pump, 18 in. stroke, each ..... **CHJ** $4.30

No. 6370—Pitner connections, each ..... **CJ** .50

The reason why the Pitner Pump is the only pump that can be so guaranteed are shown in the illustrations. It is the easiest working pump on the market, having an 18 in. stroke, and a piston that cannot get out of alignment. It has proven 98% efficient while other pumps waste as high as 20% of the energy put into them. No hand pump can be compared with the Pitner in strength of construction and satisaftcion in service.

The vertical section at base shows all working parts.

Enlarged Sectional View.

Double Action.

No. 6364—Seamless brass, cylinder pump, 18 in. stroke, complete, each ..... **DBJ** $7.00

Sold under guarantee of five years' service. Construction same as in the Pitner Single Action Pumps. Highest grade materials and workmanship. To those who prefer a powerful pump which will inflate a tire more quickly than a single action pump, we recommend the Pitner Double Action Pump. No other hand pump will produce a volume of air equal to that delivered by the Pitner Double Action Pump.

GARAGE AIR COMPRESSORS.

This line, with the exception of Mayos Electric, is guaranteed absolutely high grade, thoroughly practical equipment. Each compressor is equipped with three metallic piston rings, and they are guaranteed mechanically perfect.

BELT DRIVEN.

No. 102G—Two vertical cylinders, capacity of three feet of air at 400 R. P. M., and 150 lbs., requires ½ H. P., w't each 38 lbs., complete with 9 in. tight pulley only★ each **CFEJ** $60.80

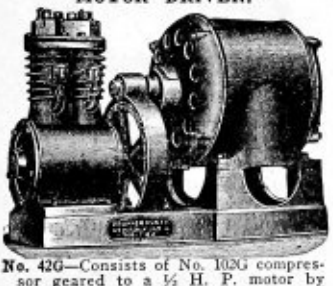
With 9 in. tight and loose pulleys, each★ .....**DACJ** $68.80

With 9 in. pulley and clutch as illustrated★ .....each **DCBJ** $72.00

Suitable for garages housing up to 50 cars, and tanks up to 50 gallons. The best air compressor of its capacity made.

No. 101G—Vertical type, one cylinder, capacity 1½ cubic feet of free air per minute at 400 R. P. M., and 140 lbs., floor space 6½x9 in., requires but 1-3 H. P., w't 28 lbs., otherwise same as No. 102G, complete with 8 in. tight pulley only★ .....each **BAAJ** $35.20

With 9 in. pulley and clutch, each★ .....**BIGE** $49.60



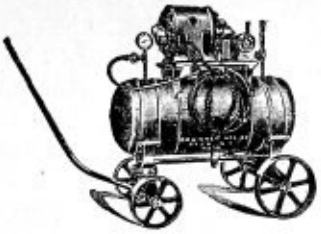
Suitable for garage housing about 25 cars, and tanks up to 24 gallons.

No. 100G—Horizontal type, one cylinder, capacity of one cubic foot of free air per minute at 350 R. P. M., and 135 lbs. pressure, requires ¼ H. P., floor space 8x11 in., w't each 23 lbs., complete with 8 in. tight and loose pulleys★ .....each **AGCJ** $28.80

Suitable for garage housing about 20 cars, and tanks up to 20 gallons.

F. O. B. Factory, Utica, New York.

MOTOR DRIVEN.



No. 42G—Consists of No. 102G compressor geared to a ½ H. P. motor by means of a rawhide pinion gear and mounted on an iron base, operates at 350 R. P. M., capacity 2½ feet per minute, will run pressure in 40 gallon tank from 100 to 150 lbs. in approximately 13 minutes, height 16½ in., floor space 11x18½ in., w't each crated 200 lbs., with 110 or 220 volt direct current motor, each★ .....**ABJJJ** $200.00

With 110 or 220 volt, 60 cycle, 1 phase A. C. motor ★..each **ADDJJ** $240.00

Suitable for garages housing up to 75 cars, and tanks up to 65 gallons, or for garages housing 100 cars if used with our automatic controller.

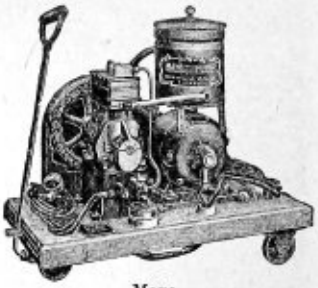
★*F. O. B. FACTORY, UTICA, N. Y.*

PORTABLE ELECTRIC.

No. 50G—16 gal. seamless steel tank, ¼ H. P., motor capable of starting compressor against 120 lbs. tank pressure, guaranteed for 150 lbs. pressure, compressor will run pressure from 100 to 150 lbs. in about 12 minutes, and 150 lbs. tank pressure will inflate two flat 4 in. tires to 90 lbs. before pressure falls to 100 lbs. in tank, or will harden up to a dozen or more soft tires without starting the motor, height 32 in., floor space 21x36 in., equipment includes gauge, hose, air valves, light cord, tire tester and everything complete, w't each crated 350 lbs., with 110 or 220 volt direct current motor★ each **ABDHJ** $208.00

With 110 or 220 volt, 60 cycle, 1 phase A. C. motor★ ...each **ACIBJ** $232.00

No. 52G—Same design as No. 50G, but has 42 gallon seamless steel tank, No. 42 compressor and motor mounted on it, is just 2½ times the capacity of No. 50, floor space 27x41 in., w't each crated 645 lbs., with 110 or 220 volt direct current motor, each★ .....**BDJJJ** $400.00



With 110 or 220 volt, 60 cycle, 1 phase A. C. Motor★ ..each **BFDJJ** $440.00

Equipment is complete in every detail, suitable for the largest of garages.

These are guaranteed the most complete and practical portable outfits made, they operate from any light socket, and when taken from shipping crate are ready for use.

★*F. O. B. FACTORY, UTICA, N. Y.*

PORTABLE ELECTRIC.

Mayo.

No. 6351—Outfit occupies but little space, but is practical and efficient, cylinder of pump 1½ in. bore x 2 in. stroke, base special die cast metal, crankshaft drop forged, turned and ground to size, connecting rod drop forged, marine type, die cast bearing same as used in automobile construction, exclusive oiling system, entire outfit and equipment mounted permanently upon a heavy oak base with ends grooved and dovetailed, mounted on ball bearing castors, being easily moved, attaches to any electric light socket, w't 100 lbs., compressor outfit complete ready for use★ .....**JGHJJ** $130.00

The pump is kept cool by a constant flow of water around the water jacketed pump cylinders supplied from the water tank located over the electric motor and by Thermo Syphon System of flow. No chance of burning out electric motor by starting against too heavy resistance (that of a tire inflated to fifty pounds pressure and over) as the air is first pumped to an auxiliary tank located underneath the pump. This exclusive feature gives the motor time to gain speed before the heavy work is commenced.

Ten feet of electric wire with separable attachment plug. Twelve feet of high grade rubber tubing with thoroughly accurate pressure gauge and tire valve connection. Holders for both electric wire and hose.

Oil cannot get into the tire. Surplus oil is carried on and returned to oil wells and used again.

IN ORDERING, SPECIFY IF FOR ALTERNATING OR DIRECT CURRENT; ALSO IF 110 OR 220 VOLT MOTOR IS REQUIRED.

ONE IN A CRATE.

★*F. O. B. CHICAGO.*

AIR LINE AND PUMP FITTINGS.

NEEDLE VALVES.

No. 82G—Brass, for use on air lines carrying pressures up to 150 lbs., one end has male connection either ¼ or ⅜ in. to screw into pipe line and swivel connection on other end to fit ⅛ in. hose★.....each **AFJ** $2.70

No. 83G—Similar to No. 82G, but is for use in pipe line to do away with ordinary globe valve, both ends have female connections tapped for ¼ or ⅜ in. I. P.★.....each **ADJ** $2.30

SAFETY VALVES.

No. 71G—All brass with ground metal seat, ⅜ or ½ in. male connection, is suitable for either air or steam, reliable indicator for pressures up to 100 lbs.★.....each **AAJ** $1.80

No. 72G—All brass with soft seat, suitable for air pressure only, can be adjusted to blow off at any desired pressure up to 150 lbs., ¾ or ½ in. male connections★..each **BAE** $3.60

IRON CASE AIR PRESSURE GAUGES.

Model A—2½ in. with ⅛ in. male pipe connection, pressure reading up to 180 lbs., has self-contained movement, not affected by jar or vibration of engine★ .....each **CCJ** $5.50

EXTRA HEAVY GALVANIZED AIR TANKS.

The air tanks listed below are made of the best extra heavy open hearth flange steel and are heavily galvanized both inside and out. They are not the ordinary range boiler variety but are made especially for air pressure, and are guaranteed to withstand a pressure of 130 lbs. per sq. in. Made with great care to insure against leakage or accident, and are particularly adapted to garage use.

Capacity, Gal.	Dimensions.		Each.

CATELAIN HOSE COUPLING OR CLAMP.

Consists of a Brass Band ¾ in. Wide, Encircling the Hose and Drawn Tight with a Screw and Brass Thumb Nut. Made to Fit the Following External Diameters.

Nos.	1-G	2-G	3-G
Fits hose, in.	¾ to 1½	1¼ to 2½	2¼ to 4
W't, doz., lbs.	1⅞	1⅝	2
Per dozen	$2.80	3.10	3.60
	AGJ	**AHE**	**BAE**

Clamps any round or oblong shape and can be installed without disconnecting hose. Can be tightened up with the fingers alone. Particularly adapted for applying in places that are hard to reach or where a tool cannot be used. Widely used in connecting up automobile radiators.

ONE DOZEN IN A BOX.

HOSE CLAMS.

No. 4G—⅜ in., per C.....**BDJ** $4.00

No. 5G—7/16 in., per C.....**BDJ** 4.00

No. 6G—½ in., per C.....**BDJ** 4.00

TIRE VALVES AND PARTS.

No. 777.

Shrader Valve Parts.

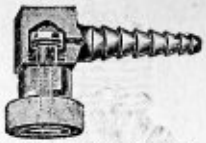
No. 91-1—Caps.....per dozen **BE** $0.42

No. 99-2—Cap washers, per dozen .....**JH** .14

No. 99-4—Inside complete, per dozen .....**CG** .64

No. 777—Schrader, valve for tires up to 3½ in., comes with bushing No. 819, each .....**BI** $0.48

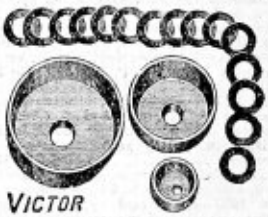
No. 725—Schrader, valve for tires from 3½ in. up .....each **CE** $0.54



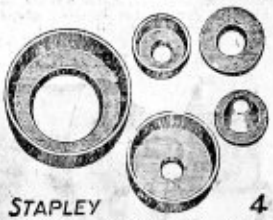
No. 6390—Dust cap for valve Nos. 725 and 777, when supplied with bushing No. 819 .....each **JF** $0.10

No. 819—Bushing for valve Nos. 777 and 725 .....each **JF** $0.10

AUTOMATIC AIR CHUCKS.



No. 6374—Brass, w't each 6 oz., each .....**JIJ** $1.50

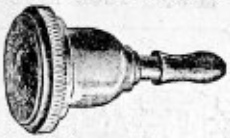


This air chuck has been proven to be the ideal hose connection at the end of storage tank hose line. Saves you air and time. To operate, simply press the air chuck over the tire valve. When you remove it, the valve closes automatically and remains closed until it is again used.

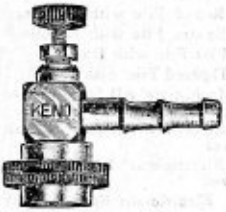
All parts renewable.

PUMP LEATHER WASHER SETS.

No. 6420—Set complete for No. 6359 Victor Pump or any 3 cylinder pump of similar type, w't per doz. sets 1½ lbs., per dozen sets .....**BHJ** $4.70



No. 6421—Set complete for No. 6361 Stapley Pump, w't per doz. sets 1½ lbs.....per dozen sets **AHE** $3.10



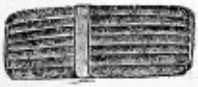
No. 6422—Set complete will fit Nos. 6257 and 6358 Skinner Pumps, 6360 Hill, 6362 Ideal, Imperial, Aeolus, Rex, Kellogg, Neera, and other 2 cylinder pumps, w't per doz. sets 1½ lbs., per dozen sets .....**JIJ** $1.50

AIR LINE AND PUMP FITTINGS.

PUMP CONNECTIONS.

No. 6371—Eclair, complete, each .....AA $0.18
No. 6372—Eclair, rubber only, each .....JC $0.04
Absolutely air tight.
The Eclair is worth while. Can be attached to the tire valve by simply pressing it on and can be removed just as easily. The rubber washers will not wear out, their life being practically indefinite. Exhaustive tests prove that the one washer will stand between 4,000 and 5,000 inflations and when necessary a new one can be inserted in an instant.

No. 6367—Keno, for outside connections, per dozen .....BDJ $4.00



No. 6366—Keno, for inside connections, per dozen .....AHJ $3.00

PUMP SHUT-OFF CONNECTIONS.

No. 6373—"Perfecto," same as our No. 6371 "Eclair," except it has a steel shut-off valve attached, per dozen .....DJ $0.70
Particularly adapted to leads from air tank, in order that the pressure can be regulated at tire.

PUMP HOSE.

No. 6375—Fine grade of black rubber, 3 ply, will withstand any ordinary pressure to which it may be subjected for automobile pump usage, per foot .....JG $0.12

ARMORED GARAGE AIR HOSE.

No. 6377—For rough and severe garage service, specially armored with half round steel wire to stand heavy pressure to prevent injury in service, withstands 2000 lbs. pressure and outlasts several pieces of ordinary hose, made of extra heavy air hose tube and five plies of tire fabric with very high grade friction, made regularly with ¼ in. hole, lengths 12 to 50 ft., per foot .....AD $0.36

PRESSURE GAUGES.

No. 6380—Edelmann, tire gauge for pressures up to 120 lbs, only necessary to remove valve cap and press over valve, remove gauge and read it, remains at maximum pressure, released by small button, guaranteed absolutely accurate, each **AAJ** $1.80
ONE IN A BOX.

No. 6381—Edelmann, tire gauge, may be used either with or without pump for pressures up to 120 lbs., measures pressures while pumping, highly nickel plated.....each **AFJ** $2.70
ONE IN A BOX.

PRESSURE GAUGES.

No. 6382—Edelmann, tire gauge for pressures up to 150 lbs., for use in air line on pressure tanks, air compressors or pumps, placed in line at any point from source of supply to tire, highly nickel plated, each .....JIE $1.60

No. 6383—Edelmann, pump gauge for pressures up to 150 lbs., has ⅛ in. pipe connection on back and can be used on a number of foot pumps, highly nickel plated, each **JIJ** $1.50

TIRE PRESSURE GAUGES.

Schrader Universal.

No. 6386—For pressures up to 120 lbs., length 2½ in., gauge complete, each .....JIJ $1.50
This gauge is of the pencil type, and the best known gauge on the market.
ONE IN A POCKET CASE.

No. 6385—Twitchell, pressure gauge, each .....JIJ $1.50
The famous Twitchell pressure gauge is well known among the trade, and with the refinements of the new gauge, is the most accurate one made. Scale has ratchet which holds in place after applying to tire, making it easy to read. To release indicator press to the side and spring draws it back in place.
ONE IN A BOX.

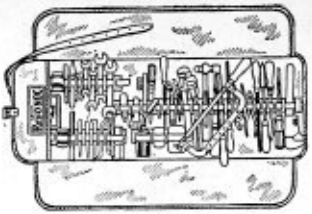
REVONOC WRENCH SETS AND TOOL KITS.

REVONOC ALL STEEL SOCKET WRENCH SETS.

No. 6495 REVONOC—Large Auto Set, all steel socket wrenches, complete in wooden box, consisting of—

1 Handle, nickeled and polished.
1 Long Extension Bar.
2 Short Extension Bars.
2 Screw Driver Bits, 1 large and 1 small.
1 Universal Joint.
1 Spark Plug Socket.
30 Case Hardened Cold Drawn Steel Sockets.

All fully guaranteed, w't per set 15 lbs. .....per set **J G C J** $12.20

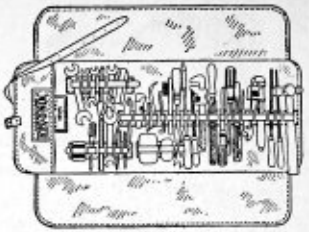


No. 6496.

No. 6496 REVONOC—Small Auto Set, 11 case hardened sockets, w't per set 6 lbs., otherwise same as No. 6495 REVONOC, per set .....**E E J** $9.30

The REVONOC Socket Wrench Sets will fit every nut or bolt on any car and will get into any place no matter how difficult of access. The universal joint permits using the wrench at any angle up to ninety degrees with perfect ease. The REVONOC sets are the best, most fully equipped, strongest, simplest socket wrench sets to be obtained.

REVONOC TOOL KITS.



No. 6437 REVONOC—Garage tool kit, heavy waterproof duck case, genuine leather adjustable retaining strap, with deep end pocket, contains 40 high grade practical tools, w't 18 lbs., each .....**A E C J** $25.50

11 in. Mottled Drop Forged Steel Monkey Wrench and Tire Tool.

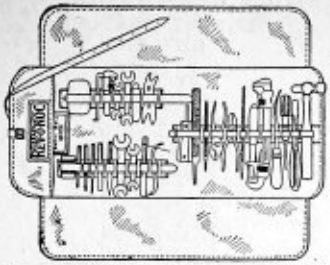
8 in. Square File with Handle.
8 in. Round File with Handle.
8 in. Flat File with Handle.
6 in. Tapered File with Handle.
4 in. Warding File with Handle.
6 in. Side Cutting Pliers.
6 in. Nickel Plated Adjustable Combination Pliers.
6 oz. All Steel Drop Forged Machinists, Hammer and Tire Tool.
10 in. Stillson Wood Handle Pipe Wrench.
6 in. Drop Forked Steel Adj. S Wrench.
4 in. One Valve and Tire Tool.
Wire Bristle Spark Plug Brush.
4 in. Drop Forged N. P. Shop Wrench.
1 Adjustable Hack Saw Frame, Nickel Plated and Blade.
½ in. Cape Chisel Polished Steel.
⅜ in. Cold Chisel Polished Steel.
½ in. Cold Chisel Polished Steel.
⅜ in. Solid Punch Polished Steel.
⅜ in. Center Punch Polished Steel.
⅛ in. Double Bent End Screw Driver.
⅛ in. Cotter Pin Extractor.
Double End Mottled Spark Plug Wrench.
Baby Blow Torch for Soldering.
Box Assorted Lock Washers and Cotter Pins.
Box Soldering Paste.
Spool 20 Copper Wire.
Spool 18 Steel Wire.
½ lb. Best Friction Tape.
Large 5 in. Pocket at End for Waste, etc. Adjustable straps to prevent loss or rattle of tools.

This is the first practical garage or repair man's tool kit to be placed on the market, containing tools that are of service and of such quality that they will answer the purpose. With this kit any repairs can be made that are necessary without inconvenience and all tools are kept in their place due to the adjustable retaing straps.

REVONOC TOOL KITS.



No. 6432 REVONOC—Heavy waterproof duck case, genuine leather adjustable retaining straps, large end pocket, contains 35 high grade practical tools, w't 14 lbs. .....each **J I I J** $16.50

10 oz. Machinists' Ball Pein Hammer.
8 in. Round File with Handle.
8 in. Square File with Handle.
8 in. Flat File with Handle.
6 in. Tapered File with Handle.

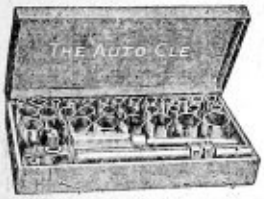
You cannot afford to be without this kit.

WRENCHES AND WRENCH SETS.

REVONOC SOCKET WRENCHES.



No. 6438 REVONOC—Contains 6 double end drawn steel black enameled socket wrenches with U. S. Standard nut openings on one end and S. A. E. standard openings on the other end, sockets to take the following sizes of nuts.

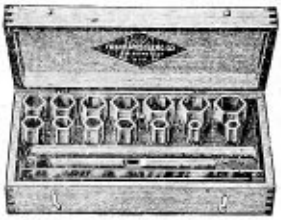
Size of Bolt.	U. S. Opening.	S. A. E. Opening.
7/16	13-32	
1/4	1/2	1/16
1/4	19-32	3/32
5/16	11	7/32
5/16	25-32	5/16
1/2	7/8	3/4
7/16	31-32	7/8
5/8		1/4

Complete with 2 handles, in a cloth roll, w't each 3 lbs. .....each **BJE** $3.40

A most complete set, embodying all of the sizes of bolts usually found on an automobile where a socket wrench can be used.

AUTO CLE SETS.

No. 6506—Large, consists of 1 take-down reversible ratchet handle, 1 swivel or Universal joints which permits using the handle at any angle, one 9½ in. extension bar, one 1¼ in. extension bar, two sizes of screw driver bits, thirty-one sizes of mottled case hardened pressed steel sockets, w't per set 8½ lbs.....per set **JIJJ** $15.00



These sockets will fit all screws, bolts and nuts in general use on automobiles whether of American or foreign manufacture. The parts and sockets are contained in a compact hardwood case fitted with pegs on which to place the sockets, thus making loss of parts unlikely and preventing rattle or noise.

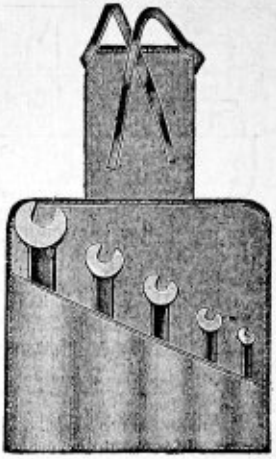
COMBINATION SOCKET WRENCH SETS.

No. 6501—Assortment contains 2 screw drivers, 7 sockets, fitting standard size nuts, and special spark plug wrench in wooden case, w't per set 2¼ lbs.....per set **BDJ** $4.00

This is an extremely simple and practical form of folding socket wrench. It is invaluable for use in motor boats, gas or gasoline engines and enables the user to get into difficult places without burning or injuring the hands, which cannot be done with an ordinary wrench. With this wrench, repairs can be easily and quickly made. Any bolt can be loosened or tightened without getting into a cramped or uncomfortable position.

No. 6505—Assortment, consists of 14 sizes of pressed steel sockets, 1 offset socket wrench handle and 1 T wrench handle, socket fits all Standard and A. L. A. M. Cap screws and nuts, w't per set 4¼ lbs., per set **CJJ** $5.00

WALDEN SOCKET WRENCH SETS.



No. 6504—Consists of ratchet wrench, 9 in. extension bar, Universal joint and 15 assorted steel sockets, mounted on substantial wooden rack and put up in attractive leather case, w't per set 5½ lbs....per set **DEJ** $7.50

This set is suitable for the automobilist, garage and repair man.

The assortment of sockets covers the following standard sizes: Cap Screws from 5-16 to 1 in. Standard Nuts from ¼ to ¾ in., A. L. A. M. from 5-16 to ¾ in., Bolt Heads ⅜, ½, ⅝, ¾ in.

GENERAL PURPOSE WRENCHES.

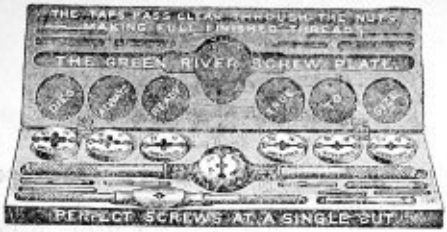
No. 6509—General purpose, set consists of five best grade steel flat, semi-finished double end wrenches, in neat canvas kit, wrenches fit standard nuts, per set .....**JFJ** $1.00

SOCKET WRENCH HANDLES.

No. 6477—Adjustable T handle, fits any socket wrench sets or sockets described on this page, each **DE** $0.76

No auto kit should be without this necessity.

EXTRA SOCKETS.



No. 6478—Extra sockets, for sets Nos. 6501, 6505, 6506, and handle No. 6477, pressed steel, mottled case hardened, shank end made with standard hole, so that all sockets interchangeably fit all our Socket Wrenches, sockets come in the following sizes, Hexagon, 7/16, 11-32, ¼, 13-32, 5/16, 15-32, ½, 17-32, 7/16, 19-32, ¼, 21-32, 11/16, 23-32, ¾, 25-32, 13/16, 27-32, 7/8, 29-32, 15/16, 3-32, 1, 1 1-32, 1 3-32, 1 5-32, 1 9-32 inches, Square, 13-32, 17-32 and 21-32 inches, each .....**AE** $0.24

IN ORDERING, STATE SIZE WANTED.

ONE-HALF DOZEN IN A BOX.

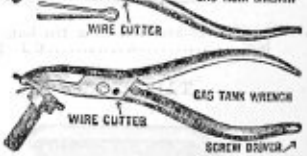
No. 6479—Solid steel, jaws case hardened, mottled finish, length 9 in., per dozen .....DBJ $7.00

No. 6482—With tire removing handle, otherwise same as No. 6479, per dozen .....DEJ $7.50

An extra well made wrench.

No. 6481—Solid steel, tempered jaws, mottled finish, length 10 in. over all, per dozen .....JGHJ $13.00

A patent adjustable wrench with steel handle. Especially desirable for automobile use.



COMBINATION PLIERS.

No. 3120-G—6 in., nickel plated, cast steel, combining gas plier, wire cutter, wrench and screw driver, w't per doz. 6 lbs. .....per dozen CJJ $5.00

ONE IN A BOX.

COTTER PIN PLIERS.

No. 6427—Mesnard's, 7 in., high grade steel, nickel plated, combining cotter pin puller and spreader, wire puller and cutter, gas tank key, screw driver, and tweezers, w't per doz. 4 lbs., per dozen .....JHAJ $13.50

An ingenious combination plier that is indispensable about a motor car.

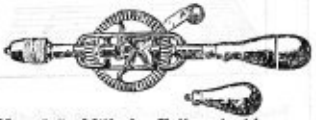
ONE-HALF DOZEN IN A BOX.

SHEET PACKING, GASKETS, TOOLS, ETC.

ASBESTOS METAL SHEET PACKING.

No. 25-G —Red and black, 1-32 in. thick, 40 in. wide, for gas engines, w't per sq. yd. about 5½ lbs., per pound ..... JIJ $1.50

No. 27-G —Red and black, 1/16 in. thick, 40 in. wide, for gas engines, w't per sq. yd. about 4½ lbs., per pound ..... JIJ $1.50



This packing is prepared especially for use on automobile, aeroplane and gas engines, and all other locations where the extreme heat produced by the explosion of gas or other liquid fuel must be withstood. In order that the cylinder heads or exhaust connections may be removed readily without the destruction of the gasket, one surface is especially prepared with a coating of plumbago. The reverse side is red in color and intended to vulcanise firmly to the cylinder.

AUTOMOBILE SHOVELS.

No. 290-G—Emperor, all steel, solid socket, detachable D handle, length 14 in., length over all 30 in., 6½x9 in. polished blade, w't per doz. 40 lbs., per dozen ..... ABIE $21.60

DRILLS.

No. 5-G—Miller's Falls, double gear, length 11½ in., malleable iron frame, cocobolo hollow head and handles, nickel plated chuck, 8 cast steel drills enclosed in handle, holds 7/16 in. round shank drills, w't per doz. 24 lbs., per dozen ..... AGGJ $29.50

ONE IN A BOX.

POCKET MAGAZINE SCREW DRIVER.

No. 60-G—Nickel plated, 4 polished cast steel blades, knurled handle, w't per doz. 1½ lbs., per dozen JFFJ $11.00

The need and usefulness of this tool will be instantly recognized. The four detachable blades of varying widths and thicknesses are conveniently packed in handle when not in use.

ONE DOZEN IN A BOX.

SCREW DRIVERS.

Cross Section "Hurwood" Screw Driver.

"Hurwood" Screw Drivers have blade shank, and head formed of one piece of special steel. A rivet through the ferrule, handle and shank as well as the head with two projecting wings—see cut—securely fastens the handle. This construction makes the "Hurwood" driver unsurpassed for strength and durability.

No. 30-G.

STANDARD TYPE, Special Steel, Finely Tempered Blade, Polished Steel Ferrule, Ebonite Handle.

No. 20-G—Blade, in.	2½	4	6
Tip, in.	5-32	7-32	¼
Stock, in.	7-32	¼	5/16
W't per doz., lbs.	1½	2¼	6
Per dozen	$2.70	3.82	5.40
	AFJ	BCJ	CBE

ONE-HALF DOZEN IN A BOX.

No. 50-G.

PONY, Special Steel, Finely Tempered Blade, ⅛ Inch Tip, 5-32 Inch Stock, Polished Steel Ferrule, Ebonite Handle.

No. 50-G—Blade, in.	4	5	6
W't per doz., lbs.	1	1	1¼
Per dozen	$3.82	4.50	5.40
	BCJ	BGJ	CBE

A special driver designed for light and delicate work, and is made of very small stock and with a small tip. The size of stock, tip and handle is the same in all lengths of blade. As the small diameter of shank wire necessitates a very small rivet, the "winged" head is a great advantage.

ONE-HALF DOZEN IN A BOX.

No. 21-G—Baby, special steel, 1½ in., finely tempered blade, 5-32 in. tip, 7-32 in. stock, polished steel ferrule, ebonite handle, w't per doz. ⅔ lb., per dozen ..... AIJ $3.36

For use where a driver of short length is desired. The blade is strong and the size makes it a handy vest pocket screw driver.

ONE-HALF DOZEN IN A BOX.

ONE IN A BOX.

ASBESTOS YARN PACKING.

No. 6258—2 oz. spools, per dozen spools .....**BAE** $3.60

Asbestos Yarn Packing is soft and strong and makes an excellent packing for Spark Plug Porcelains.

LOOSE.

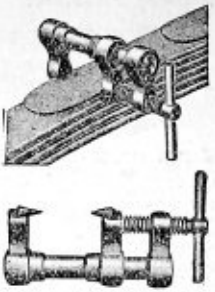
ASBESTOS WICK PACKING.

No. 6259—½ lb. balls, per dozen balls .....**AHJ** $3.00

Asbestos Wick is composed of selected asbestos fiber, spun into strands and made into the form of a soft, strong lamp wick which can be packed in any desired shape around small steam and other valve stems.

LOOSE.

BEARING SCRAPERS.



Curved.

No. 6486—Forged from finest grade of imported steel, properly hardened and hollow ground, well mounted in rosewood handles, per set complete .....**ABJ** $2.00

Illustration one-third actual size. Owners and repairers will find them handy and convenient tools.

ONE SET, 3 SCRAPERS IN A BOX.

SPRING LEAF LUBRICATORS.

No. 6318—Adjustable to any size auto spring, simple, quick and effective, w't per doz. 6 lbs., per dozen .....**ADDJ** $24.00

Spreads the leaves for lubricating, separates them just enough to insert the lubricant; will not damage or mar your springs.

It does away with the jacking up of your car.

The leaves of your springs should be periodically lubricated, to prevent rusting, squeaking, freezing or adhering and eventually breaking.

This is too frequently neglected, owing to the present lengthy and crude methods of lubricating. One jolt of your rusty, squeaky springs may cost you many times the price of a sure preventive.

ONE IN A BOX.

SIMPLEX AUTO CREEPERS.

No. 6173—Designed for use of both auto owners and garage men, hardwood throughout, neatly upholstered, roller bearing casters, is handy at all times, and saves your clothes from dirt, oil and grease .....each **BGJ** $4.50

CARBON SCRAPERS.

No. 6485—Set of three, per set **JIJ** $1.50

These carbon scrapers enable the user to reach any part of an ordinary engine cylinder and by their use all carbon may be removed without the necessity of dismantling the engine. The scraping edges are of such a nature that while they rapidly remove the carbon deposit, they will not cut or scratch the interior of the cylinder.

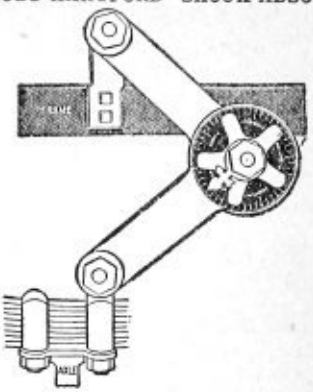
Raybestos Brake Lining is not only better known but is one of the very best and most serviceable linings to be had on the market. Years of satisfactory service under all conditions more than proves its efficiency and worth.

It will not disintegrate during its wearing life, as there are no threads or layers in the material to become loosened through any cause whatever.



It can be drilled and countersunk with the same tools used on metal.

Raybestos is impregnated throughout, thereby increasing its life and giving it a uniform co-efficient of friction.

WE CANNOT ACCEPT FOR RETURN OR CREDIT CUT LENGTHS OF RAYBESTOS BRAKE LINING.

ONE SET (D) IN A BOX.

A smooth running car is a joy forever. Any car can be made smooth running by equipping it with "Truffault-Hartford Shock Absorbers."

The Truffault-Hartford Shock Absorber properly controls the springs, insuring for them their maximum efficiency, practically eliminating the possibilty of breakage and promoting comfortable riding over rough roads.

As the spring action of the car determines its running qualities, the power for good of the device can readily be conceived. Springs, subjected to excessive oscillation, if they do not break, will deteriorate in efficiency in a remarkably short time. The Truffault-Hartford prevents excessive oscillation, practically precluding the possibility of breakage, maintaining the original efficiency of the springs and adding to their life. Every time the wheels of an automobile come in contact with an obstruction or go into a depression in the roadbed, the springs are crushed against the axle. Then comes the recoil, the body of the car is thrown in the air until the springs are expanded their limit. It is in the recoil that the springs are generally broken, the lower leaves of the spring not following the upper ones quickly enough to support them. Hence the break. It is the excessive spring action and excessive trip-hammer pounding that racks the general mechanism of a car and hastens its relegation to the scrap pile.

The Truffault-Hartford positively prevents all this. Controlling, as it does, the action of the springs on both upward and downward movements of the car body, these movements are never extreme, so that there is little or no bound or rebound when the car's wheels sink into a depression or come in contact with an obstruction. The Truffault-Hartford is the pioneer shock absorber—the only successful device of its kind. It positively prevents violent action of the springs without detracting an iota from their flexibility. It eliminates pitching and side swaying, insuring comfort to the occupants of a car even while traveling over the roughest roads.

It makes spring breakage a thing of the past.

It so lessens vibration, jolt and jar, relieving the car's machinery and parts from the racking incident to them, that years are added to the life of a car by its use. Last, but not least, it contributes so materially to the comfort of those who motor that the pastime is made doubly enjoyable. It will fit any car.

FITTINGS.

Mention make, year and model of car when ordering. Special fittings and blue print for making the application to the car are furnished without extra charge.

AUTOMOBILE HEATERS, SEATS, BUMPERS, ETC.

AUTOMOBILE HEATERS.

No. 7-XG—Length 14 in., covered with maroo nmohair plush, w't 9 lbs., each ..... **CFJ** $6.00

Same shape heater as No. 7-DG but with handsomer finish, has slanting flat top, ends of heavy stamped metad, quadruple nickel plated. Has both side and end adjustable ventilators.

No. 7-DG—Length 14 in., covered with superior Brussels carpet, w't 9 lbs., each ..... **BAJ** $3.50

A well known and popular style, having flat slanting top and both side and end ventilators with which it can be made to throw out as much or as little heat as may be desired. It has cold drawn steel ends heavily nickel plated.

No. 127-G—Length 14 in., covered with best grade of green carpet, asbestos lined throughout, patent adjustable ventilators, w't 7 lbs., each ..... **ADE** $2.40

This heater is a popular seller wherever shown and is strong and durable. It has cast ends with steel rods exetending all the way through making it practically indestructible.

No. 5-BG—Length 12 in., covered with fine Brussels carpet, w't 4 lbs., each ..... **ADJ** $2.30

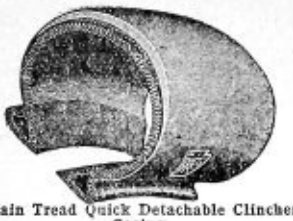
For Nickel Trimmings, add 8M cents each net.

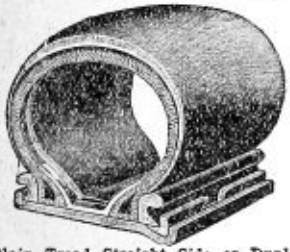


In ordering, be careful to specify if trunk box only is desired or complete with suit cases. Brass trimmed trunks will be supplied on all orders unless otherwise specified.

Dust-proof, rain-proof, steel covered, convenient, economical, durable, smart design and finish.

These trunks are made of the best veneered lumber, are linen lined throughout and are entirely covered with black-enameled, heavy steel, reinforced with heavy metal corners. All trunks have locks, catches, etc., either brass or nickel trim.

The suit cases included are covered with brack duck, linen lined throughout, and have locks, catches, etc., either brass or nickel trim to correspond with trunks.



PENNSYLVANIA OILPROOF AUTOMOBILE TIRES.

Plain Tread Quick Detachable Clincher Casing.

Vacuum Cup Quick Detachable Clincher Casing.

Plain Tread Straight Side or Dunlap Style Casing.

Pennsylvania oilproof tires, both the plain tread and vacuum cup types, are now manufactured by the latest and most modern machinery known in the rubber industry. Each casing is carefully inspected after each operation in its construction, and defects are therefore, very unlikely to occur.

The fabric used in the manufacture of Pennsylvania tires is of the very best quality of Sea Island cotton, closely woven, giving maximum strength and wear when in use.

Each layer of fabric is applied to the previous layer under an enormous pressure, alternating with layers of Upper River fine Para rubber, which is the best grade of rubber known for this purpose, and the different layers of fabric are so thoroughly impregnated with this rubber friction that it forms the perfectly constructed carcass of the tire, having a tensile strength of several thousand pounds.

The tread of Pennsylvania tires is made from a compounded rubber of unusual wearing qualities, also having the extraordinary feature of being Oilproof. This result was obtained only after long and exhaustive tests of the best chemists to be found, and is the only tire on the market having an oil resisting tread. These treads are formed and vulcanized to the fabric under great hydraulic pressure at an even temperature. This method of construction eliminates the annoyance of loose treads or blistering.

Pennsylvania Oilproof Vacuum Cup Tires are the only satisfactory Non-Skid type of tire ever invented that have justified their claims of efficiency. The Pennsylvania Rubber Co. were the first tire manufacturers to market an all rubber, non-skid type of tire, adopting an entirely different principle of manufacture. The tread is moulded with a series of large, heavy, cup shaped rubber knobs, as shown above, which exert a vacuum grip on the surface of the road, the resulting suction preventing slipping of wheel in any direction. This vacuum suction principle is an elementary one. The cups grip effectively on greasy asphalt or ice, and in mud and snow, but in such a way as to operate against lateral movement and not in the slightest degree against the forward rolling of the wheel.

The explanation of this is as simple as the vacuum grip principle. A vacuum held cup can be readily released by lifting one edge first. This is done automatically by the rolling of the tire. The cups grip and release in rapid succession as the wheel revolves.

Thus, while side-slip is effectually resisted, speed is not retarded. The vacuum cup principle possesses another important feature — increased traction power.

In soft clay or mud, Vacuum Cup Treads give the best posible traction. The heavy, cup shaped knobs sink below the surface and grip the soil. Slipping in any direction is practically impossible.

The wearing qualities of Vacuum Cup Tires are practically double those of ordinary tires, as the depth of the big cups is in addition to the extra heavy tread beneath. The arrangement of the cups is such, that the outer rows do not wear down until practically the whole tread has been worn down. The tire therefore retains its non-skid quality to the end. The Oilproof tread insures the greatest wearing resisting qualities, resulting in long life and service.

Vacuum Cup Straight Side or Dunlap Style of Casing.

PENNSYLVANIA INNER TUBES.

The Pennsylvania Gray Inner Tube is the finest tube in the standard regulation class. Made of high grade tough rubber which resists splitting and tearing to an unusual degree. These tubes have conclusively demonstrated their remarkable service qualities in the most severe tests of strength and durability.

The Pennsylvania "Puregum" Red Inner Tube is absolutely the finest grade and quality tube that has ever been manufactured. Gives maximum service capacity. Enclosed in a durable, black rubberized bag and in strong red box. Bears the stamp of highest quality to the last detail.

A definite printed guarantee goes with each Pennsylvania Casing, subject only to proper load and adequate inflation as specified in our liberal schedule.

Pennsylvania Quick Detachable and Straight Side tires are provided with a separate moulded flap for the protection of the inner tube. The beads of Pennsylvania Casings under the latest construction are so designed that the maximum of air space is provided within the casing.

"Pennsylvania Oilproof Casings Carry a Definite Guarantee." Maintained directly with the user by the Penn. Rubber Co. WE DO NOT MAKE ADJUSTMENTS. DO NOT RETURN TIRES TO US FOR ADJUSTMENT.

Prices subject to change without notice.

Tires and tubes will be invoiced at the price in force on date of shipment. We do not prepay freight or express on Back Orders for tires or tubes.

In ordering state size, style, plain tread, or vacuum cup.

Read carefully terms of sale and conditions covering adjustments as outlined in fac-simile of Guaranty Tag attached to every Pennsylvania casing as shown below.

UNDER OUR GUARANTEE

the weight sustained by this casing cannot exceed

Rear Weight	Front Weight
675 lbs.	850 lbs.

Size 33x4.

The air pressure must be maintained at 80 lbs. per sq. in.—viz., the tire should not flatten AT ALL under load.

PENNSYLVANIA TIRES will give satisfactory service with fair treatment under normal road conditions. They are guaranteed against imperfections in material and workmanship, and if defects appear within one year from the date of original sale we will make an adjustment, taking into consideration the mileage covered by the tire and assuming that its normal service would have been 3,500 Miles (4,000 Miles for Vacuum Cup tires). This mileage is taken only as a fair basis for adjustment. The actual service afforded will be greater or less according to the treatment the tires receive.

Blow-outs are caused by a gradual breaking of the fabric, due to
Under inflation, Punctures,
Deep cuts and stone bruises.
Undue wear is caused by:
Overloading, High Speed,
Wheel out of alignment,
No tires are proof against abuse.

36x4½	6	DGE	7.90
36x5	7	ECJ	8.80
37x5	7	ECJ	8.80

REVONOC *Tire Reliners are composed of several layers of the best grade Sea Island fabric, same as used in making casings, being closely woven, each layer on the bias, the whole forming a reliner of unusual strength and durability. Over this construction is a thick layer of gum rubber that self-vulcanizes the reliner to the casing when in use, preventing all possibility of it slipping or creeping, and thereby injuring your inner tube. Each reliner is carefully wrapped in heavy oil paper and packed in a strong attractive box and carries a full season's guarantee.*

ONE IN A BOX.

REVONOC INNER TUBES.

Size in	W't. each, lbs.		Each.
28x3	2	BFJ	$4.32
30x3	2½	BGJ	4.52

36x4	5¾	ECE	8.92
36x4½	6	JFEJ	10.84
37x5	7	JGDE	13.02

The REVONOC *Inner Tube is made from the best grades of rubber, especially selected for durability and maximum wearing qualities. This tube is placed in a neat draw string bag and then packed in a strong attractive box. We attach to each tube in tag form a printed guaranty, being the only firm that attaches a definite guaranty to our tubes. The* REVONOC *Tube is constructed of heavy compounded rubber, gray in color, seamless and having a moulded valve base, which adds great strength at a point that always has been the weak part of a tube.* REVONOC *Tubes when used with a Quick Detachable or Dunlap style of casing should be, without exception, used with protection strips.*

Due to the unsettled condition of the rubber market, our prices are subject to change without notice.

ONE INNER TUBES.

Size.	W't. each.		Each.
28x3	2½	CCJ	$ 5.50
30x3	2½	CDJ	5.70

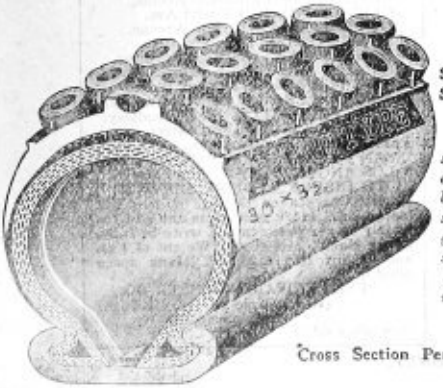
36x4 or oversize 37x4½	5½	JGAE	11.90
36x4½ or oversize 37x5	6 7	JHAE	13.90

The ONE *"Quality" red tube was carefully selected after exhaustive tests to secure the highest quality materials and compounds possible to use in the manufacture of a serviceable red inner tube. It is made from the best grade of fine para rubber obtainable, producing a tube having no equal in wearing or lasting qualities.*

Our ONE *tube has an outside reinforced valve base and steam cured splice, which gives additional strength at the two points where many tubes are weak.*



The ONE *"Quality" red tube comes packed in a substantial, round, highly lithographed tin box that fully protects the tube from injury, and the box proves very useful to hold odds and ends after removing the tube.*

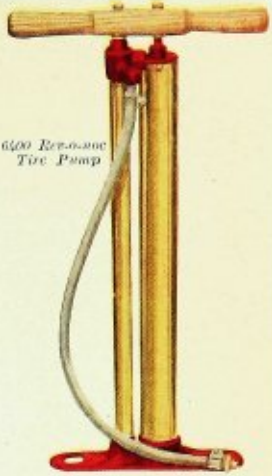
The ONE *tube is not only branded with the regular size, but the correct oversize, being fully warranted according to our guaranty when used in either size casing. This feature reduces the number of sizes it is necessary for the dealer to stock.*

We attach to each tube a printed guaranty tag, being the first firm to put out a definite written guaranty on inner tubes. We also include with each tube a small envelope of Cruso tire talc which if used greatly prolongs the life of the tube as it helps to eliminate friction.

ONE *"Quality" red tubes when placed in Q. D. clincher or Dunlop casings should without exception be used with protection strips.*

FORD TYPE VACUUM CUP CASINGS.

Cross Section Penn. "Ford Type" Casing.



Size 30x3 .....each AECJ $25.50
Size 30x3½ .....AHIE 31.60

Ford Type Casings in the above sizes only, have been prepared for our trade by the Pennsylvania Rubber Company. These casings are scientifically and carefully built to give maximum service and bear the same guaranty as the regular Vacuum Cup Casings based on 4,000 miles instead of 4500 miles.

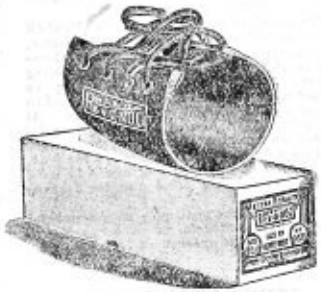
REVONOC AUTO SPECIALTIES.

REVONOC HOOK ON TIRE BOOTS.



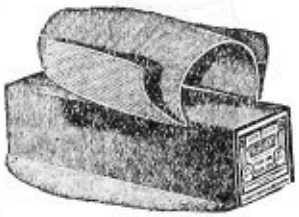
No. 6673—Hook On Boots, 3 in., w't each 1 lb. .....each **JGE** $1.30
No. 6674—Hook On, 3½ in., w't each 1 lb. .....each **JIJ** $1.50
No. 6675—Hook On, 4 in., w't each 1 lb., each .....**AJJ** $1.70
No. 6676—Hook On, 4½ in., w't each 1 lb. .....each **AAE** $1.90
No. 6677—Hook On, 5 in., w't each 1 lb., each .....**ABJ** $2.00

REVONOC *Hook on Tire Boots are the same as the Lace On, with the exception of having steel hooks securely riveted to enable one to hook same under the flange of the rim, holding the Boot in place. The most serviceable and durable made.*

Each REVONOC *Boot is wrapped in oil paper, packed in a neat, attractive box and carries a full season's guarantee.*

ONE IN A BOX.

REVONOC LACE ON TIRE BOOTS.



No. 6670—Lace On Tire Boots, 2½x3 in., w't each 1 lb. .....each **JHE** $1.40
No. 6671—Lace On, 3½x4 in., w't each 1 lb. .....each **JIE** $1.60
No. 6672—Lace On, 4½x5 in., w't each 1 lb. .....each **AJE** $1.80

REVONOC *Lace on Tire Boots are composed of several layers of Sea Island fabric vulcanized together with the best friction, having a heavy outside layer of rubber. Each boot fits accurately to the casing and has feather edges to avoid jolting when in use, complete with rawhide laces.*

ONE IN A BOX.

REVONOC DOUBLE LOCK TIRE SLEEVES.

No. 6640—Double Lock, 2½x3 in., w't each 1 lb. .....each $1.20

No. 6641—Double Lock, 3½x4 in., w't each 1 lb. .....each $1.40

No. 6642—Double Lock, 4½x5 in., w't each 1 lb. .....each $1.60

REVONOC *Double Locks are a moulded and vulcanized patch, made of best grades of fabric and friction, having flaps to lock under the bead, preventing slipping when in use. Fits the casing accurately and will last as long as the tire.*

REVONOC CEMENTS.

Vulcanizing.

Rubber.

No. 6700 REVONOC — Rubber Cement, 1x4 in. tubes.....per dozen $1.50

No. 6701 REVONOC—Rubber Cement, ¼ pt. cans .....per can $0.24

No. 6702 REVONOC—Rubber Cement, ½ pt. cans .....per can $0.50

NO. 6700, ONE DOZEN IN A BOX. WE DO NOT BREAK BOXES.

No. 6706 REVONOC—Vulcanizing Cement, ½ pt. cans .....per can $0.48

No. 6707 REVONOC—Vulcanizing Cement, 1 pt. cans .....per can $0.92

For use with steam or electric vulcanizers.

REVONOC *Cements are guaranteed to be the best possible product obtainable and to do work satisfactory if directions are followed.*

REVONOC RADIATOR AND BOILER COMPOUND.

No. 6251—½ pt. cans, w't per can ½ lb., per can—.....**JGJ** $1.20
No. 6253—1 pt. cans, w't per can 1 lb., per can .....**JIJ** $1.50

REVONOC *Radiator Compound may remain in the entire water system for an indefinite period as it contains no grit or acid, and it is impossible for it to clog the water circulation or interfere in any manner with the cooling system. Its action is similar to the corpuscles of the blood. The compound coagulates upon coming in contact with the air as it flows from the opening where the leak is located, becoming harder than solder from the heat of the water system and action of the air.*

This action, this coagulation, takes place in less than twenty minutes. Only enough time is required to permit the compound to reach the leak where there is air, the action takes place.

In addition to the above, which is sufficient to make it a real necessity, the compound will absolutely cool water in the water system, because the compound dissolves all foreign substances in both radiator and water jackets, allowing a free passage of water at all times, thus guaranteeing radiation.

Will remove obstructions in plugged up radiators. Repairs made are permanent without removing radiator from car.

AUTOMOBILE AND GASOLINE ENGINE ENCYCLOPEDIAS.

No. 6245—Dyke's.....each **BDJ** $4.00

Terse, extravagantly complete and pulsing with motor life. Four hundred pages of live instruction.

To begin with—It is readable, you will enjoy every page—every line of it. Practical theory will crowd out careless fiction. Lessen the upkeep. Reduce gasoline, oil and repair bills, tire and magneto losses. Avoid overhauling your engine—don't develop engine troubles—save your transmission, axles and bearings.

SUNDRIES.

"CRUSO" TIRE TALC.

No. 6752—Finest grade imported French Talc, put up in durable packages with sifter tops, per dozen.....AAE $1.92

PACKED IN 1 LB. PACKAGES; 12 IN A CARTON; WE DO NOT BREAK CARTONS.

MICA TIRE POWDER.

No. 6750.

No. 6751.

No. 6750—Blue lithographed tin tubes, 8¼ ×2¼ in., solid sifter top and screw cap per dozen.....AHJ $3.00

No. 6751—Heavy cardboard boxes, 7¾ ×2 in., with sifter top, per dozen.....ABJ $2.00

Non-caking, prevents friction, will not absorb moisture, a perfect insulator. Keeps inner tubes from heating and sticking to the casing

Mica tire powder is acknowledged by users to be superior to all other powders; mica will not absorb moisture, therefore will not cake like talc, soapstone and French chalk. Once sprinkled in the casing it stays there.

TIRENEW.

No. 6935—12 oz. cans, white only, w't per case 85 lbs., per can....DE $0.75

Per case.....ABHJ $21.35

4 IN A CASE.

Put up in highly enameled and lithographed cans and pails having a patented air-tight friction top.

Tirenew is a scientific preservative of automobile tires, a liquid rubber dressing or coating that penetrates into every cut and crevice of the tire, thoroughly waterproofing the fabric and preventing decay.

It leaves the tire completely coated with a new surface impervious to water.

It does not have to be mixed, it is ready for use and is easily applied with a brush, has a pleasant odor, dries quickly and becomes a part of the tire itself.

It will not rub off as do chalk preparations, and it absolutely protects the tire from its worst enemies, light, oil and water.

Tirenew is made in white and makes all tires look bright and new and improves the appearance of the automobile 100 per cent.

"CRUSO" BRASS BLACK.

No. 6254—½ pt. cans, per dozen DDJ $7.20

This preparation is made expressly for coating the brass parts of an automobile, giving a beautiful velvet black finish that will withstand the heat and not chip. Brass black is waterproof. Directions in full on each can.

ONE DOZEN IN ATTRACTIVE COUNTER DISPLAY BOX.

"CRUSO" FENDER FINISH.

No. 6255—1 pt. cans, per dozen DDJ $7.20

This liquid is designed to stand the great wear and tear to which an automobile finish is sure to be subjected. Especially adapted for repairing scratched mudguards.

Fender Finish can be applied by anyone to either the wood or metal parts of an automobile. Can be used on the wheels, running gear or bows supporting the top. Prevents rust and leaves a beautiful high grade finish.

Contents of can will keep indefinitely if covered.

SIX CANS IN ATTRACTIVE COUNTER DISPLAY BOX.

SE-MENT-OL RADIATOR CEMENT.

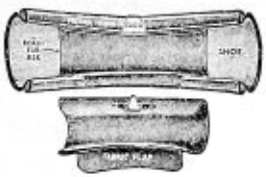
No. 6252—Radiator cement, per box.....EE $0.90

Se-Ment-Ol is a self-acting radiator cement. By this we mean that it is no longer necessary to take off your radiator and have it soldered when you discover that it is leaking. Simply take off the cap and strainer, pour in the proper amount of Se-Ment-Ol and your radiator will be repaired in ten minutes without further effort on your part.

The peculiar properties of Se-Ment-Ol enable it, when poured into the radiator, to dissolve in the hot water and therefore to flow throughout the entire cooling system. As the Se-Ment-Ol comes in contact with the leak it becomes exposed to the air and is brought out of solution. At first only a thin film of Se-Ment-Ol is deposited on the lips of the leak, but as the solution continues to flow through the leak, this deposit is added to and added to until the leak is entirely filled and the leaking stopped.

Se-Ment-Ol has positively no detrimental effect upon either metal or rubber and will not clog the finest passage in the radiator.

INNER TUBE CASES.



No. 6785½— Enameled duck, oil and waterproof, soft, will not chafe the inner tubes, fastened tightly by means of glove fasteners, for two tubes, each.....DJ $0.70

No. 6786 — Enameled drill, for one tube, otherwise same as No. 6785, each $0.46 BG

The light cannot penetrate the inside of the bag, therefore tube is protected.

TIRE REPAIRS.

HAGSTROM INSIDE BLOW-OUT PATCHES.

Will Fit Either Clincher or Quick Detachable Casing.

Nos.	6621	6622	6623	6624
Size of tire, in.	3	3½	4	4½
Each	$1.50	1.80	2.04	2.28
	JIJ	AAJ	ABE	ACE

The Hagstrom patch is inserted inside the casing without removing it from the rim. It is invisible when inserted and has not a bulgy appearance which causes the uneven riding which commonly results from the use of an outside patch. It has a patent metal hook which prevents the patch from creeping in the casing.

AUTO SHOES.

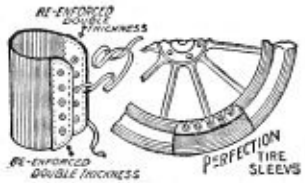
For Repairing. An Inside Shoe or Plaster of the Best Sea Island Fabric, with Heavy Coat of Raw Cement.

Nos.	6626	6627	6628
Size of shoe, in.	2½x3	3½x4	4½x5
Each	$0.80	.80	.80
	DH	DH	DH

Ready for instant use. Being made of Sea Island fabric and vulcanized together makes the shoe as strong as a casing.

Double Lock Shoe, a Moulded Vulcanized Patch. Made of Several Plies of Fabric with a Flap to Lock Around the Bead.

Nos.	6629	6630	6631
Size of shoe, in.	2½x3	3½x4	4½x5
Each	$1.10	1.30	1.50
	JFE	JHJ	JIJ



U. S. TIRE RELINERS.

Nos.	6632	6633	6634
Sizes, in.	2½x3	3½x4	4½x5
Each	$0.34	.70	1.06
	BJ	DB	JFE

This patch is to be used in emergency cases in repairing blow-outs. It is used alone or in connection with tire sleeves. Made of high grade friction tire fabric and rubber.

TIRE SLEEVES.

Perfection Outside Blow-Out Patches, Special Tanned Semi-Rawhide Leather, which is Unequalled for Wear.

Nos.	6652	6653	6654
Size, in.	3	3½	4
Each	$0.60	.75	.90
	CE	DE	EE
Nos.	6655		6656
Size, in.	4½		5
Each	$1.05		1.20
	JFE		JGJ

It is easy to adjust and can be slipped over the tire in a few minutes in case of damage to tire on road.

The oils and greases in the leather used in this patch have been entirely eliminated so as not to affect the rubber in the tire.

Put up one in an envelope complete with sufficient rawhide lacing to adjust same to tire.

TIRE BANDS.

MESSINGER

Flexible Chrome Leather with Rawhide Lacing.

Nos.	6657	6658	6659
Size of tire, in.	3	3½	4

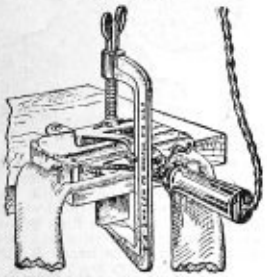
SHALER VULCANIZERS.

GARAGE STEAM VULCANIZERS.



No. 6815.

No. 6815—Type N. P. R., complete garage outfit as illustrated, consists of six clamps and blocks for tube work, casing clamps, tape for wrapping treads, thermometer, steam gauge and safety valve, w't packed 170 lbs., per outfit ..... **EDJJ** $90.00

No. 6816—Type N, equipped with tube work only, otherwise same as No. 6815, w't packed 140 lbs., per outfit ..... **CAEJ** $52.50

Designed to cover the requirements of a garage or repair shop. Will handle every sort of vulcanizing except retreading. The tube plate has a machined surface 4x30 in., and will vulcanize six tubes as quickly as one. It can be heated independently of the casing attachments or used simultaneously with them. Pressure is applied to tubes by means of swiveled clamps which insure uniform pressure to every part of each repair. Type P goes inside the tire, bringing the heat directly against the fabric. Type R heats the repair from the outside. A wrapping of tape and the Shaler clamping device produce an enormous pressure that forces the new and old material into most intimate contact. Type R will also repair the sand pockets and tread cuts while tire is on the wheel, fully inflated. The boiler, a copper coil heated by a powerful gasoline burner, raises steam to the vulcanizing pressure in about twenty minutes. A thermostatically controlled damper keeps the temperature of the steam at the correct vulcanizing point automatically. The automatic feature eliminates danger of imperfect repairs.

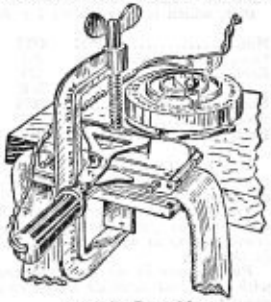
MOTORISTS' ELECTRIC MODEL.

Repairing Tube, Type D, Portable.

No. 6805—Iron, alternating current, each ..... **AACE** $18.96

No. 6807—Iron, direct current, each★ ..... **AABE** 18.76

No. 6808—Nickeled, direct current, each★ ..... **ACEJ** 22.50



For auto owners. Flat face for vulcanizing inner tubes and durable metal warp-proof shelf with inlaid asbestos pad on which to lay them when vulcanizing. Concave face for vulcanizing casing while on wheels, with curved edge for repairing rim cuts.

Temperature automatically controlled by thermostat. Heat conducted evenly to every part of repair. Vulcanizing surface 7x5½ in., on which two tubes can be vulcanized as quickly as one. Patent handle for moving heated vulcanizer from one repair to another. Heats in seven minutes and consumes ½ cent of current per hour. Self adjusting swiveled clamp for applying vulcanizer to tube or casing, ten feet conducting cord, U. S. government tested heat gauge, cement, Para rubber, and full set of directions. D No. 6807 and D No. 6808 work on either direct or alternating current, but when purchasing for alternating current you are advised to use Type D No. 6805 or 6806, especially wound for alternating current.

When ordering, specify voltage.

GARAGE MODELS ELECTRIC.

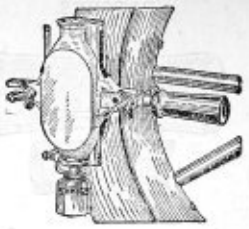
Type B, Portable.

No. 6809—Iron ..... each **AHJJ** $30.00

Identical with Type D (see description of D), except that a rheostat instead of a thermostat controls the temperature. It works equally well on direct current or on alternating current. Has extra double concave face, giving additional surface for vulcanizing casings and has five additional feet of conducting cord.

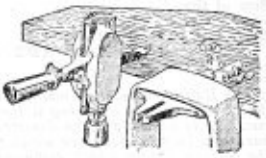
STITCH-IN-TIME.

Repairing Tube.



No. 6817—Type J .... each **JIJJ** $15.00

Identical in form with Type S described above, but instead of transmitting the heat to the vulcanizing surface through the medium of steam, it transmits it by direct radiation, a less expensive vulcanizer that is guaranteed to do perfect work.

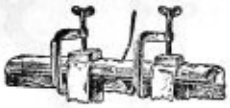


★*FOR FACTORY SHIPMENT ONLY.*

PORTABLE STEAM VULCANIZERS.

For Use In Garage or By Roadside.

No. 6819—Type S .... each **AABE** $18.76



Heating Vulcanizer While Repairing.

The only reliable vulcanizer for use where electric current is inaccessible, not because of the steam it contains, but because a thermostat holds the temperature at the vulcanizing point automatically. The patent alcohol generator creates an intense flame, producing the vulcanizing temperature, 265 degrees, in a few minutes. At this point the thermostat expands, closing a damper sufficiently to maintain the vulcanizing temperature, absolutely preventing injury to the tire or breakage of the heat gauge. Vulcanizing depends on temperature, not on any mysterious property of the steam. The function of the steam is to insure a uniform heat distribution, preventing overcuring one part of the repair and undercuring another. The Shaler, in addition to being the only steam vulcanizer with automatic temperature control, is the only one that has the precaution of a safety valve, absolutely eliminating the danger of explosion. As the temperature control needs no watching, the repair is made ready while vulcanizer is heating—a big saving in time. The patent handle permits it to be applied while hot, and moved from one repair to another without cooling. Vulcanizing larger repairs are easily made by resetting vulcanizer. One side of the heater is flat for mending tube injuries, from a nail hole to a two foot slit. Tubes are vulcanized on a metal shelf inlaid with asbestos to prevent radiation and reduce the time for vulcanizing. The opposite side is concave, shaped to fit anywhere on any sized casing without removing it from rim. Enables any motorist or chauffeur to seal cuts, sand pockets, etc, thereby excluding moisture from the fabric and greatly increasing the mileage of his tires. Furnished complete with case, clamps for tube and casing work, U. S. government tested heat gauge, cement, Para rubber, alcohol container and an illustrated book of instructions. Can be carried in tool kit.

VULCANIZERS AND THERMOMETERS.

GANG VULCANIZERS.

Type E.

No. 6811—Thermostat control, alternating current only★..each **BBEJ** $37.50

No. 6812—Rheostat control, alternating or direct current★..each **BGJJ** $45.00

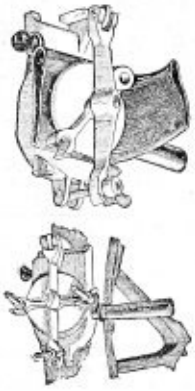
24 inches long, will vulcanize six tubes at a time or will mend a two foot slit at one setting. Furnished with four patent clamps and four blocks, for four sizes repairs.

CASING BLOW-OUT VULCANIZERS.

Type C.

No. 6813—Thermostat control, alternating current only★..each **AHJJ** $30.00

No. 6814—Rheostat control, alternating or direct current★..each **BBEJ** $37.50



Will repair any blow-out or tear in any casing that is practical to mend and will fit any sized tire. It is 14 in. long. Heat is applied to inside of tire, right against new fabric, which does away with cutting away a lot of fabric and rubber as is necessary when fabric and heat are applied from outside of tire, as with steam vulcanizer. Cost of operation, 1½ cents per hour. Type B or D is used simultaneously with Type C to vulcanize the tread.

VULCANIZING THERMOMETERS.

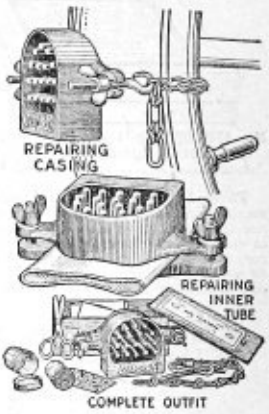
No. 6825—For use with vulcanizers, guaranteed correct ..each **JFJ** $1.00

SHALER SAFETY VUL-KIT VULCANIZER.

No. 6803—Fully nickeled, burns gasoline or alcohol, absolutely safe, w't each 10 lbs., complete with repair material, everything but fuel, each **CJJ** $5.00

The Safety Vul-Kit is designed to meet the requirements for an inexpensive outfit that can be carried in the tool box for emergency repairs to tubes and casings.

It mends tube punctures and small casing cuts as permanently as the most elaborate outfit. The fuel supply is limited to that required for perfect vulcanization.



You can't overcure or undercure a repair.

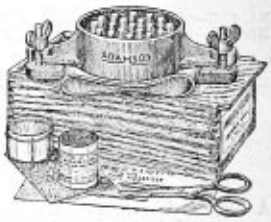
Avoids all flame, smoke, and danger, can be turned upside down while in operation without spilling a drop of fuel.

Vulcanizer handle always cool. Will last a lifetime.

ONE IN A BOX, COMPLETE.

VULCANIZERS FOR TUBES AND CASINGS.

No. 6802—Universal outfit, complete with repair gum, w't each 4 lbs., each .....**BGJ** $4.50



Tire cuts ruin casings, they admit moisture to the carcass and cause the fabric to rot and weaken, grow larger—end in blowouts.

Casings and tubes can be vulcanized anywhere in 15 minutes at a cost of one cent.

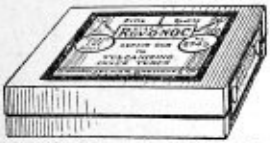
Absolutely automatic. Place the patch attach the vulcanizer, put in gasoline—light it. No further attention required. It can't burn, scorch or injure tube or casings. It can't fail to do its work. So simple anyone can operate it. Practical, quick and reliable.

ONE IN A BOX.

TUBE VULCANIZERS.

No. 6801—Adamson, no cement, no acid, for inner tubes only, w't each 4 lbs., complete each .....**AHJ** $3.00

A perfectly vulcanized repair in 15 minutes, on the road or anywhere, for less than one cent.



The repair gum is placed on the tube according to directions, vulcanizer is applied by simply clamping it centrally over the repair gum and tube as illustrated.

To vulcanize the repair, one ounce of gasoline is placed into the vulcanizer and ignited.

ONE IN A BOX.

TIRE SUPPLIES, VALVE TOOLS AND TOP HOLDERS.

REPAIR GUM.

No. 6749 [illegible]—1 oz. rolls, unvulcanized, for repairing inner tubes, per dozen .....JIJ $1.50

There has always been a demand for small 10 cent rolls of repair material for use with roadside vulcanizers. One roll is enough for several repairs. Easy to carry, always ready. No tool kit should be without one or more of these rolls.

HEAL-A-CUT.

No. 6722—2 oz. cans, per dozen .....CAE $5.28

A heavy rubber paste used for filling up cuts on the outside of auto casings. It dries quickly, leaving a smooth, hard surface.

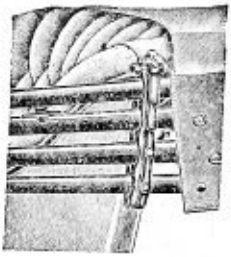
VALVE TOOLS.

"Four In One.

No. 21—Genuine drop forgings in one piece with center guide reamer on one side to cut down the top of valve and smooth the damaged thread, w't per doz. 8 oz. .....per dozen BDJ $4.00

"Three In One."

No. 22—Genuine drop forged in one piece, carefully machined and hardened, combines screw driver for threading insides, a tap for tapping out inside and die for rethreading inside of Schrader valves, w't per doz. 8 oz. .....per dozen ADE $2.40



BAIR AUTO TOP HOLDERS.

No. 6297—Bair Special Bow, Holders, black enamel, w't per pr. 4 lbs., per pair .....BAJ $3.50

Instantly adjustable to Ford cars. Only necessary to remove old equipment and attach. Save their cost in repair bills in one season.

ONE PAIR IN A BOX.

Showing Neat Appearance of Top with Top Holders in Use.

No. 6298—For 3 bow tops, black enamel, per pair ....BEJ $4.20

No. 6299—For 4 bow tops, black enamel, per pair ....BGJ $4.50

No. 6300—For 5 bow tops, black enamel, per pair ....BIJ $4.80

Finished in black enamel with rubber buffers to protect enamel on top bows.

The holders are a good investment and insurance against wear and tear and avoid heavy repair bills. Every bow is carried separate and independent, thus preventing the fabric from rubbing and bows from pounding together or spreading, also avoiding all rattle and noise. They keep the entire weight of the top off the lower bow, preventing the bending of same. It also makes a rigid and positive locking device, preventing the swaying of the top from side to side.

When ordering, specify if for 3, 4 or 5 bow tops.

ONE PAIR IN A BOX.

TOP HOODS, RUBBER BUMPERS, TIRE COVERS AND HOLDERS.

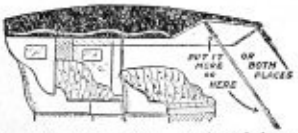
This hood is adjustable so that it will fit different size tops. It has an elastic cord at the opening which holds the hood close to the top and prevents dust and mud from splashing in and soiling the top. It saves the extra labor and expense of having the top cleaned every time the machine is used. There is a skirt on the hood which covers up the back of the rear seat and prevents dust from coming up behind the machine and covering the occupants. The 56 in. top hood is very popular for small roadsters, the 62 in. is used on small touring cars and the 66 in. is used on large cars.

ONE IN A BOX. W'T ABOUT 20 LBS.

How to Measure for a Top Hood.



Measure across the front bow from A to B as per dotted line. This one measure is the only one necessary.

Example—If top measures 60 or 62 in. order a 62 in. hood.

Do not order top hoods by stating name of car, as machines are not always available for procuring correct measurements. Top hood orders cannot be filled unless size is stated.

TOP STRAP SPRINGS.

No. 6174—Top spring, made of heavy spring wire with non-breakable device and spring snap buckle on one end, length 5 in., ⅝ in. diam., galvanized finish .....per dozen **BDJ** $4.00

RUBBER BUMPERS.

No. 6212—Oblong, finest grade of para rubber, provided with hole at each end, through which straps are passed, 8 in. long, 3½ in. high, 1¼ in. thick, shipping w't 2 lbs., each **JHJ** $1.30

No. 6213—Round rubber axle bumper, finest grade para rubber in cylindrical form, provided with central hole through which straps may be passed for attaching to the axle or springs, 1½x3½ in., shipping w't 1 lb., each .....**DB** $0.70

TIRE COVERS.

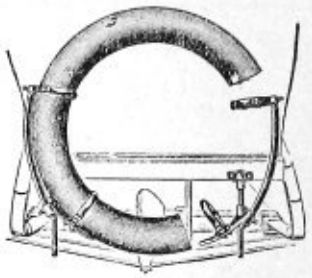
No. 6772—Gordon Easy On tire cover, all sizes, black.....each **AGJ** $2.80

No. 6773—Gordon Easy On tire cover for demountable rims, each .....**AGJ** $2.80

The "Easy On" covers are cut and shaped to fit the tire perfectly. The only fastening necessary is at the ends which overlap and are fastened with buttons and easily put on. The use of several buttons allows considerable adjustment, will fit perfectly any and all makes of tires.

Specify size of tire when ordering.

No. 7125—30x3 in. black cover, w't each 1½ lbs.....each **JIE** $1.60



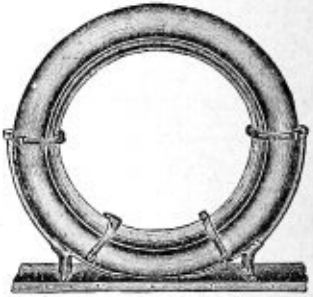
No. 7126—30x3½ in., otherwise same as No. 7125.....each **JIE** $1.60

This cover overlaps the circumference of the tire and is held smooth and perfect fitting with buttons.

ONE IN A BOX.

★*FOR FACTORY SHIPMENT ONLY.*

REAR TIRE HOLDERS.



No. 6008—Rubber finish, per set .....**CDJ** $5.64

No. 6009—Rubber finish, for demountable rims.....per set **DCJ** $7.26

These tire holders are made from the best grade of malleable iron and finished in a beautiful rubber finish. They can be attached to the rear cross member of any touring car or roadster and are adjustable to height, holding the casings in a vertical position. Will accommodate either one or two casings. Will fit any size of tire by placing brackets the required distance apart. Set complete with straps and bolts.

RUNNING BOARD FOUR DOOR TIRE HOLDERS.

No. 6010—Brackets, rubber finish, per set complete .....**DBJ** $2.50

No. 6011—Brackets, rubber finish, for demountable rims, per set complete.....**CFJ** $6.00

These brackets are made in two sizes, for casings only and also Demountable Rim Holders. They are bolted to running board which carries the whole weight and are independent of the body of the car. They are very easily attached to car. Be careful to get them the right distance apart before boring holes in running board. To get the right radius, bend the long point at lower end of holder, either up or down, as required, so that the tire will rest on the four clamps on sides. The malleable castings are made thin and very soft to permit such bending. They are finished in a dull black known as "rubber finish" and are very durable. Sets complete.

"ICY-HOT" BOTTLES, KITS, AND REFRIGERATOR BASKETS.

Keeps Contents Hot 24 Hours in Winter—Keeps Contents Cold 3 Days in Summer—Without the Aid of Chemicals.

The "Icy-Hot" is a bottle within a bottle with a vacuum between. The vacuum is a non-conductor of heat and cold and prevents the liquid put into the bottle from changing temperature. The cold or heat of contents cannot reach the outside air and the heat or cold of the outside air cannot reach the contents. The glass vacuum bottle is placed inside an ornamental metal casing, surmounted by a drinking cup, which also holds the cork in place. The more expensive "Icy-Hot" products are very highly nickel plated and are finished like the highest grade silverware. Some are leather covered. Being made of glass, the bottles are absolutely sanitary and are easily cleaned. Between the inner and outer walls of the glass vacuum bottle elastic insulating supports are inserted to steady and strengthen all "Icy-Hot" products.

EVERY BOTTLE TESTED AT THE FACTORY BEFORE SHIPPING. MUST KEEP WATER STEAMING HOT FOR 42 HOURS, REGARDLESS OF OUTSIDE TEMPERATURE.

TOURIST PATTERN, Demountable, Medium Weight, Nickel Plated Case of Superior Finish. The Glass Filler Held in Place by a Heavy Rubber Ring at the Neck and an Ingenious Spring Device at the Base Can be Instantly Removed by the User for Sterilizing or for Replacing in Case of Breakage. Filler Cushioned to Lessen Danger of Breaking from Sudden Jars or Jolts.

No. 6908—1 gal. can, per gal.	JIE	1.28

GRAPHITE GREASE.

DIXON'S, No. 676.

No. 6914—Size, lb.	1	5
Per can	$0.56	2.40
	CE	ADE

This grease is particularly valuable for lubricating bearings, spindles, cams, etc. The consistency of this grease is such that even at ordinary temperature it may be fed without difficulty through a compression grease cup.

GRAPHITE LUBRICANT.

DIXON'S, No. 688.

No. 6915—Size, lb.	1	5
Per can	$0.40	1.60
	BE	JIE

This is a high quality graphite grease to which finely ground cedar sawdust has been added. A resilient, spongy mass is the result, which acts as a cushion and lubricant for gear teeth but never cakes; in fact, it improves in use.

DIXON'S, No. 677.

No. 6916—Size, lb. pkgs. ...	1	5
Per package	$0.56	2.40
	CE	ADE

A graphite grease especially prepared for the lubrication of the bearings and gears of automobiles, motor boats, etc.

1 LB., THIRTY-SIX; 5 LB., TEN IN A BOX.

MICA FLAKE LUBRICANT.

For Automobiles.

No. 6919—1-lb. cans, per can	JFJ	$1.00
No. 6920—5-lb. cans, per can	BIJ	4.50

Mica Flake mixed with grease has proved the most successful and satisfactory lubricant for use in the differential and transmission—reduces friction—prolongs the life and efficiency of the car—greatly lessens the wear and makes gears run smoothly and noiselessly. Mica Flake should be used also in all grease cups.

For tire use there is nothing better than Mica Flake on the inner tubes to prevent them from sticking to the casing. It also prevents chafing and heating. Mica is a non-conductor of heat and an insulator.

MOTOR GRAPHITE.

DIXON'S, No. 750.

No. 6917—Size, lb....	½	1	5
Per can	$0.48	.80	3.20
	CJ	EJ	AIJ

This is a preparation for motors of all kinds, motor cars, motor boats and motorcycles. It is made from the choicest Flake Graphite. It is pulverized so fine that it feeds readily into the smallest openings. It may be used dry or mixed with oil, if required. Its use increases general efficiency of the motor, saves wear and tear and makes the motor go easier, faster and longer.

COTTON WASTE.

No. 1-WG—Best quality, white cotton, per pound ..... Mkt.
Sold in any quantity.

AUTOMOBILE CLEANING SUNDRIES.

"CRUSO" POLISHING CLOTHS.

No. 6591—8½x22 in., extra heavy, per dozen ..... AHJ $3.00

A FEW ADVANTAGES OF CRUSO POLISHING CLOTHS.

ECONOMICAL—One Cruso Cloth should do as much work as a gallon of liquid polish. Does the work in half the time and the results are two or three times as lasting as when liquid polish is used.

HARMLESS—Cruso Cloths will not harm any metal surface, in fact their continued use adds to the smoothness and finish of the metal.

CHAMOIS SKINS.

ONE KIP (2½ DOZEN) IN A BOX. AVERAGE WEIGHT PER KIP 3 LBS.

AUTOMOBILE WASHERS.

No. 6980-A "Cataract."

No. 6980—Perfect, cotton yarn mop, nickel plated brass holder or tube, threaded for hose couplings, each ..... ABJ $2.00

Extra tops, for above, each DJ .68

No. 6980-A—Shut off valve in handle, as per illustration, otherwise same as No. 6980, w't each 1 lb., each, complete ..... AFJ $2.70

When attached to hose the water runs through top continuously, keeping it free from grit and insuring against scratching polished surfaces. Moreover, water will not numb the hands, and the construction makes squirting or splashing impossible.

SPONGES.

Not Loaded.

Best Cuba Velvet Sheepswool, Pure, Free from Grit and Foreign Substances, for Washing Automobiles.

No. 20-G—6 to 8 to a pound, per pound ..... CIJ $6.50

No. 21-G—10 to 12 to a pound, per pound ..... CIJ 6.50

REVONOC CLEANSING SOAP.

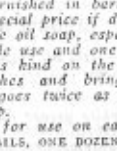
No. 6965—5 lb. can, free of caustic, alkali, and animal fat, non-injurious, per can ..... JGJ $1.20

REVONOC *Cleansing Soap has been selected after exhaustive tests, resulting in a strictly neutral oil soap. Will not harden or crack the finish and acts as a preservative to the varnish or paint.*

Also excellent for use in cleaning floors, marble, porcelain, tile, bric-a-brac, carpets, curtains, cut glass, furniture, leather, pianos, and vehicles.

As a shampoo soap it is impossible to beat it, in fact it is of the same chemical composition as Shampoo soaps costing several times more.

ONE DOZEN CANS IN A CASE.



GREEN OIL SOAP.

No. 6955—	5 lb. pails, each	JHE	$1.40
No. 6956—	10 lb. pails, each	ADE	2.40
No. 6957—	25 lb. pails, each	BDJ	4.00
No. 6958—	50 lb. pails, each	CIJ	6.50
½ Barrel	.....per pound	JG	.12
Barrels	.....per pound	JG	.10½

For cleaning automobiles, carriages, varnished surfaces and harness. Does not injure the varnish, paint or leather. Quickly removes grease, stains and dirt from autos, leather, clothing, hands, etc., without the least injury. Does not necessitate an additional application of a finishing polish to restore the lustre to the auto bed. This soap has been tested on a highly polished wood panel 1,350 times and the polish and finish is still perfect.

BUCKEYE CLEANSER

A Linseed Oil Soap.

No 6960—	5 lb. pails...each	JFJ	$1.00
No. 6961—	10 lb. pails...each	ABJ	2.00
No. 6962—	25 lb. pails...each	BGJ	4.50

Can be furnished in barrels or half barrels at special price if desired.

A vegetable oil soap, especially made for automobile use and one of the best articles of its kind on the market. It cleans, polishes and brings out the lustre, and goes twice as far as any ordinary soap.

Directions for use on each can.

FIVE LB. PAILS, ONE DOZEN; TEN LB. PAILS, ONE-HALF DOZEN; TWENTY-FIVE LB. PAILS, TWO IN A CASE.

HAND SOAP.

No. 7030 REVONOC—10 oz. cans, per dozen ..... AJJ $1.70
3 doz. in a case, per case BGJ 4.50

REVONOC *Hand Soap instantly removes from the hands, machine grease, grime, paint, ink, etc. It is absolutely antiseptic and is so finely prepared it will not injure the most delicate hands. Its use benefits the skin, leaving it soft and smooth.* REVONOC *Hand Soap is free from oil, lyes or acids, is delicately perfumed, and can be safely used by all members of the family.* REVONOC *Hand Soap can also be used to advantage in cleaning bath tubs, sinks, marble, tile, glassware, etc. Particularly adapted for use in offices, clubs, hotels, restaurants, etc.*

No. 7028—12 oz. cans,
per dozen ..... AAE $1.92
per gross ..... ABIE 21.60

All mechanics and others who work with their hands, and who require a soap to act quickly and thoroughly without injury to the skin, will find "Skidoo" the finest preparation ever put out for their purpose. It removes grease and dirt like magic.

GRE-SOLVENT.

		Per dozen.
No. 7022— 1 lb. cans.....	AAJ	$1.80
No. 7023— 3 lb. cans.....	BGJ	4.50
No. 7024— 6 lb. cans.....	EGE	9.60
No. 7025—13 lb. cans.....	AJHJ	18.00

This is the best preparation known and has no equal for removing dirt, grease and stains of all kinds. It contains no harmful ingredients and is acknowledged by all users of automobiles to be the best hand soap on the market.

AUTOMOBILE POLISHES AND WASHERS.

METAL POLISH.

Cleans and shines like magic. A few brisk rubs will remove all tarnish and stains and produce a beautiful luster which lasts unusually long. Contains no acid or ammonia. Will not injure fine wood work or loosen or effect screws. Absolutely pure and non-injurious. Recommended for brass, copper, zinc, nickel, stove trimmings and all metals exposed to outdoors, except gold or silver.

AUTOMOBILE METAL POLISH.

Rex metal cream polish contains the best cleaning and polishing agents chemically combined. It is free from acid and grit, and gives a beautiful luster without much labor.

"REX," for Polishing Lamps, Brass, Nickel, Etc.

No. 6974—½ pint cans, per dozen	AFJ	$ 2.70
No. 6975—1 pint cans, per dozen	BHJ	4.00
No. 6976—1 quart cans, per dozen	DGJ	7.00
No. 6977—½ gallon cans, per dozen	GBJ	10.00
No. 6978—1 gallon cans, per dozen	AAEJ	18.00

REX NICKEL POLISH.

Rex, for Polishing Nickel, German Silver, Etc.

No. 7032—1 pint cans, per dozen	CCJ	$ 5.50
No. 7033—1 quart cans, per dozen	DHJ	8.00
No. 7034—½ gal. cans, per dozen	JFIJ	11.50
No. 7035—1 gallon cans, per dozen	AJHJ	18.00

Made especially for polishing and conserving all nickel plated parts and accessories, German silver, lamp reflectors and trimmings; also household nickeled ware, nickel plated stove fixtures, plumbing, etc.

Made of pure neutral oils and fine abrasives obtained by collecting the dust from the milling machines. Contains absolutely no ammonia, acids or grit, and does not settle in the can—the fine abrasives remaining always in suspension.

Note—No polish intended for general use is sufficiently delicate or protective for nickel plating or plated articles which wear away rapidly under ordinary treatment.

AUTOMOBILE BODY POLISH.

Automobile polish is scientifically blended and will not separate. It never has to be shaken consequently the last of the bottle is as good as the first.

It contains no acids or other harmful ingredients.

It does not dissolve or injure the varnish, but cleans and brightens it. Scratches on woodwork are rendered invisible and fade away by the smoothing action of the polish.

No. 6970— 1 gal.	cans	3.00	
		AHJ	

Mat's body polish can be used on the leather upholstering as well as the body of an auto, and will give a very brilliant finish. Positively contains no acid. Dries, softens and waterproofs leather.

OVERHEAD GARAGE WASHERS.

No. 6950—Rotary, ball bearings and front brace of steel, arm of ¾ in. standard iron pipe, all other parts bronze, length of arm 5 or 6 ft. to order, drop from ceiling 8 in., w't each 35 lbs. .....each JIJJ $15.00

This washer is absolutely rust proof; will last a life time. The base and stem are cast integral and accurately bored and machined for necessary fittings,

AUTOMOBILE MEASURES, FUNNELS AND TANKS.

NO-SHAMMY FUNNELS.

No. 6981—Tin, copper plated, size 2—5 gal. per minute—8½x3 in. top measurements, 2½ in. tube, double strainer, guaranteed to take all water and dirt out of gasoline.....each **AGJ** $2.80

GASOLINE FUNNELS.

No. 6982—2 qt., 8½ in. diam. top, 9½ in. high, coppered.....each **JFJ** $1.00
No. 6983—4 qt., 9¼ in. diam. top, 11 in. high, coppered.....each **JGG** $1.28
No. 6984—8 qt., barrel size, 12½ in. diam. top, 12 in. high, coppered, each .....**JIE** $1.60
These funnels are especially designed for filling auto gasoline tanks and barrels. They have hoop around top to prevent slopping, and besides having a fine brass wire strainer there is also an extra outside hoop for holding a chamois strainer. They also have large fluted tubes so that the gasoline will run through fast and not become air-bound.

SHUT-OFF FUNNELS.

No. 6985.

No. 6985—2 qt., 8½ in. diam. top, 9½ in. high, ¾ in. outlet, heavily coppered, each .....**AAJ** $1.80
No. 6986—4 qt., 9¼ in. diam. top, 11 in. high, ¾ in. outlet, heavily coppered, each .....**ACJ** $2.20
No. 6987—8 qt., 12½ in. diam. top, 12½ in. high, ¾ in. outlet, heavily coppered.....each **AEJ** $2.50

PORTABLE FUNNELS.

No. 6988. No. 6989.

No. 6988—1 pt., 3½x8¼ in., heavily coppered .....each **JFJ** $1.00
No. 6989—1 qt., 3½x8 in., coppered, light weight .....each **DB** $0.70
These funnels are made especially for auto use, have large spout so that while body is small the gasoline will run through very fast. Has fluted tube and will not get air-bound while pouring.

SHUT-OFF GARAGE FUNNELS.

No. 6990—12¼ in. diam., 6 in. deep, ¾ in. spout, heavily galvanized, each .....**AHE** $3.10
This funnel is very convenient and practical for garage use, also for motor boats. Simply lift the funnel from filling hole in the tank or can and no more gasoline can run through the spout, a necessity to safety and economy.

AUTO GASOLINE MEASURES.

No. 6991.

Graduated.

No. 6991—2 gal., with bail, 9½x9¼ in., each .....**BJE** $3.40
No. 6992—5 gal., with bail, 12½x12¼ in., each .....**BGJ** $4.50
Heavily copper plated and lacquered, extra heavy weight with reinforced bottom, made especially for automobile use and with special pouring lip.

COMBINATION MEASURERS AND FUNNELS.

Graduated.

No. 6993—1 qt., 4⅛x7¼ in., ⅞ in. spout, each .....**EE** $0.90
No. 6994—2 qt., 5⅛x9¼ in., heavily coppered, ½ in. spout, each **JGB** $1.20
No. 6995—4 qt., 6½x12⅛ in., heavily coppered, ½ in. spout, each **AJJ** $1.70
This measure is of extra heavy weight, with pouring lip on opposite side to funnel spout which constitutes a regular fast pouring measure for pouring in large openings, making it a regular combination measure and funnel. Note the handle is on the side which makes it convenient while using in close or cramped quarters.

GARAGE MEASURES.

This is the most practical 5 gallon measure made, because it can be filled from a tank, hose or faucet without spattering and when full can be carried to auto and lifted up on running board to tank without spilling a drop and can further be poured into funnel very fast without spilling.

No. 6996—Heavy galvanized steel, tested and warranted not to leak or rust, capacity 5 gals.....each **AFJ** $2.70

GASOLINE EMERGENCY TANKS.

No. 6997—1 gal., 8½ in. wide, 3 in. thick, 12 in. high.....each **JFJ** $1.00
Made of steel with wood protection casing, nicely finished, has wire pouring spout and wire strainer, holds one gallon.

GARAGE ACCESSORIES.

SHUT-OFF GASOLINE MEASURES.

No. 7005—Heavy galvanized, 11½ in. diameter, 18 in. high, 4 in. opening, w't 12 lbs. .....each **BAJ** $3.50

This measure is similar to our No. 6996 five gallon garage measure, except that pouring lip and filler are one. Filler opening has cover plug so arranged that by simply turning it one-half turn, the pouring lip is shut off so that any gasoline left in the measure can remain in the can safely without loss from evaporation, thereby being a storage can as well as a measure. Will not rust or leak.

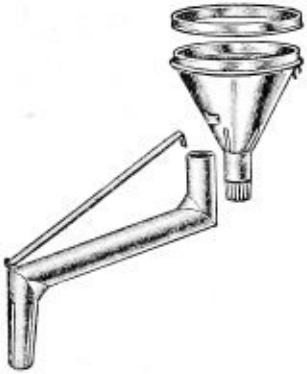
ONE-HALF DOZEN IN A CRATE.

COMBINATION MEASURES WITH AUTOMATIC SHUT OFF.

No. 7008—Heavily copper plated, 2 qt., 5½x9¾ in. with ½ in. spout, w't each 2 lbs. .....each **JIE** $1.60

Simple and positive in construction, positively prevents spilling oil over engine and other parts. A most practical measure, combined with a funnel for convenience in pouring, has in spout a brass ball valve (ground oil tight) to shut off the flow of the oil instantly (in a very simple manner) at the convenience of the user.

GARAGE RADIATOR FILLERS.



No. 7007—6 qt., 7x13½ in. high, heavy galvanized steel, large spout with brass strainer, w't 6 lbs., each .....**ABE** $2.10

Galvanized after it is made, is absolutely rust proof and is guaranteed not to leak.

It has a convenient pouring spout and a brass strainer to keep all dirt out of the radiator.

ONE DOZEN IN A BOX.

TWO-IN-ONE OFFSET GASOLINE FUNNELS.

No. 6998—4 qt., 9¾ in. diameter, 1¼ in. outlet, detachable offset spout, copper plated, w't crated 4 lbs., each .....**AEJ** $2.50

No. 6999—8 qt., 12 in. diameter, 1¼ in. outlet, detachable offset spout, copper plated, w't crated 6 lbs., each .....**AFJ** $2.70

These funnels are adapted to cars carrying gasoline tanks at the rear and do not necessitate the removing of spare tires. At the same time the spout can be quickly removed and a good regular funnel remains, thus forming a combination funnel with which any tank can be filled regardless of where it is situated.

ONE IN A CARDBOARD CARTON.

GALVANIZED GARAGE FUNNELS.

No. 7004—10 qt., 10½ in. high, 10½ in. diameter, 1¼ in. outlet galvanized funnel strainer, w't 4 lbs., each .....**AEJ** $2.50

The strainer of reinforced brass wire cloth, is removable, to prevent breaking, can be easily replaced. It is of a cone shape, giving a larger straining surface and preventing dirt and water from being forced through.

A necessity of every car owner and dealer.

ONE DOZEN IN A CRATE.

COLLAPSIBLE PAILS.

No. 7010—Faultless, heavy waterproof duck, non-rustable valve at bottom, galvanized hoop in top, 12x½ in. when folded, w't per doz. 16 lbs., per dozen.....**JIFJ** $16.00

With this collapsible pail and funnel which sells for $1.00, there is no more carrying water in your felt hat, a bottle, tin can or anything you can find. The Faultless, both pail and funnel, is always ready. Any radiator may be filled without spilling water. Collapses completely, may be carried under seat or cushion, no car thoroughly equipped without it.

ONE IN A BOX.

GASOLINE HOSE.

No. 7000—¼ in. diameter, metal armored inside with an anti-corrosive flat steel wire lining, also lined with gutta percha, making it oil and gasoline proof, w't per ft. 14 oz., per foot ..... **CJ** $0.50

No. 7001—1 in. diameter, otherwise same as No. 7000, per foot ..... **CF** $0.60

2 door stops for double doors.
4 metal corner shelves.
Continuous metal side shelves.
All necessary bolts, nuts, screws, rods, etc.
Angle iron framework for bench, cut and punched 24 in. wide x 48 in. long.
Floors are not included.

Constructed under the "Pruden System" of Fireproof Construction in two foot unit sections with interlocking tubular joints which take care of the contraction and expansion of the metal and at the same time eliminate any rattle and noise. The steel studding is formed in a part of the sheet and throughout the building self-structuring is the feature. The buildings are not constructed on angle iron frames as with other buildings on the market. It is not a cheap makeshift construction, having double strength and the necessary reinforcing where required. The equipment furnished is greater than that furnished with any other building, and among the smaller features, the doors and windows are equipped with patent bar-locking devices which render the building proof against ordinary vandalism. The bar-locking device on the windows works automatically. When the window is closed it is also locked. The bar-locking device on the doors allows them to be opened with one turn of the hand, and once your doors are closed it is impossible to open them without the necessary keys. The buildings are complete in detail, even to the continuous side shelves with the roll edge which prevents tools, etc., from falling to the floor. Four metal corner shelves give plenty of room for oil and waste.

The buildings are constructed on steel sills which are heavy enough to support the weight of the building. The siding sections and roof sections are constructed of 24 gauge galvanized, cold rolled steel. This is reinforced with 18 and 20 gauge steel as required and through each tubular joint a ½ in. steel rod extends from the sill to the eave section passing through and locking the joints together. This rod at alternate spaces is looped at the head through which the tie rods connecting the roof sections are joined. These tie rods are run through a hanger plate suspended from the ridge. The rods from both sides are thus anchored at the same point, making the locking continuous from the sill on one side to the sill on the other side. The roof when erected will stand the heaviest of snow loads. The doors are as cleanly finished on the interior as on the exterior, and there are no unsightly angle irons exposed to view. The corner posts are solid and lock on, forming an absolutely wind and water tight joint. They will not warp. There is nothing in them that will burn, rot or decay.

These buildings are guaranteed not to rust out. We will gladly replace any building free of charge that is found to be defective.

These portables meet the requirements of all insurance companies and Boards of Underwriters in the United States.

READ WHY THIS DEALER SUCCEEDED—

Hibbard, Spencer, Bartlett & Co.,

Gentlemen—We have handled your line of [illegible] House and Floor Paints, and [illegible] Sanitary Flat Wall Finish for the past two seasons, and have yet to hear a complaint about their durability and wear. They have given universal satisfaction and our sales are increasing right along.

The paint business was new to us, but we think your proposition has been about the most profitable thing we ever went into at our store. There is no doubt but that your advertising has helped along our sales wonderfully, and with your continued publicity assistance we expect to do even better during the coming year. Our competitor always claimed to have one of the best paints made, but he has nothing on us. In fact, some of the folks who used to buy from him are now buying [illegible] Paint from us.

(We should be glad to furnish name and address of this dealer, as well as copies of many more letters in the same tone.)

PAINT SELLING ADVANTAGES OF THE MERCHANT IN HARDWARE.

Government reports show that only about 25 per cent of the buildings in the United States are properly protected by paint, and in every community this want of paint is causing a real, although generally unappreciated loss to some property owners, in the shape of reduced rental and sale values, as well as in actual deterioration of the buildings.

But Paint is very naturally sold with hardware, along with the hammer, the lockset, the wire cloth, to the same user and often for the same building job. Indeed, many dealers in hardware now plan quite as definitely to secure the contracts for paint, as for hardware on local new building work, finding in addition, a steady and profitable sale of material for re-painting work.

A PAINT SERVICE THAT FITS IN WITH THE PARTICULAR REQUIREMENTS OF THE MERCHANT IN HARDWARE.

Dependable values in wide variety—

Uniform Values the dealer can rely on and recommend in a thorough and complete variety of paints and painters' goods, covering practically every need of either the occasional or professional paint user.

Prompt shipments, with hardware—

Saving freight, drayage and extra book accounts.

Our Salesman Calls Often—

And can give more frequent attention to the dealer's paint requirements, making it possible to run the same business on smaller investment.

Advertising—

After proper merchandise comes help in selling. We furnish special letters that reason plainly with the dealer's prospective customers, besides newspaper, store, and outside advertising that pulls. Note these pages.

Bureau of Information and Analysis—

For helping the dealer solve special paint problems or analyzing linseed oil or paints when a question comes up as to quality. The dealer who takes advantage of this analyzing service has a means not only of insuring himself against adulteration, but of demonstratig to prospective customers the impurities of competig paints.

CHOOSING A SAFE PAINT.

"White lead and oil," hand mixed, does not assure safe paint. The safest paint is a combination of pure pigments, preferably lead and zinc, and pure colors ground to the minutest fineness in powder mills, then machine mixed with pure linseed oil and dryers. Such paint is more uniform, dependable, spreads easier and further than the old-time "hand-paddle mixed Lead and Oil."

The best possible paint experience is here at the dealer's command. It will cost no more than incompetence. We suggest that dealers do not attempt to learn through their mistakes, what we have learned in years of experience.

WHY [illegible] IS A SAFE PAINT FOR THE DEALER IN HARDWARE TO SELL.

We are not relying merely on custom, but in making [illegible] Paints, we do follow closely, the latest findings of approved competitive paint tests.

For instance, we use only the chemically pure colors, without the ochre—clay—and whiting, cheapening often substituted. In place of the corroded lead we use the sublimed, which has surpassed and is surpassing corroded in every test now in progress, on every point material in a proper paint pigment. Many of the heaviest users of white lead, including some of the largest railroads, now use nothing but the sublimed.

A few of these points of superiority follow—non-poisonous, chemically stable—does not injure delicate color pigments, not affected by foul gases—the single particle about 1-30th the size of the corroded particle, and featherdown in character as contrasted with the corroded crystals.

These are a few reasons why [illegible] Paint will not poison the user, will not harden in the bottom of the can, does not discolor in smoke gases—to withstand which a specially mixed zinc paint might otherwise be required—spreads further and easier, and grips better into the pores of the wood, than can a differently made paint.

One [illegible] dealer tells us what helps impress prospective consumers with these points—

"The dealer whose recommendation is backed by the printed analysis, showing the purity of material is in position to eventually command and retain the best trade of his territory."

Guaranteed formula label on every can.

All our mixed paints carry the printed formula label on every can. This formula we guarantee to represent the contents of the can. This label makes all our paint goods salable in pure paint law states as well as all others.

PUTTING THIS PAINT SECTION TO PRACTICAL WORK.

WHAT PAINT MATERIAL TO USE.

Dealers Need not Turn Down the Business of Inquirers for Such Goods. Write Us.

OUTSIDE:

Houses—[illegible] page 2412, [illegible] page 2418 or White City, page 2420.

Barns, Sheds, Fences and Rougher Buildings—Pages 2419-2422.

Roofs—

Shingle, [illegible] Creosote Shingle Stain, page 2419.

Gravel or Prepared, [illegible] Asphalt Roof Coating, page 2422.

Cruso Coating, page 2422.

Metal—Remove grease with ammonia. Then use [illegible] Iron Paint, page 2419; Creo-graphite, page 2422; [illegible] Asphalt Roof Coating, page 2422.

GENERAL:

Screens—[illegible] Screen Paint, page 2413; White City Screen Paint, page 2420.

Foundations of Stone or Concrete (waterproofing)—[illegible] Asphalt Roof Coating, page 2422. ....

Walls—Stone, brick or concrete (above ground), [illegible] Concrete Coating (in color), page 2414; Glidden Liquid Cement (in color), page 2426; or one coat of linseed oil, followed by any house paint.

Fence Posts—(Waterproofing and Preserving) [illegible] Creosote Shingle Stain, page 2419.

Iron Shutters—[illegible] Liquid Enamel, page 2416; [illegible] Asphalt Roof Coating, page 2422. [illegible] Asphaltum, page 2424.

Iron Fences—See Iron Shutters.

Stand Pipes—[illegible] Asphalt Roof Coating, page 2422; [illegible] Iron Paint, page 2419; [illegible] Graphite Paint, page 2414; [illegible] Asphaltums, page 2424.

Bridges (Iron)—See Stand Pipes.

Culverts (Iron)—See Stand Pipes.

Boilers—Remove grease with ammonia, then use [illegible] Asphaltums, page 2424; [illegible] Graphite Paint, page 2414; [illegible] Asphalt Roof Coating, page 2422.

Smoke Stacks—(See Boilers).

Silos—[illegible] Barn Paint, page 2419.

Troughs and Tanks—(See Silos).

INSIDE:

WALLS AND CEILINGS—

Plaster or Concrete—[illegible] Sanitary Flat Wall Finish Paint, page 2416; [illegible] Interior Concrete Coating, page 2414; Glidden's Waterproof Flat Wall, page 2426; Alabastine, Calcimo, or Muresco Cold Water Finishes, page 2435.

For High Gloss—[illegible] Liquid Enamel, page 2416, over [illegible] Sanitary Flat Wall Finish Paint, page 2416; or one of the house paints.

For Deep Lustre—Gold or Aluminum or Bronze Powder Paints, pages 2428-2429.

Steel or Wood—See "Plaster", but omit Cold Water Finishes.

WOODWORK OR FURNITURE—

Transparent Gloss Finish—[illegible] Varnishes, page 2423; Colored Paints, Solid Colors, [illegible] Household Paint, page 2413; [illegible] Sanitary Flat Wall Paints, page 2416.

INSIDE—Continued.

Gloss—Varnish Paints, [illegible] Floor and Furniture Stain (gloss finish), page 2414; Jap-a-lac, page 2426.

Dull—Flat or Mission Finish, no body, no film, a dye-like stain, like ink. [illegible] Dull Finish Floor and Furniture Stain, page 2414; Johnson's Wood Dyes, page 2425.

Chairs, Desks, Church Seats—No. 302 [illegible] Varnish (transparent), page 2423.

Mirrors, Picture Frames, Vases, Jardiniers—[illegible] Liquid Enamel, page 2416.

Burnt Woodwork, Fine Cabinet Work, Bric-a-brac—[illegible] Alcohol Shellac, page 2424; Johnson's Artistic Wood Dyes, page 2425.

FLOORS—

Wood Floors—Solid Color, fill cracks with [illegible] Crack and Crevice Filler, page 2416; then use [illegible] Floor Paint, page 2413; Semi-transparent, or for graining; [illegible] Floor and Furniture Stain, page 2414; Transparent, [illegible] Varnishes, 300 or 408, page 2423.

Concrete Floors—[illegible] Concrete Floor Coating, page 2414; Glidden's Waterproof Concrete Floor Dressing, page 2426.

Porch Floors—Fill cracks with [illegible] Crack and Crevice Filler, page 2416; then use [illegible] Porch Floor Paint, page 2413.

MISCELLANEOUS:

Porch Furniture—[illegible] Chair and Swing Paint, page 2413.

Bath Tubs—[illegible] Bath Tub Enamel, page 2416.

Blackboards—[illegible] Blackboard Slating, page 2416.

Radiators and Steam Pipes—Bronze Paints, pages 2428-2429, or [illegible] Sanitary Flat Wall Paint, page 2416, or [illegible] House Paint, page 2418. By using a paint to match wall in color, radiator can be made less conspicuous. Paint soon bakes in the heat, and odor dies away.

Stove Pipes—[illegible] Stove Pipe Enamel, page 2438.

Bicycles—[illegible] Liquid Enamel, page 2416.

Wagons and Implements—[illegible] Wagon and Implement Paint, page 2415.

Boats—[illegible] Yacht and Vessel Paint, page 2415; No. 412 [illegible] Exterior Spar Varnish, page 2423.

Auto and Carriage Tops—[illegible] Carriage Top Dressing, page 2415.

Polishing Furniture, Floors, Linoleum, pages 2439-2441.

Puttying Nail Holes and Cracks—page 2438.

Sticking Down Roofing—[illegible] Asphalt Lap Cement, page 2422.

Removing Old Paint—Page 2440.

Filling Rough Lumber Before Painting or Varnishing—[illegible] Wood Fillers, pages 2414-16-23. Never use on floors.

Graining Effects on Woodwork—[illegible] Floor and Furniture Stain, page 2414; Jap-a-lac, page 2426.

GETTING THE BEST OUT OF PAINT.

THERE IS NO GREAT MYSTERY ABOUT PAINT. ANYONE CAN HANDLE IT, IF HE GIVES A LITTLE CAREFUL THOUGHT TO THE RULES OF PAINT USE.

FINDING HOW MUCH YOU NEED.

For surface of building measure from any corner, clear around, including angles, and making no deductions for doors and windows. Multiply the result by the average height of the house. In getting the height, be sure to include the width of the under part of projecting roof.

So much for the plain surface. For Dormer windows, or for shaped shingled surfaces you allow double measurement, while for plain square shingles or pickets you figure three measurements. Ordinary spindle work is figured as if solid on both sides, while carved work and square spindles set close, and outside blinds, and ordinary lattice are figured treble. Porch rails, column spindles and lattice are figured as double.

The total area so figured is divided by 300, the number of square feet covered, two coats, on average surface by a gallon of **GVB** Paint.

A quicker method sometimes used is to multiply the sum of the sides and ends by the average height.

OUTSIDE PAINTING.

How to use paint without abusing it. The experience of a practical painter is very desirable for best results here. First see that the *surface is clean*, free from scales or loose particles of paint, dust, dirt, grease or moisture. Shellac all knots, pitchy or sappy streaks with alcohol shellac varnish. Wash mildewed spots with turpentine.

Avoid moisture as you would the plague. A surface may appear dry, but have moisture beneath. If possible, prime a surface before the plastering begins, and never apply the second or third coats while the plaster is drying out, as the moisture will sweat through the walls and raise the paint. Wait until plaster is dry before painting.

Be careful to keep building well ventilated and be *sure that basement floor and walls are dry.*

Remember that *varied grain* (from light to dark) and varied absorbing power or size of pores in the woods used on the same wall of a house, *may require, for proper results, more than two coats of paint.*

The *danger of mixing the paint thick* enough to cover the dark grain in two coats is here: sufficient oil may not be left in the paint mixture to satisfy both the pigment and the wood. Either there will be too little oil to penetrate the wood, or too little to give the paint coat elastic binding power to hold under the contraction of future coats. Flatting, checking, chalking or peeling may result, and in any case you have a surface difficult to repaint.

The absorbing capacity of the surface must be satisfied first. Put on two properly thinned coats well brushed out. This will give an excellent base for further coats. But a surface in this condition soon shows weather-wear, for want of sufficient protective pigment.

In general, on old work, if surface is porous or absorbent, thin with pure linseed oil; if not absorbent, with turpentine.

INSIDE PAINTING

The same care *must* be taken against dampness, from every source. Remove dirt, grease and dust, with turpentine if necessary. Shellac knots and sappy places. *Thin with turpentine* as linseed oil turns yellow when used inside. For that reason do not use Outside White inside. *Scrape and sandpaper clean.* Be extremely careful to have *free ventilation*, and plenty of light.

VARIOUS COATS.

First Coat or Primer. *All other coats depend on success with the Primer.* Thin only with pure linseed oil for dry or porous surface, or turpentine for pitchy surface; never benzine, gasoline or kerosene, for they furnish no binder and do not penetrate.

VARIOUS COATS.

Do not use ochres or dry colors. Use Outside or Inside White thinned with linseed oil or turpentine; one part thinner to three parts paint, generally. Apply second coat directly after the primer is dry, and before it becomes porous by "weathering."

Second Coat. *See that Primer is entirely hard* and dry throughout. Ordinarily Primer should dry one week to prevent blistering. Remember that you can't expect satisfactory results from any paint applied over an ochre or cheap primer. Use the paint as it comes from the can for second coat.

Before applying second coat, putty seams and cracks and nail holes. And brush out second coat thoroughly.

Third Coat. *Three coat work is cheaper than two coat work in the long run. Use paint as it comes from can.* Some people prefer to use not a new, but a well broken-in brush in working out this coat to secure a smooth even surface.

PAINTING OF VARIOUS WOODS

Except as to color and coarseness of grain there is little to vary the directions for painting hard woods. A dark wood requires for proper hiding, more coats than a light wood, and a coarse grained wood requires a thinner paint as it absorbs more oil away from the pigment.

Pine-woods, however, vary in requirements, not only as to color and grain texture, but as to prevalence of sappy or pitchy spots. As suggested above, these spots must be treated with shellac, when detected, as perhaps by the spotting of the priming coat. For painting these woods turpentine is added in proportion to the amount of pitch in the wood, because turpentine penetrates pitch.

TO AVOID ABUSES THAT CAUSE NEEDLESS PAINT FAILURES.

A few simple reminders that avoid paint difficulties and bring out those extra handsome results that the careful workman takes pride in.

Never attempt to paint a house if *the cellar is damp*, unless you have very thorough ventilation.

Never paint *while plaster is drying.* The moisture makes sand blister or peel.

Never paint *very hot surfaces.* Blistering results from too rapid drying.

Never paint when there is great *moisture in the ground*, as after a frost or in very early spring.

Never use a *brilliant carmine or cherry*, where it will be exposed either to strong sunlight or severe weather. The red has not been invented that will stand this without "dulling."

Never paint near *fresh mortar beds*, because of the injurious heat, moisture and fumes.

Do not attempt painting *too early in the spring.* The unevenness of the sun's heat causes the wood pores in the heated portion of a wall to expand and receive more paint than the contracted pores of the shaded side. If you do, you will naturally find corresponding uneven results in the appearance of the finished paint coat. The safe rule is to follow the sun in the Spring, and in the Summer let the sun follow you.

Never attempt to paint until several dry days have succeeded *damp weather.*

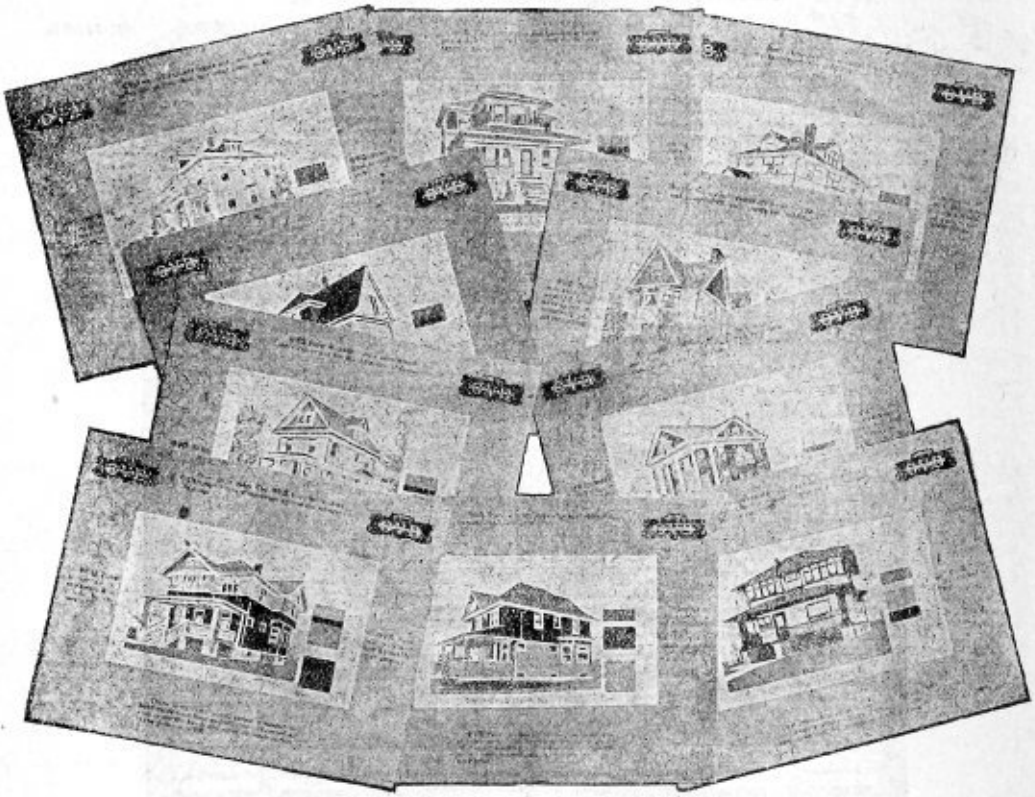
GENERAL SUGGESTIONS.

Sandpaper will cut faster if kept wet with benzine or turpentine.

For a smoky wall or ceiling give a coat of limewater before painting.

Chalk the back of sandpaper to keep it from slipping under the hand.

To paint over an old calcimined wall wash off kalsomine, size with a mixture of equal parts of raw oil, turpentine and japan, or with cheap varnish thinned with benzine.



Red lead, a natural drier, should be applied quite thin, and be well brushed out.

SUGGESTING COLOR SCHEMES FOR THE HOME.

These display paint signs, on this and following pages, will "talk" paint to prospective purchasers while the sales force is engaged with other customers.

The **attractiveness** and **pulling power** of our "Store Advertising" is **one of the features of H. S. B. & Co.'s paints.**

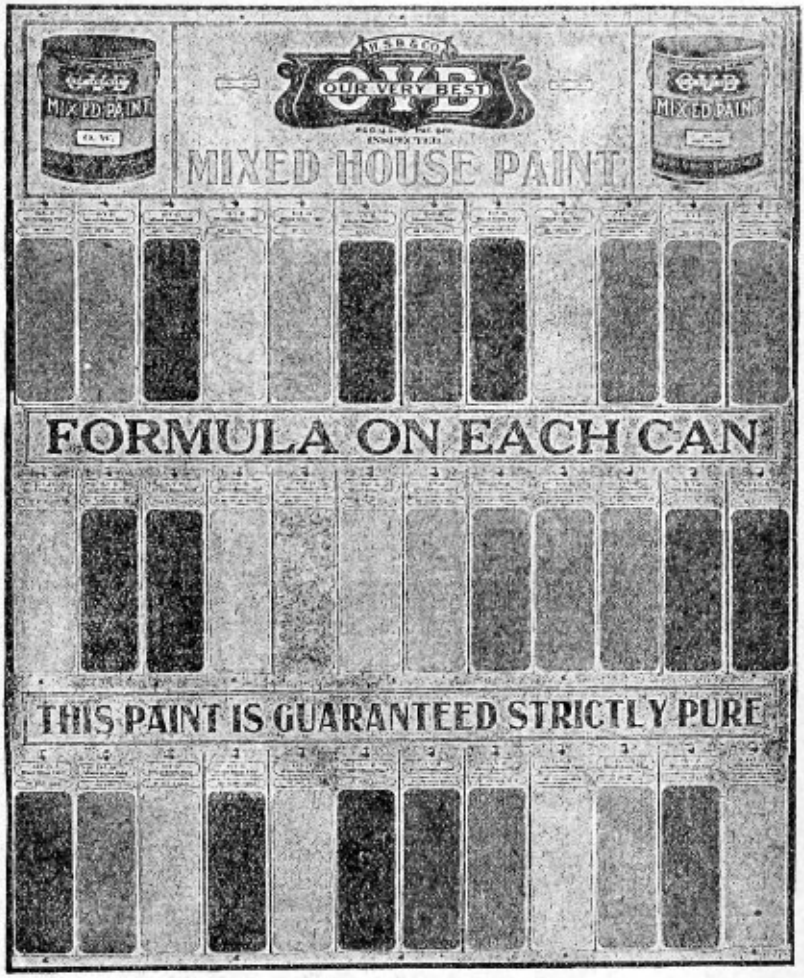
Good store signs conspicuously placed not only bring to the store orders from folks who **have** decided to paint but, by suggesting pleasing color schemes, arrest the attention of the property owners, who had not realized that their houses needed painting. **Thus the Store Signs help create new business.**

NO. 575 ⊙V⊡ HOUSE PAINT SUGGESTIONS.

Colored photographs mounted on very heavy cardboard with color chips attached. Seeing exactly how certain colors are going to look in combination. This is **a real help** to the **property owner in deciding to paint.** These handsome designs, set off by **color shades at once fresh and tasty,** set folks a-thinking, put the "repainting germ" into the property-owners' minds, show **the possible artistic effects** that they would like **duplicated in their own homes.** (Furnished to ⊙V⊡ Paint Agencies.)

No. 590—A suggestion set like No. 575, but for White City House Paint.

KEEP YOUR NAME AND PAINT IN PEOPLES' MINDS.



No. 490—18×24 in.

THESE DISPLAY SIGNS SENT FREE, WITH THE GOODS, TO O.V.B. DEALERS.

No. 425—Strong paraffined pasteboard waterproof attractively colored fence signs.
No. 430—Like No. 425 but printed for REVOLVOC House Paint.
No. 435—Like No. 425 but printed for REVOLVOC Barn Paint.
No. 440—Like No. 425 but printed for White City House Paint.
No. 450—Like No. 425 but printed for White City Barn Paint.
They "talk" paint to the Farmer when he rides along the country road with little else to take his attention.
No. 460—This counter display stand shows the pure, dry and liquid ingredients used in O.V.B. Paint. Also space for forty color cards. Artistically ornamented, attractive. Made also for REVOLVOC House Paint No. 465.
No. 470—Enameled blue and white store front sign. Made also for REVOLVOC House Paint No. 475.
No. 480—Flanged Steel Store Front Sign. Shows up a long distance down the street.
No. 490—5-ply, highly polished, with half cylinder color slats. Centre mahogany panel colored in red, white, blue, black and gold.
Also made for REVOLVOC House Paint No. 495.

AIDING THE USER TO SELECT HIS COLORS.

NO. 500 COLOR PADDLE RACK.

Top section 36x9¼ in. Unit section 36x4½ in. Paddles 9x3 in. Detachable paddle, unit plan, celluloid on steel color display. Adjustable for showing 12, 24, 36 or with extra section, 48 colors. Dealers generally find it advisable to show only the colors carried in stock. One of the most striking, effective, but at the same time, exclusive color racks ever offered. Furnished only with 100 gallon orders. Worthy of one of the most prominent positions in the store.

No. 550—A similar rack, but in highly polished wood, for White City House Paint.

DIRECTING THE USER WHERE TO BUY HIS PAINT.

THESE DISPLAY SIGNS SENT FREE, WITH THE GOODS, TO ⊕VD DEALERS.

Nos. 400, 401, 402, 404, 500—High grade CELLULOID (on steel) display panels, showing true colors on large chips, greatly assisting quick sales. Better than color cards. We furnish color cards in addition, however.

No. 560—Loose paddle rack for agents buying 50 gallons.

Nos. 405, 406, 407—Strikingly decorated "talks" on ⊕VD Sundries. Heavy cardboard hanging signs.

No. 426—Fan showing the actual ⊕VD Creosote Shingle Stains on real wood.

OVB PAINTS AND SPECIALTIES

Just a Few Suggestive Colors. Let Us Send Complete Color Cards.

FIRST AND FOREMOST—QUALITY! We invite comparative tests of formulas and working qualities with any other paints. Remember, a few cents saving per gallon on cheap paint is poor satisfaction when the user is out paint, and what's more, labor cost for "doing over." Ask to see our COLOR SUGGESTIONS—a great help in choosing colors.

O V B House Paint	*O V B House Paint*	*O V B House Paint*	*O V B SANITARY FLAT WALL FINISH PAINT O V B Floor Paint*

OVB PAINT PURITY goes further than a pure lead and zinc base; it means chemically pure ("C. P.") colors. ("C. P.") Chrome Yellow, ("C. P.") Chrome Green, ("C. P.") Prussian Blue—the clear colors, without the "ochres" (clays) or chalk cheapening too often used. THAT'S WHY OVB COLORS LAST. Every ideal for paint wear and decoration is satisfied in OVB.

House Paint, Page 2412. Wall Finish, Page 2416. Floor Paint, Page 2413. Porch Paint, Page 2413.

H.S.B. & CO. MIXED HOUSE PAINTS.

GUARANTY.

WE GUARANTEE H.S.B. & CO. MIXED PAINT TO BE STRICTLY PURE, CONSISTING OF

Pigment Base.

STRICTLY PURE SUBLIMED WHITE LEAD 50%
STRICTLY PURE OXIDE OF ZINC 50%
AND NECESSARY PURE COLORING MATTER TO MAKE THIS TINT.

Liquid.

STRICTLY PURE RAW LINSEED OIL 91%
STRICTLY PURE SPIRITS OF TURPENTINE AND DRIER... 9%
H.S.B. & CO. MIXED PAINT IS SOLD SUBJECT TO CHEMICAL ANALYSIS AND IS GUARANTEED BY HIBBARD, SPENCER, BARTLETT & CO., ESTABLISHED IN 1855.

Hibbard Spencer Bartlett & Co.

H.S.B. & CO. Paint represents the finest skill of expert paint grinders, after years of successful experimenting. Only the purest and strongest colors are used.

H.S.B. & CO. is better than hand mixed paint, because it is ground and re-ground repeatedly in the most modern high power pressure mills. This insures such an intimate union of pigment with pure linseed oil, which is the life of the paint, as can never be expected from the old fashioned "hand paddle" time and money wasting methods.

Very intimate mixing, great mathematical accuracy and absolute uniformity, are some of the reasons why H.S.B. & CO. Paint brings the user back for more.

To Ascertain the Amount of Paint Needed for a Job.

Example.

Front	40 feet
Rear	40 feet
Side	50 feet
Side	50 feet
	180

Multiply by average height...20
Divide by 300—3600—12 gals.

Figure one gallon of H.S.B. & CO. Paint will cover 300 square feet two coats on an average good surface. If it is rough and uneven more paint will be needed.

For priming coat do not use a cheap primer. Use H.S.B. & CO. Paint, reduced according to directions. The finishing coat is to be applied as received in the package after being thoroughly stirred.

Use only strictly pure boiled linseed oil for thinning.

How Mixed Paints are Packed.

6 one gallon cans in a case.
12 half gallon cans in a case.
24 quart cans in a case.
48 pint cans in a case.
96 half pint cans in a case.

DIRECTIONS.

Stir thoroughly before using. Putty all nail holes, and shellac all knots, pitchy or sappy parts. The surface to be painted should be dry and free from dust, dirt or grease. If paint is too thick, thin with boiled linseed oil for outside. For inside, small quantity of turpentine may be used. Let first coat dry hard before applying second.

*788—Red.	795—Light Terra Cotta.
789—Yellow.	796—French Gray.
790—Drab.	797—Indian Red.
791—Saxon Green.	798—Brown.
792—Light Oak.	799—Orange.
793—Dark Oak.	
794—Slate.	

It is in beauty of finish, body and wearing qualities that CHB *Floor Paint is superior.*

CHB *Floor Paint is backed by the maker's experience, worked out through a generation of successful daily practice.*

In beauty of finish, body, and durability, we consider it superior, for ordinary inside work, to any floor paint now on the market.

It dries hard over night—no stickiness. It is all ready for the brush after a thorough stirring.

It cements the cracks, fills the pores of the wood and makes a hard, serviceable coating. Floors are washed often, and CHB *Floor Paint stands hard scrubbing—almost like stone. One gallon covers 250 square feet, two coats.*

OVB AND REV-O-NOC SPECIALTIES

A Few Suggestive Colors. Let Us Send Complete Color Cards.

After all, color ENDURANCE depends mostly on RIGHTLY COMBINING the "bases" and color pigments. A poor mixture sets up destructive chemical action, detected soon after application of the paint, by fading color. With these specialties too, PURE COLOR PIGMENTS make for rich lasting tone. Our POSITIVE INSISTENCE ON ABSOLUTE FIRST QUALITY at this point places both seller and user at ease as to satisfying results.

OVB FLOOR AND FURNITURE STAIN

Very durable Varnish Paint. Renews shabby furniture as by magic. A child can use it.

Natural Wood

Malachite

Mahogany

Walnut

Light Oak

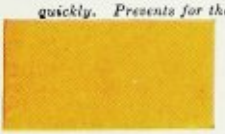
Cherry

OVB CARRIAGE PAINT

Pure rich colors in finest carriage varnish, ready for use. Mirror Gloss. Paint today, drive tomorrow.

Tally-ho Red

Yellow



Coach Green

Vermilion

OVB WAGON AND IMPLEMENT PAINT

Flows easy. Heavy Wearing body. Dries hard and quickly. Prevents for the farmer, profit-eating rust.

Yellow

Blue

Vermilion

Green

OVB HOUSEHOLD PAINT

For everything inside, except floors. In just the handy size for the housewife.

624, Dark Blue

633, Indian Red

631, Chrome Yellow

638, Pea Green

639, Chrome Green

640. Scarlet

REV-O-NOC CREOSOTE SHINGLE STAIN

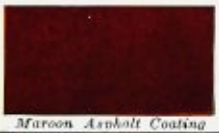
Kills rot, mildew, fungus growth. Prevents curling. Keeps shingles good as new.

308, Rustic Brown

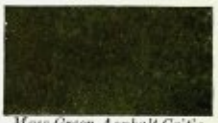
305, Dark Moss Green

306, Light Moss Green

315, Bungalow Red



FOR ROUGHER BUILDINGS
REV-O-NOC BARN PAINT
REV-O-NOC ROOF COATING



Rev-o-noc Slate Barn

Rev-o-noc Red Barn

Maroon Asphalt Coating

Moss Green Asphalt Co't'g

Some have thought that special paints and stains are only a "side line" with the paint house, receiving perhaps second-rate skill and care. Not so with us. EVERY SINGLE SPECIAL PAINT AND STAIN IS A "SPECIALITY" IN EVERY QUALITY SENSE OF THE WORD. The success of each is the special care of some one of our veteran paint makers.

Floor and Furniture Stain, Page 2414. Household Paint, Page 2413. Carriage Paint, Page 2415. Shingle Stain, Page 2419. Wagon Paint, Page 2415. Barn Paint, Page 2419. Roof Coating, Page 2421.

PAINTS AND FILLERS.

FLOOR AND FURNITURE STAIN.

Gloss Finish, Ready for Use, Applied Same as Varnish.

1 gal. cans	per can	BJJ	$3.50
½ gal. cans	per can	AJE	1.80
1 qt. cans	per can	JEE	1.00
1 pt. cans	per can	CJ	.50
½ pt. cans	per can	AH	.30
¼ pt. cans	per can	AB	.20

Colors.

Natural Wood, Light Oak, Dark Oak, Walnut, Mahogany, Cherry, Gloss White.

Strong, rich, pure color pigments, ground and reground in pure linseed oil, and very durable floor varnish. Much superior to many higher priced, highly advertised stains colored with analine dyes.

For graining apply Painters' ground color (page 2413), then graining colors (page 2417), then stain if desired, or varnish (page 2423).

Improves natural wood finish, old or new pine or hardwood, brings out the markings of the grain with very handsome effect.

Dull or Flat Stain, Ready for Use, Applied with Brush or Rag.

1 gal. cans	per can	BJJ	$3.50
½ gal. cans	per can	AJE	1.80
1 qt. cans	per can	JEE	1.00
1 pt. cans	per can	CE	.50
½ pt. cans	per can	AH	.30
¼ pt. cans	per can	AB	.20

Colors.

Ground Color, Dead Black, Golden Oak, Fumed Oak, Flat Malachite, Mission or Weathered Oak.

Flat finish is adapted for general decorative purposes, produces a complete finish in one operation, gives the dull soft effect seen in Colonial and Mission furniture. Used on new wood which has never been finished, or to refinish old wood after old finish has been entirely removed.

A coat of Shellac, Wax or Varnish may be easily applied over it. Reduced with turpentine, using from one to five parts of stain to one of turpentine, will produce a great variety of shades.

No. 1 Assortment—Consisting of 34 assorted cans containing 16½ pts., per assortment .....JEGE $10.00

CONCRETE COATINGS.

Tinted Waterproofing Coatings That Relieve the Dull, Lifeless Appearance of Cement and Concrete Surfaces and Absolutely Waterproof Them.

Floor Colors.

No. 486—Verdi gray No. 488—Amber
No. 487—Tan No. 489—Slate

Barrels and Half Barrels,

per gallon		ADE	$2.50
5 gal. cans	per gallon	AEJ	2.60

For concrete floors in factories, mills, power plants, garages, hotels, hospitals and basements. Prevents wear and dust formation, absorption of moisture, oil and grease. Produces a tough elastic surface that stands scrubbing. Covers 200 sq. ft. per gal., two coats.

Interior Colors.

No. 481—White No. 483—Buff
No. 482—Gray No. 484—Light gray

Barrels and Half Barrels,

per gallon		AEJ	$2.60
5 gal. cans	per gallon	AEE	2.70

For all plastered surfaces, metallic ceilings, wainscotings, composition surfaces, beaver boards. For damp proofing all walls. Drys with a soft tone. For hospitals, schools, public institutions, residences, sanitariums, etc.

Exterior Colors.

No. 492—Silver gray No. 494—Dark lead
No. 493—Ivory No. 495—Copper brown.

Barrels and Half Barrels,

per gallon		AEE	$2.70
5 gal. cans	per gallon	AFE	2.80

For cement, concrete, plaster and brick outside surfaces. Prevents "air cracking."

A waterproofing of the very first grades.

Absolutely reliable in results.

GRAPHITE PAINT.

For Protecting Iron and Steel Construction from Electrolysis, Corrosion, Acid, Alkaline Reaction, and the Elements.

Barrels and Half Barrels,

per gallon		ABE	$2.20
5 gal. kits	per gallon	ACJ	2.30
1 gal cans	per gallon	ADJ	2.40

Graphite is practically indestructible and makes an excellent preservative coating for iron and steel surfaces. Its covering properties are enormous, and no danger of rusting attends its use if surface is free from rust when the paint is applied.

GRAPHITE IN OIL.

Barrels, Half Barrels and 100 lb. Kegs,

per pound		JH	$0.15
25 lb. cans	per pound	JI	.17
12½ lb. cans	per pound	AJ	.18

This is the best grade of graphite, ground to a stiff paste in linseed oil. It should be thinned for use, the same as ordinary white lead or paste paint.

LIQUID WOOD FILLER.

Especially Made for Filling Pine and Any Other Close-Grained Wood, Ready for Use.

Barrels	per gallon	JIJ	$1.60
Half Barrels	per gallon	JIJ	1.60
5 gal. kits	per gallon	AJJ	1.70
1 gal. cans	per gallon	AJE	1.80
½ gal. cans	per gallon	AAJ	1.90
1 qt. cans	per gallon	ABJ	2.10
1 pt. cans	per gallon	ACJ	2.30

Produces a smooth and hard surface and is superior to shellac in every respect. It dries hard and does not discolor the lightest wood. One coat of Liquid Wood Filler and one coat of varnish are equal to three coats of varnish on new work.

Paste Form, Colors Light, Dark and Golden Oak.

1 lb. cans	per can	AJ	$0.18
2 lb. cans	per can	BJ	.36
5 lb. cans	per can	EJ	.90
12½ lb. cans	per can	AAE	2.00
25 lb. cans	per can	BJJ	3.50

We recommend that all wood, soft and hard, that is to be finished in shades of Light, Dark or Golden Oak, be first given a coat of Paste Wood Filler, the desired shade.

Wood Filler rubs off sharp and clean, leaving the pores of the wood perfectly filled. It is the most transparent of wood fillers and brings out the grain of the wood and preserves the natural beauty.

Never use wood fillers where they will be subjected to pounding, wear or moisture, as on floors.

PAINTS, ETC.

CARRIAGE PAINT.

The High Point in the Paint-Makers' Art, For Repainting Buggies, Carriages, Garden Chairs, Settees, etc.

Ordinary Colors.

1 qt. cans	per can	JFJ	$1.00
1 pt. cans	per can	CE	.60
½ pt. cans	per can	BE	.40

Vermilion or Carmine.

1 qt. cans	per can	JGJ	$1.20
1 pt. cans	per can	DE	.80
½ pt. cans	per can	CJ	.50

Colors.

Wine.	Yellow.
Surrey Green.	Tally-ho Red.
Carmine.	Coach Green.
Black.	Vermilion.

Carriage Paints are made of the purest colors. These colors are ground and reground in the finest carriage varnish until every particle is in the finest state of subdivision obtainable.

Carriage Paints give a handsome, uniform, mirror-like gloss. They dry as quickly as is consistent with good wearing qualities.

A buggy can be painted today and used tomorrow. It does not need rubbing, nor coat of varnish over it.

WAGON AND IMPLEMENT PAINT.

Insurance Against the Rust That Eats Up the Farmers' Profits. For Carts, Wagons and Farm Implements, Dries Hard Over Night, Ready For Use.

1 gal. cans	per can	AHJ	$3.00
½ gal. cans	per can	JIE	1.56
1 qt. cans	per can	EJ	.80
1 pt. cans	per can	CJ	.48

Colors.

Permanent Red.	Yellow.
Green.	Vermilion.
Black.	

Made for re-painting lumber wagons, sleighs and farm implements. It readily flows from the brush, is of good body, and dries hard. It will not blister. This paint is made of most durable pigments, ground in a good coach varnish. It will resist the wear and tear to which a lumber wagon is subjected, besides remaining bright. A coat of this paint on a farm wagon, dray, truck or express wagon will make it look like new and lengthen its life of usefulness.

CARRIAGE TOP DRESSING.

1 qt. cans	per dozen	JGBJ	$12.00
1 pt. cans	per dozen	DBJ	7.00
½ pt. cans	per dozen	BDJ	4.00

Is composed largely of high grade leather oil, has a good wearing body, is waterproof and will retain its lustre.

LET US SEND YOU COLOR CARDS.

FLOOR WAX.

1 lb. cans	per can	CJ	$0.50
2 lb. cans	per can	JFJ	1.00
4 lb. cans	per can	AAE	1.90

Floor Wax is of finest quality and very durable. May be used for polishing old floors that have been shellacked or varnished, as well as for new floors.

1 gal. Cans	per gallon	AFE	$2.90
½ gal. Cans	"	AGE	3.00
¼ gal. Cans	"	AHJ	3.10

Colors.

No. 671—Yellow.	No. 681—Brown.
No. 672—Red.	No. 683—Green.
No. 674—Ivory.	No. 684—Leather.
No. 675—White.	No. 685—Medium Green.
No. 676—Sky Blue	
No. 677—Gray.	No. 686—Tan.
No. 678—Pink.	No. 687—Dark Green
No. 679—Dark Gray.	No. 688—Blue.
No. 680—Buff.	No. 690—Terra Cotta.

An oil and flat varnish paint—not a calsomine or cold water paint. Made of pigment specially adapted for interior use. Will not darken or "yellow" in the dark or strong sunlight. Great covering, hiding power, strength and endurance of color far surpassing most so-called "flat wall" paints, because its pigment is right. No money has been spared in materials. Our rule is the best at any cost, THE BEST THAT CAN BE MADE.

For plastered walls, burlap, canvas, woodwork, metal; non-fading, non-absorbent, as washable as porcelain and more durable than calcimine. Its wonderful spreading power under the brush due to extremely fine grinding. Dries perfectly without showing streaks or laps, or brush marks, needs no stippling. Satiny finish. Its porcelain-like surface perfectly withstands hard, frequent scrubbing with soap and water, without checking, scaling or peeling.

FLAT WALL FINISH SEALER.

Barrels★	per gallon	ABJ	$1.60
5 gal. cans	per gallon	ABE	1.70
1 gal. cans	per gallon	ACJ	1.80
½ gal. cans	per gallon	ADJ	1.90
¼ gal. cans	per gallon	ADE	2.00

To prevent suction or the chemical action of the material in the plaster or cement from attacking the delicate coloring pigments of the paint. Do not use a cheap gloss oil, or glue size, for such will soften up under the "O. V. B." Sanitary Flat Wall Finish. First fill all cracks and holes with plaster paris, then coat with the "O. V. B." Sealer, and allow this sealer sizing to dry before applying the paint. No sizing necessary on wood or metal work. Burlap walls or previously calcimined walls should be given a coat of the sizing before painting.

LIQUID ENAMEL.

For Rich Colonial Effects in Interior Decorative Work of Every Description.

1 gal. cans	per can	BJE	$3.60
½ gal. cans	per can	AAE	1.90

Per can	$0.64		.40
			CE BD

It contains just enough carison to cut the crayon nicely without feeling gritty to the touch. Has given universal satisfaction in a number of large public schools.

For a new surface apply 3 or 4 coats: for renewing old surfaces 1 or 2 coats are ample.

CRACK AND CREVICE FILLER.

1 lb. cans	per can	AB	$0.20
5 lb. cans	per can	JFJ	1.00

For filling cracks, crevices, checks, etc., in hard or soft wood flooring, wood work, varnished surfaces, etc. An adhesive, non-shrinking filler that hardens equal to the wood. It can be sandpapered, waxed, varnished and painted or stained any color to match surroundings.

CYB COLORS, OCHRES AND MINERALS IN OIL, ETC.

CYB PURE COLORS IN OIL.

Of all pain products, colors in oil are among the most difficult to make right. Many paint manufacturers do not attempt it but buy their colors outside. CYB Colors in Oil represent the highest skill known in the paint grinders' trade. Two pounds do the work of three pounds of ordinary colors.

Special discounts on quantity purchases.

REVONOC BARN PAINT.

WE GUARANTEE REVONOC BARN PAINT TO GIVE SATISFACTION WHEN PROPERLY APPLIED ON A GOOD SURFACE. IF IT DOES NOT PROVE TO BE EXACTLY AS REPRESENTED, WE AGREE TO FURNISH PAINT TO REPAINT FREE OF CHARGE. WE PRINT FORMULA ON EVERY LABEL AND SELL SUBJECT TO A CHEMICAL ANALYSIS.

Hibbard Spencer Bartlett & Co.

The REVONOC barn paint is a perfect harmony of ingredients, accurately proportioned by expert makers, and ground and mixed by the best modern machinery.

We all want the "Extra"—the something out of the ordinary. The extra quality of goods brings "Extra" profitable returns to the dealer. The price may be a little higher, but the quality creates in the buyer that satisfied feeling of money well spent.

REVONOC barn paint is made to supply the necessity every dealer wishes for, namely, goods of quality that will not only hold trade, but also increase trade.

The REVONOC barn paint is made of the best red oxide and far excels ordinary Venetian red. Ordinary Venitian red will soon fade and streak white. REVONOC barn paint is a very bright, unfading red and will stand the racket of any and all atmospheric changes, its durability being unequaled, making it the best paint for barns, tin roofs, grain elevators, fences, depots, freight cars, etc. It will cover 250 square feet two coats to the gallon, on new wood with ordinary surface, on old wood or rough surface, less—on tin roofs or iron work, more.

Especially adapted for Painting Barns, Roofs, Bridges, Fences, Etc.

Barrels	.....per gallon	**AJE**	$1.80

Red.
Steel Gray—carried in 1 gal. cans only.

Its ingredients are accurately proportioned and blended so that they produce the best paint for the purpose. REVONOC Iron paint will stand the contraction and expansion of cold and heat without cracking or chipping off. It has great elasticity and toughness which is a guarantee of good wear. Subjected to the heat of sun, steam, and fire, REVONOC Iron paint is especially desirable for all metals.

REVONOC FLOOR WAX.

For Floors, Furniture and Woodwerk.

1 lb. cans	.....each	**BE**	$0.42
2 lb. cans	.....each	**EJ**	.84
4 lb. cans	.....each	**JIJ**	1.68

Apply one coat of REVONOC Paste Wood Filler, allowing twelve hours for filler to dry. Then apply two coats of REVONOC Floor Wax, polishing each coat thoroughly.

For old floors in worn condition, clean with turpentine or benzine before applying wax. If floors are coated with varnish or shellac, remove the old finish with varnish remover and proceed same as for new floors.

Colors.

No. 305—Dark Moss Green.
No. 307—Moss Green.
No. 308—Brown.

REVONOC *Creosote Shingle Stain is best for unpainted shingles or to give that rough artistic, weathered effect on any exterior wood, because the strong creosote oil penetrates deep, carrying pigment into the pores and making the stain virtually part of the wood itself.*

Creosote Oil is a natural wood preservative and prevents rot, fungus growth, and mildew, on shingles, corncribs fences and fence posts, greatly reducing the repair bill for lumber. Shingles should never be painted. But if painted once they cannot be stained; but should be painted again.

QUANTITIES REQUIRED.

For soaking, three gallons per thousand.
For dipping (2-3 each), two gallons per thousand.
Brush work (on the roof), one gallon per 200 square feet.
Soaking is cheapest in the long run.

WHITE CITY HOUSE PAINTS AND COLORS.

WHITE CITY PAINT.

White City House Paint is an intimate combination of White Lead, Zinc, Inert Pigment and Linseed Oil, mixed with durable coloring matter.

White City House Paint is one of the biggest values offered on the paint market today. It has a remarkably fine record for excellent service to the paint user, in every part of the country.

Because of the great care exercised in grinding to unite the pigment thoroughly with the linseed oil, White City House Paints will be found to last much longer, and spread better than paint materials stirred and tinted by hand.

To Ascertain the Amount of Paint Needed for a Job. Example.

Front, feet	40
Rear, feet	40
Side, feet	50
Side, feet	50
	180
Multiply by average height	20
	3600
Divide by 250—3600—14.4 gals.	

Figure one gallon of White City Paint will cover 250 square feet two coats on an average good surface, if it is rough and uneven more paint will be needed.

For priming coat do not use a cheap primer. Use White City Paint reduced according to directions. The finishing coat is to be applied as received in the package after being thoroughly stirred.

Use only strictly pure boiled linseed oil and turpentine for thinning.

Stir thoroughly before using. Putty all nail holes, and shellac all knots, pitchy or snappy parts. The surface to be painted should be dry and free from dust, dirt or grease. If paint is too thick, thin with boiled linseed oil for outside, for inside, small quantity of turpentine may be used. Let first coat dry hard before applying second.

White City Flat Wall Paint meets the demand for a medium priced yet dependable Flat Wall Finish, now so much in vogue. White City Flat Wall Paint is an oil and flat varnish paint made of pigment specially adapted for interior use. It produces a satin-like effect that withstands frequent washing without scaling or peeling. For plastered walls, burlap, canvas, woodwork, metal, etc. Its great covering capacity is the result of extremely fine grinding. Dries perfectly without showing brush marks and needs no stippling.

On floors, decks, and piazzas these paints show exceptional elasticity and wearing qualities due to the careful selection of proper pigments and because of the character of the varnish and oils in which these pigments are ground. Although for the very finest results, we recommend [illegible] floor paint (page 2413), yet White City Floor Paint is thoroughly dependable and an unusual value.

Mixed by powerful machinery, every particle of pigment is saturated with oil to its fullest absorbing capacity.

White City Barn Paint, made with rich, non-fading colors, with over 60 per cent pure linseed oil in the liquid is at times hard to distinguish from a house paint. Used on barns, fences, sheds, roofs or bridges it really increases property values. Covers 200 square feet to the gallon, two coats, and on tin or iron, more.

CRUSO BARN PAINT.

Red.

5 Gal cans .....per gal.		JHJ	$1.30
1 Gal. cans	"	JHE	1.40
½ Gal. cans	"	JIJ	1.50

Cruso Barn Paint is the product of a careful selection of materials, which are thoroughly ground and mixed in heavy machinery. This accounts for its superiority to hand-mixed paints when used on barns, roofs, fences, corn cribs, and grain elevators. Every can bears formula label which we guarantee to be correct. This allows Cruso Barn Paint to be sold in all pure paint law states.

SIX GALLON CANS IN A CASE.

When thinned with benzine or turpentine, this coating can be used as a paint for structural iron work, iron tanks, iron shutters, steel bridges, iron fences and stand pipes. Guaranteed free from resin. It forms a waxy coat —not sticky and not brittle. Absolutely resists water, acid or changes in temperature. Occasionally applied, it keeps old roofs new. An excellent damp-proof coating on brick or concrete cellar walls— apply heavy coats on outside of walls and, when set, shovel the dirt back against the wall. Does not taint cistern water; contains nothing injurious; is a splendid electric insulator. Best applied with a three knot roofing brush. Covers from 100 to 300 sq. ft. per gallon.

To get Best Results—Do not apply until surface is free from grease, scales and moisture. If heavy, warm by placing can in boiling water or over a steam coil and apply while hot. Do not heat near a light or open fire.

To repair holes in felt, apply a heavy coat, lay on a piece of felt or roofing, nail securely and cover thoroughly with a second layer of asphalt coating.

New composition roofs should not be coated for at least six months after laying. Do not use on wood. Get REVONOC *Creosote Shingle Stain or* REVONOC *Roof Paint for wood roofs.*

CRUSO ROOF COATING.

1 gal. cans	.....per gallon	DE	$0.75
5 gal. cans	.....per gallon	CE	.60
10 gal cans	.....per gallon	BE	.50

In wood jacketed cans.

For cementing the joints and laps of roofing paper, for plastering around chimneys, smoke stacks, etc. Covers 100 to 200 square feet per gallon.

LIBERTY ELASTIC RUBBER ROOF PAINT.

Barrels★	.....per gallon	CE	$0.60
Half Barrels★	....per gallon	DJ	.70
5 gal. cans	.....per gallon	EJ	.80
1 gal. cans	.....per gallon	EE	.90

For use on shingle, metal or felt roofs and for painting pipes and iron tanks, boat bottoms, fences, and iron and steel work of all kinds.

Will preserve from rot the ground ends of fence posts, telegraph and telephone poles, and is to be relied upon for patching leaking roofs with muslin. Liberty Elastic Rubber Roof Paint is weather, water, sun, rust and acid proof and absolutely will not crack in cold weather or run when the sun is hottest. Sets quickly and dries slowly with a jet black, glossy finish. Odorless when dry and will not discolor or impart a taste to rain water. One gallon will cover from 250 to 400 square feet of metal and from 150 to 250 square feet of felt or composition roofing, depending upon the condition of the surface to be covered.

VARNISHES.

Entire page CD%.

When you see the H.S.B. & CO. Label on a can of varnish you can know that varnish is made right. H.S.B. & CO. Varnishes are the finest work of men who are giving their lives to producing high grade varnish, and you can buy No. 300 Architectural Floor, for instance, now, and again, next month, and the month after, and you will get the same varnish. All are uniform in quality and thoroughly aged.

ARCHITECTURAL VARNISHES.

In offering our architectural varnishes to the trade, we desire to call special attention to the fact that we have combined all the qualities essential and characteristic of high grade finishes for architectural purposes.

Exterior Spar.

Size cans, gal.	5	1	½
No. 412 H.S.B. & CO.—Per can	$9.50	4.00	2.10
Size cans, pt.	2	1	½
No. 412 H.S.B. & CO.—Per can	$1.10	.60	.32

Especially adapted for store fronts, vestibules, window casings, front doors, and all outside work requiring a varnish of extreme durability. It dries free from dust in from six to eight hours, and hardens in about four days to admit of being rubbed.

Interior Spar.

Size cans, gal.	5	1	½
No. 411 H.S.B. & CO.—			
per can	$14.50	3.00	1.60
Size cans, pt.	2	1	½
No. 411 H.S.B. & CO.—			
per can	$0.85	.48	.25

Especially adapted for fine interiors, parlors, libraries, dining rooms, etc., where a rich, durable finish is desired. It works freely, dries with a brilliant lustre, and can be rubbed to a dull finish or highly polished. It can be used over natural wood, painted or grained surfaces. Dries free from dust in from five to seven hours, and can be rubbed and polished in from three to four days.

Architectural Floor Finish.

Size cans, gal.	5	1	½	¼	⅛	1/16
No. 300 H.S.B. & CO.—						
per can	$14.50	3.00	1.60	.85	.48	.25

The best floor varnish money can buy. Made from all hard gum and free from resin. Will not mar white and is not affected by hot or cold water. Dries dust free in from two to three hours, and under favorable conditions, can be walked upon over night. Best results are obtained by applying two coats well brushed out. Figure 350 square feet to the gallon, two coats.

Pale Hard Oil Finish.

Size cans, gal.	5	1	½	¼	⅛	1/16
No. 400 H.S.B. & CO.—						
per can	$12.00	2.50	1.35	.73	.42	.22

This is a very pale colored varnish especially adapted for finishing natural wood or grained surfaces; is free working, dries free from tack in a few hours and makes a good gloss finish or can be rubbed.

GENERAL VARNISHES.

Light Hard Oil Finish.

Size cans, gal.	5	1	½	¼	⅛	1/16
No. 401 H.S.B. & CO.—						
per can	$8.25	1.75	.98	.54	.32	.18

This varnish is similar to our Pale Hard Oil Finish, but not as light in color. Brushing and drying qualities about the same. Suitable for all ordinary woods except Maple, Light Mahogany, etc., and can be rubbed or left in the gloss.

Light Interior Coach.

Size cans, gal.	5	1	½	¼	⅛	1/16
No. 301 H.S.B. & CO.—						
per can	$9.50	2.00	1.10	.60	.35	.19

This is for either new or old housework. Dries with a very high gloss in from thirty-six to forty-eight hours and can be rubbed within three days. One coat of Light Interior Coach and one coat of Transparent Liquid Wood Filler over either Pine or Hard Woods produces a full and satisfactory finish. Where Oak or Open Grained Woods are to be finished, same should first be filled with a paste wood filler.

GENERAL VARNISHES.

White Batavia Damar.

Size cans, gal.	5	1	½	¼	⅛	1/16
No. 409 H.S.B. & CO.—						
per can	$12.00	2.50	1.35	.73	.42	.22

This is made from selected White Damar Gum. Unsurpassed for making White Enamels or Coating over white surfaces to produce a gloss effect. (Damar Varnish should not be used for furniture or outside work.) Dries in about eight hours.

Furniture Varnish.

Size cans, gal.	5	1	½
No. 403 H.S.B. & CO.—			
per can	$7.00	1.50	.85
Size cans, pt.	2	1	½
No. 403 H.S.B. & CO.—			
per can	$0.48	.29	.16

A brilliant and quick drying varnish for gloss work (except floors). One coat produces a very satisfactory finish over old work. Dries over night.

Elastic Floor.

Size cans, gal.	5	1	½
No. 408 H.S.B. & CO.—			
per can	$12.00	2.50	1.35
Size cans, pt.	2	1	½
No. 408 H.S.B. & CO.—			
per can	$0.73	.41	.22

This is very similar to our Architectural Floor Varnish but a little darker in color and is an excellent varnish for refinishing old floors, oil cloths, linoleums or interior woodwork. Very tough and elastic and will not turn white when floor is washed. Dries in from eighteen to twenty-four hours.

Linoleum.

Size cans, gal.	5	1	½	¼	⅛	1/16
No. 100 H.S.B. & CO.—						
per can	$14.50	3.00	1.60	.85	.48	.25

Made from all hard gum and free from resin. Will not mar white and is not affected by hot or cold water. Dries dust free in from three to ten hours, and under favorable conditions, can be walked upon over night.

House Painters' Japan Dryer.

Size cans, gal.	5	1	½	¼	⅛	1/16
No. 422 H.S.B. & CO.—						
per can	$4.50	1.00	.60	.35	.23	.13

This is a very strong dryer. Light in color. Suitable for use in drying mixed paints, white lead in oil, etc.

T Japan Dryer.

Size cans, gal.	5	1	½	¼	⅛	1/16
No. 419 H.S.B. & CO.—						
per can	$5.75	1.25	.73	.42	.26	.15

This is a very powerful dryer and will not injure the life of paints. One gallon will dry twenty-five gallons of Raw Linseed Oil in from eight to twelve hours.

No. 1 Coach.

Size cans, gal.	5	1	½	¼	⅛	1/16
No. 405 H.S.B. & CO.—						
per can	$8.25	1.75	.98	.54	.32	.18

This is a very popular varnish for use on interior woodwork; dries in about twelve hours and can be rubbed or recoated in forty-eight hours.

Extra Durable Coach.

Size cans, gal.	5	1	½	¼	⅛	1/16
No. 418 H.S.B. & CO.—						
per can	$12.00	2.50	1.35	.73	.42	.22

This varnish is all that its name implies, namely—a very durable varnish. It is intended for either interior or exterior work. Is elastic, flows well, dries with a high lustre in about eighteen hours.

VARNISHES, SHELLACS AND ASPHALTUMS.

CARRIAGE AND AUTOMOBILE VARNISH.

Pale Wearing Body.

Size cans, gal.	1	½	¼	⅛
No. 320 —Per can	$5.00	2.60	1.35	.75
	CCJ	ACJ	JIJ	EJ

A very pale varnish of great brilliancy and durability. Dries dust free in ten to twelve hours, and can be run out in three to four days.

Black Rubbing.

Size cans, gal.	1	½	¼	⅛
No. 322 —Per can	$3.50	1.85	1.00	.55
	BCE	ABE	JFE	DJ

An undercoating varnish. Dries to rub in three days.

Heavy Gear.

Size cans, gal.	1	½	¼	⅛
No. 323 —Per can	$3.50	1.85	1.00	.55
	BCE	ABE	JFE	DJ

A very brilliant and elastic varnish for wheels and under parts. Dries dust free in eight to ten hours, and can be run out in about three days.

ASPHALTUMS.

Egyptian Black Asphaltum.

Size cans, gal.	5	1	½	¼	⅛	⅛
No. 413 —						
Per can	$3.25	.75	.48	.30	.21	.12
	BAE	EJ	CF	BJ	AD	JH

No. 413 —Barrels.....per gallon CJ $0.50
No. 413 —½ barrels.....per gallon CH .55
No. 413 —10 gallons.....per gallon DJ .60

A very strong, quick drying black, for use on smoke stacks, boilers, furnace fronts, stove pipes or ironwork. Dries in about eight hours.

Turpentine Asphaltum.

No. 316 —5 gallon cans.....per can DFJ $7.00
No. 316 —1 gallon cans.....per can AJJ 1.50
No. 316 —Barrels.....per gallon JHJ 1.20
No. 316 —½ barrels.....per gallon JHC 1.25
No. 316 —10 gallons.....per gallon JHE 1.30

For same uses as No. 413, but more durable; made from the best Gilsonite asphaltum gum; very brilliant and dense in color. Works freely under the brush and dries quickly.

TURPENTINE OIL SHELLAC.

Size cans, gal.	5	1	½	¼	⅛	⅛
No. 404 —						
Per can	$9.00	1.90	1.06	.58	.34	.18
	FFJ	AEJ	JHJ	DJ	BD	AB

A transparent quick hard drying varnish used as a priming coat on all close grain natural woods or first coater on open grain woods that have first been filled with a paste filler. Dries over night sufficiently hard to admit of being sandpapered. Put up in cans.

ALCOHOL SHELLAC.

Strictly Pure.
In Glass Jars.
White.

*No. 425—Capacity, oz.	2	4	8
Per dozen jars	$1.30	2.15	3.40
	AJJ	AGE	BGE

In Jugs.

Size cans, gal.	1	½	¼	⅛
*No. 425 —Per gallon	$2.40	2.60	2.75	3.10
	BJE	BBJ	BBJ	BHJ

For under coats before varnish or hard oil is applied. Used on lightwoods. Dries hard in three to four hours.

Orange.
In Glass Jars.

*No. 426—Capacity, oz.	2	4	8
Per dozen jars	$1.25	2.10	3.30
	AJJ	AGE	BGE

Just the finish for burnt woodwork, fine cabinet work, hardwood floors' bric-a-brac, furniture, etc. Put up in nickel plated screw top glass jars. Alcohol shellacs discolor and deteriorate in metal.

Apply over Dye or Paste Wood Filler with ordinary varnish brush. Brush well. Flat finish obtained at one-third the labor cost of rubbing varnish.

JOHNSON'S WOOD DYE.

No. 172—Flemish Oak.
No. 122—Forest Green.
No. 121—Moss Green.
No. 120—Fumed Oak.
No. 125—Mission Oak.
No. 140—Manila Oak or Early English.
No. 130—Weathered Oak.
No. 131—Brown Weathered Oak.
No. 132—Green Weathered Oak.
No. 178—Brown Flemish Oak.
No. 126—Light Oak.
No. 123—Dark Oak.
No. 110—Bog Oak.
No. 128—Light Mahogany.
No. 129—Dark Mahogany.

1 Gallon, 6 to case .....each $3.00
½ Gallon, 12 to case .....each 1.60
1 Quart, 36 to case .....each .85
1 Pint, 48 to case .....each .50
½ Pint, 72 to case .....each .30

All shades of Johnson's Wood Dye may be lightened by adding wood or denatured alcohol and darkened by adding No. 172 Flemish Oak Dye, which is jet black. Two or three shades may be mixed together, producing almost any desired effect.

One-half gallon covers 350 square feet on hardwood and 200 square feet on soft wood.

A deep-seated dye penetrating the grain and the pores of the wood, bringing out its beauty.

JOHNSON'S PASTE WOOD FILLER.

No. 10—Natural.
No. 20—Golden Oak.
No. 30—Dark Oak.
1 lb. Cans, 100 to case .....each $0.18
2 lb. Cans, 100 to case .....each .36
5 lb. Cans, 40 to case .....each .75
10 lb. Cans, 10 to case .....each 1.50
25 lb. Cans, 4 to case .....each 3.00

For filling the grain and pores of all wood. A better polish may be obtained with one coat of Johnson's Wax or of varnish over Paste Wood Filler than with two coats over liquid filler or upon bare wood. One pound sufficient for filling grain of 40 square feet.

ASSORTED CASES AS FOLLOWS: 4 ONE-HALF GALLONS, 8 QUARTS, 12 PINTS AND 24 ONE-HALF PINTS.

ASSORTED CASES AS FOLLOWS: 25-1 LB., 10-2 LB., 5-5 LB., 3-20 LB. CANS IN A CASE.

★*FOR FACTORY SHIPMENT ONLY.*

JOHNSON'S UNDER-LAC.

1 Gal. Cans .....each $2.50
½ Gal. Cans .....each 1.35
1 Qt. Cans .....each .70
1 Pt. Cans .....each .40
½ Pt. Cans .....each .25

A liquid used in place of shellac or varnish. Does not lap, will not crawl. Used to brighten up anything about the house. Especially adapted for use upon furniture. It is very thin and elastic and will not chip, mar or scratch. Will dry hard in less than an hour.

For one coat finish, mix equal parts of Johnson's Wood Dye, the desired shade, and Johnson's Under-Lac and you will have a perfect stain and finish combined in one.

For linoleum, oil cloth, etc., it is unexcelled. An old dim linoleum surface given a coat of Under-Lac will dry hard in an hour so that the floor can be walked upon, and be as bright and clear as new.

Recommended for use over Wood Dye or Paste Wood Filler where a higher gloss is desired than a waxed finish.

12 ONE GALLON, 24 ONE-HALF GALLON, 48 QUART, 96 PINT AND 240 ONE-HALF PINT CANS IN ONE CASE.

ASSORTED CASES AS FOLLOWS: 2 ONE GALLON, 4 ONE-HALF GALLON, 8 QUART, 12 PINT AND 24 ONE-HALF PINT CANS IN A CASE.

JOHNSON'S ELECTRIC SOLVO.

1 Qt. Cans .....each $0.70
1 Pt. Cans .....each .40
½ Pt. Cans .....each .25

Applied with brush, and in fifteen or twenty minutes softens the old finish so it can be easily removed from flat surfaces with an ordinary putty knife, and from carvings, mouldings, etc., with a little steel wool.

It does not injure the hands or the finest fabrics and is free from any disagreeable odor.

12 ONE GALLON, 24 ONE-HALF GALLON, 48 QUART, 96 PINT AND 240 ONE-HALF PINT CANS IN A CASE.

ASSORTED CASES AS FOLLOWS: 2 ONE GALLON, 4 ONE-HALF GALLON, 8 QUART, 12 PINT AND 24 ONE-HALF PINT CANS IN A CASE.

JOHNSON'S CRACK FILLER.

1 lb. Package .....each $0.25
2 lb. Package .....each .50
5 lb. Package .....each 1.00

Made in paste form, should be used upon oak and other hardwood floors that are to be finished natural. When using this Crack Filler on very hard or porous wood we recommend that the cracks be first given a light coat of linseed oil; otherwise the dry wood will absorb all the oil in the crack filler before it has a chance to harden and the result is that the filler will crumble.

One pound ordinarily covers 30 square feet.

100-1 LB., 50-2 LB., 30-5 LB. PACKAGES IN A CASE.

ASSORTED CASES AS FOLLOWS: 50-1 LB., 10-2 LB. 6-5 LB. PACKAGES IN A CASE.

No. 333-P—For Gas and Steam Fitters' Use, Iron Work, Etc.

1 gal. cans	per can	JIJ	$1.50
½ gal. cans	per can	DH	.80
¼ gal. cans	per can	CJ	.50
⅛ gal. cans	per can	AG	.30
⅛ gal. cans	per can	AA	.20

For steam pipes, radiators, hot water boilers. Durable, brilliant, will not rub.

BANANA BRONZING LIQUID.

No. 444-P—For Interior and Exterior Gilding of Any Kind.

1 gal. cans	per can	AHJ	$3.00
½ gal. cans	per can	JIE	1.60
¼ gal. cans	per can	EE	.90
⅛ gal. cans	per can	CJ	.50
⅛ gal. cans	per can	AG	.30

For every kind of decorative work. Durable, weather-proof, grease-proof.

Banana Bronzing Liquid for Gold and Aluminum Powders.

No. 1—Capacity 1 oz. bottles.....per dozen JHJ $1.30
No. 4—Capacity 3½ oz. bottles.....per dozen AHJ 2.50

ONE DOZEN IN A BOX.

MISCELLANEOUS OILS AND LIQUIDS.

Added Net Charges in Less Than Barrel Lots. Half barrels, 10, 5, 3, 2, 1 gallon cans $0.03
½ and ¼ gallon cans ..... .05

AUTOMOBILE CYLINDER.

Automobile, a high fire test, scientifically prepared oil of medium body for lubrication, by gravity, force, feed or splash system, of all styles and types of motors operated, affords the highest degree of lubrication, freedom from carbon deposit in the cylinders, valves and spark plugs, for long trips at high speed, cold test —15 degrees below zero,
per gallon .....DE $0.80

REVONOC AUTOMOBILE OIL.

A Practically Carbonless Medium Body Oil, Possessing Great Lubricating Properties, Works Equally Well in Hot or Cold Weather. Never Thickens or Becomes Sticky When in Use. Low Flash Point. High Fire Test.

No. 5-P—5 gal. cans, w't per doz. 37 lbs.....per can **BGJ** $4.50

No. 10-P—10 gal. cans, w't per doz. 73 lbs.....per can **EBJ** $9.70

Put up in flat top wood jacket cans.

Gas Engine, a high grade heavy lubricant, high fire test, low gravity, for all kinds of gasoline engines, per gallon .....CD $0.60

Motor Boat, a scientifically refined oil of medium body, especially prepared for all styles marine gas engines, excels in friction-reducing properties, increasing power and speed, high fire test and viscosity, per gallon .....CH $0.70

STEAM CYLINDER.

Steam, a heavy, bone filtered, high fire test oil of great viscosity, fine lubricant, equal to any high grade oil on the market, also adapted for automobile transmission, fire test 600, cold test 50, per gallon **JFG** $1.20

Wichita, low priced, heavy oil for pumps and similar low pressure work, per gallon .....BG $0.48

ENGINE.

Chippewa, a heavy red engine oil of superior lubricating and wearing qualities and intended for heavy work, shafting ..per gallon **AI** $0.34

MACHINE.

Separator, a pale oil of high flash test, particularly adapted for use on cream separators and light running machinery, clean, carbonless, refined, strained and filtered by methods actually improving its lubricating properties, per gallon **DE** $0.80

XX Separator, prepared especially to properly lubricate all makes of hand and machine cream separators, per gallon .....BC $0.40

XXX Harvester, an economical and satisfactory lubricant for all classes of harvesting machinery, will not separate .....per gallon **BC** $0.40

Pawnee Castor, a heavy machine oil for farm machinery and general work, per gallon .....BJ $0.36

Lawn Mower, a pale oil of high flash test, particularly adapted for use on all makes of lawn mowers, refined, strained and filtered by methods improving its lubricating properties .....per gallon **CD** $0.60

NEATSFOOT.

Strictly Pure, highest grade produced, a superior preservative and dressing for fine leather, especially adapted for keeping fine harness and leather belting soft and pliable and in condition to stand wear and weather .....per gallon **AJB** $1.90

Extra, a very fine leather dressing and preservative, keeps all kinds of leather soft and pliable, especially adapted for use on belting and harness .....per gallon **JHE** $1.50

LARD.

No. 1—Adapted for all kinds of pipe, thread and steel cutting,
per gallon .....JGB $1.30

Extra No. 1, very high grade, for use on all metal cutting, especially adapted for cutting hard tool steel, per gallon .....AJE $1.80

Extra Winter Strained, very best obtainable, especially adapted for cutting on fine work, also a good burning oil for use in watchmen's lanterns .....per gallon **ABJ** $1.90

LINSEED OIL, STRICTLY PURE.

American Linseed Co.'s Brand.

Raw, strictly pure, old process,
per gallon .....Mkt.

Boiled, strictly pure, old process,
per gallon .....Mkt.

Raw oil is for light colored paints. Best for outside use, when allowed three days to dry and more elastic than boiled.

Boiling oil is to dissolve the fatty portions of the oil, causing it to dry quickly. Requires twenty-four hours to dry in. Discolors white paint.

FOR CUP GREASE, SEE PAGE 2432.

GLOSS.

Gloss Oil .....per gallon **CF** $0.60
Used for barrel paints, often substituted for varnish for toys, willow ware, etc., used for sizing walls to stop suction. It is purely a rosin product. Will not mix with lead or zinc; can be used in dry paints.

TURPENTINE.

Pure Spirits of Turpentine—not sold in ½ bbls.—7 lbs. to gallon,
per gallon .....Mkt.
For reducing paint for inside work.

Steam Distilled Turpentine,
per gallon .....Mkt.
About five cents per gallon cheaper than pure spirits of gum turpentine. Absolutely pure; equally as good as gum turpentine for painting purposes. Mixed with paint it penetrates well into pitchy or sappy wood, causing the paint to stick better. Excellent for thining varnishes.

PYRO DENATURED ALCOHOL.

Per gallon—bbls.★ .....FJ $0.98
A non-freezing solution for automobile radiators; also a perfect fuel for use in chafing dishes, percolators, lamps, and for general cooking, lighting and heating purposes.
F. O. B. Peoria, Ill.

Denatured Grain Alcohol, 180 proof, as good as 188 proof for fuel, or as non-freezing filler for automobile radiators★ .....per gallon **JED** $1.00

Denatured Grain Alcohol, 188 proof, per gallon .....JEG $1.04
Used in paint trade for making shellac, varnish, lacquers, etc., etc., also for alcohol stoves.

Wood Alcohol ...per gallon **JFE** $1.10
A perfect substitute for grain alcohol, for all mechanical purposes. Also used as a solvent for shellac gums and is good for burning purposes. Makes an excellent carriage for fine wood fillers.

DUSTLESS FLOOR OIL OR DRESSING.

Keeps down the dust and protects the floor. One gallon will cover 200 to 300 square feet, according to the nature of the wood and surface.

Hygienic .....per gallon **DE** $0.80
No. 2 .....per gallon **BI** .54
No. 4 .....per gallon **BE** .46

Charge for Containers.

No. 200—Wood jacketed 10 gal. cans, each .....JEE $1.10
No. 300—Wood jacketed 5 gal. cans, each .....CE $0.60
No. 400—Wood jacketed 3 gal. cans, each .....CJ $0.50
No. 500—Wood jacketed 2 gal. cans, each .....BD $0.40
No. 600—1 gal cans .....each **AB** .20
No. 350—5 gal. square cans, each .....JEE 1.00
No. 250—10 gal. square cans, each .....JHE 1.50
No. 450—1 gal. square cans, each .....AE .30
No. 550—½ gal. square cans, each .....AJ .16
No. 650—¼ gal. square cans, each .....JE .10

CANNED LUBRICATING AND MISCELLANEOUS OILS.

Polished Square Sealed Cans, with brilliant [illegible] and REVONOC labels, make an appearance, most attractive shelf stock, beside saving the time, muss, interruptions and general nuisance of handling bulk oil with constant spilling and "over-measure" losses.

[illegible] AUTOMOBILE CYLINDER.

5 Gal. Can, per doz. cans CECJ $58.80
1 Gal. Can, per doz. cans JHCE 13.92
It affords the highest degree of lubrication, in addition to securing freedom from carbon deposit in the cylinders, valves and spark plugs. For long trips at high speed. Cold test 15 degrees.

REVONOC AUTOMOBILE OIL.

A Practically Carbonless Medium Body Oil, Possessing Great Lubricating Properties. Works Equally Well in Hot or Cold Weather. Never Thickens or Becomes Sticky When in Use. Low Flash Point. High Fire Test.

No. 5-P—5 gal. cans, w't per doz. 37 lbs., per can .....BGJ $4.50
No. 10-P—10 gal. cans, w't per doz. 73 lbs. .....per can EBJ $9.50
Put up in flat top wood jacket cans.

[illegible] GAS ENGINE CYLINDER.

1 Gal. Can, per doz. cans JFIJ $11.50
½ Gal. Can, per doz. cans DCJ 7.20
1 Qt. can, per doz. cans BIJ 4.80
A high grade heavy lubricant, high fire test, low gravity. Especially refined for motor boats and all kinds of gasoline engines.

[illegible] MOTOR BOAT. CYLINDER.

Royal Red.

1 Gal. Can, per doz. cans JGPE $12.70
½ Gal. Can, per doz. cans DGJ 7.80
A scientifically refined oil of medium body, especially prepared for lubricating all styles and types of marine gas engines.

[illegible] STEAM CYLINDER.

Compounded.

1 Gal. Can, per doz. cans AJHJ $18.00
½ Gal. Can, per doz. cans JFJJ 10.00
A light, bone filtered, high fire test oil of great viscosity, fine lubricant and equal to any high grade oil on the market. Also adapted for automobile transmission. Fire test 600. Cold test 50 degrees.

[illegible] SEPARATOR.

1 Gal. Can, per doz. cans JHCE $13.92
½ Gal. Can, per doz. cans EJE 8.41
1 Qt. Can, per dozen cans CAE 5.28
Is clean and carbonless. Is refined, strained and filtered by methods actually improving its lubricating properties for this particular work.

XX SEPARATOR.

1 Gal. Can, per doz. cans EDE $9.00
½ Gal. Can, per doz. cans CFJ 6.00
1 Qt. Can, per dozen cans BDJ 4.00

XXX HARVESTER MACHINE.

1 Gal. Can, per doz. cans EDE $9.00
½ Gal. an, per doz. cans CFJ 6.00
1 Qt. Can, per dozen cans BGJ 4.00
An economical and satisfactory lubricant for all classes of harvesting machinery. WILL NOT SEPARATE.
Cold test, 10 below zero. Fire test 430. Gravity 18. Viscosity 400.

PAWNEE CASTOR MACHINE.

1 Gal. Can, per doz. cans EBJ $8.60
A heavy machine oil for farm machinery and general work.

[illegible] LAWN MOWER.

1 Gal. Can, per doz. cans JFIJ $11.50
½ Gal. Can, per doz. cans DCJ 7.20
1 Qt. Can, per dozen cans BIJ 4.80

[illegible] GUN.

1 Gal. Can, per doz. cans JGHJ $12.00
Superior quality for lubricating and keeping fine arms free from rust.

[illegible] BICYCLE.

1 Gal. Can, per doz. cans JGHJ $12.00
Superior lubricating properties and especially adapted for purpose intended.

[illegible] SEWING MACHINE.

1 Gal. Can, per doz. cans JGHJ $12.00
Superior lubricating qualities and will not gum.

[illegible] SEWING MACHINE OIL.

Size, oz.	1	2	3	4
Per doz.	$7.80	1.00	1.20	1.50
	DH	JFJ	JGJ	JIJ
Per gro.	$8.00	10.00	12.00	14.40
	DHJ	JFJJ	JGBJ	JHFE

When ordered in gross lots of a single size, we will print customers' name and address on labels free of charge.

CHIPPEWA RED ENGINE.

1 Gal. Can, per doz. cans EJE $8.40
A heavy red engine oil of SUPERIOR LUBRICATING and wearing qualities and intended for heavy work, shafting, etc.

[illegible] EXTRA WINTER STRAINED LARD.

1 Gal. Can, per doz. cans AFBE $27.00
½ Gal. Can, per doz. cans JIJJ 15.00
1 Qt. Can, per dozen cans EAE 8.60
This oil is the very best lard oil obtainable, and is especially adapted for cutting on fine work. It is also a good burning oil for use in watchmen's lanterns.

EXTRA No. 1 LARD.

1 Gal. Can, per doz. cans ADAJ $23.50
½ Gal. Can, per doz. cans JGIJ 13.20
1 Qt. Can, per dozen cans DFJ 7.20

No. 1 LARD.

1 Gal. Can, per doz. cans AAIE $20.00
½ Gal. Can, per doz. cans JFHE 11.40
1 Qt. Can, per dozen cans DAJ 6.80
Adapted for all kinds of pipe, thread and steel cutting.

REVONOC FAMILY LUBRICATING OIL.

No. 9-P REVONOC—4 oz. handsome can, with screw top, lithographed beautifully in color...per dozen JIJ $1.50
No. 12-P REVONOC—8 oz. per dozen .....ABJ 2.00
For lawn mowers, sewing machines, bicycles and general household use.

[illegible] NEATSFOOT.

Strictly Pure.

1 Gal. Can, per doz. cans AFBE $27.00
½ Gal. Can, per doz. cans JIJJ 15.00
1 Qt. Can, per dozen cans EAE 8.60
1 Pt. Can, per dozen cans CFJ 5.00
This is the highest grade of pure neatsfoot oil produced.
A superior preservative and dressing for fine leather. Especially adapted for keeping fine harness and leather belting soft and pliable and in condition to stand wear and weather.

EXTRA NEATSFOOT.

1 Gal. Can, per doz. cans ACDJ $22.30
½ Gal. Can, per doz. cans JGEE 12.60
1 Qt. Can, per dozen cans DDE 7.40
This is a very fine leather dressing and preservative. It keeps all kinds of leathers soft and pliable and is especially adapted for use on belting and harness.

REVONOC FOR-ALL-THINGS OIL.

REVONOC *For-All-Things Oil is a high viscosity, low gravity lubricating oil unexcelled for its Cleaning and Polishing properties.*
Prevents Guns from Rusting, Nickel and Brass from Tarnishing.
Penetrates into the pores of the metal, forming a film-like coating that defies all weather conditions.
Unsurpassed for cleaning and polishing pianos and fine furniture. Use damp cloth on veneered or polished surfaces and dry cloth on metal.

No. 64P—1 oz. bottles, w't per doz. 3 lbs. .....per dozen JHE $1.40
No. 65P—3 oz. bottles, w't per doz. 6 lbs. .....per dozen AGJ $2.80
No. 66P—8 oz. bottles, w't per doz. 16 lbs. .....per dozen CIJ $6.50
No. 68P—4 oz. cans, with patented spouts, w't per doz. 7 lbs., per dozen .....BJJ $2.30
ONE DOZEN IN A BOX.
BOTTLES PACKED ONE DOZEN IN A NEAT WOOD BOX WITH SLIDING TOP.

CUP GREASES, WHITE LEADS AND DRY PAINTS.

CUP GREASE.

REVONOC Cup Grease is the highest quality in lubricating compounds, containing all essential requirements. It has a high fire test, high melting point, and is a perfectly homogeneous product, is not an imitation of anything, but represents the results of scientific research into the requirements of perfect lubrication, free from acid, the safest lubricant for first class machinery. There is no pitting of wearing parts when machine is idle. It is not affected by climatic changes, and is especially adapted for automobiles, steam and electric railway service, steamships, motor boats, launches, crank pins, cereal mill rolls, etc.

The experienced automobile owner knows that the worst part of unreliable cup grease is that you never realize the danger until the expensive damage—as in the cutting or scratching of bearing—has been done.

Make your next order for grease read REVONOC Cup Grease, and be sure you are safe.

REVONOC Hard Oil or Cup Grease.

Bbls. and Half Bbls, per lb.	AE	$0.24
50 and 100 lb. Cans....per lb.	BJ	.30
10 and 25 lb. Cans.....per lb.	BC	.34
5 lb. Cans .....per lb.	BD	.36
1 lb. Cans .....per lb.	BE	.38

Premier Cup Grease.

Bbls. and Half Bbls., per lb.	JG	$0.11
50 and 100 lb. Cans....per lb.	AJ	.16
10 lb. Cans .....per lb.	AA	.18
5 lb. Cans .....per lb.	AB	.20
1 lb. Cans .....per lb.	AC	.22

A solidified oil of golden color intended for all classes of lubrication requiring a non-fouring grease or hard oil.

REVONOC COMBINATION LEAD AND ZINC.

Ground in Pure Linseed Oil, for Use Where it is Desired to Mix a Paint of Extreme Fineness, Whiteness and Durability.

12½, 25, 50 and 100 lb. Steel Kegs, net w't .....per pound JH A-B $0.15
1, 2, 3 and 5 lb. Cans, net w't, per pound .....AA $0.17

Does one-half more work than corroded or ordinary Trust lead. It is commonly known that a combination of pigments makes a stronger paint than any of those pigments alone. That is one reason why work done with REVONOC lead and zinc sticks firmer and wears longer. Not destructive to oil colors, because sublimed lead is used instead of corroded lead. Non-poisonous and finer in grain, more stable chemically than the corroded lead. Does not discolor in fumes or sulphur gases or smoke, or attack the linseed oil and destroy the gloss. Does not attack the most delicate color pigments.

I-X-L WHITE LEAD.

I-X-L, 1 lb. cans, per pound	AJ	$0.15
I-X-L, 2 lb. cans, per pound	AJ	.15
I-X-L, 3 lb. cans, per pound	JI	.14
I-X-L, 5 lb. cans, per pound	JI	.14
I-X-L, in 12½, 25, 50 or 100 lb. kegs, per pound	JG	$0.09

I-X-L White has been sold for years for its remarkable whiteness and fineness. It is finely ground in pure linseed oil and is superior to many brands of lead on the market sold for more money.

CARTER'S STRICTLY PURE WHITE LEAD.

Put Up in Steel Kegs Only. In 12½, 25, 50 or 100 lb. Kegs.

Carter White Lead, dry or in oil, per pound .....Mkt.
Carter White Lead, in oil, in 1, 2, 3 and 5 lb. tin cans .....per pound Mkt.
Carter White Lead, in oil, assorted 100 lb. cases, containing 20-1, 15-2, 10-3, 4-5 lb. cans, assorted 50 lb. cases containing 20-1, 10-2, 2-5 lb. cans, per pound .....Mkt.

STEEL KEGS ONLY.

To save freight for our customers, we have arranged to ship Carter's Leads from nearest points, viz.: Chicago, St. Paul, Omaha, Kansas City, Cincinnati, Detroit, Milwaukee, St. Louis, Cleveland, New Orleans, Duluth, Savannah, Memphis and Nashville.

CAMDEN'S RED LEAD AND LITHARGE.

Camden Red Lead, dry, per pound Mkt.
Camden Litharge, dry...per pound Mkt.

Red Lead and Litharge are sold only in dry form.

DRY MINERAL PAINTS.

No. 2-X—Venetian Red—

Barrels .....per 100 lbs.	BDJ	$4.00
Half Barrels, per 100 lbs.	BGJ	4.50
Less .....per 100 lbs.	CFJ	6.00

A strong, fine mineral containing 20 per cent Ferric oxide of iron.

No. 4-X—English Venetian Red—

Barrels .....per 100 lbs.	CJJ	$5.00
Half Barrels, per 100 lbs.	CCJ	5.50
Less .....per 100 lbs.	DBJ	7.00

This is the strongest dry mineral we stock and contains over 30 per cent Ferric oxide of iron.

Both of the above dry minerals have been added to meet a demand for higher grades than our No. 73 "Perfection" and should sell where the best is wanted by the retailer or manufacturer. The value of Venetian Red is based on the strength in Ferric oxide of iron or coloring matter. Where ordinary grades average 8 to 15 per cent, these run 20 and 30 per cent.

These colors are known as Light Gravity Reds, as the color will remain in suspension after it is mixed in oil.

Special prices in ton lots.

No. 13—American Venetian Red—

Bbls., 350 lbs., per 100 lbs.	ACJ	$1.70
Half Barrels, per 100 lbs.	AEJ	2.00
Less .....per 100 lbs.	BDJ	3.50

Good shade and ground fine. Very popular seller.

No. 16—Cookson's English Venetian Red—

Bbls., 336 lbs., per 100 lbs.	ADE	$2.30
Half Barrels, per 100 lbs.	AFJ	2.60
Less .....per 100 lbs.	BGE	4.50

Very strong red. Is of a purple shade when dry; when mixed in oil it is an excellent deep red.

No. 72—Royal English Venetian Red—

Bbls., 336 lbs., per 100 lbs.	AFJ	$2.50
Half Barrels, per 100 lbs.	AHJ	2.80
Less .....per 100 lbs.	BIJ	4.50

Our own selection of English Venetian Red; very fine; spreads smoothly under the brush; color strong; stands well. Similar in color to No. 73, but not so strong in oxide.

No. 73—Perfection English Venetian Red—

Bbls., 336 lbs., per 100 lbs.	ADE	$3.00
Half Barrels, per 100 lbs.	AFJ	3.30
Less .....per 100 lbs.	BGE	5.00

This is the best English red we sell; very strong; ground very fine; spreads smoothly under the brush; free from grit of all kinds; the very best red for the money ever put on the market.

No. 34—Pure French Yellow Ochre—

Barrels, 375 to 400 lbs., per 100 lbs.	ABE	$2.50
Half Barrels, per 100 lbs.	ADE	2.80
Less .....per 100 lbs.	BDJ	4.50

The standard yellow ochre and most called for of all ochres; is fine and of good quality; strong in color; gives every one satisfaction.

MORTAR STAINS AND DRY COLORS.

Dry Colors D J %.

PECORA MORTAR STAINS.

F. O. B. Philadelphia, Pa.

In Paste Form, for Laying Brick, for Inside Rough Sand Finish, and for Cement Work, Will Not Fade, Run or Bleach.

Red, in half barrels, barrels and casks, per pound .....B A-B $0.03

In 80 lb. Cans ..per pound B A-B .04

Brown, in half barrels, barrels and casks .....per pound B A-B $0.03

In 80 lb. Cans ..per pound B A-B .04

Buff, in half barrels, barrels and casks, per pound .....B A-B $0.03

In 80 lb. Cans ..per pound B A-B .04

Black, in half barrels, barrels and casks.....per pound E $0.06¾

In 40 lb. Cans.....per pound F .08¾

Special Shades, 1 cent advance over the price of black.

One bucket of the above shades (separate or in combination with others) to seven buckets of mortar will produce red, windsor, purple, salmon, fern green and seal. Fast dyes which form a chemical union with the mortar. Rain, snow, heat or cold will not cause them to run, bleach or stain the brick. Make clean, clear shades, free from streaks. Being a smooth, soft paste, they will mix readily with mortar. Strictly harmless and contain nothing injurious to workmen or mortar. These stains are so cheap that it does not pay to experiment with unknown brands.

80 LB. CANS; 375 LB. HALF BARRELS. 550 LB. BARRELS, OR 900 LB. CASKS.

DRY COLORS.

Gilders' Whiting.

Bolted, 350 lbs. in bbl., per pound $0.02

Less than Bbl. Lots ....per pound .04

Extensively used in the manufacturers' arts.

Chalk.

Lump, 300 to 400 lbs. in bbl., per lb. $0.02

Less than Bbl. Lots .....per pound .04

For coopers' use.

Dry White Lead.

In Bbbls, or 100 Lb Kegs, per lb. .....Mkt.

Less than Bbl. Lots....per pound Mkt.

This is mostly used to make cements and carriage putty. It is also mixed and ground in connection with various pigments to produce colors, giving them a body and covering capacity. At the present day this article can be had in nearly every form imaginable.

DRY COLORS.

Plaster of Paris.

260 lbs. to Bbl. .....per barrel $5.00

Less than Bbl. Lots .....per pound .04

For making casts, finishing coats of wall plaster, and is now fast taking the place of lime in wall plaster. Nearly all patent plaster is mixed with this article in the place of lime. By retarding the setting of the plaster of Paris with powdered glue and air-slacked lime, or china clay, it can be made to set in any desired length of time. The addition of alum water will harden this article like granite.

No charge for barrels.

A wonderful cold water paint; weatherproof, fireproof, and a substitute for oil paint; a powder that mixes easily with cold water. Anyone can apply it; will remain in suspension while in solution with no sediment; can be put on any kind of surface; produces a waterproof coating; will not wash off; will stand the snow and rain; is but a fraction of the cost of oil paint; will last for years; one coat covers better than two coats of whitewash; will not rub, crack, scale or peel off. Suitable for elevators and factories (inside and outside), boiler rooms, breweries and basements, also sides of buildings and areaways, brick and stone walls, courts, sheds, etc., can be applied with a machine. About 5 lbs. dry powder will produce a gallon of paint. Never put up in 5 lb. packages, 25 lb. keg, the smallest package.

SPECIAL FIREPROOF INTERIOR COLD WATER PAINT.

White Only.

Will not deteriorate by age, as it can be mixed and used at any time. Pure white, will not rub, absolutely fireproof; mixes easily, will reduce lighting expenses 40 per cent.

Not a kalsomine, but a practical paint for all interiors. Sanitary, fireproof and light-reflecting; will keep stables, outhouses, cellars, and storerooms clean and wholesome.

For any kind of interiors where it is desirable to have a fireproof and sanitary coating which will be light, durable and healthy.

Manufactured in dry powder form and is to be mixed with cold water. Five pounds of the powder will make a gallon of good paint which, when applied with brush or paint sprayer, will cover 200 square feet.

REVONOC KALSOMINE.

REVONOC Kalsomine is scientifically prepared from finest washed and floated whiting and best quality hide stock glue that can be procured. Is ready for use when mixed with ordinary cold water, does not contain lime, acid, alkali or any injurious ingredients. It is absolutely non-poisonous, will not peel or crack if applied on a solid surface, covers well with one coat and will not rub off. It is the only kalsomine solube in cold water that can be re-coated.

CALCIMINES.

Dry Interior Wall Coatings. Ready for Use when Mixed with Hot or Cold Water. Special Rates in Quantity Orders.

ALABASTINE.

F. O. B. Chicago, New York or Grand Rapids.

For wood, brick, stone, plaster, canvas or papered wall surfaces. Alabastine will not flake, crumble or rub off when properly applied. It is suitable for either plain tinting or elaborate relief decorating. It is easy to apply with an ordinary wall brush, works well on rough or smooth walls, but a sand finished, floated or troweled surface gives best results.

A five pound package of Alabastine properly mixed with water will cover from 300 to 400 square feet of wall surface, according to its smoothness.

Alabastine is entirely sanitary, is absolutely fireproof, thus being particularly adapted to the interior of factories, warehouses, etc.

Alabastine positive colors are used for decorating, lining, out-lining stencil decorations. Also can be mixed with oil for tinting white lead or oil paint. Used on walls; no glue or sizing necessary. One coat produces excellent results on walls. Can be intermixed with Alabastine colors and tints for varied color effects.

Alabastine has enjoyed increasing demand for forty years. The people know what it is.

CALCIMO.

Calcimo Tints and White DJ%.
Calcimo Colors EJ%.
F. O. B. Chicago.

Calcimo flows freely under the brush, dries with a hard, smooth surface, will not rub off, crack, scale or blister. The practical workmen are adopting it everywhere, and it can be used by inexperienced help. It does away with the old-fashioned glue mixtures that require hot or boiling water. It will not lose its properties after being mixed, never works cloudy, streaky, or changes color. It is used by the U. S. government and has been adopted by the school boards throughout the country. It is a disinfectant, therefore is adapted for hospitals, asylums, prisons, etc.

2½ lb. Packages, per lb. JH .14
When this paste is mixed with cold water it is ready for immediate use, thus avoiding the delay in steaming and cooking. It sticks quickly and will hold fast, hanging burlap as well as any kind of paper to all surfaces. Edges lay flat, while the paper slides on the wall, working smoothly. Will not spot or stain, is transparent, pure and inoffensive. The powder keeps indefinitely, saving time, labor and cartage. Makes a first-class sizing and is free from alkali. A 2½-lb. package will make an ordinary pail of paste.
2½ LB. PACKAGES, THREE DOZEN IN A CASE.

LE PAGE'S FISH GLUE,
Retail Assortments.
No. 1-P—Consisting of two dozen **1 oz.** bottles, one dozen ½ gill cans, with tinned wire display stand, w't 11½ lbs.....each **C C E** $3.75

LIQUID GLUE, PUTTY, STOVE PIPE ENAMEL.

CAEMENTUM.

Caementum—For mending gas globes, enamel ware, china, sticking letters to windows, and fitting tiles and marble pieces, w't per doz. 1½ lbs., per dozen .....BDJ $3.00

Caementum is a new form of liquid porcelain. An insoluble adhesive cement for all mending and re-making purposes. Caementum mends everything instantly and permanently, yet is not sticky itself. It forms a joint which defies heat, cold, moisture, gas, air, acid and time.

ONE DOZEN IN A BOX.

ROMAN CEMENT.

No. 5—10 cent size, collapsible tubes, per dozen .....JGJ $1.20

For mending wood, china, glass, statuary, and everything mendable in the home or office. Will not deteriorate in any climate.

Put up in attractive colored cartons for counter display.

ONE DOZEN IN A BOX.

CROCKERY CEMENT.

No. 4—Assortment, instant crockery mender, contains three dozen bottles, one Anglo-Swiss Watch and Fob and advertising matter, w't per asst. 11 lbs....per assortment JFCJ $10.50

Mends everything. We warrant it to be the best article made for the purpose.

COMMERCIAL OR GLAZIERS' PUTTY.

Missouri Whiting and Pure Oil.

Barrels, about 800 lbs., per 100 pounds	BAJ	$3.50
Bladders, in barrels, about 300 lbs., per 100 pounds	BDJ	$4.00
	Per 100 lbs.	
Bladders, in less quantity	BGJ	$4.50
100 lb. Tin Jacket Kits	BDE	4.10
50 lb. Tin Jacket Kits	BFJ	4.30
25 lb. Tin Jacket Kits	BGJ	4.50
12½ lb. Tin Pails	CBE	5.40

REVONOC FURNACE CEMENT.

Asbestos, Fire-proof.

5 and 10 lb. Cans, per pound **F** $0.09
1 lb. Cans.....per pound **JH** .14

This cement is composed of asbestos materials, and is used for mounting and repairing furnaces, ranges, heaters, stoves, etc., making them gas tight. Prepared ready for use. Adheres firmly to the castings, sets in a few hours, odorless, contains no oil. Acids and chemicals have no effect on it.

PUTTY.

Absolutely Pure Linseed Oil and Whiting.

Barrels, about 800 lbs., per 100 pounds	BDJ	$4.00
Bladders, in barrels, about 300 lbs., per 100 pounds	BGJ	$4.50
	Per 100 lbs.	
Bladders, in less quantity	CJJ	$5.00
100 lb. Tin Jacket Kits	BGE	4.60
50 lb. Tin Jacket Kits	BIJ	4.80
25 lb. Tin Jacket Kits	CJJ	5.00
12½ lb. Friction Top Pails	CEE	5.90
1 lb. Tin Cans	JGBJ	12.00

Spreads smoothly and freely under the knife; dries with a hard surface and never shrinks or cracks.

HANDY PUTTY.

Neatly Labeled Shelf Stock.

	Per Pound.	
1 lb. Cans	D	$0.07½
50 lb. Lots or more	C C-D	.07

A smooth spreading, hard drying putty, just the thing for odd jobs about the house, put up in one piece seamless cans.

STOVE PIPE ENAMEL.

Jet Black, Permanent and Elastic.

—½ pt. cans, with brush, w't per doz. 8 lbs.....per dozen **ADE** $2.40

ONE DOZEN IN A HANDSOME BOX, WITH HINGED COVER.

Aloxite is a new abrasive, the product of the electric furnace. It is hard, sharp and tough, especially adapted to steel cutting, and is coated on cloth, for general machine shop use.

Aloxite cloth is superior to emery cloth; the Aloxite grains being so much harder and tougher than emery, cut the metal quickly and easily, leaving a superior finish.

Aloxite cloth is made with the greatest care, the grains being thoroughly cleaned, graded and coated on the best quality of brown drill by improved process. The glues used are the purest and best quality obtainable, and as a result Aloxite cloth is uniformly coated, durable and flexible.

Aloxite cloth can be used on all work where emery cloth is used, saving time, insuring a better finish and lasting longer.

No. 21—Equal to No. ½ or No. 1 sand paper.....per pound **CB** $0.54

No. 31—Equal to No. 1½ and No. 2 sand paper.....per pound **BH** $0.46

Steel wool is a mass of fine fibres of steel, resembling curled hair, which, while sharp, do not scratch, but will cut as smoothly as the finest abrasive material heretofore use. It is the best article for rubbing off varnish, shellac, etc., for various uses, where sand paper, pumice stone and other rubbing materials are used, and doing the work quicker, saving time, labor and cost and making it easier for the workman, as he can do the work better and quicker. Being soft and pliable, steel wool adapts itself to the shape of carvings, mouldings, etc., going into places where sand paper does not get in. Will not clog up or gum up, and can be used to the last particle. It is excellent for rubbing a first coat of varnish. When using, rub with the grain. If a particularly smooth finish is desired, use a little linseed oil.

ONE POUND IN A PACKAGE.

PAINT CLEANERS AND REMOVERS, SPONGES, POLISHES, ETC.

PAINT AND VARNISH REMOVERS.

Removes paint, varnish, shellac and enamel clean to the bare wood almost instantly, contains no acid or alkalies and will positively not injure the hands or the finest veneers. Ad-el-ite is made from the finest imported material, which gives it greater solvent properties than other brands.

Liquid.

Separate Sizes.

1 gal. cans	.....per can	**BBE**	$3.80
½ gal. cans	.....per can	**ABE**	2.00
¼ gal. cans	.....per can	**JFE**	1.10
⅛ gal. cans	.....per can	**CE**	.60
⅛ gal. cans	.....per can	**BB**	.40

"Instint" Liquid.

1 gal. cans	.....per can	**BBE**	$3.80
½ gal. cans	.....per can	**ABJ**	2.00
¼ gal. cans	.....per can	**JFE**	1.10
⅛ gal. cans	.....per can	**CE**	.60

"Instint" Varnish and Paint Remover is composed of the best combination of solvents for varnish and paint known to chemistry, with the addition of a thickener which prevents the evaporation or drying down of these solvents, yet does not in any way retard their actions but adds to their solvent power. It effectively softens or dissolves the varnish or paint, and contains no acid or caustic to burn or injure the wood.

"Instint" will not raise the grain or injure the surface of the finest wood. Will not injure the hands. Contains no acid or fusil oil. Can be used on mouldings and on carvings, where it is impossible to use a torch or a scraper. A few gallons will clean a very large surface. Will not explode.

LINOLEUM LUSTRE.

No. 1—Case containing twelve 1 qt. cans, w't per case 33 lbs., per case .....**JHFE** $14.40

No. 2—Case containing eighteen 1 pt. cans, w't per case 30 lbs., per case .....**GJJ** $7.80

No. 3—Case containing assortment of eight 1 qt. cans and seven 1 pt. cans, w't per case 32 lbs., per assortment .....**JHEJ** $14.20

A liquid preparation made especially for linoleum and printed oil cloth. It is without a peer as a color and pattern preserver. Linoleum's most objectionable feature has been the continual unevenness of wear. By the use of Linoleum Lustre the linoleum or oil cloth will retain all its original brightness. Applied in the evening it will be dry in the morning. Hot or cold water does not affect it.

One quart of Lustre will cover 160 square feet.

REVENOC COMPOUND OIL OF CEDAR.

No. 213-P—1 gal. bottles, w't per doz. 100 lbs. .....per dozen **AHIJ** $31.50

No. 214-P—½ gal. bottles, w't per doz. 55 lbs. .....per dozen **ACEJ** $24.50

No. 215-P—¼ gal. bottles, w't per doz. 26 lbs. .....per dozen **JFCJ** $10.50

No. 216-P—⅛ gal. bottles, w't per doz. 12½ lbs. .....per dozen **DAJ** $6.20

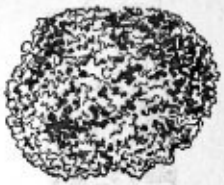
No. 31P—8 oz. bottles, w't per doz. 12 lbs. .....per dozen **CAJ** $4.70

No. 21P—2½ oz. bottles, w't per doz. 6½ lbs. .....per dozen **ACJ** $2.00

For cleaning and polishing painted, varnished or waxed woodwork, furniture and floors and for re-oiling oil mops.

All sizes put up in glass bottles with patent self-sealing cap.

One application produces a permanent, highly polished, piano gloss finish, making the surface brighter, richer and more lustrous than ever.



REVENOC *Compound Oil of Cedar is not gummy or sticky and will not darken the woodwork.*

DIRECTIONS.

No hard rubbing or polishing required. Simply dampen a piece of cheese cloth, pour on a little REVENOC *Compound Oil of Cedar and apply to surface, wiping with a dry cloth. When treating oil mops, allow a few minutes for oil to distribute before using.*

ONE-HALF DOZEN IN A CARTON.

SPONGES.

CUBA GRASS, for General Housework.

No. 30—6 to 8 to a lb., per pound .....**JHE** $1.50

No. 31—10 to 12 to a lb., per pound .....**JHE** 1.50

FLORIDA YELLOW, For Painters, Janitors, Washing Woodwork, Buggies, Etc.

No. 32—6 to 8 to a lb., per pound .....**BFE** $3.00

SHEEPSWOOL SPONGES.

Best Cuba Velvet Sheepswool, Pure, Free from Grit and Foreign Substances, for Washing Buggies, Calcimine and General Painters' Use.

No. 20—6 to 8 to a lb., per pound .....**CEE** $6.50

No. 21—10 to 12 to a lb., per pound .....**CEE** 6.50

Cuba.

No. 14—4 to 6 to a lb., per pound .....**DHJ** $8.00

No. 15—6 to 8 to a lb., per pound .....**DHJ** 8.00

For painters' and calcimineers' use. All first quality sponges, free from grit and foreign substances.

Rock Island.

No. 16—3 to 4 to a lb., per pound .....**JFJJ** $10.00

No. 18—6 to 8 to a lb., per pound .....**JFJJ** 10.00

These are the most durable sponges on the market, and especially adapted for washing harness, buggies and automobiles.

H. R. H. PAINT CLEANER.

1 lb. pkgs. .....per dozen **JHC** $1.50

For washing and cleaning fresco paint, woodwork, painted walls, furniture, statuary, hardwood floors, etc. Also unequaled for cleaning bath tubs, marble and mosaic floors and linoleum. Removes the dirt and grease instantly and being devoid of grit, it cannot scratch varnished or glossy surfaces. A great saving on the hands.

ONE-HALF GROSS IN A CASE.

FURNITURE POLISH, FLOOR PREPARATIONS.

DUSTLESS FLOOR OIL.

Keeps Down the Dust.

		Per Gallon.
5 Gal. Cans, w't 40 lbs.....	JGJ	$1.20
1 Gal. Cans, w't 8 lbs.....	JHJ	1.30
½ Gal. Cans, w't 4 lbs.....	AJJ	1.90
1 Qt. Cans, w't 2 lbs.....	ABJ	2.00

This is a thin coating to apply to office store and public hall floors. Keeps down the dust and protects the floor. It is easily applied and is coming into general use. In sweeping, the dust does not leave the floor, but rolls up and brushes easily along. One gallon will cover 200 to 300 square feet, according to the nature of the wood and surface.

GRANOLIN SWEEPING COMPOUND.

No. 27—Wooden drums, each AHJ $3.00

SWEEPING COMPOUNDS IN STEEL CONTAINERS.

Perolin.

No. 28—100 lb. drums only, each ..... DEJ $7.50

Granolin.

No. 26—100 lb. drums only, per hundred pounds ..... BAJ $3.50

Perolin and Granolin put up in 28 gauge steel containers. Fireproof and moisture proof.

Granolin is similar to Perolin. Perolin grit is slag and granolin grit is sand. Both are antiseptic, leave a pleasant fragrance and are efficient "dust downs" and help to preserve the new, neat appearance of hardware stock on shelves. Steel can may be used as a garbage can, ash can or waste paper receptacle when empty. Worth five times its cost.

FURNITURE POLISH.

No. 103.

Removes the Dirt, Gives Life to Varnish, Brings Back the Polish.

No. 103 —2½ oz. bottles, one dozen in a counter display box, w't per doz. 9 lbs.....per dozen ABJ $2.00

No. 108 —8 oz. bottles, one dozen in a box with counter display, w't per doz. 20 lbs., per dozen ..... BDJ $4.00

No. 115 —¼ gal. cans, w't per doz. 36 lbs.....per doz. EGE $9.60

No. 120 —½ gal. cans, w't per doz. 50 lbs...per dozen AJHJ $18.00

No. 125 —1 gal. cans, w't per doz. 96 lbs....per dozen BAFJ $36.00

Furniture Polish is scientifically blended and will not separate, never has to be shaken, the last of the bottle is as good as the first, contains no acids or other harmful ingredients, does not dissolve or injure the varnish, but cleans and brightens it, scratches on furniture, woodwork and floors are rendered invisible and fade away by the smoothing action of the polish, is adapted for all kinds of furniture and because of its purity from injurious materials, is especially good for the finest woodwork, such as pianos, automobiles and carriages. It is absolutely "foolproof." Invaluable for dusting, the best preparation for daily use, dampen a soft cloth with the polish, rub over the surface of the woodwork imparting a polish, absorbing the dust so it will not settle again as is the case with feather dusters or dry cloths which fill the air with countless germs.

PEROLIN SWEEPING COMPOUND.

100, 200 and 250 lb. Wooden Drums, for general use....per 100 lbs. DBJ $7.00

50 lb. Drums....per 100 lbs. DEJ 7.50

25 lb. Drums....per 100 lbs. DHJ 8.00

10 cent Canisters, containing 1¼ lbs., for general use, 2 doz. in a case, per dozen ..... JIJ $1.20

25 cent Canisters, containing 5 lbs., for general use, 1 doz. in a case, per dozen ..... BDJ $3.00

Perolin is the original German disinfectant and dustless sweeping powder. It is a dust absorbent that absorbs dust. It scours and polishes floors to such an extent that after several weeks of continuous use, frequent scrubbing can be dispensed with. It cleans and preserves carpets and rugs. It disinfects and purifies the air. Perolin will prove invaluable in any store where goods are displayed on the counters or any place where settling dust causes damage. Saves merchandise for the storekeeper and saves work for the housewife.

LIQUID VENEER.

Liquid Veneer is not a varnish and no brush is needed to apply it, nothing but a piece of cheese cloth. There is no drying to wait for, and it leaves no gum or stickiness, removes all scratches, stains, dirt and dullness, imparts a beautiful gloss and acts as a perfect disinfectant, cleansing and purifying everything it touches. Equally well adapted to all grades of furniture.

No. 13—1 gal. cans, per dozen ..... CJBE $37.00

No. 14—½ gal. cans, per dozen ..... AHJJ $21.60

How Pine Tar is Used.

Horse Shoers use pine tar for packing, healing and growing the hoof.

Soap manufacturers use our pine tar for making pine tar soap and pine tar **shampoo.**

Farmers use our pine tar for husking, sheep dip, and to heal sores on cattle and horses, and as a preventative for Buffalo Gnats on live stock.

Prevent sheeps' noses from freezing.

Nursery men use our pine tar to grow bark on trees. Painting the stems with pine tar will keep insects off the trees, prevents loss of sap from cuts.

Mines and mills use pine tar as a lubricant for heavy machinery, wire ropes, elevators, etc.

Tanners are using our pine tar for technical purposes.

Ship chandlers and rope makers use pine tar very extensively in waterproofing ropes, twines, nettings, etc.

BUG DEATH.

Pat. March 16 and Nov. 9, 1897.
Pat. in Canada Nov. 2, 1897
and Jan. 25, 1900.

1 lb. Packages,
per dozen packages .....AEJ $1.80

ARSENATE OF LEAD.

Directions for Paste—Stir the paste in the can or keg thoroughly, then take out the amount required, put in a bucket and add a little water, mixing the Arsenate of Lead until it makes a very thin, even liquid. Then fill the bucket with water, stir again and pour into spray tank just before starting to spray. Remains in suspension in keg indefinitely.

Powdered Form—Highly satisfactory in controlling the army worm and kindred insects which are very destructive to the cotton.

TWELVE ONE GALLON CANS IN A CASE.

PAINT BRUSH FACTS.

Selected from answers to questions our customers are constantly asking us.

ORIGIN OF BRUSH MATERIALS.

Bristle:

Hogs—European or Asiatic.

Black Bristle—China.

Gray, Yellow and White Bristle—Russia, Germany and France.

Hair:

Badger—Russia, Germany.

"Camel Hair"—Squirrel of Germany or Russia.

Fitch Hair—Common Skunk.

Ox Hair (comparatively scarce)—Siberian Ox.

Sable Hair—Red and Black Sable of Russia.

Americans sometimes wonder why Petrograd, Russia, should be the leading bristle market of the world. This, by the way, is not only the biggest, but the safest market as all bristle there are packed under government inspection. The fact is, only the bristle that grows along the spine of the hog is stiff enough for paint brushes, and it seems to require the severe cold and exposure of the Russian plains or "steppes" to develop this "character" in bristle. American hogs are "fed up" too fast to develop stiff paint brush bristle.

The higher grade white varnish brushes are made of refined selected French bristle. But the bulk of our bristle is the black, from China.

It is said that in all, over 2,500,000 pounds of bristle are imported every year.

HOW BRUSHES ARE MADE.

Bristle gathering by peasants from slaughter houses. Trading through peddlers and dealers to factories. Washing, bleaching, combing, sorting, as to color, length and stiffness, bunching, setting, binding, nailing to block and handle. Final cleaning of finished brush by power combs, revolving alternately in opposite directions; ferrule polishing, handle finishing.

The average person can scarcely appreciate the long practice, close application, and infinite care required of the successful brush artisan. And the rapid and varied recent development of the industry has divided the modern brush factory into many distinct and highly specialized departments.

WHAT TO LOOK FOR---JUDGING BRUSH QUALITY.

Quality of Stock:

Is it bristle, horse hair or tampico (vegetable fibre)?

If bristle, is it coarse, or fine, stiff or characterless.

Bristle is plainly distinguished from horse hair by its:

Stiffness.

Flagged or split ends (a bristle brush is soft to the touch while a horse hair brush is rough with hard ends).

Tapered sides (butt to flag).

Barbed sides, like barley beard. (Rubbed between fingers, a bristle works in only one direction; butt to flag).

Bristle is plainly distinguished from Tampico by sizzling like wool in fire, while Tampico flames.

Length of Free Bristle:

Insert knife blade among bristles to see how far "setting" runs down.

Workmanship:

Bristle Setting.

Straight or biased.

Even edged or rough.

Clean or with "setting" material smeared among bristle near ferrule.

Ferrule fitting and nailing, handle finish, letter stamping.

A little attention to these points soon fixes them in the mind so that they become "second nature." The use of brushes is growing so fast that every dealer in hardware will find it to his gain to feel some familiarity with the points that go to make up a good brush.

SUGGESTIONS THAT SAVE BRUSH TROUBLES.

To swell head of new oval varnish brush—Don't rest brush or bristles in water. Bristles get twisted and moppy. Invert, dipping only the ferrule and handle, or separate bristles and pour tablespoonful of water down onto handle, keeping brush inverted until water is absorbed.

A "glue set" Varnish brush is intended for use in Shellac or Varnish only, and must not be put in water.

Shellac brushes if in use every day should be suspended in shellac over night. If used only occasionally, they should be thoroughly cleaned in alcohol before putting away.

Varnish brushes when not in use will keep best if suspended in oil thinned with turpentine.

Lettering and Striping Pencils should have the color thoroughly cleaned out of them and should be pointed in oil before putting away.

Keep brushes in cool, moderately damp place, near floor. Never stand brushes on bristle end.

To remove the few loose short bristles occurring in even the best brushes, dip in paint, and draw across rough, unplaned board.

Brushes hardened through neglect or lack of use should be soaked a few hours in a paint and varnish remover, then cleaned with benzine or turpentine. Soak brushes only. Don't wet above ferrule.

A "cement set" Flat Varnish brush is intended for use in Paint, Paste, Varnish or Water Color, but should never be used in Shellac or Alcohol.

Never put brushes in slaked lime, acid or tar.

Never attempt to strike a nail from path of painting, with a brush. It loosens bristle.

BE SURE YOU UNDERSTAND OUR BRUSH CONSTRUCTION.

PAINT BRUSH STAPLES AND SPECIALTIES NO HARDWARE STOCK SHOULD LACK.

POSITIVE GUARANTEE OF QUALITY.

Any defect in material or workmanship, that appears while a brush is used in proper liquid will, upon the return of the brush, be gladly made good from new and perfect stock. Consult freely "Suggestions that save Brush Troubles," and "What Brush to Use."

STAPLES.

Wall—18 and 22 [illegible] indestructible, popular priced. 340, 341, 356. Popular value range in regular style "blacks." 80 Il-a-noy, new style "pressure set."

Varnish—62-72 [illegible] indestructible. 480, 510, 540, 515 staple grades

Whitewash—681, long white pure bristle. Unusually good whitewash value. 650, medium grade, good, pure bristle stock, very catchy.

Kalsomine—595, white bristle casing, popular.

Sash Tool—120, pure stiff black bristle, or 417, "cutter," flat chiseled pure selected black stiff bristle, also for sign writers' use. A master workman's tool.

CARDS:

Displayed so folks can see them. Sell themselves.

4200—Pressure grip, for universal use, like [illegible], only pressure from without, nickeled ferrule swaged above to catch the block, below to catch the bristle. Same catchy locks and fine balance as in [illegible].

4000—Catchy, nickel plated steel ferrule.

4100 [illegible]—25 cent sellers, indestructible.

4564—For fine enameling.

8644—"School-boy Artist," assortment.

"ONE IN A BOX."

NEAT PACKAGE; ATTRACTIVE VALUES.

20 [illegible]	retails	$1.00
No. 301-White City, cement set	"	1.00
No. 25—Flat Wall Winner cement set	"	1.00
3 Il-a-noy, cement set	"	1.25
0 Il-a-noy, cement set	"	.50
Cruso Wall	"	.50
Cruso Varnish Set in rubber	"	.25

FOR THE PAINTER'S BRUSH OUTFIT:

One full bodied Wall Brush, 3½ in. to 4½ in., for each color being used.

One full bodied 2 in. Varnish Brush for trimming.

One chiseled Flat "Cutter" (1 or 1½ in.), or chiseled oval Sash Tool for moulding and narrow places.

One chiseled Flat Varnish Brush for sash or blind colors, etc.

One Duster, a Putty Knife and a scraping knife.

The painter will find this outfit sufficient for ordinary contracts. For special requirements, note carefully the specialties on the following pages.

WHAT BRUSH TO USE IN:—

Shellac or Lacquer—[illegible] or Il-a-noy "pressure" brush, or Rubberset. No cement-set brushes, as the alcohol of shellac cuts the cement.

Spirit Stains, Paste or Water.—[illegible], Il-a-noy, pressure-set brush, no glue-set. Spirit stains dissolve set-in-glue brushes.

Enamels and Heavy Varnishes, (for floor, automobile body, carriage, etc.)—Nos. 75 and 85 [illegible] enamel, 72 and 83 [illegible] varnish, 521 auto varnish, and 520 flat varnish.

BRUSH ECONOMY.

Master Painters and occasional users, as practical men, will appreciate the suggestion that the best brush they can get is the cheapest in the end. They know a dollar brush won't give near the satisfaction and service a $2.00 brush will. And they don't expect it any more than they expect "five-dollar wear" from a "two-and-a-half dollar" shoe.

It costs just about as much to make a brush, whether poor bristles or durable bristles are used. Hence the economy of good brushes.

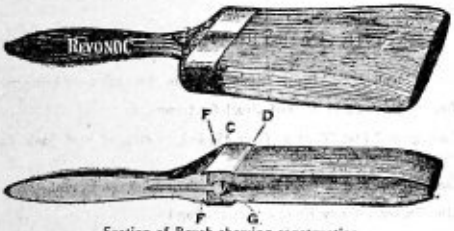
We take some pride, and fairly, we think, in the variety and values in paint brushes which our quantity business enables us to offer. The line represents the best work of America and Europe. The stock is kept accessible to you for convenient shipment, in such quantities as you need, with your other hardware, or separately, by mail.

And we invite your orders—by mail or salesman—the more heartily, because our brushes make friends for us.

NOTE INDESTRUCTIBLE [illegible] BRUSH CONSTRUCTION.

"REV-O-NOC" PAINT BRUSHES.

INDESTRUCTIBLE—TACKLESS.



Clever Principle of mechanics applied to paint brush making.
Most Ingenious practical brush construction ever invented.
Absolutely Pure, durable bristle.

Bull-Dog "Pressure" Grip—No glue, no cement. Can't come apart in any liquid. No clogging to reduce effective bristle length. Slip knife into common brush. Compare.

Wedge Shaped Aluminum Plug.—Driven in under two ton pressure. Holds bristles firm, even when used in heaviest varnish or enamels.

Very Attractive Appearance—Cherry finish handle, narrow nickeled steel ferrule.

Scientifically Balanced—Short block, better leverage, hand gets closer to bristle.

Section of Brush showing construction.

C. & D. Nickeled Steel Ferrule, beveled under pressure after plug has been driven, and dove tailing into—

F—Beaver-tail, cherry-finish, hardwood handle.

G. "T" or wedge-shaped corrugated aluminum plug.

REV-O-NOC Brushes work perfectly in paint, varnish, shellac or hot glue. Neatest and easiest to keep clean. Strongest metal-bound brushes made. Wear close without becoming stiff.
Will not finger, swallow-tail, dry out or come apart.

SPECIAL WALL BRUSHES.

No. 20P REV-O-NOC—Extra long, warranted all pure black Chinese bristles, very full and heavy, nickel plated ferrule, red polished beaver tail handle, width 4 in., length of bristles 3¼ in., w't per doz. 8 lbs.....per dozen **AAHJ** $18.00

This brush represents the best value for the money obtainable and is put out for the express purpose of giving the dealer selling REV-O-NOC brushes a leader in a wall paint brush which can be retailed at $1.00 each. Neither box nor brush is marked with retail selling price.

ONE-HALF DOZEN IN A BOX.

CAUTION.

Never put a calcimine brush into newly slaked lime or mixtures containing acids. A whitewash brush should frequently be washed thoroughly clean, hung up bristles downward and permitted to dry.

If this is done, the brush will be found to work much better and wear materially longer. A calcimine brush, except a REVONOC with its special construction, should never be used in paint, tar, or mixtures used for painting roofs. Don't ask us to replace brushes abused in this way.

	AEAJ	**BCAJ**	**BIAJ**

ONE-HALF DOZEN IN A BOX.

REVONOC GERMAN KALSOMINE BRUSHES.

Patented March 12, 1912.

Bristles secured by fibroid wedges under pressure. Physically impossible for bristles to pull out of this grip, in whatever liquid the brush is used. In old style German Kalsomine Brushes the bristles are set in pitch which dissolves in various paint liquids, releasing the bristle, making the brush worthless.

Very Best Gray Russia Bristles, Improved Construction, Brass Bound, Hollow Detachable Brass Screw Handle, Guaranteed in Every Respect.

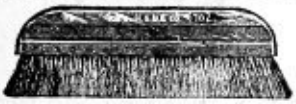
SHIPPING FACILITIES

With our immense stock and very modern facilities for shipments, we are enabled to fill orders with unequaled promptness. On some of the roads we have special through cars which enable us to reach distant points 24 hours ahead of shipments made in the regular way.



BRUSHES.

PAPER HANGERS' SMOOTHING.

No. 700—Family, yellow fibre, 2 in. clear of block, 10 in. block, 2 rows, w't per doz. 5 lbs., per dozen .....**BBJ** $3.50

No. 701—Family, 12 in. block, w't per doz. 6 lbs., otherwise same as No. 700, per dozen .....**BFJ** $4.00

No. 702—Congo, good quality stiff black hair, 1¼ in. clear of block, 10 in. block, 2 rows, w't per doz. 5 lbs., per dozen .....**DHJ** $7.50

No. 703—Congo, 12 in. block, w't per doz. 6 lbs., otherwise same as No. 702, per dozen .....**FJJ** $9.00

No. 705—Favorite, 12x2 in., w't per doz. 6 lbs., otherwise same as No. 704, per dozen .....**AJDJ** $16.00

No. 707—O. K., all white Russian bristles, copper wire drawn, stained yellow block, red stripe, 12x1⅞ in. w't per doz. 6 lbs., per doz. **ACHJ** $19.00

No. 708—Superior, three rows best black Chinese bristles, copper wire drawn, stained yellow block, red stripe, 12x2¼ in., w't per doz. 7 lbs., per dozen .....**AEJJ** $24.00

Steel.

No. 179—2½x1¼ in. block, 6 rows 2¼ in. fine wire bristles, 5 in. handle, w't per doz. 6 lbs., per dozen **BDJ** $4.00

For cleaning around cornices and in places that cannot be reached with other styles of wire scratch brushes.

ONE DOZEN IN A BOX.

FURNITURE RUBBING.

No. 150-P—4 rows brass wire drawn, 1 in., all bristle paint stubs, w't per doz. 3 lbs.....per dozen **BDJ** $4.00

STEEL.

No. 109—Painters' long handle scratch, 14½ in. block, three 6 in. rows of 1¼ in. fine wire bristles, w't per doz. 4 lbs. .....per dozen **BDJ** $4.00

Also used as a braziers' cleaning brush.

PAINTERS' SCRATCH.

No. 110-P—Painters' shoe handle scratch brush, 4 rows, 1⅛ in. fine round wire bristles, length over all 9¼ in., brush part 5 in., w't per doz. 4 lbs., per dozen .....**CFJ** $6.00

The above brush designed for same purposes as Nos. 176, 177 and 111. Narrow face adapts to surfaces not accessible to wider brushes. Excellent for removing varnish with or without aid of varnish removing preparation.

ONE DOZEN IN A BOX.

No. 111—Painters' round wire scrub, 7x2½ in. block, 6 rows of 2 in. fine wire bristles, w't per doz. 6 lbs., per dozen .....**CFJ** $6.00

No. 176—Painters' curved back scrub, 7x2¼ in., 6 rows 1½ in. fine wire bristles, w't per doz. 5 lbs., per dozen .....**CIJ** $6.00

No. 177—7x2¼ in. block, w't per doz. 6 lbs., 8 rows bristles, otherwise same as No. 176-P ....per dozen **DEJ** $7.50

The above brushes are made of very fine tempered wire and act in a similar manner to the grains of No. 1 sand paper. The curve face concentrating the energy into one place, producing more rapid results than is possible with a flat surface brush.

STONE CLEANING.

No. 104-P—Painters' and masons', 7½x2⅝ in. solid block, 5 rows, 2 in. long flat wire bristles, w't per doz. 8 lbs. .....per dozen **BDJ** $4.00

FOUNDRY CASTING.

No. 105—7½x2⅝ in. solid back, 5 rows of 5 in. heavy flat steel bristles, w't per doz. 12 lbs., per dozen **BGJ** $4.50

No. 106-P—7½x2⅝ in., solid back, protected ends, 5 rows of 5 in. heavy flat steel bristles, w't per doz. 12 lbs., per dozen .....**CFJ** $6.00

WAX FLOOR.

For Polishing and Finishing Wax Floors, Superior Mixed Stiff Gray Stock, Gold Bronzed Cast Top, Long Handle.

No. 750 RAVO-NOC—Family, stock 1 in., handle 58 in., w't 15 lbs., per dozen .....**AHJJ** $30.00

No. 751 RAVO-NOC—Standard, stock 1 in., handle 58 in., w't 25 lbs., per dozen .....**BAFJ** $36.00

EXTRA BRUSH PARTS.

For RAVO-NOC Wax Floor Brushes.

Brush part only, for No. 750—15 lb. top, per dozen .....**EGE** $9.60

Brush part only, for No. 751—25 lb top, per dozen .....**JGBJ** $12.00

PAINTERS' TINWARE, OIL AND GASOLINE TANKS.

PAINT BUCKETS OR POTS.

No. 1—4 qt., light IC tin, w't per doz. 9 lbs. .....per dozen **AFJ** $2.50
No. 2—4 qt., heavy IX tin, w't per doz. 12 lbs. .....per dozen **BAE** $3.60

SHELLAC OR VARNISH POTS.

No. 1—1 qt., steeple cover, with hooks to suspend brush, w't per doz. 8 lbs., per dozen .....**BAJ** $3.50

ROLLED CHIME BARRELS.

For Storing and Shipping Kerosene, Gasoline, Lubricating Oils, Etc.

No. 830—Capacity 30 gals., height 29 in., diam. 19 in., 19 Ga. cold rolled steel, w't 40 lbs. .....each **BHJ** $4.70

No. 850—Capacity 50 gals., height 32 in., diam. 22½ in., 18 Ga. cold rolled steel, w't 55 lbs. .....each **DAE** $6.90

These barerls are constructed of the best cold rolled sheets obtainable; the side seam and bung openings are closed by a special seaming process, eliminating all chance of leakage.

Each barrel is equipped with a brass plated faucet and coated with a varnish paint specially prepared to resist the action of kerosene and gasoline.

Furnished in any color desired.

GASOLINE TANKS.

No. 92—Galvanized steel, perfectly air tight, ground brass faucet, capacity 60 gal., diameter 26 in., height 30 in., w't 44 lbs. .....each **JIFJ** $16.00

Galvanized Steel, Wood Bottom, Perfectly Air Tight, 26 Ga. ⅝ in., Ground Brass Faucet.

Nos.	70	71	72
Capacity, gal.	30	60	110
Diameter, in.	22	25	30
Height, in.	24	28	36
W't, lbs.	34	52	67
Each	$6.30	7.00	10.50

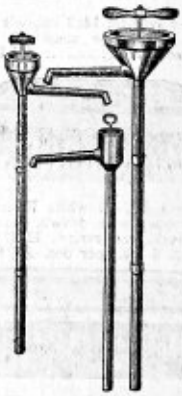
OIL TANKS.



No. 600—60 gal., 26 gauge galvanized steel, with pump, painted green, w't 46 lbs. .....each **DBJ** $6.50
No. 650—26 gauge galvanized steel, painted green, extra large pump, adapted for heavy lubricating and steam cylinder oils, molasses, etc., otherwise same as No. 600, each .....**DBJ** $6.50

OIL TANKS.

No. 81—26 gauge galvanized steel, painted green, high form, hinged cover, 1¼ in. perfection gate, for heavy oils and varnishes, capacity 60 gal., diameter 24 in., height 28 in., w't 52 lbs., each .....**EGJ** $9.50

TRANSFER PUMPS.

No. 10. No. 5. No. 15.

Heavy IX Tin, Brass Valves.

Nos.	5	10	15
Size, in.	1¼x32	1½x54	1½x78
W't, lbs.	7	8	18
Each	$1.60	4.00	4.70
	JIE	**BDJ**	**BHJ**

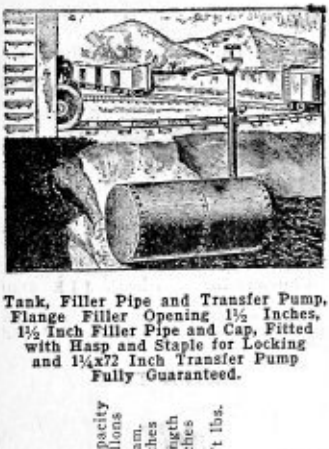
Nos. **10** *and* **15** *are reinforced at joints.*

ONE IN A CRATE.

GARAGE OUTFITS.

For Both Dealer and Automobile Owner, They Get the Gasoline Safely Out of the Way. Reduce Cost of Insurance, Insure Against Explosion Dangers. Save Leaking and Spilling Losses.

STEEL BARRELS.



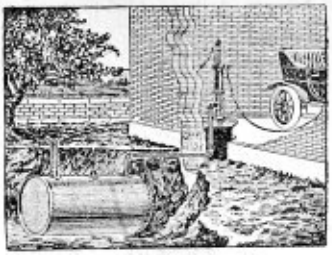
For Storing Lubricating or Kerosene Oils. In Colors Red, Green or Black.

No. 700—Capacity 30 gals., height 28 in., diam. 19 in., gauge 18, w't 32 lbs., each .....DHJ $8.00

No. 750—Capacity 50 gals., height 30 in., diam. 22½ in., gauge 16, w't 54 lbs., each .....EDJ $9.00

These barrels are constructed of open hearth steel, and the flanges are welded, not soldered. Each barrel is equipped with ½ in. bung and flange and 1½ in. bung and flange in one end. The extra heavy brass faucet is attached to the under side of 1½ in. bung, for convenience in shipping.

ECONOMY OUTFITS.



Tank, Filler Pipe and Transfer Pump, Flange Filler Opening 1½ Inches, 1½ Inch Filler Pipe and Cap, Fitted with Hasp and Staple for Locking and 1¾x72 Inch Transfer Pump Fully Guaranteed.

No.	Gauge	Capacity gallons	Diam. inches	Length inches	W't lbs.		Each
300	20	60	24	30	71	ACCJ	$19.00
301	20	110	30	36	97	ADGJ	21.00
302	18	60	24	30	97	ADCE	20.50
303	18	110	30	36	122	AFHJ	24.00

This tank is made from the best quality galvanized steel, closely riveted, soldered and painted and guaranteed absolutely oil and water tight. Can be buried any distance or angle from the building. A patented arrangement, automatically keeps the tank free from dirt and the gasoline in the best of condition.

LONG DISTANCE OUTFITS.

Nos. 400 and 500 Tanks.

Cut of Nos. 400 and 500 shows Model "H" Gasoline Pump with automobile in position for filling. The pump is conveniently located inside the building, while the heavy metal tank is buried under the ground outside.

This outfit is designed and constructed for the purpose of safe-guarding the handlers of gasoline from the hazardous risks arising from the improper use and storage of this fluid.

All risk of explosion is absolutely removed by the use of our storage outfits.

The Tank, built of very heavy metal and buried under ground with all pipes so placed as to drain back into tank, is the very best provision possible.

There is but one opening in the tank, and this is the filler pipe, which is provided with a very heavy screw cap and locking device. The pump also has a locking device so that the gasoline is accessible to those only who have the keys.

It has seamless brass tubing for cylinders, three heavy brass valves, two-way nozzles, packing box, automatic vent and brass plunger rod.

No. 400 OUTFIT WITH MODEL "S" PUMP.

For self-measuring pump attachment measuring gallons, half gallons, and quarts, add $80.00 to above lists.

Model "S." Model "H."

MODEL "S."

Straight lift pumps. Easily operated. Made for use in connection with long-distance underground storage outfits. Brass cylinder, piston rod and valve. Brass lever handle, ground key bibb for hose connection.

Each .....ADDE $18.00

MODEL "H."

This pump has been examined and tested by the National Board of Fire Underwriters for the United States, and listed among the permitted systems. This means no trouble from an insurance standpoint.

Rust proof materials, extra heavy brass cylinder and valves. Rapid in operation, discharging five gallons in less than a minute. Has a special priming chamber, guaranteed to retain priming constantly and to draw oil quickly regardless of distance between pump and tank.

Each .....BGBJ $34.00

GARAGE OR WATER TANK PAILS.

No. 5P—5 gal., 20 gauge, leaded plate, w't 8 lbs. .....each CHJ $5.40

Double seamed and soldered pouring spouts, heavily reinforced, made of leaded plate which resists acids better than tin or galvanized iron, will not crack or peel off, the leaf forming a perfect amalgam.

SPRAYING MACHINES AND ACCESSORIES.

FOR WHITEWASH AND COLD WATER PAINTS.

Our sprayers are adapted for spraying any liquid which can be formed into a spray, including all insecticides used on trees and plants, i. e., Paris Green Solution, Arsenate of Lead Solution, Bordeaux Mixture, Lime Sulphur Solution, Kerosene Emulsion, Whale Oil Soap Solution, White Wash, Cold Water, Mineral, Graphite and Oil Paints. Not adapted for oil paints containing zinc or lead.

No. 0200—Capacity equal to work of 2 or 3 men with brushes in same time, galvanized iron tank, capacity 3 gallons liquid, equipped with 3 feet discharge hose, ⅛ in. shut-off cock, 1 "Star" spray nozzle, w't crated 16 lbs., each .....**JFCJ** $10.50

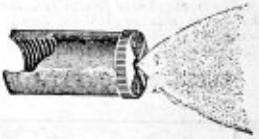
This machine is provided with strap so that it can be carried on shoulder.

No. H—Capacity equal to work of 5 men with brushes in same time, galvanized iron tank, capacity 3 gallons liquid, one spray cock and nozzle and 10 ft. ¾ in. "Star" special discharge hose, net w't 15 lbs., w't crated 20 lbs., each .....**JIJJ** $14.00

This machine is made of heavy material and all joints are well riveted and soldered. It is adapted for residences, barns, dairies, poultry yards, gardens, etc., and can be used for many other purposes. It has bail handles, and is portable.

No. J—Capacity equal to work of 5 men with brushes in same time, one spray pipe complete with cock and nozzle, one follower wrench and 10 ft. ¾ in. "Star" special discharge hose, machine complete as shown in illustration except pail, net w't 30 lbs., w't crated 40 lbs. .....each **AJGJ** $17.80

One man can operate this machine and from 70 to 80 pounds pressure can be easily carried. This machine is adapted for use around dairies, poultry yards, residences, etc.



No. D—Capacity equal to work of 8 men with brushes in same time, one spray pipe complete with cock and nozzle, one extra spray tip, one 200 pound pressure gauge, one special galvanized sieve, one follower wrench, one suction hose and 10 ft. ½ in. "Star" special discharge hose, net w't 50 lbs., w't crated 90 lbs., each .....**BBEJ** $37.50

This machine is especially adapted for nurserymen, gardeners, etc. In country towns or on farms in addition it affords means of testing traction engine boilers, steam gauges, etc.

NOZZLES.

No. 308—"Bordeau," adapted for spraying "Bordeau" mixture and other insecticides, can be regulated to throw either fine or heavy fan shaped spray, easily cleaned by turning plug across opening, cut for ¼ in. pipe thread, and will fit all "Star" spray pipes, for use on large machines ..each **JIE** $1.60

No. 16—"Star," regular nozzle furnished with all machines, guaranteed to give satisfactory results...each **EJ** $0.80

No. 305—"Star," improved Vermoral fruit spray nozzle, non-clogging, especially adapted to fruit growers', florists' and gardeners' uses and for whitewashing .....each **JIE** $1.60

This nozzle can be used with all sprayers illustrated on pages 2463 and 2464.

EXTRA TIPS.

No. 8—Extra steel spray tips, each .....**AD** $0.24

These machines are guaranteed to successfully handle and give satisfactory service with properly prepared white wash, any of the cold water, mineral or graphite paints offered on the market, or any that can be formed into a fine spray or mist. They are not recommended for use with heavy oil paints, that is those whose base is white or red lead mixed with heavy linseed oil. These ingredients, being of a sticky, gummy nature, clog up and prevent spray working satisfactorily. This is also true of all spray nozzles with which we are familiar, and this means all of them.

GASOLINE TORCHES.

The pick from the best work of the leading torchmakers. The experienced torch user knows the economy in time, trouble, and delay saved by specifying the higher grade of torches.

No. 12-P.

Heavy Drawn Brass Tank, Special Bronze Metal Burners, Never Leak Pump, Plungers which Screw Down, Two Extra Fibre Washers.

No. 12-P—Quart size, adjustable solder iron holder, w't 5 lbs., each .....**CJJ** $5.00

No. 13-P—Pint size, adjustable solder iron holder, w't 4 lbs., each .....**BGJ** $4.50

These torches are fitted with pumps, the plungers of which screw down, thus remaining out of the way, and close a needle valve which is a positive shut-off. This is an improvement over other makes, as in a great many instances, the plungers come up, and become bent, thereby rendering the pump useless. The adjustable solder iron holders can be removed when not required. Two extra fibre washers are furnished with each torch, to be used on the filler plugs.

No. 14—Old Reliable, quart size, single valve, made of extra quality heavy brass, for generating intense heat, gasoline consumption ½ pt. per hour, w't 3 lbs.....each **DBJ** $7.00

Equipped with new non-leaking filler plug, interchangeable steel soldering copper attachment, improved pump and burner.

No. 16-P—Quart size, polished brass tank, pump in handle embracing spring check valve in its construction, air tube leading from bottom of pump to top of tank removing possibility of gasoline escaping through pump, burner produces an ideal blue flame, w't 5 lbs.....each **DBJ** $7.00

ONE IN A BOX.

REVERSIC "Never Clog."

No. 25P REVERSIC—Quart size, heavy brass reinforced tank, powerful generator, height 9¼ in., diameter 4 in., w't 5 lbs. .....each **CCJ** $6.00

The REVERSIC *needle is not a valve, as in ordinary torches, but a cleaner, the valve being formed by the shoulder of the needle holder on the shut-off screw shaft. Low V shaped soldering copper holder always ready—yet never in the way. Valve shaped to take up "wear," yet can be replaced in three minutes if necessary. No stop-cock, but automatic pressure valve—made simply—cannot get out of order. Shell is of very heavy drawn brass absolutely rigid where burner is set—this is a weak spot with ordinary torches.*

No. 63-P—Quart size, fitted with back flow under generator burner, pump screws into tank and is equipped with automatic check valve, w't 5¼ lbs., each .....**BIJ** $4.80

Filler plug is small in size, fitted with lead washer, imbedded, eliminating all chance of leaking.

No. 50-P.

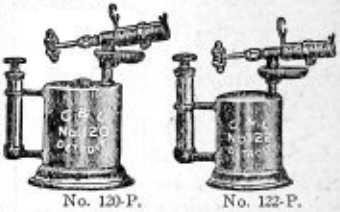
No. 49-P—Quart size, one-piece polished brass tank, brass air pump in handle, round burner with double shouldered needles and wood handle regulator, brass handle, w't 5 lbs., each .....**BGJ** $4.50

No. 50-P—Quart size, fitted with hook for soldering iron coppers, w't 5¼ lbs., otherwise same as No. 49-P, each .....**CJJ** $5.00

These torches are well made and for the price have no equal. Supplied with good burner mounted in middle of tank and will give good satisfaction. The burner is not as powerful as used on higher grade torches.

ONE IN A BOX.

No. 32-P. No. 33-P.



No. 32-P—Quart size, heavy gauge brass tank, automatic brass pump, hook and support on burner for holding soldering copper, produces an intensely hot blue flame, w't 5 lbs., each .....**DHJ** $8.00

No. 33-P—Quart size, adjustable soldering iron holder, pump located in tank, otherwise same as No. 12-P in next column, w't 6 lbs....each **DBJ** $7.00

No. 108-P—Quart size, light and well balanced, w't 5 lbs., each .....**CDJ** $5.70

The Tank is made of heavy seamless drawn brass, reinforced and a patented automatic brass pump with double springs form the handle. The burner is made of bronze metal fitted with wood handle and produces a steady blue flame of intense heat.

No. 120-P. No. 122-P.

No. 120-P—Quart size, one-piece polished brass tank, brass air pump in handle, round burner with double shouldered needles and wood handle regulator, brass handle, pump has check valve which closes off the air automatically after each stroke of the plunger, w't 5¼ lbs., each .....**BDJ** $4.00

No. 122-P—Pint size, w't 4¼ lbs., otherwise same as No. 120-P, each .....**BAJ** $3.50

The soldering copper attachment, illustrated above, is supplied with torches Nos. 120-P and 122-P free of charge.

These torches are offered to meet the demand for a low priced tool.

ONE IN A BOX.

TORCHES, HEATERS, PAINT MILLS AND MIXERS.

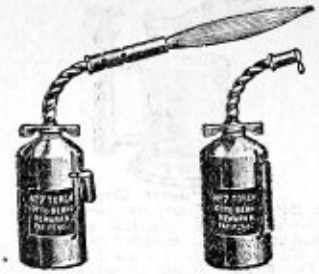
GASOLINE TORCHES.

No. P47. No. P48.

No. P47—Automobile, pint size, 1⅜ in. thick x 5 in. long and 5 in. high, fitted with an especially light burner, yet sufficient to generate a powerful blue flame, automatic pump forming part of handle, tank fitted with brackets to prevent overturning, w't 4½ lbs., each .....**DAE** $7.50

No. P48—Pint size, burner fitted with hook and support for holding soldering coppers, w't 5¾ lbs., otherwise same at No. P47.....each **DDJ** $8.00

ONE IN A BOX.



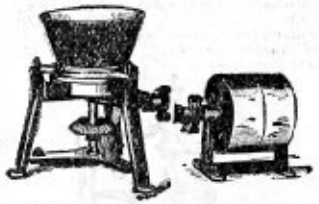
GASOLINE BLOW TORCHES.

"IMP," all brass nickel plated, starts with a match, entirely automatic, no pump or valve, corrugated neck, burns two hours from one filling, heats a soldering copper or takes the place of one, mailable.....each **ABJ** $2.00

Hotter than many larger torches. Used for either hand or bench work. Produces perfect Bunsen flame with a temperature of 2000 degrees Fahrenheit. Can't get out of order. After severe tests it has been adopted for use on the telegraph and telephone lines, for a quick, cheap, clean, intense heat.

GASOLINE BLOW TORCHES.

No. 7P—With cork lined cap, cleaner wire and holder, w't 6 oz., starts with match, burns three hours on one filling, nozzle held on side of body when not in use .....each **ABJ** $2.00



PAINT MILLS.

No. 2.

No. 4—Hand, hopper 4¾ in. high, 5 in. across top, diam. of nut 5½ in., hopper holds 1 qt., w't 15 lbs., each .....**FJJ** $8.00

No. 2—Hand or power, hopper 6 in. high, 8 in. across top, diam. of nut 7¼ in., hopper holds 1 gal., w't 40 lbs., each .....**JIFJ** $12.00

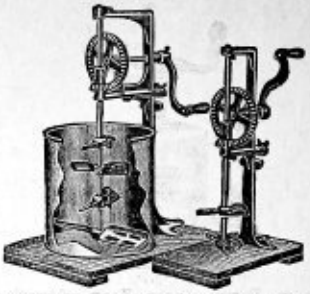
Nos. 1 and 0. Pulleys.

No. 1—Power, hopper 8 in. high, 14 in. across top, hopper holds 3 gal., w't 118 lbs. .....each **AHJJ** $30.00

No. 1W—Water cooled, otherwise same as No. 1 .....each **BEBJ** $42.00

No. 0—Mammoth, with cast or sheet iron hopper, as ordered, 16 in. across top, diam. of nut 14 in., hopper holds 9 gal., w't 155 lbs., each **CCFJ** $56.00

No. 0W—Water cooled, otherwise same as No. 0 ★.....each **CHDJ** $64.00



Fly Wheels, for No. 2 mill, diam. 15 in., w't 16 lbs.....each **CJJ** $5.00

Medium Stands and Pulleys, suitable for driving No. 2 mill, w't 40 lbs., each★ .....**JGEJ** $12.50

Power Stands and Pulleys, suitable for driving Nos. 1 and 0 mills, diam. 12 in., with 5 in. face, w't 84 lbs., each★ .....**AJHJ** $18.00

★*FOR FACTORY SHIPMENT ONLY.*

PAINT AND COLOR MIXERS.

No. 114—Height 28 in., for mixing paint, paste, kalsomine, stains, wood filler and enamel, w't 35 lbs., each .....**AJEJ** $17.50

The tank accompanying this machine is made of heavy galvanized iron 16 in. diam., and 15 in. high, with drop handles riveted on.

Five minutes will accomplish more than an hour with a paddle. Breaks up 100 pounds of lead in 10 minutes, and when broken with this machine it will spread easier, and go further, as it tears apart the small corpuscles of lead, enabling it to take up more oil. In mixing colors, dump them all in at once, and machine will mix them thoroughly.

PAINTERS' COMBINATION HEATERS.

For 74 Degree Gasoline.

No. 120P—White's, capacity one gallon, steel, height over all 30 in., diameter 8½ in., consumes 1 pt. of gasoline per hour, w't 15 lbs.★....each **EGE** $9.60

It heats a pail of water in five minutes, and warms a good sized room in ten. Its very powerful flame may also be used for heating soldering irons or melting lead, glue, etc., and is absolutely free from smell or smoke, which is so common with oil stoves.

All parts are interchangeable and easy to clean. A tin or galvanized pail may be used for heating water, glue, etc.

Indispensable for painters working in vacant buildings in cold weather.

ONE IN A BOX, WITH FULL INSTRUCTIONS FOR USING.

LADDERS.

STEP LADDERS.

Showing Steps Bolted to Standards.

W't, lbs.		27	36	45
Each		$5.75	7.20	10.10
		CDE	DCJ	JFJE

The front standards of the ⊕ are made of hardwood, straight grained maple or birch. The steps are of poplar or basswood, and the back standards of clear spruce. The steps are locked to the standards by means of bolts which are clamped by malleable clips under the head and nut. All danger of splitting the wood is positively eliminated by this arrangement.

Heavy Brace,	Basswood, Japanned with Shelf,	Natural Iron Steps	Finish, Spreading Braced by Wooden Supports.	
Nos.	23	24	25	26

W't, lbs. ...	15	17	24	30
Each $1.80	2.10	2.60	3.50	
	AJE	ABE	AEE	BAJ

PAINTERS' TRESTLES.

Clear Norway Pine, Put Together at Head with Wrought Iron Screw Bolts, Making Hinge and Solid Joint, Hickory Rungs Secured by Long, Heavy Screws.

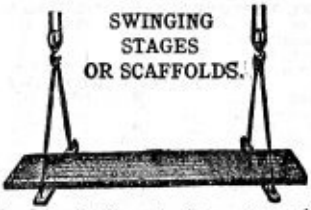
Length, ft...	7	8	10	12
W't, lbs. ...	31	36	46	53
Each $3.20	3.60	4.50	5.40	
	AIJ	BAE	BGJ	CBE

Price includes both sides.

EXTENSION PLANKS.

No. 2—Ajax, 12 in. wide, 1¾x1¼ in. strips, Southern pine, ironed and riveted, length closed 8 ft., length extended 14 ft., w't 42 lbs., each .....**DEJ** $75.00

Adjustable to any space, do not spring or warp, lie even and afford a firm footing stronger and lighter than planks; can be carried up any stairway.



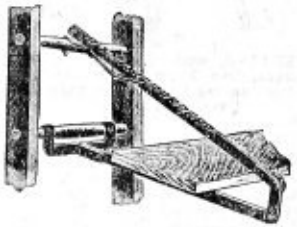
ROOF HOOKS.

No. 5—Cast iron, adjustable, w't per pr. 5 lbs. .....each **DJ** $0.70

Easily attached to any ladder and much more practical than the old style hooks. They are made very strong and durable.

SWINGING STAGES OR SCAFFOLDS.

Special selected, extra heavy seasoned Southern pine, jointed together with long rods, a strong, non-springing staging 20 in. wide, 4 in. pine flooring, every one warranted, length 22 ft., w't 100 lbs., per outfit .....**ADHJ** $25.40

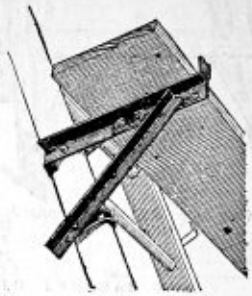


The complete outfit consists of platform, crossbars with rollers, and cornice hooks. These are listed separately below.

Cross Bars and Rollers for Stages, per pair .....**ABJ** $2.00

Heavy Iron Cornice Hooks, per pair .....**EGE** $9.60

Common Cornice Hooks, per pair .....**DHJ** $8.00



LADDER JACKS.

Adams, wrought iron, double hook, adjustable, w't per pr. 21 lbs., per pair .....**CCJ** $5.50

With this jack it is always possible to secure a level footing.

LADDER JACKS.

REVERE—1½x1½ angle steel, guaranteed to hold 1000 lbs., fold into small compass convenient for carrying, attach on standards of ladder, self-locking, adjustable to any standard make ladder, w't per pr. 9 lbs., per pair .....**BDJ** $4.00

As the **REVERE** *Ladder Jacks attach on the standard of the ladder they are the strongest and safest ladder jack made. All other ladder jacks attach on the rungs of the ladder and are therefore only as strong as the weakest rung of the ladder.*

The **REVERE** *may be raised or lowered to any height or angle, in a minute's time without removing the plank from the jack.*

LADDER BRACKETS.

Step, Platform, Bracket, All in One. Three-In-One—18 in. square when folded, w't per pr. 16 lbs., per pair .....**BGJ** $4.50

A safe and reliable staging bracket, having no loose parts, no adjustments, no weak places. A shelf on the inside of the ladder for tools and materials; a step on the front of the ladder for the full length of the foot. Indispensable to carpenters, painters, sign and metal workers and electricians.

PAPER HANGERS' TOOLS AND ACCESSORIES.

ROTARY WHEEL KNIVES.

No. 9—Base trimmer, 1⅝ in., plain blade, iron handle, w't per doz. 3½ lbs., ...per dozen **BGJ** $5.00

ONE DOZEN IN A BOX.

No. 10—Wheel knife, 1 in. blade, smooth edge, polished wood handle, nickel plated ferrule, w't per doz. 3 lbs., per dozen .....**BGJ** $4.50

No. 12—Wheel knife, 2 in. blade, otherwise same as No. 10, w't per doz. 3 lbs., per dozen .....**CFJ** $6.00

No. 010—Wheel knife, 1 in. blade, serrated edge, polished wood handle, nickel plated ferrule, w't per doz. 1½ lbs. .....per dozen **BGJ** $4.50

No. 012—Wheel knife, 2 in. blade, otherwise same as No. 010, w't per doz. 3 lbs. .....per dozen **CFJ** $6.00

ONE DOZEN IN A BOX.

No. 13—Fitted with thumb and finger guards, knife beveled from the center making it easy to sharpen, w't per doz. 2¼ lbs. ....per dozen **DHJ** $8.00

This knife revolves on a journal, giving it an easy motion and insuring longer service than knives which revolve on shoulder screws

No. 15—Milled wheel and knife, serrated edge circular cutter, fluted edge knife cutter, w't per doz. 4 lbs., per dozen .....**DEJ** $7.50

ONE-HALF DOZEN IN A BOX.

SMOOTHING ROLLERS.

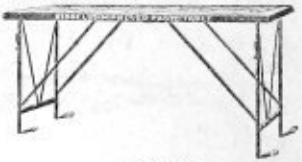
No. 20—½ in. polished hard rubber roller, especially adapted for feather edge work, nickel plated ferrule, hardwood handle, w't per doz. 2 lbs., per dozen .....**CJJ** $4.20

ONE DOZEN IN A BOX.

SEAM ROLLERS.

No. 23—1¼ in. hardwood roller, polished wood handle, nickel plated ferrule, w't per doz. 2½ lbs., per dozen .....**ABJ** $2.00

No. 24—1¼ in. roller, polished wood handle, nickel plated ferrule, w't per doz. 2½ lbs.....per dozen **AEJ** $2.50



ONE IN A BOX.

No. 263—2 in. flat face rosewood roller, hardwood handle, nickel plated ferrule, w't per doz. 3¼ lbs., per dozen .....**BGJ** $4.00

ONE DOZEN IN A BOX.

FOLDING PASTE TABLES.

Ridgely's.

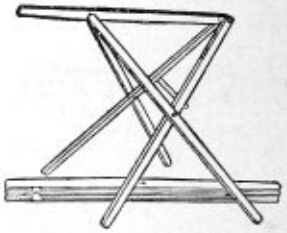
Nos.	11	12
Length, ft.	7	8
Each	$78.00	84.00
	DFHJ	**EJDJ**

The top is in four pieces riveted together with patent corrugated rivets and glued. (This is done to prevent dishing, as is invariably the case when one board 11 in. wide is used.) It folds up intact without a hook or button to manipulate.

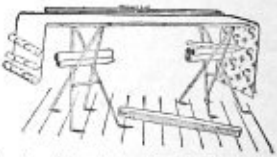
To extend for wide goods insert three rods in the holes in back. Will not warp or dish.

AVERAGE W'T 16 TO 20 LBS.

FOLDING BOARDS.



Ridgely's.



Nos.	7	8
Length, ft.	6	7
Each	$26.40	28.80
	AIDE	**BJIJ**

⅞ in. thick, 23 in. wide, 11½ in. closed, made in four boards riveted with patent corrugated rivets and glued to prevent dishing (which always occurs in a single board 11½ in. wide), four battings to prevent warping, and hinged with three hinges.

AVERAGE W'T 9 LBS.

FOLDING TRESTLES.

Showing Trestle in Use in Connection with Paste Board.

No. 60—Improved, without board, w't per pair 4½ lbs. ..per pair **ABJ** $1.96

Folds compactly, forming a bundle 40 in. long and 2½ in. square.

ONE DOZEN PAIRS IN A CRATE.

GLAZIERS' DIAMONDS, GLASS BOARDS AND CUTTERS.

PLATE GLASS DIAMONDS.

H. S. B. & Co.'s "Sure Cut."

No. 400—H. S. B. & Co.'s "Sure Cut," nickel plated head, lignumvitae handle, length 4½ in., per dozen .....**ABIFJ** $216.00

The best and most serviceable Diamond offered, especially designed for any heavy work on plate, rough and wire glass or sheet. Requires no especial skill and never fails to make a clean, sure cut.

CAUTION—When using a diamond, never cut twice in the same place.

GLAZIERS' DIAMONDS.

Best Quality English Cape Diamonds, Rosewood Handle, Length 3¾ Inches.

No. 101—For cutting single strength glass .....per dozen **DCBJ** $72.00

No. 102—For cutting double strength glass .....per dozen **JFDHJ** $108.00

No. 103—Polished steel, rosewood handle, length 3¾ in., per dozen .....**EJDJ** $84.00

For general use on ordinary glass, for gardeners, farmers, and where a diamond is occasionally needed. Can be carried in the vest pocket.

No. 104—Polished steel, rosewood handle, length 7½ in., per dozen .....**JGEFJ** $126.00

Adapted to single and double thick glass, well suited to heavy work and where a reliable article for constant use is necessary.

No. 300—H. S. B. & Co.'s polished steel, rosewood handle, length 6½ in., set with heavy diamond, will cut single and double strength glass, per dozen .....**EGFJ** $96.00

This pattern of diamond has been devised for the use of cutters who prefer a thin, light handle, and is becoming very popular. It is set to cut at an angle of about 65 degrees, will be found perhaps easier for beginners to cut with than some patterns that have been used heretofore.

ONE IN A BOX.

GLASS CUTTERS.

No. 200—Nickel plated head and ferrule, turret holder, six hand honed wheels, rosewood finish handle, length 5½ in.....per dozen **BGJ** $4.50

Cruso—All steel, red finished handle, good cutting wheel, per dozen .....**JGJ** $1.20

This is a good grade tool at a moderate price.

Each cutter wrapped in oil paper.

ONE DOZEN IN A PASTEBOARD BOX.

No. 5—Red Devil, red handle, 5 extra wheels in head of cutter, length 5¼ in. .....per dozen **BGJ** $5.00

ONE IN A BOX.

No. 05—Extra wheels, per doz. **DJ** $0.70

No. 024—Red Devil, red iron handle, hand honed wheels, length 4¼ in., per dozen .....**JIJ** $1.50

No. 0024—Extra wheels, per dozen .....**GJ** $0.75

No. 85—Red Devil, polished metal, ebony handle, length 5½ in., warranted to cut 500 yards, per dozen .....**AGJ** $2.80

No. 085—Extra wheels, per dozen .....**JGJ** 1.08

No. 60—Cast metal, polished head, japanned handle, 5 in., per dozen .....**EE** $0.90

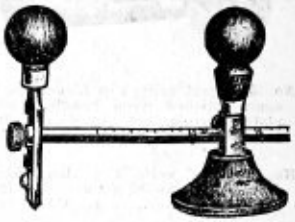
No. 1—Full polished metal, extra quality, length 5 in., per dozen **AEJ** $2.50

No. 01—Extra wheels, per doz. **GJ** .75

No. 75—Trojan, self-oiling, red iron handle, extra good wheel, length 5 in., per dozen .....**ABJ** $2.00

The handiest tool on the market. A piece of felt, saturated with oil, in a small cavity behind the wheel keeps the wheel blade oiled, thus preventing the chipping of the glass.

No. 11—Karelson's, nickel plated, ebony handle, length 3½ in., suitable for use on ordinary glass, per dozen .....**EJDJ** $84.00

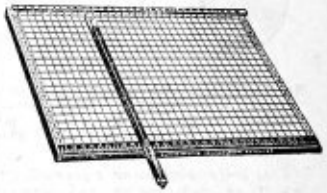


ONE DOZEN IN A BOX.

GLASS CUTTERS.

No. 14—Karelson's, nickel plated, cocoa handle, length 7¼ in., a reliable article for constant use on single or double thick glass or heavy work, per dozen .....**JHBHJ** $138.00

For general use by glass stainers and dealers in glass, especially adapted for a single, double or triple thickness and where a diamond for heavy work is constantly required.



No. 777—Adjustable for cutting circles 2 to 22 in. in diam., nickel plated frame, walnut wood handles and base, cutting wheel easily replaced when worn .....per dozen **ADDJ** $24.00

No. 0777—Extra wheels, per dozen .....**JHE** 1.08

No. 776—Similar to No. 777, for cutting circles from 2 to 18 in. in diam., nickel plated frame, japanned wood handle and base, length 9½ in., per dozen .....**CCJ** $8.75

ONE IN A BOX.

THE "PERFECTION" GLASS BOARD.

With Improved Adjustable Straight Edge.

Size 36x54 in., made of narrow strips of well seasoned lumber, ruled both ways in even inches, has a steel at the front graduated in inches and eighths, w't 75 lbs., each **ADCJ** $23.80

Enables a merchant to cut glass mathematically accurate in inches or fractions. The straight edge is fitted with a very simple device by which it can be moved forward or backward and can be fixed by means of a set screw at any point desired.

Each board is packed securely to protect it from injury in transit.

AMERICAN WINDOW GLASS.

Single Strength ..... I J ⅛
Double Strength..... I J-A J ⅛

GRAINERS' AND PAPER HANGERS' TOOLS.

REVONOC GRAINING OUTFITS.

Comb. Grainer.

REVONOC—Consisting of one 3 in. rubber grainer, and one 3 in. steel graining comb, w't per doz. sets 4 lbs., per dozen sets .....**DHJ** $8.00

The rubber tool is especially adapted for use on floors. The corrugations are mounted on wood and cushioned.

ONE SET IN A BOX.

MAGIC GRAINING SETS.

Magic, consisting of one 3 in. rubber grainer and one 3 in. steel graining comb, w't per doz. sets 6 lbs., per dozen sets .....**DHJ** $8.00

Graining roll attached to wooden plug; any graining effect may be obtained by turning roll slightly on plug.

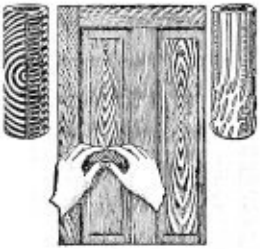
ONE SET IN A BOX.

GRAINING COMBS.

Taylor's, English blue steel, w't per set 12 oz. .....per set **ABJ** $2.00

PUT UP IN TIN CASES, CONTAINING 12 COMBS IN ASSORTED SIZES.

GRAINING TOOLS.



Improved Ridgely Grainers, 5 in a set, w't per doz. sets 15 lbs., per dozen sets .....**BCGE** $39.60

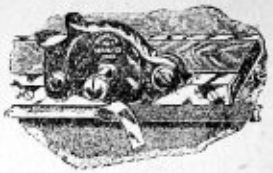
Works easily and quickly with one hand, flexible and conforms instantly to any unevenness that may be encountered in the surface being grained. A book of instructions "how to use and how to grain," accompanies each set. We do not break sets.

ONE SET IN A BOX.

PATENT GRAINING ROLLS.

Sets of three rolls, made of the best rubber, 5 in. long and 1½ in. in diam., w't per doz. sets 7¼ lbs., per dozen sets .....**AJAJ** $16.80

The corrugated roll imitates any known grain.



The vein roller reproduces quarter sawed oak.

The comb roller is used in the graining of plain woods as in stiles and rails.

THE UP TO DATE GRAINER, a valuable treatise, how to mix ground and graining colors and full directions, furnished FREE with every set.

ONE SET IN A BOX.

KEEP YOUR NAME AND PAINT IN PEOPLES' MINDS.

WRITE FOR THESE FREE ELECTROS

SPECIFY BY NUMBER.

SO MUCH BIGGER PAINT SALES result when the dealer talks regularly and earnestly and forcibly to his customers about paint through his local paper, which reaches every home, and is read very carefully. Many dealers write their own paint ads, and get in their own individuality. Others desire to use, at least partly, prepared ads. Please specify by number.

ELECTRIC BELLS, BUZZERS, TRANSFORMERS, ETC.

ELECTRIC BELL OUTFITS.

No. 26E—Cruso dry battery, 2½ in., nickel plated, iron box bell, wood push button, ½ lb., 50 feet, annunciator wire, staples, etc., w't per set 3½ lbs. .....per set **JGJ** $1.75

Wiring diagram enclosed with each outfit.

ONE SET IN A BOX.

SKELETON BELLS.

Nickel Plated Bell Metal Gong.

Nos.	1961-E	1962-E	1963-E	1964-E
Diam., in.	3	4	5	6
W't ,lbs.	1½	1¼	3	3½
Each	$2.08	2.34	3.32	3.60
	ACE	**ADE**	**BAJ**	**BBE**
Nos.	1965-E	1968-E	1969-E	
Diam., in.	8	10	12	
W't, lbs.	7	11½	15	
Each	$6.00	9.60	12.00	
	DJE	**FCJ**	**JGJJ**	

No. 1964-E is the most salable size. All parts are heavily nickel plated, giving the bell a beautiful appearance. The steel pivot works in two brass adjustable screws with lock nut. The contact and tension screws are both easy of adjustment and provided with a locking device. Selected hardened platinum is used for contacts. The best cast bell metal nickel plated gongs are used. They are especially adapted for hotels, fire alarms, railroad signals, public buildings, etc., as they have a powerful blow and clear ringing tone.

ONE IN A BOX.

ELECTRIC BELLS.

No. 525-E—2½ in., nickel plated, japanned iron box, w't ¾ lb., each .....**CJ** $0.48

No. 530-E—3 in., nickel plated, japanned iron box, w't 1 lb., each .....**CA** $0.50

FLASHLIGHTS WITH TUNGSTEN BATTERIES AND MAZDA BULBS.

EVEREADY.

¾x1⅞x3½ in., Cigarette Type, Nickel Plated, Hinged on One Side, Easily Opened to Permit Inspection.

No. 6991-E—Complete .....each $1.00
No. C6991-E—Without battery, each .75

In this New Design, Battery is Inserted in Top of Flashlight Case, Eliminating Adjustment of Battery Contacts.
Size 2½x1¼x1¼ in.

No. 6970-E—Complete.....each $0.85
No. C6970-E—Without battery, each .55

2⅛x1⅜x¾ in.

No. 6971-E—Complete.....each .85
No. C6971-E—Without battery, each .55

2⅛x2x¾ in.

No. 6972-E—Complete.....each 1.10
No. C6972-E—Without battery, each .70

MINIATURE.

2½x1½x1¼ Inch Brass Case, Heavily Nickel Plated and Polished, Permanent Contact.

No. 6900-E—Complete.....each $0.75
No. C6900-E—Without battery, each .45

2⅝x1⅜x¾ in.

No. 6961-E—Complete.....each .75
No. C6961-E—Without battery, each .45

COAT POCKET.

1⅜x2¼x5 Inches, Metal Case, Nickel Trimmings.

No. 1991-E—Cloth covered, complete, each $1.50
No. C1991-E—Without battery, each 1.15

VEST POCKET.

1x2¼x3½ Inch, Metal Case, Nickel Trimmings.

No. 6901-E—Aligator cloth covered, complete .....each $1.25
No. C6901-E—Without battery, each .85
No. 6903-E—Black cloth covered, complete .....each 1.15
No. C6903-E—Without battery, each .75

1x1⅞x3½ in.

No. 6902-E—Black cloth covered, complete .....each 1.25
No. C6902-E—Without battery, each .95

EVEREADY.

Fibre Case, Tubular, Nickel Trimmings, Flash and Permanent Contact.
5x1¼ in.

No. 2602-E—Complete, w't 6 oz., each $1.25
No. C2602-E—Without batery each .95

6½x1½ in.

No. 2604-E—Bull Dog, complete, w't 13 oz. .....each $1.50
No. C2604-E—Without battery, each 1.20

Leatherette Covered, Tubular.

8½x1½ in

No. 2606-E—Complete, w't 20 oz., each $1.50
No. C2606-E—Without battery, each 1.10

Fibre Case, Tubular.

8½x1½ in.

No. 2612-E—Complete, w't 17 oz., each $1.75
No. C2612-E—Without battery, each 1.35

MINERS'.

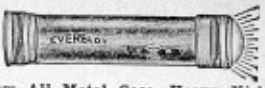
Fibre Case, Tubular, NEW STYLE, Large Lens and Reflector, Nickel Trimmings, Flash and Permanent Contact.

6½x1½ in.

No. 2616-E—Complete, w't 17 oz., each $2.00
No. C2616-E—Without battery, each 1.70

8½x1½ in.

No. 2619-E—Complete, w't 22 oz., each $2.40
No. C2619-E—Without battery, each 2.00



Miners' Light with Parabolic Reflector, Most Powerful Light Made. Fibre, Nickel Trimmings.
1½x8½ in.

No. 2659-E—Complete .....each $3.00
No. C2659-E—Without battery, each 2.60

13½x13 in.

No. 2653-E—Complete .....each $4.00
No. C2653-E—Without battery, each 3.30

EVEREADY.

New All Metal Case, Heavy Nickel Plate, Non-Short Circuiting, Permanent and Flash Contact.

1¼x5 in.

No. 2630-E—Complete .....each $1.25
No. C2630-E—Without battery, each .95

Brass Case, Otherwise Same as No. 2630.

1½x6 in.

No. 2631-E—Complete .....each $1.50
No. C2631-E—Without battery, each 1.20

Brass Case, Otherwise Same as No. 2631.

1½x8½ in.

No. 2632-E—Complete .....each $1.75
No. C2632-E—Without battery, each 1.35

New Miners', All Metal Case, Heavy Nickel Plated, Non-Short Circuiting, Permanent and Flash Contact.
1½x8½ in.

No. 2633-E—Complete .....each $2.40
No. C2633-E—Without battery, each 2.00

Tubular, Black Cloth Covered, Nickel Trimmings, Flash and Permanent Contact.

6½x1½ in.

No. 2624-E—Complete, w't 13 oz., each $1.10
No. C2624-E—Without battery, each .80

Alligator Cloth Covered.

6½x1½ in.

No. 2625-E—Complete, w't 13 oz., each $1.20
No. C2625-E—Without battery, each .90

Black Cloth Covered.

8½x1½ in.

No. 2626-E—Complete, w't 16 oz., each $1.20
No. C2626-E—Without battery, each .80

Enamel Metal Case.

8½x1½ in.

No. 2627-E—Complete, w't 16 oz., each $1.10
No. C2627-E—Without battery, each .70

EVEREADY TUNGSTEN BATTERIES.

SEE GUARANTEE ON EACH BATTERY.

When used in connection with the proper Mazda lamps, Tungsten batteries have an exceedingly long life. Continuous light can be had for a remarkably long time and for a much longer period if used intermittently. So perfect and reliable is the Ever Ready Tungsten Battery that we guarantee each one to furnish service for a specified length of time.

Nearly every one is familiar by this time with the Tungsten lamp and its tremendous improvement over the old carbon filament lamp used in connection with incandescent lighting for years. Tungsten is the name of the metal of which the filament is made and therefore the lamp or bulb is known as the Tungsten. Mazda is the trade name adopted to represent the combined improvement made by the technical specialist of the important manufacturers of Tungsten filaments, both in this country and Europe. It stands for the highest quality in metal filament lamps, and gives a remarkably bright light, estimated at 500 per cent more candle power than the carbon lamp. It increases service of battery as it gives a brilliant light down to the last battery.

ALL FLASHLIGHTS PACKED ONE IN A BOX.

BATTERIES, CONNECTORS, AMMETERS, ETC.

DRY BATTERIES.

No. 300-E—Cruso, round carton, 2½x6 in., 1½ volts, 15 to 18 amperes, recommended for telephone and bell work w't 2 lbs.....each **A G** $0.40

No. 700-E REVONOC. No. 1700-E REVONOC.

No. 700-E REVONOC—Round carton, 2½x6 in., 1½ volts, 22 to 25 amperes, specially made for automobile and gas engine ignition work, where efficiency is needed, w't 2 lbs....each **A I** $0.50

No. 1700-E REVONOC—Square carton, otherwise same as No. 700-E, each .....**A I** $0.50

ONE HUNDRED AND TWENTY-FIVE IN A BBL.

WET BATTERIES.

Carbon Cylinder.

No. 200-E—Battery complete, each .....**B I** $0.50

No. 202-E—Carbon cylinder, each .....**A F** .30

No. 203-E—Jars .....each **A J** .12

No. 204-E—Zinc and rubber ring, each .....**J D** .05

No. 205-E—Sal Ammoniac, ¼ lb. packages .....per pound **A F** $0.30

The most powerful, efficient, and economical low-prices open circuit battery on the market. We use only the very best carbon cylinders.

BATTERY ZINCS.

No. 55-E—Round, plain, copper thumb screws .....each **J D** $0.06

No. 65-E—Square, plain, copper thumb screws .....each **J D** $0.06

DRY BATTERIES.

No. 406-E—No. 160-J—Ever Ready, round carton, style "J," 2½x6 in., 1 6-10 volts, 22 to 25 amperes, for use on automobiles, gas and gasoline engines, motorcycles, telephone work, etc., w't 2½ lbs., each .....**B C** $0.60

No. 407-E—No. 170-K—Ever Ready, round carton, style "K," 3x7 in., 1 6-10 volts, 27 to 30 amperes, for use on automobiles, gas and gasoline engines, motorcycles, etc., w't 3¼ lbs.....each **J E J** $1.20

No. 413-E—Style "L," 3½x8 in., 30 to 35 amperes, otherwise same as No. 407-E.....each **J F J** $1.60

NO. 406E, ONE HUNDRED AND TWENTY-FIVE; NO. 407E, SEVENTY-FIVE; NO. 413E, FIFTY IN A BARREL.

No. 1406-E—Ever Ready, square carton, 2½x2½x6 in., 1 6-10 volts, 22 to 25 amperes, for use on automobiles, gas and gasoline engines, motorcycles, telephone work, etc., w't 2½ lbs., each .....**B C** $0.60

ONE HUNDRED AND TWENTY-FIVE IN A BARREL.

No. 436-E—Ever Ready, Thirty, square carton, 2½x2½x6 in., 1 6-10 volts, 22 to 25 amperes, for use on automobiles, gas and gasoline engines and motor cycles, w't 2½ lbs.....each **B A** $0.50

ONE HUNDRED AND TWENTY-FIVE IN A BARREL.

FLASHLIGHT BATTERY AND BULB TESTERS.

No. 6291-E—Black case 5⅝ in. diameter, w't about 1 lb., each...**J I J** $1.50

ONE IN A CARTON.

BATTERY CONNECTORS.

No. 1025-E—Bull Dog, 4½ in., safe, strong and reliable, per 100 .....**J D H J** $10.00

TEN IN A BOX.

No. 1070-E—Quick Action, slotted ends, per 100 .....**J G J** $4.00

Is made of one piece of annealed copper, perfectly insulated; attaching ends are ribbed to provide stiffness and cushion.

No. 1069-E—Quick Action, closed ends, per 100 .....**J G J** $4.00

AMMETERS.

For Reading Current in Amperes.

No. 1002-E—1-E—0-35 amperes, 2 in. nickel plated metal dial, each.....**J I J** $1.25

No. 1010-E—Midget, 0-35 amperes, 1½ in. nickel plated metal dial..each **J I J** $1.50

ONE IN A BOX.

VOLT-AMMETERS.

For Reading Current in Both Amperes and Volts.

No. 1003-E—8-E—0-35 amperes, 0-10 volts, 2 in. nickel plated metal dial, each.....**A B J** $1.75

No. 1011-E—Midget, 0-35 amperes, 0-10 volts, 1½ in. nickel plated metal dial, each.....**A B J** $2.00

ONE IN A BOX.

VOLT-METERS.

For Reading Current in Volts.

No. 1005-E—0-10 volts, 2 in. nickel plated metal dial, each.....**A A J** $1.50

ONE IN A BOX.

SAL AMMONIAC, TAPES, SOLDERING STICKS, ETC.

INSULATING TAPE.

No. 60-E—Cruso, friction, ¾ in., per pound ..... CE $0.50
ONE-HALF POUND ROLLS IN CARTONS.

No. 62-E REVERSO—Friction, ¾ in., per pound ..... JEJ $1.00
ONE-HALF POUND ROLLS IN A TIN BOX.

No. 64-E—Rubber, ¾ in., per pound ..... JFE $1.00
ONE-HALF POUND ROLLS IN A CARTON.

REVERSO *is a very high grade of tape for all purposes and is very strongly recommended for all work requiring the best. Cruso is the best medium priced tape on the market. Both are extensively used by electrical contractors, electric light plants and telephone companies.*

No. 65-E—Walpole, friction, ¾ in., per pound ..... JFJ $1.25
This is the highest grade, best quality, and equal to any on the market regardless of price.
ONE-HALF POUND ROLLS IN A TIN BOX.

No. 166-E—Manson, black, ¾ in., per pound ..... JGJ $1.50
ONE-HALF POUND IN A TIN BOX.

No. 167-E—Oronite, rubber, ¾ in., per pound ..... AAJ $2.00
ONE-HALF POUND IN A CARTON.

LEATHER NAIL HEADS.

No. 3635-E.....per thousand JCE $1.00
A small leather ring or washer for use with porcelain insulators and cleats where it is desired to fasten them with nails instead of screws.
ABOUT ONE THOUSAND IN A PACKAGE.

SAL AMMONIAC.

Powdered, Imported, 99 Per Cent Pure.
No. 910-E—In bulk, per pound BB $0.28
No. 912-E—5 lb. packages, per pound ..... BC .29
No. 911-E—1 lb. packages, per pound ..... BD .30
No. 205-E—¼ lb. packages, per pound ..... BF .34
No. 913E—Lump in bulk, for soldering, per pound ..... CF $0.40
ABOUT SIX HUNDRED POUNDS IN A CASK.

No. 915-E—Cake 4x2½x1⅞ in., each ..... CD $0.33
These are specially grooved to take the soldering iron and are recommended for tinners, plumbers and all kinds of soldering work.

SOLDERALL.

In Tubes.
No. 84-E—3 oz. size, per doz. BDJ $1.00
Solderall is a wonderful new solder, will mend anything in metal, kitchen utensils, toys, tin roofs, leaky pipes, automobile parts and wires. Clean in handling, no waste in using.
The most useful thing in an electrician's outfit. It is a complete solder and non-corrosive flux combined in paste form, it can be carried in the pocket like a screw driver. With the aid of a match, a perfect joint can be made.
All that is necessary is to squeeze a little from tube on parts to be mended and heat with a match, torch or soldering iron and a perfect job is the result. Indispensable for the home, shop, electrician or motorist.
ONE DOZEN IN A BOX.

SOLDERING SALTS.

No. 3405-E—Allen's, ½ lb. bottles, each ..... BH $0.30
No. 3406-E—Allen's, 1 lb. bottles, each ..... CD .40
No. 3407-E—Allen's, 5 lb. bottles, each ..... AFJ 2.00

SOLDERING PASTE.

No. 401-E—Allen's, in 2 oz. boxes, per box ..... AD $0.25
No. 402-E—Allen's, in ½ lb. boxes, per box ..... CE $0.45
No. 403-E—Allen's, in 1 lb. boxes, per box ..... FE $0.80
No. 404-E—Allen's, in 5 lb. boxes, per box ..... BGJ $3.25

No. 93-E—Crescent, in 2 oz. boxes, per box ..... AD $0.25
Crescent Soldering Paste is an oleate, not an acid. It is a clean, efficient and economical flux.

SOLDERING STICKS.

No. 400-E—Allen's, per stick AC $0.25

No. 92-E—Crescent, per stick AC $0.20
These sticks are non-corrosive and efficient, economical and quick acting. They are not hard or brittle, and will not crumble.

SOLDER.

No. 81-E—Wire, No. 10 gauge, 50-50, guaranteed fifty pounds each, tin and lead in a hundred, per pound $
IN BUNDLES.

No. 83-E XXX REVERSO—Bar, tinners', warranted, half and half, 50-50, guaranteed fifty pounds each, tin and lead in a hundred .....per pound $
ONE HUNDRED POUNDS IN A BOX.

PUSHES, PUSH BUTTONS AND TREADS.

PUSH BUTTONS.

Nos. 441-E to 445-E. Nos. 43-E and 46-E.

2⅜ Inch.

No. 441-E—Natural oak, each **J F** $0.15
No. 442-E—Antique oak, each **J F** .15
No. 445-E—Cherry.....each **J F** .15

3 Inch, Pear Shape.

No. 43-E—Oak .....each **A B** $0.20
No. 46-E—Walnut .....each **A B** .20

Nos. 9595-E and 9598-E. Nos. 9600-E and 9603-E.

2½ Inch.

No. 9595-E—Light bronze, pressed metal, each .....**A B** $0.25
No. 9598-E—Oxidized copper, pressed metal .....each **A B** $0.25
No. 9600-E—Light bronze, pressed metal, each .....**A D** $0.30
No. 9603-E—Oxidized copper, pressed metal .....each **A D** $0.30

No. 25655-E. No. 25651-E.

2 ¾Inch Solid Screw Back.

No. 25655-E—Cast bronze, brush brass, each .....**C H** $0.75
No. 25651-E—Cast bronze, brush brass, each .....**C H** $0.75

No. 25750-E. No. 25753-E.

Loose Back.

No. 25750-E—4½x1¾ in., wrought bronze, brush brass .....each **B J** $0.60
No. 25753-E—4x2 in., wrought bronze, brush brass .....each **C F** $0.60

PUSH BUTTONS.

No. 999-E—Liberty, 1¾ in., black with white center .....each **A A** $0.20
A moulded composition button of hard rubber finish. Better than wood or metal. It will not rust, contacts will not loosen, and the mechanical details are perfect.

TABLE PUSHES.

No. 1261-E—Nickel plated, pearl, center .....each **C E** $0.50

No. 1262-E—Nickel plated, black center, each .....**C E** $0.50

FLOOR PUSHES.

No. 1263-E—Nickel plated, each **C J** $0.40
Used under dining room table for signaling servant.

No. 1264-E—Nickel plated, combination, each .....**C F** $0.50
Same as No. 1263-E with extension attachment for connecting with table push.

FLOOR TREADS.

No. 1150-E—4 in., reliable, brass finish, felt covered base ....each **J H J** $1.50
Although snugly hidden under the rug it can readily be found and signal instantly made upon the slightest pressure with foot at any point. This distinct advantage is due to its full, round shape and simple construction.
CORD NOT INCLUDED.

DOOR PUSHES.

No. 1567-E. No. 1568-E.

No. 1567-E—Open circuit, each .....**A A** $0.17

No. 1568-E—Closed circuit, each .....**A B** .20

No. 1566-E. No. 1569-E.

No. 1566-E—Open circuit, each .....**A J** $0.11

No. 1569-E—Make and Break, each .....**A B** .20

No. 1570-E. No. 1571-E.

No. 1570-E—Door trip, 2 in., each .....**B F** $0.40

No. 1571-E—1⅞ in.....each **J H** .12

For use over store doors to announce entrance of customers. Rings signal when door passes the trip, but is silent when open, and in closing door.

CUT-OUT BOXES, WOOD MOULDING, SWITCHES, ETC.

SECTIONAL SWITCH BOXES.

All Nos. F J%.

All Nos. D%.

No. 1601-E—Two wire, ¼ in. hardwood, unfinished, for Nos. 12 or 14 wire, per 1000 feet..... $18.00

No. 1602-E—Two wire, ¼ in., hardwood, oak stained, for Nos. 12 or 14 wire, per 1000 feet..... $19.00

Prices include capping. Can furnish other sizes, but will take three or four days time. Wire grip moulding is so constructed that it holds the wire in place while capping is being put on. All hardwood.

The difference between the above sizes is that moulding for use outside of Chicago is narrower. The narrow moulding is not approved by Chicago Board of Underwriters.

PACKED 100 FEET OF MOULDING AND CAPPING IN A BUNDLE.

PENDENT SWITCHES.

No. 406—Single pole, 125 volts 3 amp., polished brass, ½ in. cap, each .....CJ $0.6[illegible]

FIFTY IN A STANDARD [illegible]

Edison Base, 250 Volts.

No. 50746E—Keyless, brushed brass, concealed porcelain base, removable ring .....each BD $0.40

TWO HUNDRED AND FIFTY IN A STANDARD PACKAGE.

"Arrow Twenty."
Edison Base, National Code, 8 Inch Chain.

No. 66611E—Brush brass, each DB $0.70

ONE HUNDRED IN A STANDARD PACKAGE.

ANGLE SOCKETS.

No. 412E—Two light, polished brass, each .....EE $0.65

Designed with a view to economy in show-window or show-case work. By use of suitable shades and reflectors more complete distribution of light is secured.

FIFTY IN A STANDARD PACKAGE.

LAMP ATTACHMENT.

Lamp Base Attachments, National Code, 8 Inch Chain.

No. 35024E—Brush brass, each DB $0.70

FIFTY IN A STANDARD PACKAGE.

ADJUSTABLE SOCKET CLUSTERS.

With Plug—Wired.

No. 952E—2 light, w't ½ lb., each .....AAE $1.25

Benjamin Adjustable Plug and Socket Clusters are designed for use with ceiling or pendant dome fixtures, stand lamps in reading rooms, etc., where it is desirable to adjust and fix the lights in special relation to the sides of the dome or reflector. The socket may be turned 180 degrees apart, and locked. Easily wired. Standard finish is polished brass.

TEN IN A STANDARD PACKAGE.

ROTATING SOCKETS.

No. 9002-E—2 light, rotating socket, each .....JHE $1.00

Sockets have rotating sleeve for attaching without turning the device. By the combined use of sockets and suitable half shades capable of revolving around the axis of the lamp, the light of a given installation may be effectively directed and distributed. When a strong light is not required, an appreciable saving may be made with low candle power lamps. Standard finish is polished brass.

TWENTY-FIVE IN A STANDARD PACKAGE.

SOCKETS, ADAPTERS AND RECEPTACLES.

⅝ Actual Size.

Edison Base, National Code, 250 Volts.

No. 903-E—Benjamin, each .....BA $0.25

Rotating sleeve makes it possible to attach plug without turning device. Twisting of cord is unnecessary. Cord is firmly secured and held by cap grip. There are no detachable parts to become lost or broken.
ONE HUNDRED IN A STANDARD PACKAGE.

RECEPTACLE PLUGS.

Edison Base, Polished Brass.

No. 192E—2 light multiple ...each JGB $1.00
No. 193E—3 light multiple ...each JIE $1.30

Fits any Edison base socket. Receives any combination of lamps and attachment plugs. Converts one light pendant into cluster.
TEN IN A STANDARD PACKAGE.

YOST LOCKFAST PLUG.

No. 400E — Lockfast, each .....BJ $0.25
Connected instantly by inserting and making a slight turn to the right. Disconnected by simply reversing the operation. Easily connected in cramped spaces or where shade is used. Makes "portable" devices really portable.
ONE HUNDRED IN A STANDARD PACKAGE. TEN IN A BOX.

SOCKET EXTENSIONS.

No. 91E—Benjamin, polished brass, each .....BD $0.25
Offers a convenient means for attaching glassware where the outlets do not otherwise permit it. Shell is provided with bead for standard shade holder. Is especially serviceable for use in connection with flush sockets and ceiling receptacles. Increases the length of the socket only 1¼ inches.
FIFTY IN A STANDARD PACKAGE.

STAGE CONNECTORS.

No. 16412E—Brass shell, interchangeable cap .....each DH $0.70
The most serviceable stage connector on the market, combining attractiveness and strength. The neat appearance of the brass shell together with the separable cap feature makes it an article of pronounced merit. Cap is interchangeable with our other separable cap fittings.
THIRTY IN A STANDARD PACKAGE.

CURRENT TAPS.

Combined Socket and Attachment Plug.
No. 16414E—Glazed porcelain, phosphor bronze contact clips, designed for 250 volts .....each CD $0.50
A simple and safe device for tapping and carrying the current from any electric light fixture to motor, drop lights or other electrical devices without the loss of lamp already in fixture.
FIFTY IN A STANDARD PACKAGE.

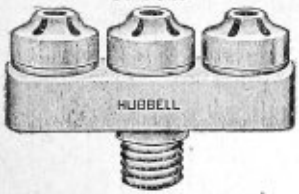
PHELPS' PULL SOCKETS.

No. 132E—Porcelain insulation, each .....BC $0.25
The strings are 13 inches long and are equipped with a white ball to turn the light on and a black ball to turn it out. The white one is corrugated so it can be found in the dark.
For high fixtures and short people. Brings light within easy reach of all. Fits any standard fixture. Works easily and noiselessly.
ONE HUNDRED IN A STANDARD PACKAGE.

TUNGSTEN ADAPTERS.

No. 99-E—Brushed brass, each EG $0.70

TWENTY-FIVE IN A STANDARD PACKAGE.



JUST PULL SOCKET ATTACHMENTS.

No. 1-E—7 in. chains, each AH $0.25
No. 2-E—10 in. chains, each BJ $0.23
Should be used on all stationary fixtures for turning on or off the light. The handiest and cheapest "Light Pull" on the market.
Readily adjusted by springing clamps to fit key. Grasp around socket with left hand firmly holding flat sides of key between thumb and index finger. Holding "Just-Pull" attachment in right hand, spring clamps over full length of key until each shoulder slips into place, then pinch until attachment fits tight.
SOCKETS NOT INCLUDED. With first order for one gross, manufacturer will furnish free, counter display stand.

LAMP GUARDS, ELECTROGRIPS AND CORD ADJUSTERS.

LAMP GUARDS.

STANDARD, 16 Gauge Steel Wire, Heavily Tinned, Strengthened with Two Sliding Wire Rings, with Safety Cushion.

No. 316E—For 16 C.P. lamps, per dozen AEJ $2.00

No. 332E—For 32C.P. lamps, per dozen AGJ 2.50

The mere closing of the guard over the lamp fastens it automatically and securely to the socket. Being attached to the socket instead of the lamp it throws no weight on the bulb.

The operation is simple. The half open guard is held well up on the socket, the lamp is inserted in place and the large ring slipped down as far as it will go, thus closing the guard and securing it to the socket at the same time.

The safety cushion holds the lamp perfectly rigid and prevents it jarring loose from the socket by vibration of the building or factory in which it is used.

This is the new LoXon lamp guard that fastens the bulb to the socket with a key. Prevents loss, breakage and theft—cannot be removed without the key.

Are made to stand the rough usage—can be hung anywhere, handled anywhere—and give the lamp perfect protection. Yet there is no interference with the light. A big money saver.

One key with every dozen guards. In ordering guard for W. P. sockets specify MAKE AND NO. OF SOCKET.

Nos. 14025E to 14029E.

No. 14026E—LoXon, 16 C. P. standard socket, per dozen CGE $6.00

No. 14026E—LoXon, 32 C. P. standard socket, per dozen CIE 6.25

No. 14027E—LoXon, 16 C. P. W. P. socket, per dozen CIE 6.25

No. 24343E—LoXon, 40 or 60 watt Tungsten lamp, standard socket, per dozen, FJJ 8.75

No. 14020—Extra keys per dozen JHG 1.20

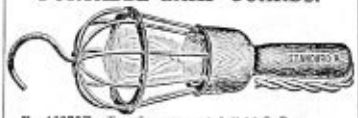
A strong, rigid guard, open at bottom, that affords absolute protection to the lamp without interfering with its insertion or removal. Has wire cushion which takes jar and protects lamp coming in contact with other wires. Easily attached and holds with a bull dog grip.

No. 14029E—PROTECTOR "O," tinned wire 16 C. P., per dozen AIJ $2.50

LAMP GUARDS.

No. 66E.

No. 66E—SPIRAL tinned, piano wire, for 16 candle power lamp, no fastening necessary, spring adjusts itself to lamp per dozen JGE $2.00



No. 16E.

No. 16E—BUFFALO, heavy tinned wire, for 16 candle power lamp, clamps around socket, can be put on and taken off without removing lamp, per dozen ACH $2.50

Inner wire prevents lamp from coming in contact with outer frame.

PORTABLE LAMP GUARDS.

No. 40872E—THE STANDARD "A," 16 C. P., per dozen, AHGE $30.00

Where a keyless portable guard is desired the Standard "A" is superior to any guard on the market. IT IS WEATHERPROOF, having wiica socket securely embedded in the handle with extra long lead in wire.

No. 46745E—CRESCENT, 16 C. P., per dozen, AEJJ $24.00

No. 0457E socket can be used with this guard. Light, strong and durable without socket.

ELECTROGRIPS.

These grips are used on drop lights for the purpose of raising or lowering the bulb. It grips the cord or fastening at any point, making the light hang high or low as desired.

No. 72E—Per dozen, BAH $3.00

"TWO-BALL" CORD ADJUSTERS.

This adjuster is a device for automatically maintaining an electric droplight at any desired height. It consists of two balls, fitted with grooved pulleys of insulating material, through which the lamp cord runs. The lower ball acts as a counterbalance to the lamp. Can be used on any droplight.

No. 1112E—Black enamel, each JHC $1.20

Made for both indoor and outdoor lighting. Fixture consists of a one-piece porcelain fire enameled steel reflector with movable socket so that light may be spread or concentrated and different size lamps may be properly positioned.
Attaching nipple is made of brass and allows shade to be raised, making socket accessible for adjustment and for easy wiring.
Fixtures are complete with 12 in. black enameled stem and canopy, crowfoot and wired with No. 14 new code wire.

HARTER COMMERCIAL UNITLITES.

No. 514AE. No. 419AE.

Length of Fixture Over All as Shown 28 Inches.

No. 514AE—With 2¼ in. shade holder, furnished without glassware and lamps .....each **AHJ** $3.00
No. 514BE—With 3¼ in. shade holder, furnished without glassware and lamps .....each **AHE** $3.10
With adjustable socket, so that different size lamps and shades may be used, brass holder, brass stem and brass canopy; all furnished in brushed brass.
Furnished with crowfoot wired No. 14 duplex wire, therefore no insulating joint or canopy insulation is required.
No. 515AE—With 2¼ in. shade holder furnished without glassware and lamps .....each **AEJ** $2.50
No. 515BE—With 3¼ in. shade holder, furnished without glassware and lamps .....each **AEE** $2.60
Nos. 515AE and 515BE have iron stem and are finished in black enamel, otherwise same as Nos. 514AE and 514BE.
No. 419AE—With 2¼ in. shade holder, furnished without glassware and lamps .....each **BAJ** $3.50
No. 419BE—With 3¼ in. shade holder, furnished without glassware and lamps .....each **BAE** $3.60
Has chain stem, wired with yellow silk cord and crowfoot ready to hang, otherwise same as No. 514AE.
Insulating joint and canopy insulation will be furnished when specified at an additional cost of seventy-five cents.

HARTER ADJUSTABLE ANGLELITE.

Porcelain Fire Enameled Steel Reflectors, Finished Black Outside and White Inside, Sockets Are Adjustable, Any Size Lamp May Be Used.

No. 310E—For 40, 60, 100 watt lamp, furnished without lamps, wiring and stem .....each **BAJ** $3.50
No. 312E—For 150, 250 watt lamp, furnished without lamps, wiring and stem .....each **BGJ** $4.50
Are specially adapted for illuminating Show-windows and Signboards, light may be spread or concentrated at will.
Fixture reflects light on the goods and keeps it out of the eyes of the customer.

CEILING LIGHTS.

No. 914E Glolite. No. 814E Shad-o-less.

No. 914E—With 18 in. ring and 14 in. special glass bowl ready to hang, each .....**JIAB** $15.20
This is a semi-indirect fixture so called because light is partly reflected from the ceiling and partly diffused through special glass bowl. Its soft glowing light especially adapts fixture to the restful illumination of Theaters, Hospitals, Public Buildings and Stores. Metal parts are all porcelain fire enameled steel, socket and holding-nut are porcelain and chain is nickeled, which makes it permanently all white.
Furnished with crowfoot all wired with No. 14 double braid wire so no insulating joint or canopy insulation is required.

Nos.	814E	818E	822E
Diam. of reflector, in...	14	18	22
Lamp watts	60, 100	150, 250	250
Each, less lamps	$11.40	13.90	16.90
	JFHD	JHCD	AJAE

This indirect fixture does away with all eye strain and with a light colored ceiling brings an illumination like daylight into your Office and Store.
Canopy, stem and bowl, all are porcelain fire enameled steel with porcelain socket and holding-nut and nickeled chains.
The fixture being permanently all white gives that much desired impression of cleanliness.
Wired complete with No. 14 double braid wire, so does not require insulation joint or canopy insulation.

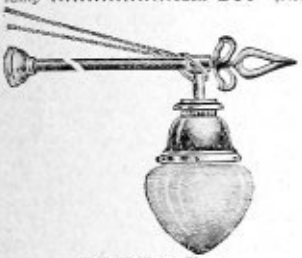
ADJUSTABLE DROPLITES.

Nos.	907E	908E	909E
Diam., in.	7	8	9
Watt lamp	25, 40	60	100, 150
Each	$1.85	2.15	2.30
	AAJ	ACJ	ADJ

For lighting Windows, Stores and Showcases. Shade which is porcelain enameled steel, all white, may be moved up or down on socket to distribute, or concentrate light or to use different size lamps.
Socket is made with removable cap, and either ordinary or reinforced lamp cord can be used, may be made waterproof by filling top of cap with compound.

NITROLITES AND ELECTRICAL SUPPLIES.

NITROLITES.



These fixtures are specially made for the new nitrogen lamps, 250 to 1000 watts, and are equipped with Harter mogul sockets which may be adjusted without disturbing wires.

They have fire enameled reflecting plates and are thoroughly ventilated. Globes are cased glass and of the pear shape type.

For Indoor Use.

No. 514½-E—Brass, brush brass finish, 30 in. over all, wired complete except lamp .....each **EGJ** $9.50

For Outdoor Use.

No. 511½-E—Copper, black finish, with 4 ft. ¾ in. pipe, chains, expansion rings, spearhead, wall flange, wired complete, except lamps, each .....**JGJJ** $11.70

HOLDERS NOT FURNISHED.

Moonstone Doric Reflectors are designed to give the highest possible efficiency where used in connection with light source of great brilliancy producing the best results for maximum of diffusion—minimum of glare—distribution of the fixtures, eye comfort, color of light.

The light transmitted by moonstone Doric reflectors is totally different compared to opal, opalescent, ground glass or prismatic shades. The Moonstone Doric reflectors are free from shadows or dark spots when lighted. The entire surface is diffusive and of marble whiteness, soft and pleasing. Since the introduction of high efficiency light source occulists say eye strain has largely increased. The Moonstone Doric reflector will relieve the eyes. No other globe can compare with Moonstone for effective street illumination. Maximum of distribution and no shadows. Pure white free from sharp uncertain light rays and shadows.

"X-RAY."

Pure Silver Plated, Protected by Special Process.

No. **765-E**—Bee Hive, diam. 10½ in., height 11⅜ in., furnished for 3¼ in. holder, w't per doz. 48 lbs., per dozen .....**DCAE** $54.00

This reflector is designed for lighting large interiors, factories, foundries, machine shops and halls. Should be used on high ceilings, placed close to the ceiling, when so used it will spread the light evenly over large areas, giving a brilliant illumination.

Use 100, 150 and 250 Watt Mazda lamps.

FOUR IN A STANDARD PACKAGE.

Pure Silver Plated, Protected by Special Process.

No. **700-E**—Diam. 10 in., height 5¼ in., holder 2¼ in., w't per doz. 25 lbs., per dozen .....**ADCE** $18.00

This new reflector is blown into a mould instead of being hand formed, hence will be uniform in shape, size and corrugations. This style reflector gives notably excellent results for billiard table lighting, five lamps being hung over the table, one in the center and one over each corner.

EIGHTEEN IN A STANDARD PACKAGE.

No. **696-E**—Diam. 8 in., height 5 in., holder 2¼ in., same shape as No. 700-E .....per dozen **JIJJ** $15.00
TWENTY-FOUR IN A STANDARD PACKAGE.

X-RAY REFLECTORS.

Plated with Pure Silver and Protected by Special Process.

Entire Page Disc. B J %.

HELMET.

Figure 1 showing corrugations which break up and prevent the sharp streaks of light usually found in mirror reflectors. It is a very powerful and concentrating reflector.

Figure 2 showing Helmet installed in show window.

No. 755-E—Diam. 12 in., height 10 in., for 3¼ in. holder .....each $5.00

This reflector is especially adapted for high shallow show windows. Gives 900 c. p. downward over a comparatively small area where an 100 watt c. p. lamp is used. Flat side goes to window or street, throwing all the light on the goods in the window, wasting none on ceiling, sidewalk or street.

100 or 150 Watt Mazda lamps should be used in this reflector. To find if Helmet is adapted to any window, measure depth from window pane to back, height from floor to point where lamps are to be placed, subtract 7 feet from this height, divide the depth by the remainder so obtained, if the result is less than 1½ use Helmet reflectors, if more, use the scoop or poke bonnet.

Usually spaced 2 to 4 feet apart. If in doubt, write us, giving dimensions of window, height, length and breadth, kind of goods usually shown and how lighted now.

FOUR IN A STANDARD PACKAGE.

SCOOP.

Figure 1 showing corrugations and position of lamp in scoop.

Figure 2 showin scoop installed in show window.

No. 777-E—Height 6¼ in., width 9 in., depth 7½ in. .....each $3.00

This reflector is one of the latest types for the average sized show window. It is designed to use the 60 or 100 Watt Mazda lamp. It gives an even distribution of light all over its effective range, throwing all the light upon the goods shown in the window and wastes none on the street or ceiling.

If in doubt, write us, giving dimensions of windows, height, length, depth, kind of goods usually displayed and how lighted now.

FIFTEEN IN A STANDARD PACKAGE.

POKE BONNET.

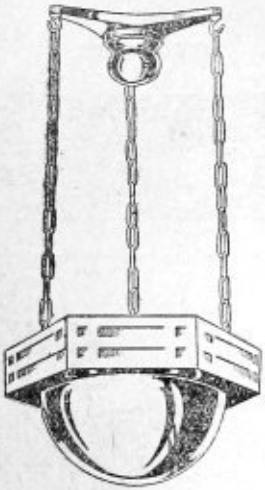
Figure 1 showing twin socket and corrugations.

Figure 2 showing adjustable fork, armored cord and plug.

No. 750-E—Length 14 in., width 7 in., depth 3¼ in., complete .....each $6.50

The reflector is furnished wired complete with adjustable attachment, twin socket, bushings, 18 inches of round reinforced window cord and attachment plug.

It has the same strong reflecting qualities as the other reflectors on this page and is designed for low shallow windows. Placed end to end it becomes a continuous trough reflector of the highest efficiency, utilizing all of the light and distributing it any desired angle by the use of the adjustable holder shown in Figure 2.



Use in low windows, 5 to 10 feet high, close to ceiling, and front of windows with short flat side to street side of window with 25, 40 and 60 watt Mazda lamps.

Usually installed on from 2 to 4 feet centers.

If in doubt, write us, giving dimensions of windows, height, length, depth, kind of goods usually displayed and how lighted now.

EIGHT IN A STANDARD PACKAGE.

FIXTURES WILL BE FURNISHED IN FINISHES SPECIFIED. IF OTHER FINISHES ARE WANTED, AN ADDITIONAL CHARGE OF FROM 10 *TO* 25% *LAMPS NOT INCLUDED.*

"AMERICAN BEAUTY" ELECTRIC HEATING APPLIANCES.

Always Specify Voltage.

Voltages vary throughout the country. Satisfaction results when the voltage of the Electric Heating Device is in harmony with that of the circuit on which it is used, particularly the voltage of the circuit at the point where the device is connected. Most of our devices are made in the following wide voltage ranges. All electric irons, toasters, water heaters, disc heaters, percolators, tea kettles, curling iron heaters, etc., are made in the following ranges: 95-104, 105-114, 115-125, 190-209, 210-229 and 230-250. So in ordering, always specify either the exact voltage of the circuit on which the device is to be used or the voltage range of the device as indicated above. Each device has its voltage range stamped clearly on it—on its heating element and iron. If there is any doubt as to whether the particular device you are ordering will fulfill the requirements you have in mind, you had better first take the matter up with us, for we cannot exchange goods once heated.

IRONS.

Triangle Lektrik.

No. 6TE—Size 6½x3¾ in., complete with cord and plug, 525 watts, w't 6 lbs., each . . . . . **CAE** $3.50

This is the best low priced iron on the market and carries a "guaranteed forever" on the heating element. Should one burn out, the factory will replace it provided the old element and tag are sent in. Irons are nickel finished and neat and attractive in every way. Each case of six contains window posters and price cards for window display.

These cannot be included with any others to make quantity.

ONE IN A CARTON; SIX IN A CASE.

American Beauty, "V" Shape.

No. 6½BE—Size 6½x3¾ in., 525 watts, w't 6½ lbs. . . . . each **DEJ** $5.00

This iron represents the highest art of making electric flat irons. It gives the user perfect satisfaction, because plenty of heat is made and concentrated evenly on the ironing surface without wasteful loss from the top and sides of the iron. It is a beautiful looking iron, but its beauty is not "skin deep" for its service is even better than its looks. So strong and durable is this iron that its life is guaranteed forever.

ONE IN A CARTON; SIX IN A CASE.

IRONS.

Little Beauty.

No. 3BE—Size 6x3½ in., 350 watts, w't 3 lbs. . . . . each **DEJ** $5.00

This beautiful and useful little electric iron is perfect for light ironing, such as handkerchiefs and laces, and because of its light weight, it is most attractive to travelers who so often wish to do their own ironing rather than trust small, delicate and choice articles to an unknown laundry. Another useful feature of the "Little Beauty" is the curling iron stand which comes with every iron. Curling iron tongs can be slipped into the stand and heated quickly without fire, soot, odor or danger. Curling iron tongs ARE NOT included.

ONE IN A CARTON; SIX IN A CASE.

INDUSTRIAL IRONS.

No. 220E—20HB—Size 11x3¼ in., 1000 watts, w't 20 lbs.★ each **ABAE** $13.50
No. 24HBE—Heavy, size 11x3¼ in., 1000 watts, w't 24 lbs.★ each **ACJE** $14.50

THE ABOVE IRONS ARE NOT FURNISHED WITH ATTACHMENT PLUG FOR CONNECTING THROUGH SOCKET. THEY SHOULD BE WIRED DIRECT TO THE CIRCUIT AND OPERATE BY A SWITCH.

ONE IN A BOX.

TOASTERS.

American Beauty.

No. 5825E—AMERICAN, height 7 in., length 8 in., width 4 in., polished nickel, 440 watts, w't 1½ lbs., each . . . . . **CFJ** $4.00

It is light, neat and compact, and comes to you ready for immediate use by attachment to an ordinary electric lamp socket.

A snap of the switch turns on the heat. The current consumption is so small that the cost of making toast is a very slight consideration. The heat can be regulated by removing the plug. This cuts off the current.

★*FOR FACTORY SHIPMENT ONLY. ALWAYS SPECIFY VOLTAGE.* *SEE GENERAL INFORMATION AT TOP OF THIS PAGE.*

"AMERICAN BEAUTY" ELECTRIC HEATING APPLIANCES.

HOT WATER URNS.

American Beauty.

No. 4320E—2 gal., made of heavy copper, finished in nickel, double tin lining, fitted with gauge glass thermometer and tumbler warmer arrangement, 6 ft. of flexible cord and porcelain three-heat plug switch, 800 watts, w't crated 24 lbs.★ ....each **BBEJ** $25.00

No. 4325E—3 gal., 1200 watts, otherwise same as No. 4320E, w't crated 25 lbs., each★ .....**BGIJ** $31.00

No. 4330E—5 gal., 2000 watts, otherwise same as No. 4320E, w't crated 45 lbs., each★ .....**CEAJ** $39.00

The service of these urns is very desirable in bars, hotels, drug stores, restaurants and lunch rooms. They are finished in polished nickel and the temperature of the contents can be perfectly regulated, as the heaters are arranged for three heats. The maximum is used when first bringing the water to boil. The minimum, one-quarter of the maximum, is sufficient to keep the contents at the boiling point.

Each urn is furnished complete with four feet of conductor cord and three-heat regulation switch.

COFFEE URNS.

American Beauty.

No. 4420E—10 qt., 1400 watts, w't 80 lbs., each★ .....**DIEJ** $55.00

No. 4430E—14 qts., 2000 watts, w't 105 lbs.★ .....each **EDJJ** $60.00

No. 4440E—22 qts., 3200 watts, w't 115 lbs.★ .....each **GBJJ** $80.00

No. 4450E—36 qts., 4200 watts, w't 150 lbs.★ .....each **JIJJJ** $100.00

These urns are handsome in finish and design. They are made of heavy copper and finished in polished nickel. The coffee receptacles are made of stoneware. Coffee will not keep properly except in a stone or earthenware vessel. Each urn is fitted with double gauge glases, faucets and thermometers. Four feet of flexible conductor cord are furnished with each urn, together with a porcelain three-heat regulation switch.

ELECTRIC WATER HEATERS.

American Beauty.

No. 5210E—Copper, well nickeled and polished, has polished black wood handle and composition feet which prevent scratching or scorching any wood surface. 350 watts, w't 1¼ lbs., each★ . . ..**CAE** $3.50

This Electric Water Heater quickly boils a pint of water or any other liquid. Can be attached to an ordinary electric lamp socket.

It is useful and convenient. The cost of operation is almost nothing.

American Beauty.

No. 5205E—Capacity 1 pt., max. watt cons. 300, made of spun copper, finished in nickel or copper, double silver lined, ebonoid handles, and equipped with replaceable heating elements, with detachable 6 ft. silk cord, plug contacts, and separable attachment plug, without bottle, unless specially ordered, w't 2 lbs., each★ .....**DIE** $5.50

No. 5215E—Capacity 1 qt., max. watt cons. 500, w't 3 lbs.★.each **EHE** $6.50

CHAFING DISHES.

American Beauty.

No. 335E—2 pts., nickel plated, 600 max. watts, w't 16 lbs★ .each **AAEJ** $12.75

No. 345E—3 pts., nickel plated, 600 max. watts, w't 16 lbs★ .each **ACJE** $14.50

No alcohol needed. No fire risk. No need to hunt for alcohol. A snap of the switch turns on the heat—a clean, safe, odorless heat without fire.

ELECTRIC PERCOLATORS.

American Beauty.

No. 2406E—With heating element attached, nickel plated, capacity 6 cups, 350 watts, w't 3½ lbs., each **GHE** $8.75

Finished in polished nickel and comes to you complete, with cord ready for use by attaching to electric lamp socket.

Makes six full sized cups of coffee, amber clear—makes them quickly at the dining table.

"AMERICAN BEAUTY" ELECTRIC AIR HEATERS.

Portable Type.

No. 4510E—Length 20½ in., width 8¾ in., height 18 in., w't 20 lbs., 750 watts, each★ .....**AABE** $12.50

These hot plates are adapted to the cooking of griddle cakes and other cooking operations that may be done on a hot flat surface, such as heating water or other liquids in flat bottom utensils. These plates are also used in the laboratory and refining companies and in the laboratories of steel works, where they are used for heating sand baths, etc.

The surface of the plate heats to about 600 degrees F.

No. 2920 is not furnished with cord or switch as main line wires are usually brought directly to the heater. All others are furnished with 5 ft. cord and three-heat regulation plug switch.

"TRIANGLE" TOASTER STOVE.

No. 3320-E—"Triangle" Toaster, 8 in. diameter, for 100 to 120 and 220 volts, complete with cord and plug, w't each 2 lbs. .....each **BDJ** $2.65

**This is arranged so that toast can be made in the bottom part while coffee or eggs can be boiled on top.*

ONE DOZEN IN A CASE.

DISC STOVES.

Domestic Style.

Nos.	Diam. in.	Watts	W't, Lbs.		Each
3210E	4	450	2	CFJ	$4.00
3221E	5	550	2¼	DCJ	4.75
3231E	6	600	3½	DIE	5.50

This new type, domestic style, is very neat in appearance. The legs have fibre feet to prevent scratching a finished surface, and the handles enable it to be removed while hot without burning the hands. The heater is finished in polished nickel, fully equipped with detachable cord.

COMBINATION DISC STOVES.

American Beauty.

No. 3310E—Finished in polished nickel, handles polished black, diameter 6 in., 600 watts, w't 8¾ lbs., each . . . . . .**AABE** $12.50

Made in a substantial and first-class way. Has three-heat regulation—mild, medium and full, thus any desired temperature can be maintained. Any polished surface on which the disc stove may be placed will be neither scratched nor scorched. We say of this disc stove "5 in 1," because it is provided with four utensils as shown, making five distinct classes of household service it will give: heating liquids, pancake making, toasting, stewing or boiling and frying pan.

•BROILERS.

American Beauty.

No. 5608E—Broiling surface 8x10 in., end pieces cast iron, finished in nickel, japanned steel casing, detachable 6 ft. cord, plug contacts and switch, 1500 watts, w't crated 22 lbs., each★ .....**ACEJ** $15.00

The heating elements are mounted on grids, which are removable and replaceable. The bottom of the broiler is arranged so that the greases will drain and drip into a cup. It is adapted for ordinary household use, or for use in restaurants, and other places for broiling small and medium steaks.

DISC STOVES.

Industrial Style.

Nos.	Diam. in.	Max. Watt	W't Lbs.	Cons.	Each
3240E	8	1000	15	JIIJ	$11.00★
3245E	10	1400	19½	AAFJ	13.00★
3250E	12	1800	23	ACEJ	15.00★

Cords and plugs not included.

These Disc Stoves are for heavier work than the domestic type. They are used in laboratories or for industrial purposes—or for heavy work in the household or kitchen. They are larger, more heavily constructed and give off more heat.

All sizes are made with three heat regulation, and each Heater has an indicating snap switch and terminal box, detachable plug fitting into receptacle on Disc Stove, or line wires from outlet box on wall or at end of conduit can be attached to Heater at terminal box. 2541

COFFEE MACHINES.

American Beauty.

No. 2004E—Round type, capacity 4 cups, each★ .....**ABAJ** $12.50
No. 2006E—Round type, capacity 6 cups, each .....**ABEJ** $13.75

No. 2109E—Fluted type, capacity 9 cups, each★ .....**AEGE** $17.50

This is our most popular Coffee Percolator. The body of the percolating machine is made in one piece. The standard finish is polished nickel, although copper can be furnished at the same price. Each Percolator is complete and ready for immediate use. All machines, 450 watts.

★FOR FACTORY SHIPMENT ONLY. ALWAYS SPECIFY VOLTAGE. SEE GENERAL INFORMATION AT TOP OF PAGE 2539.

"AMERICAN BEAUTY" ELECTRIC HEATING APPLIANCES.

SOLDER POTS.

No. 165E—Capacity 5 lbs., cast iron, max. watt cons. 250, heat regulation 3 heats, with knife switch and binding post only, no cord or attachment plug, w't 9 lbs.★.....each **HAJ** $9.00

No. 166E—Capacity 10 lbs., max. watt cons. 450, w't 10 lbs., otherwise same as No. 165E★ .....each **AJHJ** $12.00

No 167E—Capacity 20 lbs., max. watt cons. 900, w't 16 lbs., otherwise same as No. 165E★ .....each **ADHE** $16.50

No 177E—Capacity 50 lbs., max. watt cons. 1500, w't 25 lbs., otherwise same as No 165E★ .....each **AHJJ** $20.00

The pots are intended for melting comparatively small quantities of solder, babbitt metal, lead and similar metals. They melt the metal quickly, and by means of the regulating switch it is then possible to reduce the current so that the metal is kept in a molten condition. Very substantial and durable.

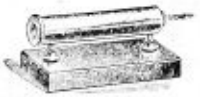
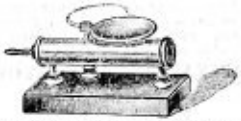
These ovens will hold sufficient food for four, five, eight or ten people, respectively.



The electric oven is practically perfect. It is made so that it heats evenly on the top, bottom and sides, always heats to the same temperature in a given length of time so that it is possible to always reproduce the same results. All ovens are arranged for three heats.

CURLING IRON HEATERS.



No. 117-E—w't 1½ lbs., each **BFJ** $2.75

Small and light, particularly adapted for travelers.

No. 111-E—w't 2½ lbs., each **BHE** $3.00

For dressing room or boudoir.

No. 115-E—w't 2½ lbs., each **CJE** $3.25

Has small removable plate for heating grease paints or cosmetics.

No. 150E—w't 3 lbs., each **CAE** $3.50

Automatic switch turns the current on and off with the insertion or removal of iron.

No. 116-E—w't 4 lbs.★ each **DEJ** $5.00

Automatic, same as No. 150E.

Fastens to walls of hotels, theatres, staterooms, sleeping cars, etc.

No. 112-E—w't 5 lbs.★ each **CFJ** $4.00

Max. Watt Cons., 90.

Above heaters finished in nickel and have marbleized slate base, 6 ft. cord and attachment plug, except No. 116E.

Regular length for all cord 6 feet, special lengths extra. All openings ⅛ in. in diameter.

DETACHABLE CORDS.

For American Beauty Irons Only.

No. 830E—Complete with No. 803E detachable plug, lamp socket attachment plug .....each **AAJ** $1.25

No. 832E—Cord only...each **FE** .70

PLUGS.

No. 803E. No. 804E.

No. 803E—Complete for "American Beauty" iron with contact sleeves and non-kink springs.....each **DJ** $0.45

No. 804-E—Complete for "Triangle Lektrik" iron with contact sleeves and non-kink spring .....each **CE** $0.40

These are of special composition which will not crack or break under severe usage.

No. 804-E—Cord and plug complete for "Triangle Lektrik" iron, each★ .....**AJJ** $1.10

WARMING PADS

American Beauty.

No. 1815E—12x13 in., max. watt cons. 60, 10 ft. cord, switch, three heat, w't 16 oz. .....each **FGE** $7.50

This is not a hot water bottle, but a pad which needs no water. Very soft and pliable. Fire risk is eliminated by our TWO new Thermostats which automatically turn off the current when the device becomes too hot and turn it on again when it has sufficiently cooled. There are three degrees of heat which can be regulated even in the dark by a simple Barrel Switch. Eider Down cover furnished. Rubber cloth cover extra.

★FOR FACTORY SHIPMENT ONLY. ALWAYS SPECIFY VOLTAGE. SEE GENERAL INFORMATION AT TOP OF PAGE 2539.

"AMERICAN BEAUTY" ELECTRIC HEATING APPLIANCES.

LUMINOUS RADIATORS.

No. 6270E.

Standard Finish of "Brushed" or Dull Brass Polished Brass, Polished Nickel or Oxidized Copper Can Be Provided, Eight Foot Cord is Supplied With Each Heater, This Cord is Detachable at the Heater and Has Lamp Socket Attachment Plug, These Finishes are For All Size Heaters. Single Lamp.

No. 6280E—Height 15½ in., width 8 in., w't 15 lbs., without lamp, each★ .....EBE $5.50

This small portable radiator provides sufficient heat to take the chill from a room or cold portion of a room. The frosted lamp which can be either 250 or 500 watt capacity is made primarily to give off heat. The polished copper reflector behind the lamp concentrates the heat in the direction desired. Attachable to any ordinary electric lamp socket.

For Lamps, see last column.

Double Lamp.

No. 6270E—Height 15½ in., width 11 in., depth 7 in., w't 20 lbs., without lamp, each★ .....EHE $5.50

The heat capacity of this type is twice as great as the one lamp heater.

For Lamps, see last column.

Triple Lamp.

No. 6020E—Height 19 in., width 18 in., depth 7½ in., w't 30 lbs., without lamp★ .....each AABE $12.50

This heater not only gives a comfortable, cheerful glow, but a large volume of heat that kills the chill of a cold room. The polished reflector behind the lamps concentrates the heat in one direction. There is no dirt, odor, flame or fire risk. Finishes and equipment are the same as described for one and two lamp types, except no lamp socket attachment plug is provided.

RADIATOR LAMPS.

No. 6001E—250 watts, 95-104, 105-114, 115-125 voltages★ ....each ABE $1.30

No. 16001E—250 watts, 190-209, 210-229, 230-250 voltages★ ....each AEJ $1.65

No. 6004E—500 watts, 95-104, 105-114, 115-125 voltages★ ....each AEJ $1.65

No. 16004E—500 watts, 190-209, 210-229, 230-250 voltages★ ....each AIJ $3.00

In ordering always specify wattage and voltage of lamps desired.

SOLDERING IRONS.

No. 3108E—Length 11 in., tip A, diam. of tip 7/16 in., 90 watts, w't 10 oz., each★ .....DEJ $5.00

For switch board work, extra long tip if desired, easily bendable.

No. 3111E—Standard telephone, length 13 in., tip A, diam. of tip 7/16 in., 95 watts, w't 15 oz.★..each DEJ $5.00

For switchboard work and small parts.

No. 3110E—For small light work, length 12 in., tip C or D, diam. of tip ¾ in., 100 watts, w't 1 lb....each DGE $5.25

For soldering small brass parts and connections.

No. 3121E—For light constant work, length 13 in., tip B, diam. of tip 17-32 in., 130 watts, w't 1½ lbs., each .....DEJ $5.00

This iron used for work where a slightly hotter and heavier iron than No. 3111E is required.

No. 3120E—For all around work, length 12 in., tip C or D, diam. of tip 1 in., 150 watts, w't 1½ lbs.,each DGE $5.25

Used by electric wiremen, lead glaziers, etc.

No. 3131E—For manufacturers' use, length 14 in., tip B, diam. of tip 11/16 in., 240 watts, w't 2 lbs.★ each EHJ $6.25

For soldering the smallest parts. The most popular iron for this class of work.

No. 3130E—Length 14 in., tip C or D, diam. of tip 1¼ in., 300 watts, w't 2½ lbs. .....each EHE $6.50

Most satisfactory iron for all around work. Not too heavy for light work.

No. 3132E—Length 14 in., tip C, diam. of tip 1 in., 270 watts, w't 3 lbs., each★ .....EHE $6.50

Attachment plugs are not furnished with soldering irons because most of them are attached to the main circuit.

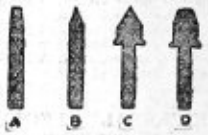
GLUE POTS.

No. 141E—Capacity 1 qt., cast iron, max. watt cons. 500, heat regulation 3 heats, complete with 6 ft. cord, 3 heat porcelain plug switch, shipping w't 18 lbs., each★ .....AJCE $11.50

No. 143E—Capacity 2 qts., max. watt cons. 650, shipping w't 25 lbs., otherwise same as No. 141E, each★ .....AAGJ $13.00

No. 145E—Capacity 4 qts., max. watt cons. 1000, shipping w't 60 lbs., otherwise same as No. 141E,★ each .....AFBE $18.00

The "American" Electric Glue Pot is a most efficient article for use in a wood working establishment, paper box factory or in any place where glue is used.



Are made of cast-iron, are substantially built and will stand almost any amount of abuse. Ordinarily they will last a lifetime.

All of our glue pots are built with a water jacket, the glue being heated by the hot water. The heating element is attached directly to the water vessel, thus insuring efficiency and durability. The outer castings completely enclose and protect the element.

All pots are arranged with three heat regulation. The minimum heat, one-quarter of the maximum, is sufficient to keep the glue at the right consistency.

All glue pots furnished complete with six feet of flexible conductor cord and porcelain three-heat plug switch.

COPPER TIPS.

No. 3110E—A shape, 4 oz., each★ .....EE $0.60

No. 31100E—C or D shape, 4½ oz., each★ .....JIJ 1.00

No. 31210E—B shape, 5½ oz., each .....EE .60

No. 31200E—C or D shape, 8 oz., each★ .....JIJ 1.00

No. 31310E—B shape, 10 oz., each .....FE .70

No. 31300—C or D shape, 14 oz., each★ .....ADJ 1.50

NOTE—A or B tips should not be used on irons designed for C or D tips and vice versa. An A tip can be changed into a B tip or a D tip into a C tip, by merely filing it down.

★*FOR FACTORY SHIPMENT ONLY. ALWAYS SPECIFY VOLTAGE.* *SEE GENERAL INFORMATION AT TOP OF PAGE 2539.*

"UNIVERSAL" ELECTRIC HOME NEEDS.

"Universal" Electric Household Specialties have been subjected to the most rigid competitive tests and will produce certain results with less current consumption and therefore more economically than any device of like nature on the market.

SAFETY SERVICE.

These appliances are equipped with the "Universal" Safety Device which automatically melts, breaking the circuit when through lack of water the appliance becomes over-heated. Any danger of fire, destroyed appliances or burnt out heating elements is thus eliminated.

The "Universal" pumping process is due to an exclusive and patented feature which pumps the water over the coffee long before the boiling point is reached and circulates the water six to ten times more rapidly than any other method. This insures sweet, perfect coffee free from all bitterness.

The heating arrangement of this and other "Universal" devices carries the heat from BOTH sides of the coil to the exact points where heat is required.

A glass top and a metal foot do not always mean "Universal," other manufacturers have copied these characteristics.

"UNIVERSAL" ELECTRIC COFFEE PERCOLATING MACHINES.

No. 1920E—Copper ..each **ABFJ** $15.00
No. 2920E—Nickel plated, each .....**ABFJ** 15.00
CAPACITY 3 PINTS.

All the heat is applied just where it is needed. Two degrees of heat, one for quickly reaching the boiling point, the other for keeping food warm.

ALL "UNIVERSAL" DEVICES ON THIS PAGE ARE MADE OF COPPER AND FITTED WITH EBONWOOD HANDLES. VOLTAGE DESIRED MUST BE SPECIFIED IN ORDERING.

"UNIVERSAL" ELECTRIC HOME NEEDS.

"UNIVERSAL" ELECTRIC SAMOVARS.

No. 1934E—Plain.

No. 1934E—Copper .....each **GCE** $8.75
No. 2934E—Nickel plated,
each . . . . . **GCE** 8.75
CAPACITY 1½ PINTS OR 4 CUPS.

No. 1936E—Copper ....each **HBJ** $9.75
No. 2936E—Nickel plated,
each . . . . . **HBJ** 9.75
CAPACITY 3 PINTS OR 6 CUPS.

No. 19344E—Colonial.

No. 19344E—Copper ..each **JHHJ** $10.50
No. 29344E—Nickel plated,
each . . . . . **JHHJ** 10.50
CAPACITY 1½ PINTS OR 4 CUPS.

No. 19346E—Copper ..each **JIFE** $11.50
No. 29346E—Nickel plated,
each . . . . . **JIFE** 11.50
CAPACITY 3 PINTS OR 6 CUPS.

The idea of the Samovar is imported from Russia. The Samovar embodies the tea-ball principle and has a faucet through which the liquid is drawn. Most convenient for afternoon teas.

Tea made in a "Universal" is free from injurious Tannin as the tea leaves do not remain long enough in the liquid for it to escape. "Universal" made tea is always uniform, pleasant and free from that bitter taste.

"UNIVERSAL" TOASTERS.

No. 2941E—Nickel plated,
each . . . . . **CCE** $4.00

The finished toast can be kept warm on top while other slices are browning. Mounted on 4 small wheels. For more handy and economical than a kitchen fire, costs but one cent to brown enough toast for 6 persons.

The Heating Elements, wound with highest grade Nichrome wire, have original double contact connections securely anchored to prevent pulling out, and when used in accordance with directions, are WARRANTED FOR FIVE YEARS. Swivel plug and flexible connecting cable, 6 ft. long. Patented triangular terminal with triple contact points and spring grip at both ends, which insures positive connection.

"UNIVERSAL" ELECTRIC GRILL.

No. 981-E—Nickel plated, size of grill 4¼x8 in., heating surface 7⅝x4½ in., depth frying pan 1¼ in., boiling pan 2 in., griddle ¼ in., w' each 6 lbs., each . . . . . **DBJ** $5.00

Furnished complete with 6 ft. flexible silk cord, and indestructible plug.

Boils, fries, toasts and stews. The heating element is carried closer to the ends than in any similar device, hence a more even spread of heat than in any other grills. Burned linen and scorched tables cannot result through the failure to set a tray under the grill before applying the current.

"UNIVERSAL" THERMO-CELL SAD IRONS.

No. 2901E—Nickel plated, Hubbell Socket Plug, steel stand, w't each 6 lbs. . . . . each **CCE** $4.00

Electric Unit concealed within iron and heat applied at the point where most irons cool fastest. Iron becomes hot in several minutes.

"UNIVERSAL" ELECTRIC STOVE.

No. 996E—Diam. 6 in., extra long handle . . . . . each **EJE** $4.50

The "Universal" Electric stove is most convenient for cooking light meals at the table; for heating water, milk or broths quickly in the nursery, bedroom or sickroom; for candy making or after-theatre suppers.

"UNIVERSAL" ELECTRIC HOT WATER KETTLES.

No. 1971E—Plain.

No. 1971E—Copper ....each **GEE** $9.00
No. 2971E—Nickel plated,
each . . . . . **GEE** 9.00
CAPACITY 2½ PINTS.

No. 1974E—Colonial.

No. 1974E—Copper ..each **JHDJ** $10.00
No. 2974E—Nickel plated,
each . . . . . **JHDJ** 10.00
CAPACITY 3 PINTS.

No. 1975E—Copper ....each **FGJ** $8.00
No. 2975E—Nickel plated,
each . . . . . **FGJ** 8.00
CAPACITY 2½ PINTS.

No. 1976E—Copper .....each **EIJ** $7.00
No. 2976E—Nickel plated,
each . . . . . **EIJ** 7.00
CAPACITY 2½ PINTS.

ALL "UNIVERSAL" FOOD PREPARING DEVICES ON THIS PAGE ARE MADE OF COPPER AND FITTED WITH IRONWOOD HANDLES. VOLTAGE DESIRED MUST BE SPECIFIED IN ORDERING.

ELECTRICAL VIBRATORS, HAIR DRYERS AND MEDICAL APPARATUS.

ELECTRIC VIBRATORS.

No. 19-E.

Leather Covered Plush Lined Case, Leather Handle, Nickel Plated Trimmings, Vibrator Handsomely Finished in Black Enamel, 5 Applicators, Cup, Ball, Hard Toothed Soft Toothed and Spinal.

No. 19-E—9¼x8¾x4¼ in. case, for direct or alternating circuits, operates on direct currents of from 100 to 120 volts and on alternating currents of 60 cycles, 100 to 120 volts, complete with 6 ft. of flexible conducting cord, separate attachment plug—will fit any ordinary socket, each .....ADDJ $25.00

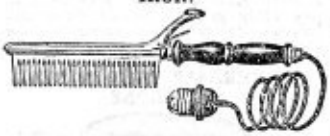
A switch in the lower part of the handle, under immediate control of the operator, turns the current on or off at will. Practically noiseless and with a minimum of vibration in the handle. Always specify voltage wanted.

No. 18-E—9½x8x12 in. case, containing six dry cells, connected to a socket plate having 4 holes which are so arranged that 4, 5 or 6 cells can be connected in circuit as desired, to operate by battery power only, each .....ADDJ $25.00

No. 2E—Standard, has 1-20 H. P. motor, three speeds, which control switch, aluminum finish, black handle, for either direct or alternating current, 100 to 120 volts, 60 cycles, plug, cord and one set of applicators, w't 1½ lbs., each .....ABFJ $22.00

The Standard is very powerful and is recommended for home, barber shop or massage parlor work. All parts carefully packed with graphite and helmet oil, will run a year without oiling.

ONE IN A NEAT LEATHERETTE CASE.

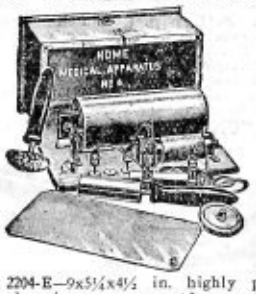


HAIR DRYER.

No. 22E—Standard, black finish, switch for regulating hot and cold air, will operate either direct or alternating current 100 to 120 volts, 60 cycles, w't each 2 lbs., complete each .....ABFJ $22.00

PACKED IN LEATHERETTE CASE.

ELECTRIC COMB AND CURLING IRON.



No. 552-E—Combination Iron and Comb, each .....CBJ $4.50
No. 542-E—Comb only..each BHJ 3.75
No. 532-E—Curling iron only, each .....BHJ 3.50

To use the curling iron, simply remove the comb—makes beautiful lasting waves and curls. It is not necessary to remove the shield from the iron when using it as a comb.

Made for voltages 100 to 125 only.

HOME MEDICAL APPARATUS.

No. 2204-E—9x5¼x4½ in. highly polished mahogany case, strong metal, nickel plated handle, two four-foot conducting cords, with tips, two cylinder hand electrodes, two insulating handles, for use with either hand or sponge electrodes, two sponge electrodes, one foot plate electrode, w't 5½ lbs. .....each DCJ $8.00

Case opens at lower compartment showing entire apparatus, with battery, coil and electrodes complete.

APOLLO MEDICAL APPARATUS.

No. 2233-E—8x9x7¼ in. quarter oak highly polished case, heavy nickel plated trimmings and handle, two dry cells, one nickel plated foot plate electrode, two sponge electrodes, one massage roller electrode, one hair brush electrode, two nickel plated hand electrodes, two enameled electrode handles, two silk covered conducting cords, w't 10 lbs., each .....JGIJ $14.40

HOUSEHOLD MEDICAL APPARATUS.

No. 2215-E—7½x5¼x3½ in. polished quarter oak case, two metallic hand electrodes, one improved sponge electrode, one nickel plated foot plate, one electrode handle for sponge or hand electrode, one pair silk conducting cords, with tips, w't 4 lbs., each .....BGJ $5.00

The armature and vibrating parts are an entirely new design and so arranged that perfect adjustment is always maintained. The frame for holding the adjustable contact screw and armature is made from one piece of metal and is securely fastened to the base holding the coil and to the end of the induction coil, thus insuring permanence of position for all the parts.

VACUUM CLEANERS.

ELECTRIC POWER.

Model D.

No. 322-E REVOLVO—With 12 in. nozzle, for direct or alternating current, has ⅛ horse power universal type motor, 110 to 125 volts, 60 cycles, operates by patent switch, with wood piston grip handle, three permanent rollers on the machine and two on the rotary brush, brush easily removed by pressing to the right, height 6⅝ in., w't each 9 lbs. .....each **BEBJ** $30.00

ONE IN A CARTON.

ELECTRIC POWER.

No. 324-E—"Reliable," with 10 in. nozzle, for direct or alternating current, has 1-9 horse power universal type motor, 100 to 125 volts, 60 cycles, to operate by special switch, with straight wood grip handle, has three permanent rollers to allow machine to run easily over carpet, has a straight brush for picking up lint, height 6⅝ in., w't each 8 lbs., each .....**AFHJ** $19.95

REVOLVO HAND POWER.

No. 321E—Wood top, mahogany finish, hand power cleaner, with brush attachment, height of box 9 in., w't 13 lbs. .....each **JGBJ** $11.50

Brush attachment can be removed from cleaner without impairing its use as a vacuum cleaner. May be used with or without the brush attachment as a vacuum cleaner, with the brush attachment as a combination vacuum cleaner and sweeping machine.

The valves are controlled by a spring clip which keeps them in position at all times and preserves the efficiency of the bellows, so that it is not necessary for the air to bring the valve back to the seating.

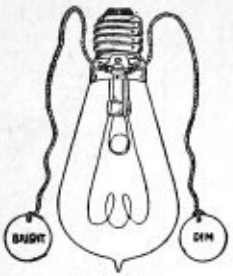
This is accomplished by the small springs.

A three-way crank shaft connected to the bellows is an advantage over most cleaners inasfar as they connect two of the bellows directly with the wheel and one with the crank shaft. The advantage is this—should any breakage occur to the wheel, it would not be necessary to return the entire machine for repairs.

All of the materials entering into the construction of the machine are of the very best that can be purchased.

Always state voltage wanted, and number of cycles, if for alternating current.

PRICES AND DATA ON LARGER CLEANERS; ALSO THE ABOVE FOR 220 VOLT CURRENT FURNISHED ON APPLICATION.



MAIL ORDER DEPARTMENT

Our constant attention in sixty years of business has been given to the perfection of the system of handling mail orders. Our object has always been to handle them with the greatest possible speed, with the result that we are enabled, in most cases, to ship mail orders the same day they are received.

A Medium Screw.
B Mogul Screw Skirted Base.
**The 15 and 25 watt 105 to 125 volt round bulb Mazda lamps are regularly supplied in the G25 bulb. These lamps can be supplied in G18½ (Standard Package Quantity 100) at $0.50 clear and $0.53 frosted, but the 25 watt G18½ bulb lamp is not recommended.*
†Will not exceed 7 inches diameter and 13½ inches in length.
Mogul Screw Skirted Base (Style 400) regularly supplied and recommended. Medium Screw Skirted Base (Style 100) can be supplied at same price, but is not recommended.
Standard package discounts on all large style Mazda lamps can be given only on orders for exact standard package quantities or multiples thereof. It is allowable, however, to combine in one standard package all sizes of large style Mazda lamps having the same standard package quantity. Such lamps may be of different voltages and finish of bulb.

MAZDA AUTOMOBILE LAMPS.

The round lamps designated in the following table as "Automobile Headlight," "Automobile Sidelight" and "Automobile Tail-light," respectively, have been designated with stocky, strongly mounted filaments in order to withstand the shocks and jars incidental to automobile service. They are used in connection with storage cells not only on electric vehicles, but on automobiles in general, independent of the source of motive power. It is recommended that a voltage of 6—the approximate potential of three cells in series—be adhered to when installing automobile lamps.

DESK AND BRACKET FANS.

Following description applies to "JANDUS" Fans only.
Finish—The brass blades and guards are highly polished and lacquered. Base and other parts all finished in black enamel.
Construction—Stamped steel enclosing shells, cast base, can be adjusted to any angle desired, either for a bracket or desk fan.
Speeds—Has four point switch for three speeds, namely, slow, medium and fast, ranging from 900 to 1500 revolutions per minute.
Equipment—Cord and plug attachments not included, for 6 ft. cord and attachment plug add 50 cents net.

"CARLETON."

No. 400E—8 in., desk fan for either direct current, 100 to 120 volts, or alternating current, 100 to 120 volts, 60 cycles, three speeds, enameled base and standard, nickel guard and blades, complete with 6 ft. cord and plug, w't each 5 lbs. .....each **HFE** $9.50

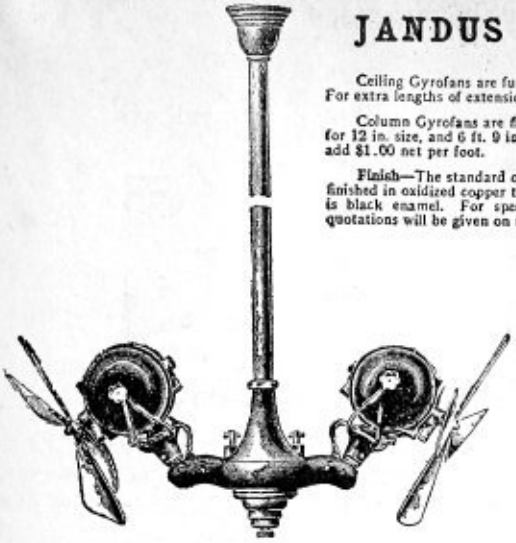
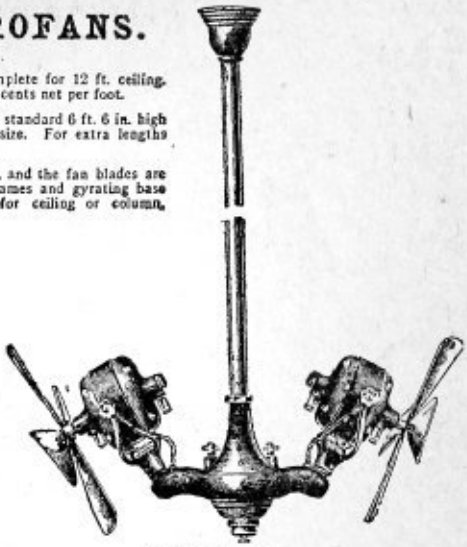
Jandus oscillating fan can be used either as a desk or bracket fan without the use of an adaptor.

They are designed to move from side to side through a desired angle, thus distributing the air over a larger area than with a stationary fan.



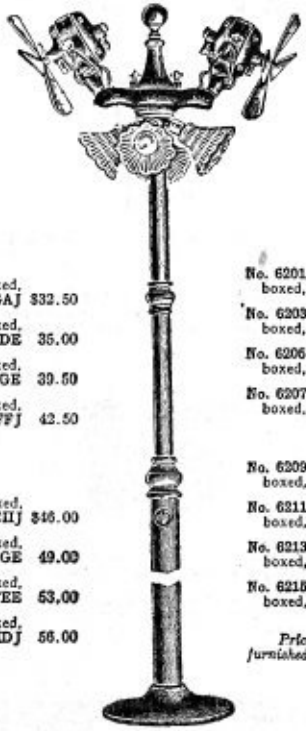
Prices furnished on application for 25 cycle fans. Cannot supply 40 or 133 cycle alternating current fans.

JANDUS GYROFANS.



Ceiling Gyrofans are furnished complete for 12 ft. ceiling. For extra lengths of extensions, add 50 cents net per foot.

Column Gyrofans are fitted with a standard 6 ft. 6 in. high for 12 in. size, and 6 ft. 9 in. for 15 in size. For extra lengths add $1.00 net per foot.



Finish—The standard or extension, and the fan blades are finished in oxidized copper the motor frames and gyrating base is black enamel. For special finish for ceiling or column, quotations will be given on request.

Prices for 100 to 120, 200-240 volts, 25 cycle alternating fans furnished on application.

Cannot supply 40 or 133 cycle alternating current fans.

The Gyrofan is a ceiling or column fan and is so constructed that it sets in motion the entire atmosphere and maintains a constant circulation of cool pure air, its popularity is on account of its comparatively low wattage consumption. Being adapted for service in almost every location along with its beauty in design, we believe it will meet with instant favor.

DUNCAN METERS AND TRANSFORMERS.

★*FOR FACTORY SHIPMENT ONLY, F. O. B. LAFAYETTE, IND.*

DIRECT CURRENT WATT HOUR METERS.

The new Duncan high torque direct current integrating watt hour meter represents the very latest in the meter art.

All of its parts are formed from heavy sheet brass under enormous pressure, so that each one is absolutely interchangeable, and no dimension varies as much as one thousandth of an inch.

No castings whatever are used, therefore, its appearance is everything that can be desired.

1016-E	100	3115	1025.00

1100-2200 Volts Primary, 110-220 Volts or 220-440 Volts Secondary. 60 Cycles. Prices include Primary Cut-outs, Hangers and Oil.

Type B Transformers are well insulated throughout. The coils and core have large oil ducts between them which allow the oil to circulate freely thereby enabling the transformer to operate at a uniform temperature throughout. The core and copper losses are exceedingly low, hence the efficiencies are high.

Transformers are used on alternating current circuits only. They are used to reduce the high voltage of the line wires to low voltage for safety in inside lighting and motor work.

RECTANGULAR UNILETS.

With Female Nipples.

Where it is preferred to have the conduit threaded into the outlet fitting, we recommend rectangular unilets, which are of the same dimensions and types as no-thread rectangular boxes, but are provided with a female nipple swedged into the box in the same manner as used on stamped steel unilets.

These drawn steel fittings are the ideal outlet for exposed conduit work, no breakage, perfect threads, exact alignment, light weight, plenty of room to make and tape all joints.

Body of box 3⅞ in. long, 1⅞ in. deep, 1¼ in. wide.

TELEPHONES.

COMPACT.

"REV-O-NOC."

No. 7308E—3 bar series, 80 ohm ringer, each ..... JIAJ $17.50
No. 7410E—4 bar bridging, 1000 ohm ringer ..... each AJGE 23.00
No. 7510E—5 bar bridging, 1000 ohm ringer ..... each AAEE 24.50
No. 7516E—5 bar bridging, 1600 ohm ringer ..... each AAHE 25.00
No. 7520E—5 bar bridging, 2000 ohm ringer ..... each ABAJ 26.00

All Rev-o-noc Bridging telephones are equipped with patented SECRET SERVICE generators, by means of which calls are made secretly on either grounded or metallic lines. A backward turn of the generator crank throws the switchboard drop but does not ring the bells of the subscribers upon the line. A forward turn signals the subscribers in the usual manner. No push buttons or relays are necessary; can be used on any line, in conjunction with all other makes of instruments now installed, and without making any change in the present service.

Cabinets are quarter-sawed oak, highly polished, are furnished with adjustable ringer movements, No. 20E long distance solid back transmitter, No. 33E receiver with concealed cord connection, induction coil, automatic switch hook, lightning arrester and two dry batteries.

Telephones equipped with condensers 75 cents extra net.

BATTERY CALL.

No. 6E—DUPLEX, metal case, with 2 ajax batteries complete and ready to install ..... each BGE $6.00

If run outside No. 802E is recommended. Where both phones are in the same building, No. 618E annunciator wire is desirable.

New type of battery-call telephone. This instrument is made up in a stamped metal case, highly finished in black. A new transmitter and hook of very high-class design have been added. This instrument, being a battery-call telephone, is not generally used for over 500 to 1,000 feet, as it is, of course, not possible to ring a battery bell over a longer line. While this telephone is sold at a very low price, it is unusually high grade throughout. It is designed particularly for two line use, that is between house and barn, offices in public buildings, etc.

STANDARD STYLE.

"REV-O-NOC."
Wide Battery Box Style.

No. 8308E [illegible]—3 bar series, 80 ohm ringer ..... each JIBJ $17.50
No. 8410E [illegible]—4 bar bridging, 1000 ohm ringer ..... each AACJ 23.00
No. 8510E [illegible]—5 bar bridging, 1000 ohm ringer ..... each ABJE 24.50
No. 8516E [illegible]—5 bar bridging, 1600 ohm ringer ..... each ABDJ 25.00
No. 8520E [illegible]—5 bar bridging, 2000 ohm ringer ..... each ABDE 26.00

These cabinets are quarter-sawed oak highly polished, and equipped with powerful secret service generator for ringing long lines, adjustable ringer movement, No. 20E long distance solid back transmitter, No. 33E receiver, with concealed cord connection, induction coil, automatic switch hook, lightning arrester, two dry batteries. Wet batteries can be used if desired.

Telephones equipped with condensers 75 cents extra net.

DESK SETS.

"REV-O-NOC."

No. 113E [illegible]—3 bar series generator, 80 ohm ringer, mounted in same box, each ..... AJDE $22.00
No. 114E [illegible]—4 bar bridging generator, 1600 ohm ringer, mounted in same box ..... each AACJ 24.00
No. 115E [illegible]—5 bar bridging generator, 1600 ohm ringer, mounted in separate boxes ..... each ABDE 26.00

These desk sets have rubber grip, cast brass parts, nickel plated removable bottom plates, leather cushion, induction coil and terminal block, mounted in base. Price is for the set complete, including telephone, generator, ringer, terminal block, batteries and diagram of connection.

INTER-COMMUNICATING.

No. 6401E— 5 button ..... each JGHJ $11.80
No. 6402E— 8 button ..... " JHBE 12.50
No. 6403E—12 button ..... " JHIJ 13.50

Some of our trade prefer the standard type of receiver and long distance transmitter. This telephone is so equipped and is the highest grade of instrument possible to produce for "Multifone" service.

No. 6603E—4 stations, with call buttons in base ..... each ABEE $19.00
No. 6604E—8 stations, with call buttons in base ..... each ADBJ 21.50
No. 6606E—12 stations, with call buttons in base ..... each AEHE 24.00
No. 1060E—Choke coil ..... " JFE 1.00

One choke coil is required for every system.

The inter-communicating are wired for central battery common talking circuit, all stations being connected to one pair of talking wires, but having call buttons on each telephone to the number required to call other stations without a central.

These telephones are superior in point of design, finish, accessibility for connecting up, durability and efficiency to any line of apparatus for a similar system ever produced.

Cables for installing these telephones can be furnished at not to exceed $9.00 per hundred feet, nine cells of dry battery will operate any size system complete, wiring diagram furnished with every outfit. Prices do not include cable or batteries.

For system larger than eight stations ask for proposition.

TELEPHONE PARTS.

RECEIVERS.

It is perfect in design. Tungsten steel magnets. The coils are wound with silk covered wire and cords so attached that by careless handling or dropping they do not break loose from terminals.

No. 33-E REVERSIC—With concealed cord, each .....JIJ $1.80

No. 164-E.

No. 133-E.

No. 164-E—Watch case, double pole, solid rubber shell ....each **JHE** $2.50

No. 133-E—Operators', complete with leather covered band and watch case receivers .....each **AHE** $4.00

TRANSMITTERS.

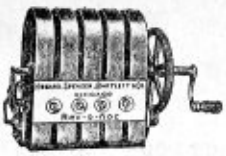
No. 20-E REVERSIC—Solid back, each .....**AEE** $3.00

In general workmanship and finish, this transmitter represents the highest development of the art of transmitter construction.

Every part is made of the very best materials procurable and constructed on strictly scientific and mechanical principals.

TELEPHONE MOUTH PIECES.

No. 613-E—Male thread, each **AG** $0.25



TESTING SETS.

No. 423-E—4 bar generator, watch case receiver, in oak case 7½x6x8 in., without batteries, w't 12 lbs., each .....**AAJ J** $24.00

Used in locating trouble on either a series or bridging line.

GENERATORS.

No. 53-E REVERSIC—3 bar series, each★ .....**BBJ** $3.80

No. 54-E REVERSIC—4 bar bridging, each★ .....**BHE** 5.50

No. 55-E REVERSIC—5 bar bridging, each★ .....**CDJ** 7.00

Our generators are made in all the standard sizes, 3 bar for series work, 4 and 5 bar for bridging work.

Both the series and bridging generators are of the same type and are built to stand hard and constant usage.

RINGER MOVEMENTS.

No. 608-E—80 ohms series ringer, each★ .....**AJJ** $2.00

No. 610-E—1000 ohms bridging ringer, each★ .....**ABJ** $3.00

No. 616-E—1600 ohm bridging ringer, each★ .....**AFE** $4.00

No. 620-E—2000 ohm bridging ringer, each★ .....**AGE** $5.00

Gongs not included.

RECEIVER CORDS.

No. 47-E—36 in. worsted, tips both ends, each .....**AE** $0.40

No. 48-E—36 in., worsted, tips one end, slips on other end.....each **AE** $0.40

No. 49-E—36 in. green silk, tips both ends .....each **BB** $0.60

No. 47-E is most commonly used.

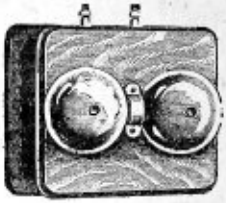
TELEPHONE CONDENSERS.

No. 301-E.

No. 303-E.

Cresco Ring-Thru.

No. 301-E—Consists of a ½ M. F. condenser mounted in a handsome black enameled iron case with two binding posts on front for connecting receiver cords, a cord fitted with tips comes out of the side which connects to the binding posts on the telephone, each .....**JHE** $1.50



Very simple to install and guaranteed to make party lines talk up regardless of the number of receivers off the hooks, enabling you to call central past all of them.

No. 300-E—Fitted with wires instead of cords, designed for use on wide back telephones where the receiver cord binding posts are situated on lower edge of bell box, can also be used on side of telephones, otherwise same as No. 301-E .....each **JHE** $1.50

The condenser may be fastened either to the wall beside the telephone, or upon the telephone cabinet itself. Takes up very little room, measuring only 2¼x 3⅛x3½ inches.

All that is necessary is to loosen the receiver cords from the instrument and connect them to the binding posts on the face of the condenser. After this is done, connect the cord or wire running from the condenser to the receiver cord connections of the telephone; in other words, put the condenser cord where the receiver cord was formerly, and put the receiver cord in the binding posts on the condenser.

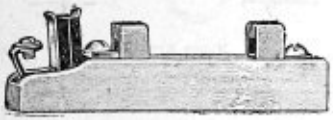
EXTENSION BELLS.

No. 318-E—80 ohm series, each .....**AFE** $3.50

No. 319-E—1000 ohm bridging, each .....**BAJ** 4.00

No. 320-E—1600 ohm bridging, each .....**BBJ** 5.00

No. 321-E—2000 ohm bridging, each .....**BCE** 6.00



These bells are used in connection with telephones, enabling one to get the signal of the regular telephone when at a distance. Should be same resistance as telephone to be used with.

LIGHTNING ARRESTERS, PROTECTORS, FUSES AND BRACKETS.

TELEPHONE LIGHTNING ARRESTERS.

No. 57-E—10¾ in., forged steel, full polished, five round holes, for Nos. 6, 8, 10, 12 and 14 iron wire and Nos. 4, 6, 8, 10 and 12 copper wire, w't 1 lb., each .....**ABE** $1.42

Combination Wire and Sleeve.

No. 59-E—9-E—10½ in., forged steel, full polished, five holes for Nos. 6, 8, 10, 12 and 14 iron wire, Nos. 4, 6, 8, 10 and 12 copper wire, and Nos. 8, 10, 12 and 14 sleeves, w't 1 lb., each **ADJ** $1.75

HAVEN'S WIRE CLAMPS.

No. 368-E—Gun metal finish, for No. 8 wire and finer, w't 1 lb., each .....**AEE** $2.00

No. 369-E—Gun metal finish, for ½ in. wire and finer, w't 2½ lbs., each .....**BFE** $3.35

A very efficient clamp for all around work.

ECCENTRIC CLAMPS.

Without Straps.

No. 130-E—Steel, for No. 8 wire and finer, w't 1 lb. .....each **JHE** $1.60

No. 131-E—Strap for above, each .....**AJJ** 1.65

COME ALONGS.

No. 126-E—Malleable iron, for No. 6 wire and finer, w't 1 lb., each .....**JDE** $1.20

No. 128-E—Malleable iron, for No. 0 wire and finer, w't 2¼ lbs., each .....**JGE** $2.50

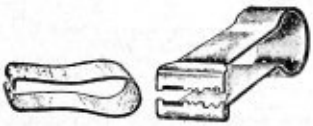
It grips and holds and is most convenient to handle.

BUFFALO GRIPS.

Without Pulley.

No. 571-E—Extreme opening 0.22 in., for No. 6 wire and finer, w't 3 lbs., each .....**BBJ** $4.25

No. 572-E—Extreme opening 0.35 in., for No. 0 wire and finer, w't 3 lbs., each .....**CEJ** $6.80



With Pulley.

No. 671-E—For rope ⅜ in., w't 3½ lbs., each .....**BFJ** $5.10

No. 672-E—For rope $\frac{7}{16}$ in., w't 3½ lbs., each .....**CIJ** $7.65

WIRE PEELERS.

No. 1414-E. No. 1415-E.

No. 1414-E—Perry, plain, each **CF** $0.60

No. 1415-E—P. & G. wire skinner, each .....**JIJ** $1.05

Used for removing the insulation from wire.

LAG SCREW WRENCHES.

No. 214-E—12 in., polished handle, for ⅜ and ⅝ in. lag screws, w't 1 lb., each .....**JIE** $1.60

No. 326-E—Combination for ⅜, ½ and and ⅝ in. lag screws and bolts, w't ¾ lbs. .....each **AEJ** $2.50

SPLICING WRENCHES.

No. 321-E—7 in., steel, full polished, for Nos. 4 and 6 iron wire or 2 and 4 copper wire .....each **AJJ** $1.70

No. 322-E—7 in., steel, full polished, for Nos. 8 and 9 iron wire or 6 and 8 copper wire .....each **AJJ** $1.70

No. 323-E—7 in., seel, full polished, for Nos. 10 and 12 iron wire or 8 and 10 copper wire .....each **AJJ** $1.70

GALVANIZED PULLEY BLOCKS.

No. 350-E—2¼ in., malleable iron galvanized, wih eccentric grips, for ⅜ in. rope, without rope, w't per pr. 2 lbs., per pair .....**BDJ** $4.00

Rope extra. State kind, size and length wanted.

ANTI-HUMMS.

No. 1447-E—Galvanized...each **BJ** $0.25

Will eliminate the humming noises of telephone lines.

MAGNET WINDERS.

No. 600-E—Complete ..each **CDJ** $7.00

Handy tool in every telephone exchange for rewinding ringer and induction coils.

TELEPHONE CONSTRUCTION MATERIAL.

LINEMEN'S TOOL BAGS.

No. 38-E—18 in., canvas, with leather bottom, steel frames, billets, buckle pieces and handles are of leather, riveted to frames, one inside pocket, w't per doz., 39 lbs., per dozen .....BIGJ $36.00

No. 39-E—20 in., w't per doz. 42 lbs., otherwise same as No. 38-E, per dozen .....CBDJ $37.00

ELECTRICIANS' TOOL BAGS.

No. 42-E—18 in. long, 7 in. wide, 8 in. high, heavy russet grain leather, with shoulder strap and pad connected to bag by plated snaps and rings which can be detached in an instant, two small straps to buckle on side, per dozen .....DCBJ $50.00

No. 43-E—20 in. long, 7 in. wide, 9 in. high, otherwise same as No. 42-E, per dozen .....DEHJ $52.00

ONE DOZEN IN A BUNDLE.

TOOL BELTS.

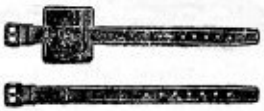
No. 350-E—With rings for attaching safety straps, length over all 42 in., width 2¼ in., w't 1½ lbs., each .....ABJ $2.20

No. 352-E—Length over all 42 in., width 2½ in., with safety straps, 6 ft. x 1¼ in., w't 3½ lbs., each BGE $4.50

POLE CLIMBERS.

Eastern Pattern.

No. 1110-E—15	in., per pair	ADE	$3.60
No. 1111-E—15½	in., per pair	ADE	3.60
No. 1112-E—16	in., per pair	ADE	3.60
No. 1113-E—16½	in., per pair	ADE	3.60
No. 1114-E—17	in., per pair	ADE	3.60
No. 1115-E—17½	in., per pair	ADE	3.60
No. 1116-E—18	in., per pair	ADE	3.60



Above climbers are made of best forged steel. Prices do not include straps.

KLEIN'S EASTERN CLIMBERS.

No. 382-E—15	in., per pair	BDJ	$4.00
No. 383-E—15½	in., per pair	BDJ	4.00
No. 384-E—16	in., per pair	BDJ	4.00
No. 385-E—16½	in., per pair	BDJ	4.00
No. 386-E—17	in., per pair	BDJ	4.00
No. 387-E—17½	in., per pair	BDJ	4.00
No. 388-E—18	in., per pair	BDJ	4.00

Straps are not included. These have pinched strap holes.

POLE CLIMBER STRAPS.

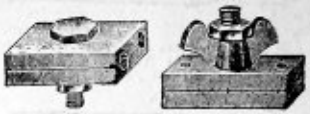
No. 111-E—For Eastern climbers, w't per set 1 lb. .....per set JIE $1.50

A set consists of two upper straps, with 4x4 in. plain leather pads and two lower straps without pads.

MARLIN CABLE HANGERS.

CJ%.

Size.	Length of Loop Inches.	Weight per 1000 Lbs.	Price per 1000
25 pair	9	35	$ 8.60
50 pair	11	37	10.50
75 pair	12	38	11.00
100 pair	14	40	11.75
150 pair	15	42	12.25
200 pair	16	45	12.75



All above sizes equipped with No. 9 hooks and three ply houseline.

No. 6 Regalvanized hooks furnished on this grade at a net advance of 80 cents per thousand.

These hangers are made in accordance to the A. T. & T. Co.'s specification, and we guarantee them to comply with those specifications in every respect.

All sizes are made of three strand Houseline. This Houseline is the best that we are able to obtain from cordage manufacturers. It is made from double dressed American hemp, long line, selected material, thoroughly tarred. The fibers in this material are very long and coarse, giving it the strength and durability found in no other Houseline.

TEST CONNECTORS.

No. 255-E. No. 256-E.

No. 255-E—705-E—Copper, each .....JH $0.24

No. 256-E—706-E—Copper, each .....AA .33

A very strong, durable connector easily adjusted with thumb nut and screw.

WIRE CONNECTORS.

No. 200-E—For Nos. 12 and 14 wire, each .....JD $0.05

ONE HUNDRED IN A STANDARD PACKAGE.

No. 1001-E—Copper, for No. 10 wire, per hundred .....BDJ $4.00

No. 1002-E—Copper, for No. 12 wire, per hundred .....BDJ $4.00

No. 1003-E—Copper, for No. 14 wire, per hundred .....BAJ $3.50

No. 1104-E—Iron, for No. 10 wire, per hundred .....BAJ $3.50

No. 1105-E—Iron, for No. 12 wire, per hundred .....BAJ $3.50

No. 1106-E—Iron, for No. 14 wire, per hundred .....BAJ $3.50

These are made so the strain is longitudinal and not vertical.

TELEPHONE CONSTRUCTION MATERIAL.

D. & T. GUY ANCHORS.

No. 1E—One 8x2½ in. blade, ¾ in. x5 ft. shaft, w't 7 lbs., each ..... **ABJ** $2.00

No. 2E—Two 11x2½ in. blades, ⅞ in. x5 ft. shaft, w't 10 lbs., each ..... **AEJ** $2.50

No. 3E—One 12x3½ in. blade, ⅞ in. x 6 ft. shaft, w't 15 lbs., each ..... **AHJ** $3.00

We recommend No. 1 E. D. & T. anchors for strains requiring No. 6 guy wire or ¼ in. single strand, No. 2 E. D. & T. anchors for two No. 6 guy wires twisted or 5/16 in. single strand, No. 3 E. D. & T. anchors for ¾ in. single strand, and for heavier strains two No. 3 E. D. & T. anchors installed separately and driven five feet apart.

The anchor is driven into the ground the desired depth with sledge or maul. The blades are set by twisting to the right three revolutions. The design of the blades, like those of a screw propeller, causes them to spread when the anchor is twisted. The pitch is such that they spread to an angle of ninety degrees with the rod in three revolutions.

The spreading of the blades sinks the anchor about one inch, so that there is absolutely no lost motion in the ground. The pull is on solid earth that has not been disturbed.

The anchor can be set by one man in sixty seconds and will hold more than any other anchor manufactured.

No. 94E—Reel, with tension and axle, less cart.....each JEGE 10.00
No. 95E—Double reel complete, less cart, w't 75 lbs.....each ACHJ 24.00
No. 96E—Reels for mounting on wagons, complete with tension, axles and washers.....each JEGE 10.00

KNOCKED DOWN AND WIRED TOGETHER

PORTABLE LAMPS.

BADGER, Extension 8 to 14 in., 5½ in. Base of Spun Brass Over Cast Iron, Equipped with Half Green Shade, 8 Ft. Silk Cord and Plug.

No. 310-E—10B—Brush brass, w't 3½ lbs. .....each **BFE** $3.25

No. 311-E—10C—Oxidized copper, w't 3½ lbs. .....each **BFE** $3.25

BADGER, Adjustable in Height from 2½ to 5 Ft., Diameter of Base 8 in., Base Spun Brass Over Cast Iron, Standard ½ in. in Diameter, Complete with 10 Ft. Silk Cord, Separable Attachment Plug and Spun Metal Shade, Finished with Aluminum.

No. 312-E—20B—Brush brass, w't 6 lbs., each .....**CIJ** $5.00

No. 313-E—20C—Oxidized copper, w't 6 lbs. .....each **CIJ** $5.00

BADGER, Adjustable in Height from 3 to 5½ ft., 10 in. Circular Base of Spun Brass Over Cast Iron, Standard ⅞ in. Diam., Complete with 10 ft. Silk Cord, Separable Attachment Plug and Spun Metal Shade Finished Inside with Aluminum.

No. 316-E—2B—Brush brass, w't 9½ lbs., each .....**FFJ** $8.00

No. 317-E—2C—Oxidized copper, w't 9½ lbs. .....each **FFJ** $8.00

BADGER, Adjustable in Height from 3½ to 6½ ft., 10 in. Base of Spun Brass Over Cast Iron, Standard ⅞ in. Diameter, 12 in. Arm, with Ball and Socket Joints, Complete with 10 ft. Silk Cord, Separable Attachment Plug, and Parabola Shade of Spun Metal Finished Outside to Match Portable and Inside with Satin Aluminum.

No. 318-E—3B—Brush brass, w't 9½ lbs., each .....**FFJ** $8.00

No. 319-E—3C—Japanese bronze, w't 9½ lbs. .....each **FFJ** $8.00

These lamps can be used wherever there is an electric light socket. Their usefulness is not confined to any particular spot. They are always ready for service, and when not wanted may be set aside out of the way.

Adjustments are simple—for height, telescopic upright, no thumb screw, can be instantly raised or lowered and set at any desired height; for angle, by raising and lowering lamp arm; for direction of light, by turning shade.

Height 18 in., Adjustable to Any Angle, Complete with Shade, Key Socket, Cord and Plug.

No. 1012-E—Brush brass, w't 7½ lbs., each .....**BFJ** $4.00

No. 1013-E—Oxidized copper, w't 7½ lbs. .....each **BGJ** 4.50

8 in. Standard, Flexible Stem, Complete with Socket, Silk Cord, Plug and Shade.

No. 154-E—Oxidized copper finish, parabola shade, oxidized copper outside, frosted inside, w't 7½ lbs., each .....**CEJ** $4.50

No. 155-E—Brush brass finish, parabola shade, brush brass outside, frosted inside, w't 7½ lbs. ..each **CAJ** $5.00

These portables have 8 in. standard with flexible stem which permits throwing light in any direction, and are especially adapted for desk lamps.

Swinging, Slate Base, Complete with Shade, Key Socket, Cord and Plug.

No. 827-E—Brush brass, w't 11 lbs., each .....**CIJ** $6.00

No. 828-E—Oxidized copper, w't 11 lbs., each .....**CIJ** $7.00

EMERALITE AND MEFCO LAMPS.

EMERALITE TABLE.

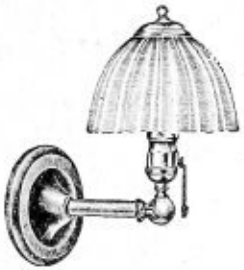
No. 659-E—6513—Brush brass, base heavily weighted and bottom covered with felt, height 17 in., diam. of shade 6 in., socket, switch plug and six feet of silk cord, complete with celadon shade, each .....**JGBJ** $10.00

Ideal for ladies' writing tables and boudoir use and having two adjustable clamps can be used in any position, can also be used as a piano lamp, or hung on the wall as a bed light controlled by switch in base, all wiring concealed. Lamp does not project below shade to cause glare in the eyes, suitable for use with 25 watt tungsten lamps.

ONE IN A BOX.

No. 654-E—4378-C—Brush brass, base 6 in. square, heavily weighted and bottom covered with felt, pull chain sockets, plug and six feet of silk cord, complete with shade, each .....**AJDE** $14.50

Fitted with two adjustable shades, especially suitable for large double flat top desks or tables, and as the two lights neutralize each other there are no shadows whatsoever, stands 16½ in. high to center of shades and will efficiently illuminate an are of 48 in. wide by 36 in. front of base on each side.



ONE IN A BOX.

"MEFCO" BOUDOIR.

In Upright Position.

Shade at Angle as Bed Light or Reading Lamp.

Used as a Bracket Suspended from Screw or Nail in Wall.

No. 660-E—Brush brass, height 17 in., diam. of base 6 in., pull socket, plug holder, six feet of silk cord, complete with shade .....each **DCJ** $6.00

The shade holder is rigidly attached to socket without use of tools, and will fit standard 60 watt carbon, 25 and 40 watt Tungsten or tantalum lamps. The shade is a delicate green tint outside and white inside, has no sharp crevices to collect dust and is so designed as to give maximum distribution without glare.

The base is heavily weighted, insuring stability for any position of shade. Bottom is covered with felt and perforated with holes for hanging on screw or nail in wall.

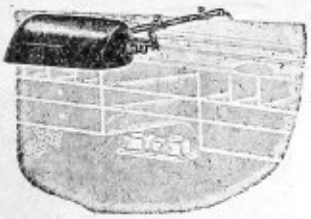
ONE IN A BOX.

PIANO.

No. 655-E—4378-D—Brush brass, with green relief, base 6 in. square, heavily weighted and bottom covered with felt, pull chain socket, plug and six feet of silk cord, complete with shade, each .....**FEJ** $9.00

This pattern is very substantial in appearance and especially suitable for use with piano or modern low roll top desk.

ONE IN A BOX.

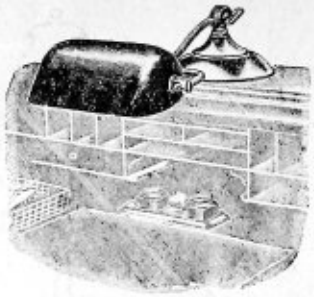


No. 653-E—4378-B—Brush brass, base 6 in. square, heavily weighted and bottom covered with felt, pull chain socket, plug, and six feet of silk cord, complete with shade, shade adjustable to any angle, each **JGBJ** $10.00

Designed especially for flat top desks and tables, the height from table to center of shade is 15 in., and with shade in normal position has an efficient illumination area with ordinary 60 watt lamp 48 in. wide by 36 in. front of base.

ONE IN A BOX.

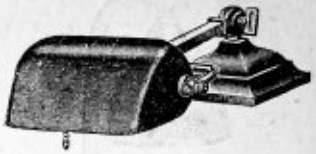
EMERALITE DESK LAMPS.



Emeralite desk lamps are fitted with a green plated glass shade, having a pure white opal glass reflecting surface inside which will not tarnish and is not affected by heat or atmosphere.

No. 650-E—4378—Brush brass, key socket, plug and six feet of silk cord, complete with shade....each **EGE** $8.00

This fixture is intended for use with high and modern low roll top desks, made with shade elevated above arm so it will not interfere with action of roll top. The clamps are sufficiently long to accommodate desk shelves up to 1¼ in thick and are lined with felt. The arm and clamps are square so as to prevent rocking and adjustable to any shelf up to 14 in. wide, the shade can be adjusted to any angle.



ONE IN A BOX.

No. 651-E—4378-AC—Brush brass, key socket, plug and six feet of silk cord, complete with shade, each **EJE** $7.00

This fixture has a special adjustable clamp at top of base, by means of which the arm can be raised or lowered to any position, thus adapting it for use with modern low roll top desks, without interfering with shade and efficient illumination of table and pigeon holes. Shade and arm are adjustable to any angle.

ONE IN A BOX.

No. 652-E—4378-G—Brush brass, base 6 in. square, heavily weighted and bottom covered with felt, pull chain socket, plug and six feet of silk cord, complete with shade, each **FAJ** $8.50

The adjustable clamps, while similar to that of No. 651-E, *gives greater range of adjustment, (over 180 degrees) wired through base.*

ONE IN A BOX.

THE END.
